7. The session begins on the first Monday in June. All students are required to join the College on that day. Any student prevented by sickness from attending on the opening day must produce a certificate to that effect from a Civil or Assistant Surgeon, failing which he will be liable to a fine not exceeding Rs. 10. No student will be admitted or re-admitted to the College after the close of the month of June, except by special order of the Director of Public Instruction. This permission will only be given under exceptional circumstances.

COURSE OF INSTRUCTION.

8. The course of instruction in the Engineer class will extend over five years, during the first four of which the instruction will be both theoretical and practical. The last year will be spent entirely in practical work. For details of the course of study, *see* Syllabus.

9. The students of the Engineer Department will be divided into sections—A, Civil; B, Mechanical.* Both sections will attend the same lectures for the first three years, and the students will then present themselves at the first examination in Engineering of the Calcutta University, which is held in the month of May. After passing this examination the sections will separate, the students of each section attending only those lectures which will enable them to qualify at the examinations of the Calcutta University for degrees or licenses in Civil or Mechanical Engineering.

*This section has not yet been established.

10. After the expiration of one year from the date of passing the first examination in Engineering, students will be qualified to appear at the University examination for degrees or licenses.

Extract from the "Calcutta Gazette" *of the 16th March 1887, page 79, Part IB.*

A candidate for employment as District Engineer must be qualified in one of the manners following, that is to say, he must—

(5) Hold the degree of Bachelor of Engineering or be Licentiate of Engineering of the Calcutta University, and have been employed on

engineering works for not less than five years, exclusive of any time spent on apprenticeship, and hold satisfactory certificates of good conduct and efficiency during such employment.

11. After qualifying for a University degree or license in Engineering, every student will be employed for one year on practical work only, either in the workshops or on works in progress. On completing this course to the satisfaction of the College authorities, he will be entitled to receive the final College certificate.

12. A student failing at either the first or the second University examination may, with the sanction of the Director of Public Instruction, on the recommendation of the College authorities, be permitted to attend the College for one year more in order to re-appear at the examination; but no student will be allowed to attend the College course after the expiration of five years from admission. A student failing at the second examination will be allowed to attend the practical course for one year. The final College certificate shall state whether the student has or has not taken the University degree in Engineering and in which branch, and whether he has or has not completed the course of practical work to the satisfaction of the College authorities. A College certificate gives the holder no claim to a Government appointment.

13. Students will attend daily in the class-room and in the workshops in accordance with the College time-table. The hours of work may vary with the seasons of the year. The fourth-year class is excused from work in the shops.

14. The rules for the transfer of Engineer students to the Apprentice Department are as follows:—

(*a*) First and second-year Engineer students may apply for transfer to the Apprentice Department immediately after the result of their annual examination is published. Transfers cannot be made at any other time of the year.

(*b*) No student can be transferred who has failed in the practical examination immediately preceding his application for transfer.

(*c*) First-year students may be admitted to the first year, and second-year students to the second-year class of the Apprentice Department: these students must pass the annual examination of the class to which they are transferred in both theory and practice before they can be promoted to a higher class.

(*d*) No student who has once been transferred to the Apprentice Department can be re-admitted to the Engineer Department.

(*e*) The age of a student on transfer must be below 17 years and 4 months if transferred to the first-year class, and below 18 years and 4 months if to the second-year class of the Apprentice Department.

15. There will be a long vacation from about the middle of August to the end of October. Every student must leave the College during this vacation, and parents or guardians must satisfy the Principal, before their sons or wards can be admitted, that they are able to conform to this rule. The period from the middle of November to the end of January will be occupied in survey work.

TUITION FEES.

16. The tuition-fee for students of the Engineer class is Rs. 8 a month for each month of the year, vacation included.

SCHOLARSHIPS.

17. For the present, one junior scholarship of the value of Rs. 20 a month, three of Rs. 15 a month, and six of Rs. 10, tenable for two years, will be given annually to students entering the first-year Engineer class who do not already hold University scholarships. The scholarships will be awarded by the Director of Public Instruction on the last day of June to the following classes of students in order:—(1) B.A's. who have taken up the B. course; (2) F.A. candidates;* (3) Entrance candidates according to the number of marks gained in English and Mathematics jointly.

18. Senior scholarships of the same number and value will be competed for at the annual examination held in May for the promotion of students from the second to the third-year class.

* Except those who passed in the 3rd division.

19. The number of College scholarships awarded, whether junior or senior, will in no case exceed one-half of the number of candidates for them.

20. Two scholarships of Rs. 10 a month each, tenable for one year, called Forbes' scholarships, will be awarded on the result of the first examination in Engineering of the Calcutta University. A Forbes' scholar, unless he also holds a College scholarship, will be exempted from paying the tuition-fee of Rs. 8 a month.

21. On the result of the University examination for degrees and licenses, six graduate scholarships of Rs. 50 each, tenable for one year, and two graduate mining scholarships of Rs. 50, tenable for two years, will be awarded. The mining scholarships will be reserved for holders of the B.E. degree, and will be awarded to those who propose to take up mining as a profession. In the event of there being no candidate for a mining scholarship, the total number of graduate scholarships awardable will be ten, each of Rs. 50, tenable for one year: and in the event of one mining scholarship only being taken up, then eight of Rs. 50 each, tenable for one year, will be awarded. The one year scholarship-holders must serve continously during that period in practical work under the supervision of the Public Works Department and to the satisfaction of those under whose orders they may be placed. The mining scholarships would be tenable on a mine approved by Government, and would be payable monthly on a report that the holders continued to work satisfactorily under the orders of the Mine Superintendent. The two years' service will be reckoned as one year on practical work under the supervision of the Public Works Department. Each of these years will extend over a session of nine months' service in a mine and three months' training in assaying either under the Superintendent of the mine or in the Sibpur College, as may hereafter be determined.

22. A gold medal will be awarded to the student who gains the highest marks in mathematics at the examination for the B.E. degree. The holder of this medal will be styled the "Ambica Churn Chaudhuri Medallist."

23. All scholarships will be liable to forfeiture in case of misconduct or of neglect of work in class or in the field, or of failure to pass any prescribed examination.

STANDING ORDERS FOR STUDENTS.

24. Except with the special sanction of the Principal, students of the Engineer Department will be required to reside on the College premises, so far as the accommodation will permit, at a rent to be fixed from time to time by the Government. The present rate is Rs. 2 a month for both European and native students.* This charge will be levied all the year round, except during any period in which the student may be in camp.

25. Each resident student must provide his own clothing and bedding and a camp bedstead. No furniture may be brought into the College without special permission.

European Mess.

26. Every resident European student will join the European mess. A charge of Rs. 20 a month will be made to defray the cost of messing. During the vacation, reckoned at 2½ months, each European student will be required to pay monthly, in addition to Rs. 2 for house-rent, a contribution of Rs. 2 towards the cost of maintaining mess-servants †

27. On joining the mess, every student will pay an entrance fee of Rs. 10 to the mess fund to provide for the cost of crockery, knives and forks, table-linen, &c. A list of breakages and other damage done will be prepared monthly, and each student will be required to pay, by the 15th of the following month, an equal share of the cost. On leaving the mess, if a student has paid all demands, his entrance fee will be returned to him; otherwise it will be forfeited to the mess fund.

28. For students joining the European mess the following table shows the annual cost of living at the College, the term being reckoned as nine months and-a-half and the vacation as two months and-a-half of the year:—

	Tuition per mensem.	Board per mensem.	House-rent per mensem.	Total monthly charges.	Total per annum.	Grand total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Term	8	20	2	30	285	315
Vacation	8	2	2	12	30	

* Native students now in the College and paying Re. 1 a month house-rent will continue to pay this sum only.

† European students have, at their own request, established a private mess, the cost of which is about Rs. 30 per mensem.

Native Mess.

29. Hindu students residing on the College premises must ordinarily join the College mess for natives, and must abide by the rules sanctioned by the Principal for the management of their mess. Each student on joining the mess will be required to deposit "caution-money" to the amount of Rs. 5, which will be ultimately returned to the student if he has not rendered himself liable to the forfeiture of the whole or any part of it.

30. A charge of Rs. 7 a month will be made to those joining the native mess. During the vacation of two months every member of the mess will be required to pay monthly, in addition to Rs. 2 for house-rent, a contribution of Re. 1 for mess-servants.

31. For students joining the native mess, the following table shows the annual cost of living at the College, the term being reckoned as nine months and-a-half and the vacation as two months and-a-half of the year:—

	Tuition per mensem.	Board per mensem.	House-rent per mensem.	Total monthly charges.	Total per annum.	Grand total.
	Re.	Rs.	Rs.	Rs.	Rs. A.	Rs.
Term	8	7	2	17	161 8	189
Vacation	8	1	2	11	27 8	

32. All payments, whether on account of tuition-fees, messing or house-rent, must be made into the Principal's office on or before the 15th of the month for which the money is due, after which date no payment will be taken unless accompanied by a fine of Re. 1 for every three days of delay. If the payment is not made during the month for which it is due, the defaulting student's name will be struck off the College books, and he will not be re-admitted until he has paid all arrears with fines and the usual re-admission fee.

33. The monthly charge for messing may, if necessary, be altered from time to time in reference to the prices of provisions.

34. All breaches of discipline committed by any student of the College will be reported to the Principal, who will dispose of them according to the rules and practice of the Education Department.

35. A Conduct Register of each student in the College will be kept by the Principal. The Principal has no power to cancel or alter an entry once made and signed.

36. Students are liable to have their names placed in the Conduct Register as defaulters for the following offences:—

(i) Disobedience of orders.

(ii) Absence without leave.

(iii) Idleness.

(iv) Insubordination or disrespect to the College or Workshop authorities.

37. Students may be removed from the College for habitual or gross misconduct, for continued idleness or neglect of work, or for frequent entry in the Conduct Register. Every such removal shall be reported to the Director of Public Instruction, and any fees paid by the student shall be forfeited.

38. Every student will be responsible for any machines, tools or other articles that may be placed in his charge. He must produce them when called upon to do so, and must at once report any damage done to them. In case of loss or damage arising from carelessness, he may be called upon to pay the cost.

39. A certain number of the students will be appointed monitors, whose duty it will be to assist the College authorities in the maintenance of discipline. For the performance of this duty each monitor will receive a small sum monthly. Any monitor may be removed by the Principal for misconduct, or for inefficiency in the discharge of his duties.

40. No resident student will ordinarily be allowed to keep a private servant. This permission may be given under exceptional circumstances, but any servant so employed will be under the orders of the Principal.

41. On Sundays all resident Christian students, Protestant or Roman Catholic, will be required to attend the services held in their respective chapels.

42. All students will be required, while in the workshop, to wear a uniform dress, which will be supplied to them at cost price.

43. Leave will be granted by the Principal only. No leave will be granted except on a written application.

44. No resident student may leave the College premises without the written order of the Principal, whether on special leave or on a general holiday.

45. European students will be encouraged to join the Volunteer Corps. Those who join it will be allowed such occasional leave as may be required by the regulations relating to volunteers.

46. One and two appointments in alternate years are now guaranteed to students of the College. The selected men are posted as Apprentice or Assistant Engineers in the Public Works Department.

47. All students are obliged to join the College Athletic Club, the subscription to which is Re. 1-8 per annum and the entrance fee Re. 1.

ENGINEER DEPARTMENT.

List of Books and Instruments to be procured by Engineer-students.

Students will provide themselves with the following books and instruments:—

First year ...
- Hall and Steven's Euclid.
- Hall and Knight's Higher Algebra.
- Todhunter's Trigonometry.
- Kolbe's Inorganic Chemistry.
- Davidson's Linear Drawing.
- Davidson's Projection.
- Bloxam's Metals.
- Roorkee Treatise on Surveying.
- A good box of drawing instruments and set squares.

Second year ...
- Todhunter's Mechanics for Beginners.
- Wilson's Geometrical Conic Sections.
- Deschanel's Heat.
- Sylvanus Thompson's Elementary Lessons on Electricity and Magnetism.
- Brooker and Slingo's Electrical Engineering.
- Roorkee papers on Estimating.
- Building Construction, South Kensington Series, vols. I and III.

Third year ...
- Smith's Conic Sections.
- Preece and Sievewright's Text-book on Telegraphy.
- Heath's Geometrical Optics.
- Building Construction, South Kensington Series, vols. II and IV.
- Goodeve's Mechanism.
- Box of blow-pipe utensils.

Fourth year ...
- Todhunter's Differential Calculus.
- " Integral "
- Besant's Hydrostatics.
- Austen's Introduction to the Study of Metallurgy.
- Bauerman's Descriptive Mineralogy.
- Geikie's Text-book of Geology.
- Jamieson's Steam Engine.
- Wray's Instruction in Construction.
- Love's Hydraulics.
- Barry's Railway Appliances.
- Roorkee papers on Bridges, Roads, and Irrigation Works.
- Box of blow-pipe utensils.

APPENDIX A.

Course of Study for the Engineer Department.

	First year, A & B.	Second year, A & B.	Third year, A & B.	Fourth year, A.	Fourth year, B.
Mathematics ...	Algebra, Euclid. Trigonometry and Mensuration.	Statics, Dynamics, Geometrical Conic Sections.	Analytical Geometry, Differential Calculus, Elements of Integral Calculus.	Integral Calculus, Hydrostatics.	Integral Calculus, Hydrostatics.
Natural Science	Chemistry (or Physics).	Physics (or Chemistry)	Mineralogy ...	Geology and Metallurgy, Practical Chemistry.	Practical Chemistry.
Engineering ...	Field work ...	Building materials, brick and stone masonry, earthwork, carpentry, foundations, roads, estimating masonry structures, direct stresses in building materials, surveying.	Construction of walls, floors, and roofs, railroads, irrigation works, arching retaining walls, stresses in roof trusses, estimating iron structures, mechanism, surveying.	Iron bridge construction, transverse stress, deflection, stresses in girder bridges and suspension bridges, torsion, hydraulics, steam-engine, architecture, preparation of civil engineering project.	Transverse stress, deflection, stresses in girder bridges and suspension bridges, torsion, steam-engine, workshop appliances, machine designs, preparation of mechanical design.
Drawing ...	Printing, geometrical and orthographic projections, scales.	Isometrical, topographical, and free-hand drawing.	Perspective, topographical, free-hand, architectural, and machine-drawing.	Mechanical, topographical, and free-hand drawing.	Machine-drawing, free-hand drawing.

APPENDIX B.

Certificate of Attendance of ——————————, *a student of the Engineering Department of the Civil Engineering College, Sibpur.*

CERTIFIED that —————————— attended the lectures in the Sibpur Civil Engineering College for ——— sessions from ——— to ———.

At the University Examination in Engineering held in —— —— he passed in the ——— Division.

He has spent time in the shops as follows :—

	Time spent in each.	Proficiency.
Carpenters' shop	...	months.
Blacksmiths' „	...	„
Moulders' „	...	„
Fitters' „	...	„
Founders' „	...	„

He has completed his practical course to the satisfaction of the authorities of the College.

Executive Engineer, Calcutta Workshops Division.

SIBPUR,
The 189 .

Principal, Civil Engineering College.

CIVIL ENGINEERING COLLEGE, SIBPUR.

APPRENTICE DEPARTMENT.

GENERAL RULES.

1. The College is under the general supervision of a Board of Visitors appointed by the Government.

2. The Principal of the College is charged with the general control of the Institution, including the regulation of the course of study, the supervision of the mess and other domestic arrangements, and the maintenance of discipline; and he will from time to time issue such rules as may be necessary to secure those objects. The workshops are under the control of the Executive Engineer, and the apprentices while at work in them will be under his orders; but all breaches of discipline will be reported by him to the Principal.

RULES FOR ADMISSION.

3. For admission to the Apprentice Department a candidate must be at least 15 and not more than 17 years of age.

4. An examination for admission will be held annually at the College on the second Monday in January. Every candidate must apply in writing for permission to appear at the examination, and all applications must reach the Principal on or before the 15th December. Each application must be accompanied by a fee of Rs. 2, a certificate of good conduct, and a certificate of age. Applications unaccompanied by fee and proper certificates will not be considered, and after this date all undecided cases will be rejected. The subjects of examination are—

Arithmetic (the whole).	Euclid (Books I and II).
Algebra to simple equations, inclusive.	English (grammar and composition).

Candidates who have passed by Standard VII of the Code for European Schools, or the University Entrance Examination in English and Mathematics are admitted without further test and without payment of a fee. They must submit their applications accompanied by a certificate of age and a certificate showing that they have passed the requisite standard, so as to reach the Principal not later than the 15th January of each year. No applications will be attended to after this date.

5. Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, chest measurement, fitness for manual labour, and eyesight. If this officer's report is unsatisfactory, the applicant will not be admitted: his fee, however, will be returned.

6. Before an apprentice is admitted to the College, his parent or guardian must sign an agreement in the form shown in Appendix A.

7. The session begins on the first Monday in February. All apprentices are required to join the College on that date. Any apprentice prevented by sickness from attending on the opening day must produce a certificate to that effect from a Civil or Assistant Surgeon, failing which he will be liable to a fine not exceeding Rs. 10. No apprentice will be admitted or re-admitted to the College after the close of the month of February, except by special order of the Director of Public Instruction. This permission will only be given under exceptional circumstances.

COURSE OF INSTRUCTION.

8. There will be a long vacation from about the middle of August to the end of October. Every apprentice must leave the College during this vacation, and parents or guardians must satisfy the Principal, before their sons or wards can be admitted, that they are able to conform to this rule.

9. The full course of instruction in this class will extend over five years, during the first three and-a-half of which the instruction will be both theoretical and practical. The last year and-a-half will be spent entirely in practical work. For details of the course of study, *see* Appendix B.

10. Every apprentice who passes the annual examination held at the end of the second year will be entitled, on leaving the College, to a certificate, stating that the holder possesses the theoretical qualifications required of a sub-overseer in the Public Works Department.

11. An apprentice who passes the final examination held at the end of three years and-a-half will be entitled to a third-grade overseer's certificate.

12. On the completion of his practical course, an apprentice will be entitled to a first or second grade overseer's certificate, according to the estimate formed of his work by the College authorities. A College certificate gives the holder no claim to a Government appointment.

13. No apprentice who at the end of three years and-a-half leaves the College with a third-grade overseer's certificate will at any future time be allowed to return for his practical course.

14. Every apprentice who leaves the College after the expiration of the five years' course will receive a certificate in the form shown in Appendix C, provided that he has attended the workshops on 80 per cent. of working days during the last 18 months of his apprenticeship.

[NOTE :—

Extract from the "Calcutta Gazette" of the 16th March 1887, page 79, Part IB.

A candidate for employment on the Subordinate Engineering Staff of the District Engineer must be qualified in one of the manners following, that is to say :—

(1) If the pay of the appointment is Rs. 60 per mensem, or more, he must hold—

(a) a certificate from the Principal of the Government Engineering College at Sibpur that he has served his apprenticeship there and passed the final examination qualifying him for employment in the Public Works Department as a Foreman Mechanic or an Upper Subordinate.]

15. Apprentices will attend in the class-rooms and in the workshops in accordance with the College time-table. The hours of work may vary with the seasons of the year.

16. All apprentices will be required to reside on the College premises, so far as the accommodation will permit.

FREE AND REDUCED FEE LIST.

17.* European or Eurasian apprentices, up to the number of twenty-five, are received into this Department on payment of Rs. 5 a month for the twelve months of the year. The cost of messing is estimated at Rs. 20 a month. In the case of these twenty-five apprentices, the balance, viz., Rs. 15 a month, will be paid to the mess fund by Government. In addition five such apprentices are admitted free. Thus the total of free apprentices and apprentices on a reduced fee will be thirty.

18. Europeans and Eurasians in excess of that number will be received as apprentices into the College, so far as the accommodation will permit, on paying the full cost of their messing, viz., Rs. 20 a month. This charge will be payable during the term, reckoned at nine months and-a-half. During the vacation, taken at two months and-a-half, a charge of Rs. 2 a month will be made to defray the cost of maintaining mess servants.

19.† Native apprentices up to the number of forty will be received into the apprentice department on payment of Rs. 2 a month for the twelve months of the year. The cost of messing is estimated at Rs. 7 a month. In the case of these forty apprentices, the balance, viz., Rs. 5 a month, will be paid to the mess fund by Government.

20. Native apprentices in excess of this number will be received into the College on paying the full cost of their mess, viz., Rs. 7 a month. This charge will be payable during the term, reckoned at nine months and-a-half. During the vacation, reckoned at two months and-a-half, a charge of Re. 1 a month will be made to defray the cost of superintendence and mess servants.

STIPENDS.

21. After the final examination, 10 stipends of Rs. 10, and 10 of Rs. 6 each, tenable for one year and-a-half, will be awarded to those apprentices who pass the best examination, both theoretical and practical.

STANDING ORDERS FOR STUDENTS.

22. Every resident European apprentice will join the European mess. On joining the mess every apprentice will pay an entrance fee of Rs. 10 to the mess fund to provide for the cost of crockery, knives

* These rules apply only to apprentices whose parents or guardians reside within the limits of the jurisdiction of the Lieutenant-Governor of Bengal; but the sons of East Indian Railway employés, of soldiers serving in India, and of Survey, Telegraph, and other Government officers who are liable to be employed in Bengal, are admissible to the reduced fee list.

As reduced feeships, &c., are awarded by the Board of Visitors after the opening of the session to those apprentices who may have joined the College, none can be guaranteed beforehand. Forms to be filled up for the consideration of the Board are supplied on application.

† These rules apply only to apprentices whose parents or guardians reside within the limits of the jurisdiction of the Lieutenant-Governor of Bengal; but the sons of East Indian Railway employés, of soldiers serving in India, and of Survey, Telegraph, and other Government officers who are liable to be employed in Bengal, are admissible to the reduced fee list.

As reduced feeships, &c., are awarded by the Board of Visitors after the opening of the sessions to those apprentices who may have joined the College none can be guaranteed beforehand. Forms to be filled up for the consideration of the Board are supplied on application.

and forks, table linen, &c. A list of breakages and other damage done will be prepared monthly, and each apprentice will be required to pay, by the 15th of the following month, an equal share of the cost. On leaving the mess, if an apprentice has paid all demands, his entrance fee will be returned to him; otherwise it will be forfeited to the mess fund.

23. Hindu apprentices must ordinarily join the College mess for Hindus, and abide by the rules sanctioned by the Principal for the management of their mess. Each student on joining the mess will be required to deposit "caution money" to the amount of Rs. 5, which will be ultimately returned to the student if he has not rendered himself liable to the forfeiture of the whole or any part of it.

24. Each resident apprentice must provide his own clothing and bedding, and a bedstead. No furniture may be brought into the College without special permission.

25. All payments must be made into the Principal's office on or before the 15th of the month for which the money is due, after which date no payment will be taken unless accompanied by a fine of Re. 1 for every three days of delay. If the payment is not made during the month for which it is due, the defaulting apprentice's name will be struck off the College books and he will not be re-admitted until he has paid all arrears with fines.

26. The monthly charge for messing may, if necessary, be altered from time to time in reference to the prices of provisions.

27. All breaches of discipline committed by any apprentice will be reported to the Principal, who will dispose of them according to the rules and practice of the Education Department.

28. A conduct register of each apprentice will be kept by the Principal. The Principal has no power to cancel or alter an entry once made and signed.

29. Apprentices are liable to have their names placed in the conduct register as defaulters for the following offences:—

(i) Disobedience of orders.

(ii) Absence without leave.

(iii) Idleness.

(iv) Insubordination or disrespect to the College or workshop authorities.

30. Apprentices may be removed from the College for habitual or gross misconduct, for continued idleness, or neglect of work, or for frequent entry in the conduct register. Every such removal should be reported to the Director of Public Instruction, and any fees paid by the apprentice shall be forfeited.

31. Every apprentice will be responsible for any machines, tools, or other articles that may be placed in his charge. He must produce them when called upon to do so, and must at once report any damage done to them. In case of loss or damage arising from carelessness, he may be called upon to pay the cost.

32. A certain number of the apprentices will be appointed monitors, whose duty it will be to assist the College authorities in the maintenance of discipline. For the performance of this duty each monitor will receive a small sum monthly.

33. Any monitor may be removed by the Principal for misconduct or for inefficiency in the discharge of his duties.

34. No resident apprentice will ordinarily be allowed to keep a private servant.

35. On Sundays all resident Christian apprentices, Protestant and Roman Catholic, will be required to attend the services held in their respective chapels.

36. All apprentices will be required, while in the workshops, to wear a uniform dress, which will be supplied to them at cost price.

37. Leave will be granted by the Principal only. No leave will be granted except on a written application.

38. No resident apprentice may leave the College premises without the written orders of the Principal, whether on special leave or on a general holiday.

39. All European apprentices will be encouraged to join the Volunteer Corps. Those who join it will be allowed such occasional leave as may be required by the regulations relating to Volunteers.

40. All apprentices are obliged to join the College Athletic Club, the subscription to which is Re. 1-8 per annum, and the entrance fee one rupee.

APPENDIX A.

CIVIL ENGINEERING COLLEGE, SIBPUR.

Memorandum of the conditions under which _____ *is admitted as a Mechanical Apprentice to the Civil Engineering College, Sibpur.*

1. He will be subject to the regulations set forth in the "Rules of the Mechanical Apprentice Class."

2. He will pay his own travelling expenses to Sibpur.

3. He will be on probation for six months: at the end of which time, if it appears that he is not physically fit for the work, or if for any reason (other than misconduct) it appears inexpedient to retain him, he will be sent back to his friends at the expense of Government.

4. The undersigned _____ will for five years, beginning from the date of admission to the College, provide _____ with suitable clothes and the books required in his class; and will pay in advance to the Principal of the College, on or before the 15th of each month, the sums stated in Rules 17, 18, 19, 20, 22, 23, and 24. He will also make arrangements for the removal of _____ from the College during the long vacation, under Rule 8, or any other time when required by the Principal.

5. In consideration of the foregoing conditions, _____ will be fed and lodged for a period of five years (excluding vacations), and will receive such instructions as will qualify him for employment as an Upper Subordinate in the Public Works Department and as a Foreman Mechanic.

6. Employment is not guaranteed after completion of apprenticeship.

APPENDIX B.

Course of Study for the Apprentice Department.

	First year, Feb. to Aug.	Second year, Nov. to Aug.	Third year, Nov. to Aug.	Fourth year, Nov. to Aug.
Mathematics ...	Arithmetic, the whole. Euclid, Books III, IV, VI, and definitions of V. Hall and Knight's Elementary Algebra to end of Chapter XXVII.	Algebra to end of ratio and proportion. Trigonometry. Mensuration.	(Blaikie's Dynamics) Kinematics and Kinetics.	(Blaikie's Dynamics) Statics and Hydrostatics.
Engineering ...	Carpentry	Estimating; Building materials.	Masonry; Estimating, Roads.	Applied Mechanics, Mechanism and the steam-engine, Buildings, Bridges.
Natural Science	.....	Chemistry	Heat	Electricity and Magnetism.
Surveying ...	.....	Surveying with chain and prismatic compass, and Levelling.	Plane Table, Box-sextant, Theodolite and Levelling.	Laying out curves, and Field work generally.
Drawing ...	Printing Scales, Geometrical drawing.	Orthographic projection ...	Engineering and Machine drawing.	Sketching and Machin drawing.

APPENDIX C.

Leaving Report of , an *Apprentice in the Engineering College, Sibpur.*

Entered	18	Age on entering	years	months.
Apprenticeship expired	18	Age on leaving	,,	,,
Left	18			

Apprentice appeared at the final examination held on the , and obtained marks as follows :—

Subject.	Full marks.	Marks obtained.	Remarks.

Apprentice has spent time in the shops as follows :—

	Time spent in each.	Proficiency.
Carpenters' shop	Months.	
Blacksmiths' ,, ...	,,	
Moulders' ,, ...	,,	
Fitters' ,, ...	,,	
Founders' ,, ...	,,	

Apprentice held the post of Monitor for months.

Apprentice's character is as follows as regards the qualities mentioned :—

I.—Truthfulness.

II.—Industry.

III.—Energy.

IV.—Obedience.

GENERAL REMARKS.

Conclusion.—On the whole we consider that this apprentice is qualified for employment in the Public Works Department as a

Executive Engineer,
Calcutta Workshops Divn.

Principal, Civil Engineering College,
Sibpur.

SIBPUR,

The 18 .

APPRENTICE DEPARTMENT.

WORKSHOP COURSE.

Workshop Hours, Junior Apprentices 8—11. Senior Apprentices 8—11 and 12-30—4.

FIRST YEAR.

Carpenters' shop.—Apprentices are made acquainted with and shown how to use and handle properly the tools ordinarily employed for the purposes of carpenters' and joiners' work. They are taught the method of preparing wood, setting out, and forming the various joints. The practical application of the foregoing instruction is brought to bear by employing them in making tools, boxes, doors, windows, roof trusses and other framings required for buildings and other engineering works.

SECOND YEAR.

Blacksmiths' and Boiler-makers' shop.—Apprentices are taught to use and handle correctly the different tools, to lay and manage the fires, to draw down, bend, jump, weld, split, punch, chamfer, and temper. After this they are set to make small forgings of tools, bolts, nuts, hooks, and shackles, and also of parts of trusses, as well as other forgings of parts of machines. In the boiler-makers' shop they are familiarised with the use of riveting tools and the process of riveting, and learn to punch and shear correctly with the machines for that purpose.

THIRD YEAR.

Vicemen and Fitters' shop.—The apprentices are put through a course of chipping, filing, and fitting so as to gain experience in the tools used by this class of workmen, after which they make up various tools required in the fitters' shop and assist in ordinary fitting work. Those who prove themselves sufficiently proficient are then put on as attendants to the workmen employed on the different machines so as to acquire a knowledge of lathe-work, such as facing, surfacing, turning, boring, and screw cutting, and also shaping, drilling, slotting, and planing in the machines used for these purposes. They thus gain confidence in using these machines so as to be entrusted to work them by themselves.

EXAMINATIONS.

Annual examinations are held at the end of the first, second, and third years. Each apprentice has to produce within a given time certain tasks allotted him bearing upon the instruction received during the course of the year. These examinations are held personally by the Executive Engineer.

FOURTH YEAR.

Foundry or moulding shop.—Only six months of the apprentices' time is devoted to this shop. They learn to use the various moulder's tools, to mix foundry sand and loam, to make small moulds from patterns supplied, and are shown how to ensure good work and clean castings. They are also taught how to prepare and charge the cupolas. An insight into the nature of the wooden patterns required for forming the moulds being thus obtained, they are set to work with the pattern-makers to make small patterns, from which they are expected to produce castings.

EXAMINATIONS.

At the end of the three and-a-half years the apprentices having gone through the various shops have a final examination, and in a given time have to produce pieces of work requiring the use of the different tools used in the respective shops, to show that the skill acquired by them has been maintained, and that they show sufficient mechanical aptitude to be considered fit to complete their apprenticeship. During the three and-a-half years, theoretical instruction in the College and practical training in the workshops are simultaneously carried on, but during the remaining one and-a-half years they are solely employed in the shops, and are designated "senior apprentices."

FOURTH AND FIFTH YEARS.

Senior Apprentices—Are employed independently on the lathes, drills, shaping, slotting, planing, punching, shearing, and screwing machines, and are taught to set out and mark off work for them, these machines being brought into use to make tools, machines, parts of engine and pump fittings, and any other instructive work that may be going on in the shops. They assist generally in the repairs to the hulls and machinery of dredgers and launches, also in repairs to portable engines, centrifugal, donkey, and other pumps. They are taught to make steam joints, pack glands, set valves, and get up steam and drive engines so as to be competent to take charge of (as well as carry out any necessary repairs to) portable or fixed engines and boilers or a steam-launch. They are also instructed in laying out work to full size on the drawing boards, from drawings, for the use of the workmen.

NOTIFICATION.

Rules for appearing at the F. A. and B. A. Examinations for candidates from the Rajshahi Circle and the Burdwan Division who are not students of any affiliated institution.

DEPUTY Inspectors of Schools, Sub-Inspectors of Schools, and *bond-fide* masters of English schools, who have served as such for the full period of two academical years or of six months in the case of those only who were admitted to a former examination of the same class, will be admitted to the above-mentioned examinations. The applications of school-masters should be accompanied by a certificate of length of service from the Secretaries or Managers of the schools in which they are employed, and should reach this office not later than the 15th December 1893. The application of a school-master for permission to appear at the F.A. or the B.A. examination should be signed by him in the *presence* of the Secretary or a member of the Managing Committee of the school in which he is employed. The application should be forwarded to this office for countersignature, and it will be sent back to him (the candidate), who will have to send it on along with the examination fee to the Registrar of the University *direct*. School-masters are not required to pay any fee for getting their application for permission to appear at either of the above-mentioned examinations countersigned by this office.

Candidates for the B.A. examination who are school-masters must also send in the Registrar's certificate showing that they have passed the F.A. examination.

Candidates should read carefully form of the certificate which this office is required to sign, and should be careful also to supply all information and documents required, including the Registrar's receipt in the case of those school-masters who were admitted to a former examination of the same class, without which the Inspector will decline to sign the certificate.

M. PROTHERO, *Inspector of Schools,*
Rajshahi Circle and Burdwan Division.

CHINSURA, *the 24th November* 1893.

NOTIFICATION.

Rajshahi Circle and Burdwan Division, Entrance Examination.

PRIVATE students from the Rajshahi Circle and the Burdwan Division, who intend to go in for the ensuing Entrance Examination, are required to appear at the Test Examination of one of the undermentioned schools. Only those candidates who have not read in any institution from the 1st September 1893 will be recognized as private students. They will be required to furnish satisfactory proof that they have not read in any school from that date. They must also produce certificates of conduct and progress in studies from the authorities of the last school where they read, or from other respectable and well-known gentlemen. Candidates who have been transferred since the 1st of September next preceding the examination without the consent of the Inspector to the school in which they are reading will also be regarded as private students. "Private student" includes school-masters.

	Name of school.	First day of Test Examination.
1.	Darjeeling High English School... ...	22nd November 1893.
2.	Pabna Zilla „	27th „ „
3.	Rangpur Zilla	28th „ „
4.	Dinajpur „	27th „ „
5.	Bogra „	27th „ „
6.	Jalpaiguri Zilla	4th December „
7.	Rajshahi Collegiate	11th „ „
8.	Birbhum Zilla	1st „ „
9.	Hooghly Branch	6th „ „
10.	Howrah Municipal	4th „ „
11.	Midnapore Collegiate	1st „ „
12.	Burdwan Municipal	6th „ „
13.	Bali Rivers Thompson	6th „ „
14.	Uttarpara Collegiate	6th „ „
15.	Bankura Zilla	27th November „
16.	Ghatal Municipal	11th December „

Each candidate from the Rajshahi Circle will be admitted to the Test Examination on his handing over to the head-master of the school where he will be examined a receipt showing the previous payment by him of Rs. 2 into any Government Treasury, and each candidate from the Burdwan Division shall have to pay Rs. 2 *in cash* to the head-master of the school where he will be examined. Should the head-master certify that there is in his opinion a reasonable probability of his passing the Entrance Examination, the application of the candidate for admission to the examination signed by him *in the presence* of the head-master should be forwarded to this office for countersignature, and it will be returned to the candidate, who will have to send it along with the entrance fee to the Registrar of the University.

M. PROTHERO, *Inspector of Schools,*
Rajshahi Circle and Burdwan Divn.

CHINSURA, *the 24th November* 1893.

Civil Engineering College, Sibpur.

AN examination for admission to the Mechanical Apprentice Department will be held at the College on Monday and Tuesday, the 8th and 9th January 1894.

Every candidate must apply in writing for permission to appear at the examination, and all applications must reach the Principal on or before the 15th December. Each application must be accompanied by a fee of Rs. 2, a certificate of good conduct, and a certificate of age. Applications unaccompanied by fee and proper certificates will not be considered, and after this date all undecided cases will be rejected.

For admission to this Department a candidate must be at least 15 and not more than 17 years of age.

The subjects of examination are—

Arithmetic	...	...	... The whole.
Algebra	...	...	... To simple equations.
Euclid	...	...	... Books I and II.

English Grammar and Composition.

Candidates who have passed by Standard VII of the Code for European Schools or the University examination in English and Mathematics are admitted without further test and without payment of a fee. They must submit their applications accompanied by a certificate of age, and a certificate showing that they have passed the requisite standard, so as to reach the Principal not later than the 15th January of each year. No applications will be attended to after this date.

Every applicant before admission to the College will be examined by the College Surgeon as to his physical strength, chest measurement, fitness for manual labour and eyesight. If this officer's report is unsatisfactory, the applicant will not be admitted: his fee, however, will be returned.

* Rupees 5 per mensem.

There will be one vacancy on the fee list for Christian apprentices in February next, and thirteen on the reduced* fee list.

For natives there will be at least ten vacancies, possibly more, on the reduced† fee list.

† Rupees 2 per mensem.

These vacancies will be filled up after the opening of the session by the Board of Visitors from those apprentices who join the College. No guarantee can therefore be given beforehand; but forms to be filled in for the consideration of the Board can be had on application to the Principal.

Owing to want of accommodation, the number of *Hindu* apprentices to be admitted is limited. Candidates will be selected in order of merit.

J. S. SLATER,
Principal, Civil Engineering College.

SIBPUR, *the 14th November* 1893.

CALCUTTA UNIVERSITY.

NOTICE.

HIS Excellency the Chancellor has decided to allow the Masters or holders of higher degrees in some Faculty and Bachelors of Arts *who graduated before the year* 1867, to fill up three vacancies in the Senate by election. Candidates for election must be Masters or holders of higher degrees in some Faculty or holders of the degree of Bachelor of Arts who took that degree before the year 1867. His Excellency hopes that for at least one of the three vacancies a gentleman eminent for his services to Education or Literature will be selected

The election will take place at the Senate House, College Square, on Monday, the 1st January 1894.

Every candidate for election must be nominated by a graduate holding one of the above-named degrees, and no graduates will be allowed to nominate more than one candidate. The written nominations of candidates must reach the office of the Registrar not later than the 9th December.

On and after the 16th December, voting papers containing the names of the candidates nominated will be supplied on application by the Registrar. These papers must be filled up in the presence of the Registrar at the Senate House on the 1st January 1894, between the hours of 10 A.M. and 5 P.M., but graduates who are not able to appear in person before the Registrar may fill up the papers in the presence of a Magistrate, by whom the papers will be countersigned. All such voting papers must reach the Registrar not later than 3 P.M. on Monday, the 1st January 1894, after which no voting paper will be accepted. Graduates who are not personally known to the officer in whose presence the voting papers are filled up must bring with them their diplomas, or other satisfactory proof of identity.

W. GRIFFITHS,
Registrar.

SENATE HOUSE,
The 30th November 1893.

NOTIFICATION OF THE BOARD OF REVENUE.

No. 2079B.

NOTICE is hereby given that the First Sale of Opium, the Provision of 1891-92 and 1892-93, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Wednesday, the 3rd January 1894, at 11 A.M., and will comprise 3,525 chests, viz.—

	Chests.
Opium manufactured at the Patna Factory, of season 1891-92 ..	1,815
Ditto ditto at the Ghazeepore Factory, of season 1892-93	1,710
Total ...	3,525

2*nd*.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 25th November 1893, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3*rd*.—The latest dates for deposit and clearance will be the 8th and 18th January 1894 respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 3-30 P.M. of Monday, the 8th January 1894, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Thursday, the 18th January 1894.

4*th*.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Patna and Ghazeepore Factories, will be brought to sale up to December next about the date specified below. The Board of Revenue, however, reserve to themselves the right of altering this date should circumstances render it expedient to do so :—

	Total	...	21,780	20,520	42,300

The following are the conditions of sale:—

1.—The opium will be sold for exporation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.

On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.

On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.

And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said

Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government Superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazeepore Factory for the year 1892-93, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale, that may be desired by parties connected with the trade, will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

T. INGLIS,
Secretary.

The Calcutta Gazette.

WEDNESDAY, DECEMBER 6, 1893.

PART IA.

Orders and Notifications by the Government of India, &c.

[*Reprinted from the "Gazette of India."*]

The following order, issued by the Government of India, Home Department, is republished for general information.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATIONS.

PUBLIC.

Calcutta, the 1st December 1893.

No. 1802.—In exercise of the power conferred by section 17 of the Indian Arms Act, No. XI of 1878, the Governor-General in Council is pleased to make the following amendment in the rules published in Home Department Notification No. 518, dated the 6th March 1879:—

The word "cannon" shall be added after the words "Licenses to export" in line 1 of rule 7 (as amended by Home Department Notification No. 1892, dated the 25th November 1881).

ESTABLISHMENTS.

The 27th November 1893.

No. 607.—The Honourable Sir David Miller Barbour, K.C.S.I., resigned his seat as an Ordinary Member of the Council of the Governor-General of India, with effect from the afternoon of the 24th instant.

The 30th November 1893.

No. 615.—With reference to Home Department Notification No. 360, dated the 31st May 1893, it is hereby notified that the Honourable Sir Charles Alfred Elliott, K.C.S.I., returned from leave and resumed charge of the Office of Lieutenant-Governor of Bengal on the afternoon of this day.

No. 617.—A vacancy having occurred in the office of an Ordinary Member of the Council of the Governor-General of India by the resignation of the Honourable Sir Philip Perceval Hutchins, K.C.S.I., Her Majesty the Queen, Empress of India, has been graciously pleased to appoint the Honourable Sir Antony Patrick MacDonnell, K.C.S.I., of the Indian Civil Service, to be an Ordinary Member of the Council of the Governor-General of India.

Sir Antony MacDonnell has, on the afternoon of this day, taken upon himself the execution of his office under the usual salute.

The 1st December 1893.

No. 663.—Sir David Miller Barbour, K.C.S.I., has been permitted to resign Her Majesty's Indian Civil Service with effect from the 25th November 1893.

C. J. LYALL,
Secy. to the Govt. of India.

J. KENNEDY, Collector of Murshidabad.

Murshidabad Collectorate, dated Berhampur, the 14th November 1893.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates or shares of estates, in the district of Midnapore, will be put up for sale at the Collector's Office of that district, on Saturday, the 30th December 1893, corresponding with 17th Pous 1301 A.S., for arrears of revenue and other demands, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue.

When in columns 5, 7 and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share and the other share or shares in the estate are excluded from the sale :—

(748—1)

Oudh Forest Department.

BAHRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sál beams and scantlings supplied from this depot will be as follows:—

BEAMS—21 feet length, at Rs. 2-10 per cubic foot.
22 ,, ,, 2-12 ,,
23 ,, ,, 2-14 ,,
24 ,, ,, 3 ,,

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS—From 12 to 20 feet, at Rs. 2-8 per c. ft.
Under 12 and over 7 ,, 2-4 ,,
Under 7 feet ,, 2 ,,

The above prices are for ordinary building purpose.

For *Planking Sleepers*, &c., special rates will be fixed by agreement.

The Department will still taken orders for buildings all over at Rs 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, N.-W.P. and Oudh, Oudh Circle.

KANHYA LAL,
Sub-Assistant Conservator of Forests,
Bahramghat Division.

Bahramghat, the 1st April 1886

Pure Sulphate of Quinine

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION.

THE price of this quinine is as follows:—
1 pound tin Rs. 16 or, post free, Rs. 16-12.
½ ,, ,, ,, 8, ,, ,, ,, ,, 8-8.
¼ ,, ,, ,, 4, ,, ,, ,, ,, 4-8.

Analysis shows this quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloiks Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanical Garden, Sibpur, near Calcutta. It can be had either white or coloured pink.

Reduction in price of Cinchona Febrifuge.

FROM 1st April 1891, and until further orders Cinchona Febrifuge can be purchased by all Government officers and by any one taking *ten pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates. Four ounce tin Rs. 2-8; eight ounce tin Rs. 5; one pound tin Rs. 10. The general public can be supplied by the Superintendent, Botanic Garden, *for cash only* at the undernoted rates:—Per four ounce tin Rs. 3; per eight ounce tin Rs. 6; per pound tin Rs. 12. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage four annas per 4 ounce tin, eight annas per 8 ounce tin, and twelve annas per pound tin, in addition to the foregoing rates.

Notice.

Commissariat Storekeeper-General's Office,
Madras, 9th November 1893.

No. 77.

SEALED tenders for the supply to the Madras Commissariat (Burma and India) of sugar for rations and hospital for one year, from 1st April 1894 to 31st March 1895, will be received by the Commissariat Storekeeper-General at Madras up to 12 noon on the 10th January 1894, and then and there opened in the presence of all parties who may choose to attend. Particulars of the quantities and the stations where required are given in the tender form

2. No tenders will be received except on forms obtainable from the Commissariat Storekeeper-General at Madras, which, as well as any information required regarding the contract, will be given on application to the Commissariat Storekeeper General at Madras up to 4 o'clock P. M on the 9th January 1894. No addition or alteration must be made in the tender forms.

3. Seals of tenderers will not be accepted; they should have their marks verified by witnesses.

4 Covers to be superscribed "Tender for the supply of Sugar for Rations and Hospital."

5. The tender may be for one or both the descriptions, and for supply of all the stations or of one or any number of them, but the term of contract must be as noted above, and the rate for each description must be an average for the whole period. The Commissary-General shall have the power to accept a tender in whole or in part, or to reject a tender without assigning any cause for so doing; but, in the event of the tender being accepted in part only and the tenderer failing to take up the contract, the whole earnest-money deposited will be confiscated.

6. Each tender must be accompanied with separate earnest-money for each description of sugar in Government promissory notes or Bank of Bengal or Treasury receipt* for an amount equal to 2 per cent. of the value at the tendered rate of one year's supply of the quantity of each description of sugar tendered for but the earnest-money of any one description of sugar need not exceed Rs. 2,000. Tenders without earnest-money will not be attended to.

*The receipt may be for currency notes or cash

7. Earnest money will be confiscated if the tenderer withdraws from his tender

8. Samples of the sugar to be supplied can be inspected at any Commissariat Office

(By order of Commissary-General, Bangalore.)

A Manual of Tibetan, being a Guide to the Colloquial Speech of Tibet, in a series of progressive Exercises, by Major T. H. Lewin, F.R.G.S., of the Bengal Staff Corps, Late Deputy Commissioner of Darjeeling. *Price Rs. 6; postage, 3 annas.*

Copies are to be had at the Office of the Director of Public Instruction.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

NOTICE TO SUBSCRIBERS.

SUBSCRIBERS to the *Calcutta* and *Bengali Gazettes* and *Indian Law Reports* are hereby informed that unless the amount of their subscription for 1894 is received before the 31st December 1893, it will be concluded that the Gazettes and Reports are no longer required, and the supply will accordingly be discontinued from 1st January 1894.

All remittances should be made direct to the Accountant and Treasurer, Bengal Secretariat, Calcutta, by means of money-orders. No postage stamps or stamps of any other kind will be received in payment of subscriptions.

The correct address of the subscriber should be legibly written on the money-order coupon, and the period for which the subscription is paid should also be stated.

N. BONHAM-CARTER,
Offg. Under-Secy. to the Govt. of Bengal.
The 4th December 1893.

Sanskrit Manuscript in the Library of His Highness the Maharaja of Bikanir, Catalogue of By R. Mitra LL.D., C.I.E. Super royal 8vo. cloth. Rs 2 (8*s*.).

REVENUE DEPARTMENT.

REVISED ADVERTISEMENT.

A Dictionary of the Economic Products of India

BY DR. GEO. WATT, C I.E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first five volumes and Vol. VI, Parts I, II, III & IV of the Dictionary are now ready at the Office of Superintendent of Government Printing, No. 8, Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is Rs. 45 in India, and 3 guineas in England (exclusive of the Index, or which a separate charge will be made); packing and postage, in India, 8 annas per volume; for England, Rs. 2-8 per volume. For copies bound in half calf or half morocco, Rs. 6 and 8 shillings, respectively, will be charged extra for the whole set.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets; &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal octavo pages; Vol. II embraces the letter C in 689 pages; Vol. III contains the letters D, E, F and half of G. Vol IV latter half of G to middle of L; and Vol. V contains the latter half of L to end of O; Vol. VI, which will consist of four parts), Part I, contains letters P to R. The whole work will, it is expected, be completed in nine volumes (including Parts II to IV of Vol. VI) during the current year; but a tenth volume may also be issued, consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a Glossary of the vernacular and European names of the plants, animals and minerals of India, and as such will be a work of reference, which, it is hoped, may prove of considerable value.

Manual of the Land Revenue Systems of India

By B. H. BADEN-POWELL. Revised Edition, in 3 Volumes—Royal 8vo., cloth.

Vol. I.—General and Bengal.

NOTICE TO MARINERS—No. 278.

[First Publication.]

AUSTRALIA—TORRES STRAIT, INNER ROUTE.

Shoal south of Cockburn reef.

THE Port Master, Brisbane, has given notice (No. 28 of 1893) of the existence of a shoal to the southward of Cockburn reef—inner route to Torres strait.

The shoal, which is a quarter of a mile in extent, lies 1½ miles to the northward of the recommended track, and the least depth of water on it is 17 feet at low-water springs.

From the shoal, North Cockburn island bears	...	... N. 3° E.
Summit of Sir Charles Hardy North island	...	... N. 79° E.
Summit of East island, Home group	...	... S. 14° W.
North extreme of Sunday island	...	... S. 79° W.

BAY OF BENGAL—BURMA COAST.

Rangoon—Time signal established.

THE following Notice to Mariners (No. 549 of 1893), issued by the British Admiralty, is republished for general information:—

The Port Commissioners of Rangoon have given notice that on 1st October 1893 a time signal would be established on the tower of the Mayo Sailor's Home, Rangoon.

The signal consists of a ball, which is hoisted close up as preparatory every day, except Sunday, at 11h. 55m. 0s., and dropped at noon, Rangoon mean time, equivalent to 17h. 35m. 20s. Greenwich mean time.

Should the signal fail, the ball will be dropped again at 1h. 0m. 0s. Rangoon mean time.

Approximate position, Sailors' Home tower, lat. 16° 46′ N., long. 96° 10′ E.

[First Publication.]

JAPAN—YEZO, WEST COAST.

Rock reported between Taruri and Yagisiri.

THE British Admiralty has given notice (No. 557 of 1893) of the existence of a narrow rock about 1½ cables in length, with depths of 7 to 10 feet on it, lying between the islands Taruri and Yagisiri.

Mariners are warned that vessels should not attempt to pass between these islands until the passage has been surveyed and shown to be practicable.

Approximate position, lat. 44° 25½′ N., long. 141° 19′ E.

B. P. CREAGH, *Comdr.*, R.I.M.,
Port Officer of Calcutta.

[First Publication.]

CHINA, SOUTH—SULU SEA.

Reef reported between Laparan and Deoto Bato.

THE British Admiralty has given notice (No. 558 of 1893) that the Master of the steamer *Doris* reports that in passing recently between Laparan and Deoto Bato, he observed a coral reef apparently extending from one island to the other and about 1½ miles across. Soundings of 4½ to 5 fathoms were obtained by the *Doris* on the reef, midway between the islands.

Mariners are warned that the locality is absolutely unsurveyed, as indicated by its delineation on the charts.

Approximate position, centre of reef, lat. 5° 54′ N., long. 120° 4′ E.

B. P. CREAGH, *Comdr.*, R.I.M.,
Port Officer of Calcutta.

NEW ZEALAND—FOVEAUX STRAIT.

Amended position of shoal north-east of Dog island.

WITH reference to Notice to Mariners, No. 97, dated the 6th June 1892, issued by this Office, the British Admiralty has given further notice (No. 530 of 1893) that the rocky shoal with 17 feet on it at low water, in the approach to Awarua or Bluff harbour from the south-eastward, lies with Dog island light-house, bearing S.W. $\frac{1}{2}$ S. (S. 38° W.), distant nine cables; and Bluff summit W. $\frac{1}{2}$ N. (N. 83° W.).

Approximate position, lat. 46° 39′ 0″ S., long. 168° 27′ 0″ E.

[Second Publication.]

CHINA, EAST COAST—TURNABOUT ISLAND.

Rocky bank to the westward of Turnabout island reported.

THE British Admiralty has given notice (No. 537 of 1893) that H.M.S. *Caroline* has examined a recently reported rocky bank westward of Turnabout island:—

Hai tan bank is 5 cables long in a north-east and south-west direction, 3 cables broad, and has depths of 6 to 10 fathoms on it. From its centre Turnabout light-house bears about E. $\frac{1}{2}$ S. (S. 86° E.), distant $2\frac{2}{10}$ miles.

At low water there is a very heavy tide rip and the water is much discoloured over the patch.

Approximate position, lat. 25° 26′ 20″ N., long. 119° 53′ 45″ E.

(*Variation* 1° *Westerly in* 1893.)

[Second Publication.]

SOUTH PACIFIC OCEAN—ROTUMAH ISLAND.

Shoals westward of Chilinha point and south-westward of Atana islands.

NOTICE to Mariners, No. 538 of 1893, issued by the British Admiralty, is republished. The following information has been received from H.M.S. *Rapid*:—

1. A shoal, with a depth of 9 feet on it, circular in shape and about a cable in diameter, lies about three-quarters of a mile westward of Chilinha point, the west extreme of Rotumah.
   Position, to be considered doubtful, lat. 12° 29′ 30″ S., long. 176° 59′ 30″ E.
2. A shoal is reported to extend about 4 miles south-westward from the Atana islands, westward of Rotumah; with a rock, on which the sea does not break, situated on the shoal about 2 miles from the islands. The distance to which the shoal extends from the islands is not known, and it may be found to be further than 4 miles.

AUSTRALIA—PORT ADELAIDE RIVER.

Alteration in the position of No. 12 and Red light beacons.

THE following Notice to Mariners (No. 8 of 1893), issued by the Secretary, Marine Board, Port Adelaide, is republished for general information:—

Masters and pilots of vessels navigating the port river are hereby informed that No. 12 light beacon has been moved 400 feet in a S.-W. direction from its previous position and placed on the edge of the channel.

The Red light beacon has been moved 200 feet southward, on a line drawn from No. 11 to the Ocean Steamers' mooring buoy.

The Red light in line with No. 12 leads through the centre of the outer cutting as heretofore.

AUSTRALIA—FITZROY RIVER.

Partial obstruction to fairway.

THE Portmaster, Brisbane, has given notice (No. 27 of 1893) that the wreck of the steam-vessel *Woonoona* lies nearly at right angles to and with her stern almost touching the line of leading lights and beacons, No. 3 Cutting (Second Flats), Fitzroy river.

The obstruction will be marked in accordance with the Regulations, *i.e.*, from sunset to sunrise, by 2 bright lights placed horizontally 6 to 12 feet apart, and between sunrise and sunset by 2 black balls similarly placed.

Masters of vessels are cautioned to use every precaution in passing.

CHINA SEA—STRAIT OF MAKASSAR.

Shoals northwestward of Balabalágan or Little Paternoster islands.

THE British Admiralty has given notice (No. 519 of 1893) of the existence of the following shoals near the north-west end of Balabalágan or Little Paternoster islands:—

1. A shoal, with depths of 4 to 5 fathoms on it, and 4 miles in length north and south, has the least water near its southern edge, situated approximately in lat. 2° 8′ S., long. 117° 1′ E.

2. A ridge of reef, awash at low water, commences 2 miles southward of the above shoal.

3. Many shoal spots, with depths of 6 to 7 fathoms on them, are situated eastward of 1 and 2. The least water found, 3 fathoms, lies with Ambungie (Karang Tiga), bearing S.S.E. ½ E. (S. 25½° E.), distant about one mile, or approximately in lat. 2° 3½′ S., long. 117° 16′ E

BOOKS—continued.									
1893.	Pages.					Rs. A. P.			
Mar. 2nd	144	12mo dy	1st...	1,000	ditto ...	0 8 0	Dvárakánáth Basu, 31, Shib Náráyan Dás's Lane, Calcutta.	Contains a long alphabetical list of proverbs in Bengali, with a short essay on the character of the nation as revealed in these proverbs.	1591
„ 21st	116	12mo dy	2nd...	1,000	ditto ...	0 6 0	Priyanáth Chakravartí, 255, Upper Chitpur Road, Calcutta.	A beautiful allegory in which devoted attachment to God is symbolised under the form of wine.	1592
„ 5th	27	12mo...	1st...	250	ditto ...	0 2 0	Brahmo Mission Office, 20, Patuatolá Lane, Calcutta.	The first stage of ancient *yoga* is indifference to worldly pleasure and pain, the second stage is the habit of enquiring into the nature of things, to know what they really are. At this stage people come to know the evanescent and illusive character of the world, and then they begin to meditate on God. But the new *yoga*, first taught by Rája Rám Mohan Ráy, commences with the meditation of God, which gradually destroys the notion of *ego* and merges the man into God.	1593
Feb. 26th	52	12mo dy	1st...	3,000	ditto ...	0 2 6	Paramánanda Sen Gupta, Mániktalá.	Songs expressive of devotion to Hari.	1594
Mar. 25th	128	8mo dy	1st ...	1,000	ditto ...	2 0 0	Shashibhúshan De, 344, Upper Chitpur Road, Calcutta.	Contains lessons in agriculture, horticulture and the manufacture of various articles.	1595
April 16th	14	D. F.	1st ...	1,000	ditto ...	0 0 6	The Author, Rámnagar, N. B. Railway.	The distinction of caste is not to be found in nature, and in the vedas, and yet some people are defending it by quoting shástras. The writer denounces these men and their theory.	1596
Mar. 22nd	12	12mo dy	4th ...	1,000	ditto ...	0 1 0	.....	The nature of *Bául* songs have often been explained.	1597
„ 22nd	12	12mo dy	4th ...	1,000	ditto ...	0 1 0	.....	The first song is on the Mymensingh case of Rájá Suryya Kánta Acháryya Chaudhurí.	1598
April 8th	30	12mo dy	1st ...	1,000	ditto ...	0 2 0	Amarnáth Datta, Keshabpur.	Songs celebrating the early sports of Krishna at Brindában.	1599
Mar. 29th	144	12mo dy	1st ...	500	ditto ...	0 5 0	Uttamá Sundarí Devi, Dacca.	Most of the songs are on religious or esoteric subjects, to the tune made famous by Rám-Prasád in the last century. It is the wife of the poet who publishes these songs.	1600
April 20th	407	16 mo	1st ...	1,050	ditto ...	1 12 0	Ravíndranáth Tagore, Jorasanko.	The Válmíki Pratibhá is one of the best dramas in Bengali. This volume contains a very large number of songs by Babu Ravíndranáth Tagore, a rising poet and a novelist.	1601
May 10th	104	12mo dy	1st ...	1,000	ditto ...	0 8 0	Bipin Bihárí De, 104, Beadon Street, Calcutta.	The illustrations are poor, and the metrical letters not better	1602
April 10th	36	12mo dy	1st ...	1,000	ditto ...	.....	The Author, Beauleah.	The writer stands against the pretensions of the Vaidya caste to *Vaishyahood*, and says the Vaidyas are a mixed caste, produced by the intermixture of various castes. Rájá Rájballabh made an attempt to raise their caste status during the last century.	1603
Apl. 14th	17	8vo dy	1st...	250	ditto ...	Nil ...	Govinda Mohan Ráy Káviná, Rangpur.	.....	1604

1893.	Pages.					Rs. A. P.			
April 21st	96	12mo dy	1st...	1,000	Printed	0 4 0	Bhuban Chandra Kar, Dum Dum.	Designed for the use of Primary Schools.	1620
„ 30th	12	12mo dy	1st...	300	ditto ...	0 1 0	Durgá Dás Datta, Keshabpur.	Short pieces on a variety of subjects.	1621
May 22nd	36	12mo dy	1st...	500	ditto ...	0 2 0	Kunjalál Ráy, 14, Rám Kánta Basu's Street, Calcutta.	Short poems on various subjects.	1622
„ 11th	187	16mo ...	1st...	1,000	ditto ...	0 8 0	The author, 203-2, Cornwallis Street, Calcutta.	Laments of Sítá in the lonely hermitage of Válmíki while reciting to a *Tápasi*, the events of her life, i.e., the breaking of the bow by Ram; the coronation of Ram; her abduction by Rávan, her confinement in his Asoka garden, and lastly her union with Ram in the forest of Naimisha.	1623
1892. May 10th	24	12mo dy	1st...	250	ditto ...	0 1 0	Rájá Shashi Shekhareshvara Ráy.	Short pieces on morality and other subjects, reprinted from the *Shilpa O Krishi Patriká*. The publisher says that a pirated edition of these pieces was published from East Bengal in which many of the pieces were mutilated. Hence it has become necessary to reprint them.	1624
1893. Mar. 16th	20	16mo dy	1st...	500	ditto ...	0 2 0	.....	Nág is one of the septs of the Káyastha caste. One of this family abused the power entrusted to him under the Local Self Government Act, and the poet satirizes him as one belonging to *Nágas* or serpents, as the word Nága also means a serpent.	1625
Feb. 27th	34	12mo dy	1st...	500	ditto ...	0 5 0	Hari Charan Sarkár, Durgápur, Faridpur.	Laments of a bereaved husband for the loss of his wife.	1626
Mar. 1st	44	12mo dy	1st...	1,000	ditto ...	0 4 0	.....	Laments of a lover for the loss of his beloved.	1627
„ 8th	72	12mo dy	1st...	600	ditto ...	0 6 0	Narendra Náth Baráil, 2, Sanátan Sil's Lane, Calcutta.	Complains that the great national festival of Durgá Pujá has now degenerated into a mere formal religious observance without the spirit of devotion which led the ancestors of the Hindus to invest it with all the solemnity of a real worship.	1628
April 25th	35	8 vo ...	1st...	1,000	ditto ...	0 2 0	.....	Contains short pieces on a variety of subjects, mostly moral and religious.	1629
„ 11th	14	12mo dy	1st...	790	ditto ...	0 0 6	Miyan Muqbul Ali, Baralea Station, Patiya, Chittagong.	Short pieces on morality and various other subjects, and contains an appeal to the Musulmans to rouse themselves into activity from their present lethargy.	1630
1892. May 13th	17	12mo dy	1st...	1,000	ditto ...	0 1 6	Prasanna Náth Sarma Chaudhuri.	A short piece on the hardship of a servant's life.	1631
1893. Mar. 12th	42	12mo dy	1st..	250	ditto ...	0 2 0	Rájá Shashi Shekhareshvara Ráy, Tahirpur.	Contains short pieces on the vicissitudes of a peasant's life, in which the miseries of a peasant are painted in glowing colours.	1632

1893.	Pages.					Rs. A. A.			
April 5th	34	8vo dy	15th	600	Printed	2 0 0	Major Adam Smith, Poona.	Pay Tables of the British Army in India, at *1s.* 2¼*d.* the rupee.	2953
Mar. 11th	120	8vo dy	1st...	1,000	ditto...	1 4 0	.....	A collection of the speeches and lectures of Sri Sarat Chandra Dás, C.I.E., as to what he saw and learnt about the works of Indian Aryans in the countries beyond the Himalayas during his sojourn in Tibet. Mostly reprinted from the contemporary papers.	2954
Feb. 20th	76	8vo dy	1st...	500	ditto...	...	The author, Faridpur.	The writer refutes Mr. Risley's suggestion that the Káyastha caste would naturally have been recruited more largely from the peaceful Vaishyas and Sudras than from the warlike Kshatriyas, and proves by quoting several passages from the Dharma Shástras of the Hindus that they are the descendants of Chitragupta, as well as of Rájá Chandra Sen, and are of pure Kshatriya blood.	2955
Mar. 2nd	110	8vo ...	1st...	1,000	ditto...	2 0 0	Kálí Prasanna Mukharji, Hooghly.	A collection of useful practical hints on the construction and repairs of buildings and roads in Bengal.	2956
Apr. 12th	98	8vo crown.	1st...	1,000	ditto...	3 0 0	The author, 16, Marquis Street, Calcutta.	Contains all the rules, regulations and laws for the protection of inventions or registration of designs in India.	2957
Mar. 11th	128	12mo dy	1st...	750	ditto...	3 8 0	Col. R. H. Tyacke.	A useful guide to those to whom shooting in the Himalayas is a novelty.	2958
May 26th	634	...	1st...	450	ditto...	5 0 0	W. H. Targett, 4, Waterloo Street, Calcutta.	Contains a full and complete record of racing in India, Burma and Ceylon, during the past season.	2959

THE CANAL REVENUE REPORTS FOR 1892-93.

No. 1284*I.A.*

GOVERNMENT OF BENGAL—IRRIGATION DEPARTMENT.

Accounts.

Dated Calcutta, the 28th November 1893.

RESOLUTION.

READ—

The Canal Revenue Reports for 1892-93, and the Chief Engineer's note on the same.

THERE are in Bengal four canal systems which are classed as Major Works. Three of these systems were mainly intended for irrigation, whilst the fourth, the Hijili Tidal Canal, is a purely navigation canal. The Sone and Midnapore Canals are practically complete; the Hijili Canal is also finished, except two works, remodelling the Kalinagar lock and the pipe across the Russulpur river, which are still under consideration. As regards the Orissa Canals, the extension of the distributary system and the completion of the drainage and protective works in connection with them are still in progress. It is expected that by the 1st of July 1894, the new distributaries will be in a state admitting of their being used for irrigation, and that by the close of that year they will be practically finished. The minor works of which Capital and Revenue accounts are kept by the Calcutta and Eastern Canals, the Orissa Coast Canal and the Saran Canals are finished works. There are other minor works for which Revenue accounts only or no separate Capital or Revenue accounts are kept.

2. The total length of canals in Bengal is 916 miles, of which 495¼ miles are for irrigation and navigation, 242¾ miles are for irrigation only, and 178 miles are navigation channels from which there is no irrigation. There are in addition 2,431¼ miles of irrigating distributary channels. The area at present irrigable is 1,492,484 acres, of which 666,490 acres were irrigated during the year. The canals were during the year used by 219,946 boats carrying cargo valued at Rs. 13,69,79,995.

3. The canals of which Capital and Revenue accounts are kept have cost Rs. 7,41,72,616 to construct. Of this sum Rs. 6,07,93,546* has been provided from loan funds, Rs. 1,05,12,677 from Provincial revenues, and Rs. 8,66,000 contributed by the Government of India from the Famine Relief and Insurance Fund.

The outlay on each canal chargeable to Capital account during the last two years and up to date is shown in the table following:—

Works.	During 1891-92.			During 1892-93.			To end of 1892-93.

* Exclusive of indirect charges amounting to Rs. 20,00,393.

4. The receipts from and working expenses of the four canal systems classed as Major Works are given in the statement following:—

Works.	Receipts, less refunds of revenue.	Working expenses.			Net revenue.
		Direct charges.	Indirect charges.	Total.	
1	2	3	4	5	6
	Rs.	Rs.	Rs.	Rs.	Rs.
Orissa Canals	4,97,375	4,75,224	30,283	5,05,507	(—)8,132
Midnapore Canal	2,80,001	1,86,401	9,149	1,95,550	(+)84,451
Hijili Tidal Canal	53,390	31,704	1,385	33,089	(+)20,301
Sone Canals	10,52,581	6,97,691	53,556	7,51,247	(+)3,01,334
Total ...	18,83,347	13,91,020	94,373	14,85,393	3,97,954

The net revenue for the year, after providing for all charges, direct and indirect, but excluding interest, has been Rs. 3,97,954 against Rs. 1,60,673 for the year preceding. The interest charges payable from Provincial revenues amounted to Rs. 24,42,363.

The net revenue is the highest yet earned, that most nearly approaching being the year 1885-86, when it amounted to Rs. 3,75,981. With the exception of that year the revenue has never previously exceeded the amount realized in 1891-92, *viz.*, Rs. 1,60,673.

5. The areas irrigated during the past five years are shown in the table below :—

Year.	Orissa Canals.				Midnapore Canal.				Sone Canals.				Total.

1890-91	175,820	4,250	320	180,289	82,002	.	...	*82,002	255,080	20,632	4,402	281,014	513,811	24,882	4,622	543,315
1891-92	173,443	3,943	289	177,685	83,005	68	..	*83,073	296,919	177,308	1,196	474,723	553,577	181,319	1,485	736,381
1892-93	158,025	2,594	333	160,952	91,217	...	...	*91,217	274,829	126,195	9,727	410,701	524,061	128,789	10,060	662,930

* Exclusive of lands surreptitiously irrigated for which leases were granted in subsequent years.

Owing to the more favourable character of the season the area irrigated was less than in the year preceding, but it is still greatly in excess of the average. The decrease was wholly in season or yearly leases, the area under long leases having been 489,512 acres in 1891-92, and 519,666 acres in 1892-93. The main decrease has been in *rabi* irrigation from the Sone Canals. Water is only in extensive demand for that crop when the rains fail altogether, which seldom happens. The demand for water for rice irrigation is, however, rapidly, more especially in Bihar, becoming independent of the character of the season, the increased yield of the crops where water can be supplied, whenever required, more than compensating for the charges levied. As a consequence of the lesser area under irrigation, the water-rates due on crops irrigated during the year, fell from 13,77,864 to 11,95,358.

6. Allusion was made in last year's resolution to changes which had been made in the administrative arrangements for collections. During the year under review the collections from the Sone and Orissa Canals were managed by a Deputy Collector in charge of a Revenue Division working directly under the Superintending Engineer, and this plan has been introduced as regards the Midnapore Canal collections from the 1st of April 1893. The following table, which extends from 1885-86, shows that the improvement in the collections which was last year noticed has been more than maintained:—

Year.	Balance at beginning of year.	Balance at end of year.	Remissions, including cancelled demand statements and extraordinary remissions.	Irrecoverable items.
1	2	3	4	5
	Rs.	Rs.	Rs.	Rs.
1885-86 ...	8,84,289	5,33,175	1,41,162	41,229
1886-87 ...	5,33,175	3,69,789	57,375	22,612
1887-88 ...	3,69,789	5,59,883	32,356	19,796
1888-89 ...	5,59,883	5,79,987	42,666	14,074
1889-90 ...	5,79,987	5,09,188	80,282	20,592
1890-91 ...	5,09,188	4,72,113	48,674	16,476
1891-92 ...	4,72,113	4,04,120	38,421	12,126
1892-93 ...	4,04,120	2,26,174	61,576	11,168

As regards the Orissa Canals, the Superintending Engineer observes:

"Babu Jagdam Sahai, the Deputy Collector in charge of the Revenue Division, deserves the greatest credit for the immense improvement in the collections; this has, to my knowledge, only been effected by detailed and constant personal attention."

Both the Commissioner of Patna and the Superintending Engineer state that they consider the result of the collections very creditable to the Deputy Collector, Babu Saroda Prosaud Chatterjee, and the staff working under him. The remissions during the year have been swollen by Rs. 9,107, which was embezzled by tahsildars in the Sone Circle and has this year been finally written off, and by Rs. 38,851 remitted by the Deputy Revenue Superintendent of the Orissa Canals, partly in accordance with rule and partly under circumstances which were, when reported, unfavourably noticed by Government. Apart from these items the sums remitted and written off as irrecoverable compare favourably with previous years, except in the case of remissions by the Executive Engineers of the Sone Canals, which indicate a slight deterioration in the accuracy of the assessments.

7. The collections under the head "Navigation" were Rs. 30,193 less than in the year preceding, but otherwise considerably in excess of an average year. Particulars showing the collections from each Canal will be found in the table following:—

Year.	Orissa Canals.	Midnapore Canal.	Hijili Tidal Canal.	Sone Canals.	Total.	Miles open.	Tollage per mile.
1	2	3	4	5	6	7	8
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1887-88 ...	66,628	1,26,574	40,406	50,984	2,84,592	490	580·7
1888-89 ...	69,830	1,46,760	53,910	52,162	3,22,662	496¼	649·9
1889-90 ...	78,032	1,45,356	40,338	51,189	3,14,922	496¼	634·3
1890-91 ...	1,06,961	1,10,830	27,145	56,593	3,01,529	496¼	607·3
1891-92 ...	1,20,761	1,32,572	36,348	57,389	3,47,020	524¼	662·2
1892-93 ...	1,00,503	1,14,141	52,180	49,996	3,16,827	524¼	604·3

8. Turning to the canal systems separately it was last year noticed that financially a decided improvement had been made as regards the return from the Orissa Canals. In the preceding five years the average deficit had exceeded two lakhs of rupees yearly. In 1891-92 the excess of working expenses above revenue was Rs. 52,164, whilst in 1892-93 the deficit has been reduced to Rs. 8,132. This improvement has been obtained in spite of increased working expenses caused by repairs to damages caused to the canals by the extraordinary flood in the river Mahanadi of July 1892, and by the cyclone of October of the same year. The working expenses amounted to Rs. 5,05,507, which is greatly in excess of the expenditure of the previous year, Rs. 4,28,086, and of the average of the five years preceding, Rs. 4,70,505. As already noticed, the arrear balance has been reduced from Rs. 2,33,704 on the 1st of April 1802, to Rs. 89,816 on the 1st of April 1893. This improvement was mainly effected by arranging that certificate cases should be more promptly disposed of. The number of cases pending at the commencement of the year was 4,723, which, with 7,991 instituted during its currency, gives a total of 12,714. Of these 11,183 were disposed of by being fully satisfied and 552 cancelled. Of the cancelled certificates 70 only were filed during the year; the remainder were old cases of which even the records were difficult to trace. The balance remaining at the close of the year was 979 only. Babu Jagdam Sahai remarks:

"I think it worth stating here that although these numerous old cases were disposed of during the year, there was not a single instance in which any defaulter was sent to jail or his immovable property sold."

The certificate office was inspected both by the Collector of Cuttack and the Commissioner of Orissa, the latter, Mr. Toynbee, remarking:

"On the whole I am much pleased with the Deputy Collector's work. He has done wonders since he joined, and I see on all sides ample evidence of order, method, and business capacity."

The Lieutenant-Governor trusts that, now the outstanding balances have mostly been collected, there will be a marked diminution in the number of certificate cases. Progress has been made more especially in the Brahmini-Byturni Division in executing new leases from which non-irrigable lands and lands requiring irrigation occasionally only have been excluded; but until all the old leases in which these areas are determined by an annual enquiry, fall in, there will remain the fluctuating demand which entails so much annoyance to the cultivator and labour to the staff. The Lieutenant-Governor notices with pleasure that there was practically no unauthorized irrigation, and that a good beginning has been made in the way of a more systematic regulation and distribution of the water-supply of the canals. The heavy working expenses, which were mainly due to breaches caused by a flood in the river Mahanadi, equal to the highest on record, were unavoidable, and it is noticed that the opportunity has been taken to raise the canal flood banks where necessary.

9. The chief feature in the year's working of the Midnapore Canal was the excessive demand for water in the latter part of the season. The average discharge of the Cossye river during October was 700 cubic feet per second only, and on the 23rd of that month it fell to 138 cubic feet per second. The area irrigated, 91,217 acres, was in excess of any year since 1883-84. The Superintending Engineer states that, except a few acres on high lands, which it was impossible to reach, the whole of the leased area received from two to four waterings during the season. The outturn on most distributaries was magnificent, whilst the unirrigated crops to the south and west of Midnapore almost entirely failed. The result of these good crops and high prices was that the number of certificates filed for the recovery of water-rates fell from 3,428 in 1891-92 to 1,223 in 1892-93, and the balance pending at the close of the year from 449 to 356. The balance of unrealized arrears due at the close of the year was, considering the demand high, Rs. 48,567, though it compares favourably with that due at the commencement of the year, Rs. 58,972. It has since been materially reduced. The net revenue was Rs. 84,451 in 1892-93, against Rs. 18,371 in 1891-92, chiefly owing to the working expenses having fallen from Rs. 2,66,326 to Rs. 1,95,550. The diminution in the working expenses was chiefly due to the thorough repairs carried out in 1891-92, when there was a long closure, but some part of it is attributable to the close supervision exercised by the Executive Engineer.

10. The Hijili Tidal Canal is in the same condition as last year, no steps having been taken towards constructing the pipe across the Russulpur river or the new lock at Kalinagar, the two works included in the remodelling scheme which are yet incomplete. It is probable that an extra supply channel will be substituted for the pipe, and the possibility of making alterations in the existing lock at Kalinagar in place of building a new one is now under investigation. The further deterioration of the crossing of the Russulpur river appears to have been arrested by the Balliaghai drain, which is now regularly used as a navigation canal. The net revenue was Rs. 20,301 against a deficit of Rs. 13,768 in 1891-92, an improvement due to the canal not having been closed during the year, there being consequently an increase in the revenue and a decrease in the working expenses.

11. The net revenue of the Sone Canals was Rs. 3,01,334 in 1892-93 against Rs. 2,08,234 in 1891-92, a result due to the collections on account of the rabi irrigation of the previous year. The area irrigated was 410,761 acres in the year under review against 474,723 acres in that previous, and the net revenue calculated on earnings was Rs. 1,48,422 against Rs. 3,78,516 in the year preceding. There is still a steady increase in the area under long lease, as will be apparent from the statement following, which shows the area under long and short leases during each of the last five years:—

	1888-89.	1889-90.	1890-91.	1891-92.	1892-93.
Long leases ...	200,102	224,268	223,556	234,791	271,966
Short leases ...	155,807	81,014	57,458	239,932	138,795
Total ...	355,909	305,282	281,014	474,723	410,761

The main reason of the increase in the working expenses from Rs. 6,97,840 in 1891-92 to Rs. 7,51,247 in 1892-93 was the silt clearance of the lower reaches of the Arrah Canal, which is only carried out once in five or six years, but there were other contributing causes amongst them, being the payment during the year of the fees due to headmen on the large area irrigated during the previous year. There has been a satisfactory decrease in the number of certificate cases from 3,178 in 1891-92 to 2,903 in 1892-93. There were 153 cases pending at the close of the year, of which all but eight had been disposed of by the 1st of September. The Commissioner of Patna remarks that—

"This is very satisfactory, as out of a total demand of Rs. 10,62,176 for the year, coercive measures had to be adopted for the realization of only Rs. 34,272."

Last year the Lieutenant-Governor expressed some dissatisfaction with the late date on which the demand statements, more especially for the rabi crops, reached the Deputy Collector. It is exceedingly unsatisfactory to learn that in 1892-93, so far from there being any improvement, the demand statements were forwarded to that officer at a later period of the year, though the area irrigated was much less. In 1891-92 about one-third of the rabi demand statements were forwarded for collection before the close of the year. In 1892-93 this proportion had fallen to one-eighth. It has already been remarked that the remissions on account of inaccurate assessments were slightly in excess of those granted in 1891-92, and altogether His Honour can come to no other conclusion than that the Divisional Engineers failed to exercise that care and energy which is indispensable if accurate demand statements are to be supplied to the collecting officers at the earliest possible date. The falling off is inconsiderable, but it is necessary that remedial measures should at once be taken, it being borne in mind that though promptitude is highly desirable, accuracy is of even more importance. The Lieutenant-Governor is glad to see that Mr. Buckley is able to report an improvement in the arrangements for distributing water and also in the state of the village channels.

12. The yearly increase in the area under long lease for the Sone Canals has already been noticed, as also the fact that the demand for water in the rice season is rapidly becoming independent of the rainfall. The Superintending Engineer gives the following table based for the year 1892-93 on 87 experiments, from which it appears that the yield of irrigated land cultivated with rice shows a tendency to produce heavier crops the greater the number of years it is continuously irrigated:—

Weight of grain from "good" rice crops irrigated with canal water.

	1892-93.	1891-92.	1890-91.	1889-90.
	Mds. Srs.	Mds. Srs.	Mds. Srs.	Mds. Srs.
Sone Circle average ...	37 4	36 14	32 2	31 19

Mr. Buckley makes the following remarks:—

"It is rather remarkable that the average results of "good" rice crops show a steady improvement year by year, and this appears to suggest that one result of irrigation with the silty waters of the Sone, instead of the clear water from ahars and from rainfall, is to improve the soil and thus produce superior crops. It would be straining these figures too far to say that they prove this proposition, but they are certainly evidence in that direction. The fact that silt is valuable to the fields needs no proof; the magnificent crops which have been produced in Egypt for 6,000 years or more, with no deterioration of the soil, have established that fact. It is known that irrigation from the Sone Canals insures the rice crop in bad years from failure; it did so in 1888-89: it is known that the irrigation with canal water of a field not previously watered by the canals increases the outturn. If it is also true that continuous irrigation for a series of years produces a further increase of crop by improvement of the soil to even half the extent which the above table indicates, the value to the landowner and raiyat of canal irrigation is very vastly in excess of the water-rate paid by the latter. It was asserted at the time of the Sone Canals Commission in 1887-88 that not only was the crop produced by the aid of canal water inferior, but that the longer the land was irrigated, the worse the crop became. The facts which have been collected from these crop experiments are strong evidence that these statements were false, and stronger evidence is found in the fact that the time has already come when the canals in a period of even ordinary demand are not able to satisfy the demands of the people for rice irrigation."

13. The table following gives the financial results for the year of the canals classed as minor works :—

14. The irrigation canals classed as minor works are the Saran, Eden, and Madhuban Canals.

The Saran Canals have never been satisfactory, and orders to close them were issued in the latter part of the year 1890. In March 1891 an agreement was entered into with the proprietors of the Sadowa and Moniara Indigo Concerns, under which they were kept open for the year 1891-92 on the basis of the proprietors paying a sum equal to their working expenses, omitting establishment charges. This agreement, slightly modified, was continued during 1892-93. There have been difficulties connected with the agreement, and it will not improbably be necessary to close the canals on the 1st of April 1894.

The Eden Canal was constructed for the purpose of supplying the districts of Hooghly and Burdwan with wholesome water for drinking and domestic purposes. The water-supply of the town of Burdwan is derived from it. The canal has frequently in years of scarcity been used for the purpose of saving crops, comparatively small sums being received by private agreement as water-rates. The Government of India in 1875 absolutely refused to permit the canal to be carried out as an irrigation work unless arrangements were made to recover an adequate return in the way of water-rates.

It was not found possible to devise any scheme under which a sufficient return could be obtained, and the project as an irrigation work was therefore dropped.

In April 1882 an estimate amounting to Rs. 8,38,533 was sanctioned for constructing the canal with reference to its utility as a work for supplying water to the silted-up river channels in the districts named. In order to secure to Government power to prevent the channels being obstructed, they were declared under section 8 of Act III (B.C.) of 1876, but the regularity of the proceedings is contested by some of the landholders interested. As regards the

masonry works, from which only a supply of water can be obtained and the artificial canal, there is no doubt as to the proprietary rights of Government. During 1892-93 the demand for water was pressing. Where canal-water could not be supplied, the rice crops failed wholly or in part, and 71,333 acres were irrigated on agreements being executed in a form prepared by the Solicitor to Government. The Lieutenant-Governor has had many petitions to extend and improve this canal, but there are grave practical difficulties mostly connected with the rights of the owners of the channels through which only water can be supplied, and moreover the discharge of the main canal is insufficient to irrigate more than the area to which water was supplied in the year under review. The landholders who have proprietary interests in the river channels have lately shown a disposition to meet Government in a conciliatory spirit, and it is hoped that an arrangement may be effected under which water will be made available for irrigation under regular rules, and some return obtained for the public money expended.

The Madhuban Canal is a small irrigation work in the Champaran district on the borders of Nepal from which 6400 acres were irrigated in 1892-93. There are no distributaries and it is improbable that it will be worthwhile to construct any.

15. The remaining minor works are canals for navigation, viz., the Calcutta and Eastern Canals, the Orissa Coast Canal, and the Nadia Rivers.

The report of the Committee on the Calcutta and Eastern Canals referred to in last year's resolution was not finally disposed of until the 1st of July 1893, when the system of measurement was altered, so as to make it more nearly correspond with the actual weight of cargo carried. At the same time the rate of tolls which have always been exceedingly moderate were adjusted so that the revenue will not suffer. The proposal to impose toll on loaded boats returning from Calcutta has been dropped, as it was found that the revenue derived would be small and it would entail stopping and examining all boats, only a fractional part of which carry cargo on the homeward journey. The toll levied was 0·68 per cent. on the value of the cargo carried. The net revenue for the year was Rs. 2,27,937 against Rs. 1,81,820 in the preceding year, or 4·2 per cent. on the capital expenditure. The increased profit was wholly due to a decrease in the working expenses, the gross revenue owing to slackness of trade being less than in 1891-92. These canals are in active competition with the Eastern and Central Bengal State Railways, which provide an alternative route from nearly all the places served. Of late years there has been a tendency for jute and other valuable goods to be sent by railway, but there are at present indications of a desire to return to the canals, a class of cargo boats more suitable for navigation having been constructed. The continued reduction in the number of missing tickets, the number of which has fallen from 3,086 in 1883-84 to 169 in 1892-93, may be taken as a sign of careful administration.

16. The orders of the Lieutenant-Governor as to the inspection of offices were only issued in January last, and the scale laid down has not in all cases been fully worked up to. His Honour expects that during the current year all divisional offices and subdivisional and toll offices, to the extent laid down, will be inspected by Superintending Engineers, and that Executive Engineers will not fail to inspect every office subordinate to them. The record of tours is satisfactory, the requirements of Government, except in one instance for which there were special reasons, having been fully met.

17. The Lieutenant-Governor considers that the Superintending Engineer's reports and the Chief Engineer's note thereon show that the Officers and Subordinates of the department have done good work during the year. In some respects there have been shortcomings of which notice has been taken in this Resolution, but in the main there has been a distinct advance both as regards assessments and collections, more especially the latter. His Honour notes the commendation bestowed by the Chief Engineer on the Engineers and Subordinates of the Orissa Circle, more especially on Mr. C. A. White, Executive Engineer, and also on Rai Bama Charan Paramanic Bahadur, Honorary Assistant Engineer, Eden Canal. To Babu Saroda Prosad Chatterjee, Deputy Collector Revenue Division, Sone Canals, the Lieutenant-Governor's thanks are due for the success of the arrangements by which the collections in the three districts of Patna, Gaya and Shahabad have been concentrated in one office.

The encomiums pronounced by the Commissioner of Orissa and the Superintending Engineer on the work of Babu Jagdam Sahai, Deputy Collector, Revenue Division, Orissa Canals, are in His Honour's opinion well deserved, as that officer has brought order out of something like chaos, and with a minimum of coercive measures, recovered arrears which had been left outstanding for years. Finally the Officiating Lieutenant Governor desires to specially thank the Chief Engineer, Mr. Odling, for the ability and zeal he has brought to bear on his important duties throughout the year.

ORDER.—Ordered that a copy of this Resolution and of the Chief Engineer's note and its accompaniments be submitted to the Government of India in the Public Works Department, and published in the *Calcutta Gazette*. Also that it be circulated to other Governments, and to all Departments and Officers of this Government as usual.

By order of the Lieutenant-Governor of Bengal,

G. C. MACONCHY,

Under-Secretary to the Government of Bengal.

Government of Bengal.

IRRIGATION DEPARTMENT.

REVENUE REPORT.

Note by C. W. ODLING, ESQ., M.E., M. INST. C.E., *Chief Engineer, on the Canal Revenue Reports of Bengal for the year* 1892-93.

DURING the year 1892-93, the Capital expenditure on Irrigation Works, for which Capital Accounts are kept, amounted to Rs. 5,31,969 for direct and Rs. 12,919 for indirect charges:—

	Direct charges.	Indirect charges.	Total.
	Rs.	Rs.	Rs.
Capital expenditure not charged against Revenue	4,57,786	11,541	4,69,327
Minor Works and Navigation ...	74,183	1,378	75,561
Total ...	5,31,969	12,919	5,44,888

2. The total Capital outlay at the end of the year 1892-93, including indirect charges, was as follows:—

	Direct charges.	Indirect charges.	Total.
	Rs.	Rs.	Rs.
Major Irrigation Works—

* Exclusive of lands surreptitiously irrigated for which leases were granted in subsequent years.

The year's working and its financial results will now be dealt with separately for each of the canal systems of the province, as in previous years.

GENERAL.

In all statements showing totals of receipts or expenditure, the figures are those of the Examiner of Accounts. In dealing with details the figures of the Commissioner or of the Superintending Engineer have been taken.

ORISSA CANALS.

10. The Capital, Interest, and Revenue Accounts of these canals are given below:—

CAPITAL ACCOUNT.

I.—CAPITAL ACCOUNT.

Heads of Account.	Outlay during 1892-93.	Outlay to end of 1892-93.
1	2	3
DIRECT CHARGES.	Rs.	Rs.
I.—Works	3,16,566	1,80,92,197
II.—Establishment	61,011	45,25,554
III.—Tools and plant	3,184	20,23,915
IV.—Suspense accounts	(—)17,477	1,46,314
Loss by exchange	...	2,68,070
Total ...	3,63,284	2,50,56,050
V.—*Less*—Receipts on Capital account	69	86,169
Net total Direct Charges ...	3,63,215	2,49,69,881

Capitalization of abatement of land revenue	62	33,130
Leave and pension allowances	8,542	5,29,704
Total Indirect Charges ...	8,604	5,62,834

The principal works charged to Capital account which were in progress during the year were:—The extension of the Taldunda Canal from 28 to 52 miles, the remodelling of the existing Taldunda Canal from Biribatty to Tarporo, the extension of the Byturni right embankment from 7th to 20th miles, and the Burra Khursoa left embankment, a large syphon under No. 4 distributary, and a self acting sluice and other works in connection with the Bhimiai Had drainage. The Daib embankment was completed, and most of the refuge mounds on Sunkarsahi island finished. The works in connection with the Sukendapat drainage scheme were also continued, and good progress was made with the distributaries, several of which were finished during the year.

INTEREST ACCOUNT.

2.—INTEREST ACCOUNT.

		Rs.
Interest charges to end of 1891-92	... ...	1,66,70,158

			Total ...	3,71,001	4,97,658
Total Direct Charges ...	3,96,016	4,75,224			
			Less—Refunds of revenue.	79	283
			Net total receipts	3,70,922	4,97,375
INDIRECT CHARGES ...	27,070	30,283	Deficit ...	52,164	8,132
Total Working Expenses	4,23,086	5,05,507	Total ...	4,23,086	5,05,507

NOTE.—The details by heads of expenditure for the year 1892-93 and nine preceding years will be found in the table given in paragraph 12 following:—

The net result compared with previous years is very satisfactory. Omitting indirect charges, the receipts have exceeded the expenditure by Rs. 22,151; including them the deficit is only Rs. 8,132. This result is due to the recoveries of arrears of past years on account of water-rates and miscellaneous revenue. The receipts under these two heads are the highest on record.

The increased expenditure was mainly due to repairs to the damages caused to the canals by the flood of July 1892. Of the excess of Rs. 22,333 under the head Revenue establishment, Rs. 14,201 are arrears of headmen's fees, paid during the year. Under the new arrangements these fees will no longer be allowed.

EARNINGS.

11. The following statement shows the earnings, by which is meant the revenue due on the irrigation of the year, whether or no the demand statements

were prepared before the 1st of April or not as opposed to collections and actual outlay, for the years 1891-92 and 1892-93:—

Earnings.		1891-92. Rs.	1892-93. Rs.
Irrigation	...	2,66,587	2,40,200
Navigation	...	1,35,902	1,18,757
Miscellaneous	...	17,843	26,532
Total	...	4,20,332	3,85,489
Deduct refunds	...	79	283
Net earnings	...	4,20,253	3,85,206
Outlay	...	4,23,086	5,05,507
Net deficit	...	2,833	1,20,301

As regards irrigation the assessed revenue shows a decrease of Rs. 26,387 compared with that of the previous year, which is entirely due to the falling off of 16,733 acres in the leased area consequent on the favourable rainfall. The actual collections during the year amounted to Rs. 3,52,369, and was Rs. 1,12,169 in excess of the assessed revenue of the year. This is altogether due to the collection of arrear balance, a result of a new system of management, and a more efficient establishment.

FINANCIAL RESULTS.

12. The revenue receipts and working expenses for the last ten years are tabulated below:—

PARTICULARS.	1883-84.	1884-85.	1885-86.	1886-87.	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.	1892-93.

The very large increase in the total receipts for the year under review is the most striking feature presented by the figures above. The arrear balances, however, have now been mostly collected, and the revenue will in future largely depend on the rainfall and on irrigation on the new distributaries becoming general, a result which will only slowly take place.

13. The lengths of the canals and distributaries in operation at the close of the year 1892-93 compared with 1891-92, are given in the following table:— LENGTHS OF CANALS AND DISTRIBUTARIES.

Name of Canals.	1891-92.								1892-93.							
	Navigable canals.	Canals for irrigation only.	Distributaries and village channels.	Area protected from flood.	Area under command.	Area provided with distributaries.	Area irrigated.	Percentage of area irrigated to area provided with distributaries.	Navigable canals.	Canals for irrigation only.	Distributaries and village channels.	Area protected from flood.	Area under command.	Area provided with distributaries.	Area irrigated.	Percentage of area irrigated to area provided with distributaries.

Total Orissa Canals ...	204½	75	890½	483,695	571,300	308,860	177,685	57·53	204½	75	941	483,695	571,300	321,084	160,952	50·12

No change was made in the lengths of canals during the year. The completion of fifty miles of distributaries during the year resulted in an increase of 12,225 acres to the area irrigable. The total area protected from floods was increased by 10,000 acres, owing to the extension of the Byturni right embankment from 6½ to 10 miles, and the completion of 10 miles of the Burra Khursooah left embankment.

14. In the following statement is shown the average rainfall at thirteen stations situated within the canal irrigated area, for the kharif and rabi seasons of the last five years:— RAINFALL.

		Average of thirteen stations.				
		1888-89.	1889-90.	1890-91.	1891-92.	1892-93.
1		2	3	4	5	6
		Inches.	Inches.	Inches.	Inches.	Inches.
Kharif season ...	July ...	8·91	13·10	12·59	10·34	11·99
	August ...	21·61	13·11	7·58	16·98	8·08
	September ...	8·36	5·30	14·40	19·45	10·71
	October ...	1·11	9·16	8·63	1·17	5·66
	Total ...	39·99	40·67	43·20	47·94	36·44
Rabi season ...	November ...	2·88	11·24	1·94	6·77	0·85
	December ...	.....	0·15	0·05	.....	.....
	January ...	0·06	0·06	.....	.....	2·00
	February ...	0·81	0·02	0·99	0·20	1·89
	Total ...	3·75	11·47	2·98	6·97	4·74
	Whole year ...	49·07	67·95	63·17	61·03	56·43

The total rainfall of the year was below the average, and in the kharif season there was a marked deficiency everywhere. The rains set in earlier than usual, and the amount which fell in June and July was plentiful, but it was

scanty in August and September, and this led to the renewal of some of the lapsed leases. After the 13th October the rainfall was seasonable, and there was no further demand for canal water. It is in this month that new leases are generally entered into, so that the rainfall was on the whole favourable to the unirrigated crops.

The average rainfall of the year at ten stations in the Central Provinces, which are drained by the Mahanadi, was 62·43 inches, against 56·14 inches in 1891-92.

FLOODS. 15. The flood in the Mahanadi river was the highest recorded during the last 50 years. There were high floods also in the Brahmini and Beropa. The highest recorded readings of the principal rivers for the year and up to date are given in the following statement:—

NAME OF RIVER.	Locality.	1891-92.		1892-93.		HIGHEST RECORDED.

IRRIGATION. 16. The areas of each crop irrigated during the last ten years with the yearly rainfall are shown in the following statement:—

YEAR.	Kharif.	Rabi.	Perennial.	Total.	Rainfall.
1	2	3	4	5	6
	Acres.	Acres.	Acres.	Acres.	Inches.
1883-84 ...	47,035	1,381	344	48,760	57·21
1884-85 ...	54,181	2,994	197	57,372	50·40
1885-86 ...	70,563	1,605	171	72,339	52·59
1886-87 ...	75,115	2,440	154	77,709	60·07
1887-88 ...	108,867	502	137	109,506	47·84
1888-89 ...	156,319	2,779	194	159,292	49·07
1889-90 ...	180,568	5,897	162	186,627	67·95
1890-91 ...	175,829	4,250	220	180,299	63·17
1891-92 ...	173,453	3,943	289	177,685	61·03
1892-93 ...	158,025	2,594	333	160,952	56·43

The whole of these areas was assessed.

17. The nature of the assessment of the crops irrigated during the year, as compared with the figures of the two preceding years, is shown in the statement below:— ASSESSMENT OF CROPS.

CROP.	Rate per acre.	1890-91.		1891-92.		1892-93.	
		Area.	Amount.	Area.	Amount.	Area.	Amount.
1	2	3	4	5	6	7	8
	Rs. a. p.	Acres.	Rs.	Acres.	Rs.	Acres.	Rs.
Kharif ... ... { Flow ...	1 8 0	(a) 168,227	2,52,173	(b) 168,655	2,56,314	(c) 155,787	2,33,448
Lift ...	1 0 0	(a) 5,596	5,596	(b) 4,787	4,790	(c) 2,197	2,197
Perennial crops ... { Flow ..	6 0 0	121	712	141	843	125	748
Lift ..	4 0 0	88	351	148	594	208	834
Rabi ... ... { Flow	0 8 0 to 2 0 0	3,634	3,888	3,259	3,435	2,291	2,408
Lift ..	0 5 0 to 1 8 0	615	474	632	513	303	263
Unauthorised irrigation { Kharif	..	2,006	6,080	11	20	101	302
Rabi	...	12	36	52	78	...	...
Total ...	...	180,299	2,69,810	177,685	2,66,587	160,952	2,40,200

(a) 173,577 acres 5-year lease, and 246 acres annual lease.
(b) 170,816 acres 5-year lease, and 2,626 acres annual lease.
(c) 156,458 acres 5-year lease, and 1,466 acres annual lease.

The area of unauthorized irrigation assessed was 101 acres, against 63 acres in 1891-92. There was a decrease of kharif irrigation on all the canals, except the Jajpur, the total amounting to 15,428 acres. Under rabi there was a large decrease on the Kendrapara Canal owing to the closure of some of the distributaries.

Of the commanded area 29·64 per cent., and of the area provided with distributaries 52·75 per cent., were under lease at the end of the year. These percentages are less than those of last year, owing partly to the area provided with distributaries having been increased by 12,225 acres, and partly to the decrease of the leased area.

The Superintending Engineer summarizes the general character of the irrigation season as follows:—

"There was early and seasonable rain in June, and on account of the heavy rainfall in July, there was no demand for canal water; but from the middle of August to the end of October demand was constant. The season was of an ordinary character, and at no time was the demand such as to put the canals to any severe test."

As before remarked, there was no rain towards the end of October, and generally the season was not favourable to any extensive increase in the irrigated area.

18. The duty obtained on each of the principal canals, and calculated from the gross discharge at the canal heads is given in the following table for the year under review and two preceding years:— DUTY OF WATER.

PARTICULARS.	Kendrapara Canal system.	Taldunda Canal system.	High Level Canal, Range I.	High Level Canal, Range II.	High Level Canal, Range III.
1	2	3	4	5	6
1892-93 { Kharif ... Acres	65,724	36,327	20,950	2,285	32,194
Duty on gross supply	**64·93**	**114·97**	**60·51**	**119·76**	**98·95**
Rabi ... Acres	2.004	264	275	44	7
Duty on gross supply	**5·80**	**13·03**	**1·82**	**74·58**	**0·74**
1891-92 { Kharif ... Acres	70,686	41,570	22,394	2,451	36,189
Duty on gross supply	**80·05**	**103·99**	**84·75**	**24·95**	**117·69**
Rabi ... Acres	3,491	336	29	62	22
Duty on gross supply	**7·60**	**3·50**	**0·14**	**2·88**	**1·02**
1890-91 { Kharif Acres	71,403	41,247	21,893	2,473	39,033
Duty on gross supply	**66·42**	**102·22**	**66·07**	**37·61**	**107·81**
Rabi ... Acres	3,567	559	91	30	3
Duty on gross supply	**9·46**	**13·31**	**1·79**	**2·11**	**0·43**

The rabi irrigation is so small that it is not worthwhile considering the duty in that season.

The results regarding the duty of water for the kharif season are shown in the following statement:—

	Kendrapara Canal system.	Taldunda Canal system.	High Level Canal—		
			Range I.	Range II.	Range III.
1	2	3	4	5	6
Area of kharif irrigation ..Acres.	65,734	36,327	30,950	5,285	32,194
Average gross discharge at head of canal . C. ft.	1,012·25	307·25	346·25	19·08	325·25
Average gross discharge at head of canal utilized ,,	956·68	269·25	268·15	14·48	318·60
Duty of quantity entering canal	64·93	114·97	60·51	119·76	98·95
Ditto utilised	68·70	134·91	78·13	157·80	101·05

The duty on the gross discharge was highest on the High Level Canal, Range II, and least on Range I, while that on the discharge utilized was highest also on Range II, and lowest on the Kendrapara Canal.

The duty obtained during the kharif season was higher on the Taldunda Canal System and High Level Canal, Range II, than in 1891-92. On all the other canals is has decreased.

The Officiating Superintending Engineer, Mr. Horn, who was previously Executive Engineer in charge of the Brahmini-Byturni Division, makes the following observations:—

"It seems to me that this system of deducing an average duty for the season has little practical value. For example, it is only necessary to point out that an average duty of 80·05 was obtained on the Kendrapara canal system in 1891-92, whereas the duty during October of that year was only 56. The high average duty is only explicable when it is remembered that the canal was practically closed during August and September on account of exceptional rainfall. Throughout the whole of October the strain on the canal was great, and every drop of water that could be admitted at Jagatpur was utilized"

The most important matter is the duty which can be obtained over a short lease not exceeding 15 days. In 1891-92 the duty in October was 56 acres per cubic foot per second only, but improvements in the distributaries and outlets have been and are being made which will give the Subdivisional Canal Officer more control over the supply. It is expected that even at the time of maximum demand a duty of 70 acres per cubic foot per second will ultimately be obtained.

CROP EXPERIMENT.

19. To test the outturn of crops, 267 experiments were made during the year—144 of them were on lands irrigated by canal water, and 123 on unirrigated lands. The results obtained are tabulated below:—

Name of division.	Number of experiments.	Outturn per acre from irrigated land.		Number of experiments.	Outturn per acre from unirrigated land.		Value of outturn from irrigated land.		Value of outturn from unirrigated land.	
		Rice ⅓rds of paddy.	Straw.		Rice ⅓rds of paddy.	Straw.	Rice 17 seers 3 chs. per rupee.	Straw at 9 maunds per rupee.	Rice 17 seers 3 chs. per rupee.	Straw at 9 maunds per rupee.

Total ...	144	1,818·53	3,457·96	123	1,197·70	2,132·15	4,232·18	384·21	2,786·93	236·89
Average of all experiments per acre	...	12·63	24·01	..	9·60	17·33	29·40	2·67	22·66	1·92
Average of five years ending with 1891-92	1891-92	10·07	19·26	..	8·10	13·70	16·60	2·14	13·15	1·52
	1890-91	13·84	23·59	...	10·06	16·12	20·76	2·51	15·05	1·79
	1889-90	14·01	23·00	...	9·23	14·40	21·01	2·55	13·71	1·60
	1888-89	10·82	20·12	...	7·85	14·02	16·23	2·24	11·02	1·56
	1887-88	8·22	16·84	...	6·25	12·00	12·25	1·67	9·31	1·19

N.B.—In this statement the outturn is shown in rice by taking ⅓rds of unhusked paddy. The previous year's outturn paddy has been converted into rice by taking ⅓rds, and the quantities thus found are entered above.

ASSESSMENTS, COLLECTIONS, AND BALANCES.

20. The balances outstanding at the commencement of the year under review were as follows:—

	Rs.
Water-rates	2,33,704
Miscellaneous Revenue	267
Total ...	2,33,971

as against the balances outstanding on 1st April 1893, which were—

	Rs.
Water-rates	89,816
Miscellaneous Revenue	...
Total ...	89,816

The table below shows the balances, assessments, and recoveries of water-rates for the last five years:—

YEAR.	Amount outstanding at commencement of year.	Amount falling due during the year.	Total for recovery.	Cash realizations.	Remitted or written off.	Balance at the end of the year.
1	2	3	4	5	6	7
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1888-89 ...	92,109	1,96,765	2,88,874	1,51,365	22,912	1,14,597
1889-90 ...	1,14,597	2,87,277	4,01,874	1,99,844	25,268	1,76,762
1890-91 ...	1,76,762	2,69,650	4,46,412	2,09,806	38,242	1,98,364
1891-92 ...	1,98,364	2,82,880	4,81,244	2,17,256	30,284	2,33,704
1892-93 ...	2,33,704	2,61,023	4,94,727	3,52,368	52,543	89,816

The results disclosed by these figures cannot be regarded as otherwise than satisfactory. The outstanding balance, which at the end of 1891-92 was the highest on record, has been reduced at the end of the year under review, to a comparatively small amount. This improvement is very largely due to the new system of Revenue management under the supervision of the Superintending Engineer which was introduced during the year. The offices of the Revenue Superintendent and Deputy Revenue Superintendent of Canals were abolished, and a Revenue Division was formed on the 1st April 1892. The Special Deputy Collector, who was placed in charge, took up the task of collecting arrears with great assiduity. The Superintending Engineer writes as follows on the working of the Revenue Division:—

"The Deputy Collector deserves the greatest credit for the immense improvement in collections; this has to my knowledge only been effected by detailed and constant personal attention."

ARREARS.

21. The progress of the year in realizing arrears and current demand is shown in the following table:—

Year in which irrigation occurred.	DEMANDS.			Collected or remitted.	Balance on 31st March 1893.
	Arrears on 31st March 1892.	Demands for 1892-93.	Total.		
1	2	3	4	5	6
	Rs.	Rs.	Rs.	Rs.	Rs.
1889-90 and previous years.	28,732	14,471	43,203	42,779	424
1890-91 ...	81,940	53	81,993	66,734	15,259
1891-92 ...	1,23,032	89,418	2,12,450	1,90,404	22,046
1892-93 ...	...	1,57,081	1,57,081	1,04,994	52,087
Total ...	2,33,704	2,61,023	4,94,727	4,04,911	89,816

The amount realised by the Collectors on water-rates and miscellaneous revenue was Rs. 3,73,244, against Rs. 2,28,451 so collected in 1891-92.

CERTIFICATES.

22. In the following table is shown (approximately) the amount of certificate work done in each district:—

	Cuttack.				Balasore.				Total.			
	1891-92.		1892-93.		1891-92.		1892-93.		1891-92.		1892-93.	
	Number.	Amount.	Number.	Amount.	Number.	Amount.	Number.	Amount.	Number.	Amount.	Number.	Amount.
1	2	3	4	5	6	7	8	9	10	11	12	13
		Rs.		Rs.		Rs.		Rs.		Rs.		Rs.
Cases for disposal—												
1. Cases pending at the close of the preceding year	7,650	23,559	4,502	20,090	1,484	3,900	221	1,020	9,044	27,459	4,723	21,119
2. Cases instituted during the year	7,604	24,049	6,964	56,634	949	4,470	1,027	14,033	8,643	28,519	7,991	71,267
Total ...	15,254	47,648	11,466	76,724	2,473	8,370	1,248	15,053	17,687	56,018	12,714	92,386
Cases disposed of—												
1. By being struck off owing to the demand having been remitted	1,209	2,464	388	2,937	76	142	34	276	1,375	3,007	553	3,212
2. By being wholly satisfied	9,573	25,004	10,075	67,634	2,136	7,198	1,108	12,042	11,709	32,202	11,183	79,676
Total ...	10,872	27,558	10,463	70,571	2,212	7,341	1,122	12,317	13,084	34,869	11,735	82,888
Balance outstanding at the close of the year	4,382	20,090	863	6,153	231	1,029	110	3,345	4,603	21,119	979	9,498

These figures show another satisfactory result of the establishment of a Revenue Division. Of 12,714 cases, of which 4,723 were pending from the preceding year, 11,735 were disposed of, and of this number 11,122 cases were dealt with by the Special Deputy Collector. That his task was no light one is evidenced by the following remark of the Superintending Engineer. "Most of the pending cases from last year were of a difficult nature, some of them referring to as far back as 1885-86." The balance of cases left pending at the close of the year was only 979.

The large number of cases struck off was due partly to the erroneous assessment of high and unirrigable lands, and partly to irrecoverable demands. There were scarcely any complaints regarding the measures adopted to realize the arrears, one only reaching head-quarters, and this on investigation was found not to have emanated from the person whose signature it bore. The Commissioner who inspected the Deputy Collector's office recorded a note expressing his approval of the manner in which Babu Jagdam Sahai had carried on the work generally, and more especially the certificate cases

COMPLAINTS

23. The following table shows the number of objections against assessment filed and disposed of during the year:—

Division.	(I)—Ordinary Remission.				(II to IV)—Other Complaints.				Total complaints received during the year excluding those pending from previous year.	Pending

24. The amounts remitted and written off as irrecoverable during the year on account of water-rates aggregated Rs. 52,541 as compared with Rs. 30,485 written off under the same heads in 1891-92. The details are given below:— REMISSIONS.

Revision of Assessment.

	Rs.
(*a*) Unirrigated crops	17,641
(*b*) Damaged ,, ...	7,421
(*c*) Chaukidar's jagir	5,048
Total ...	30,110

Remissions.

(*a*) Waste land	1,444
(*b*) Land occupied by canals	175
(*c*) Twice assessed	244
(*d*) Barred by limitation	2,664
(*e*) Excess recovery refunded	990
(*f*) Change of rates	5,642
(*g*) Erroneous assessments	491
(*h*) On account of death of defaulters ...	631
(*i*) Absconding of defaulters	266
(*j*) Lease cancelled	825
(*k*) Cyclone damages	3,296
Total ...	16,668

Written off.

Irrecoverable demands	7,532
Total ...	54,310
Deduct remissions under miscellaneous revenue ...	1,769
Net remission ...	52,541

Of the above amount Rs. 38,851 were remitted by Mr. Roberts, the late Deputy Revenue Superintendent of Canals before he made over charge of his office. The matter was brought to the notice of Government, and orders taking exception in some respects to the course adopted were passed.

The large amount of remission under the head unirrigated crops is somewhat misleading. Under the old revenue system it was the custom to include the whole area of the village jamabandi in the lease and demand statement, and afterwards to remit such portion of it as was found to be unirrigable. This system has now been abolished, and under the new rules a large portion of the area remitted would not have been entered either in the lease or demand statement. The same remarks apply to the remission under damaged crops, as the lowlands which do not derive benefit from canal water would find no place in the new leases.

The amounts remitted by the Special Deputy Collector with the Superintending Engineer's sanction aggregated Rs. 13,654, which was largely due to damage caused by the cyclone of October 1892.

The undernoted table shows the distribution of the remission year by year, and under each canal:—

YEAR.	Kendrapara Canal system.	Taldunda Canal system.	High Level Canal, Range I.	High Level Canal, Range II, including Jajpur Canal.	High Level Canal, Range III.	Total.
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
1886-87 ...	324 8 5	199 9 2	17 6 7	8 3 6	...	549 11 8
1887-88 ...	1,853 9 11	95 7 11	927 0 4	...	42 15 4	2,919 1 6
1888-89 ...	2,313 7 4	1,290 2 10	1,245 15 1	115 1 11	140 6 11	5,135 2 1

Total ...	24,286 6 6	18,430 1 11	7,167 2 1	197 9 9	2,461 2 6	52,542 6 9

REVENUE ESTABLISHMENT.

25. The cost of the revenue establishment for the last five years is given in the following statement:—

	1888-89.	1889-90.	1890-91.	1891-92.	1892-93.
1	2	3	4	5	6
Establishment under Deputy Collector.	Rs.	Rs.	Rs.	Rs.	Rs.
Permanent establishment, including travelling allowance	21,448	22,116	21,848	22,014	31,086
Temporary establishment	9,941	19,112	17,451	17,504	16,020
Contingencies	2,889	4,482	2,928	3,458	4,098
Headmen's fees	1,680	2,244	2,803	6,591	20,040
Establishment under Executive Engineer.					
Permanent and temporary establishment ...	3,052	3,398	3,417	3,447	5,930
Water-regulation establishment	4,151	4,150	4,144	4,127	3,274
Total ...	43,161	55,502	52,591	57,141	80,448
Collections of water-rates and miscellaneous revenue by the Canal Revenue Department	1,60,328	2,09,823	2,19,692	2,28,451	3,73,244
Percentage ...	26·9	26·4	23·9	25·0	21·0

The increased cost of establishment was, as previously remarked, mainly owing to the payment of arrears of headmen's fees due on irrigation in former years. There has, however, been some increase in the cost of establishment owing to the introduction of a new system which has in increased efficiency more than repaid the extra expenditure.

NAVIGATION.

26. The tollage receipts of each of the canal systems for the last five years are shown below:—

YEAR.	TALDUNDAH CANAL SYSTEM.		KENDRAPARA CANAL SYSTEM.		HIGH LEVEL CANAL, RANGE I.		HIGH LEVEL CANAL, RANGE II.		HIGH LEVEL CANAL, RANGE III.		JAJPUR CANAL.		TOTAL.	
	Number of miles open.	Tollage receipts.	Number of miles open.	Tollage receipts.	Number of miles open.	Tollage receipts.	Number of miles open.	Tollage receipts.	Number of miles open.	Tollage receipts.	Number of miles open.	Tollage receipts.	Number of miles open.	Tollage receipts.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
	No.	Rs.	No.	Rs.	No.	Rs.	No.	Rs.	No.	Rs.	No.	Rs.	No.	Rs.
1888-89	31	4,310	75	53,786	33	6,042	12½	3,503	19	1,801	6½	99	177	69,830
1889-90	31	4,42 6	75	60,245	33	8,380	12½	3,433	19	1,386	6½	163	177	78,039
1890-91	31	2,148	75	86,907	33	12,229	12½	3,185	19	2,174	6½	318	177	1,06,961
1891-92	55½	4,357	78	98,402	33	12,854	12½	3,027	19	1,775	6½	286	204½	1,20,761
1892-93	55½	6,534	78	78,600	33	15,278	12½	3,105	19	1,761	6½	275	204½	1,00,503

The decrease in the total tollage receipts is due chiefly to the diminished exports from False Point caused by the high price of grain in the local market.

The up traffic in salt largely increased, while the down traffic was only half that of the previous year.

TRAFFIC.

The following table details the traffic (excluding the transport service) of all the canals in Orissa for the last ten years:—

	1883-84.	1884-85.	1885-86.	1886-87.	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.	1892-93.
1	2	3	4	5	6	7	8	9	10	11
Number of miles open ... No.	164½	164½	170½	170½	170½	177	177	177	204½	204½
Toll collections .. . Rs.	61,602	52,764	64,003	58,664	66,028	60,830	78,039	1,06,061	1,20,761	1,00,503
Rate of toll per mile ... ,,	374·4	320·8	375·9	344·1	390·7	394·5	440·9	604·3	589·8	490·8
Number of boats plying cargo and passenger No.	15,307	18,768	20,602	14,311	12,084	11,475	11,937	12,905	12,046	13,325
Tonnage of cargo and passenger boats . . Tons.	148,855	157,017	180,142	128,308	176,998	153,074	186,019½	250,943	200,001½	239,583
Estimated value of cargo, including rafts ... ... Rs.	47,59,655	44,80,105	46,38,753	41,81,080	50,32,093	47,40,967	48,68,255	85,21,551	95,49,756	84,09,728

27. During the year the cost of working the transport service amounted to Rs. 17,297 and the actual receipts were Rs. 18,891. The service therefore, which has hitherto always worked at a loss, worked at a profit of Rs. 1,594. The working charges under miscellaneous include Rs. 5,417 as tollage debited to the account by book adjustment. If this amount be excluded, the profit would amount to Rs. 7,011 against Rs. 2,521 in 1891-92. TRANSPORT SERVICE.

28. The miscellaneous receipts for the last five years are shown in the following statement:— MISCELLANEOUS RECEIPTS.

DETAILS.		1888-89.	1889-90.	1890-91.	1891-92.	1892-93.
1		2	3	4	5	6
		Rs	Rs.	Rs.	Rs.	Rs.
Sale of water		41	243	222	56	158

	Total ...	14,242	15,143	13,708	17,843	26,532

29. The charges for works, and maintenance and repairs during the year were Rs. 2,39,483 against Rs. 1,75,467 in the previous year distributed as in the following statement:— MAINTENANCE AND REPAIRS

	1890-91.	1891-92.	1892-93.
1	2	3	4
	Rs.	Rs.	Rs.
Extensions and improvements	11,081	8,679	9,123
Head-works	74,407	48,154	53,456
Main canals	90,592	82,741	1,23,060
Distributaries	21,992	15,324	30,033
Drainage and protective works	12,676	10,389	11,997
Cost of working transport service	11,478	10,180	11,814
Total ...	2,22,226	1,75,467	2,39,483

The amount under extensions and improvements includes a sum of Rs. 8,172 expended during the year in remodelling the Byturni weir shutters on the Sone pattern.

HEAD-WORKS.

30. The cost of maintenance of the weirs was Rs. 42,666 out of the total Rs. 55,125 spent on head-works. Details are given below:—

NAME OF WEIR.	Length.	EXPENDITURE.			RATE PER RUNNING FOOT.		
		1890-91.	1891-92.	1892-93.	1890-91.	1891-92.	1892-93.
1	2	3	4	5	6	7	8
	Feet.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Naraj	3,833	4,728	3,194	4,031	1·23	0·83	1·05
Mahanadi ...	6,349	33,340	19,484	15,136	5 25	3 07	2·38
Beropa	1,980	7,616	8,433	9,546	3·85	4·27	4·77
Brahmini... ...	4,000	4,302	2,721	2,985	1·08	0·69	0·74
Pattia	783	4,194	2,538	3,224	5·36	3·39	4·11
Byturni	1,026	3,792	1,244	4,604	3·70	1 21	4·48
Burra	526	4,450	1,067	3,140	8·46	2·02	5·97
Total of all weirs...	18,497	62,422	38,681	42,666	3·37	2·09	2·30

The cause of the excess in the expenditure on head-works is summarised as follows by the Superintending Engineer:—

"*Naraj weir.*—Extra expenditure incurred on repairs to shutters and damage caused by flood.

Mahanadi weir.—Expenditure less on ordinary repairs, and only a small portion of flood damage was charged during the year.

Beropa.—Extensive repairs were done to the tail apron of the right shore sluice, and also to the weir.

Brahmini.—Expenditure normal.

Pattia.—Additional packing below the line of cribs was required.

Byturni.—The apron was scoured in five places during the high flood, which were repaired with gabions filled with rubble.

Burra.—A large sum was expended in repairing the shutters."

MAIN AND BRANCH CANALS.

31. The expenditure on each canal for the last three years is shown below:—

CANALS.	1890-91.			1891-92.			1892-93.		
	Miles.	Cost.	Per mile.	Miles.	Cost.	Per mile.	Miles.	Cost.	Per mile.
1	2	3	4	5	6	7	8	9	10
	No.	Rs.	Rs.	No.	Rs.	Rs.	No.	Rs.	Rs.
Kendrapara	39	30,723	787	39	24,459	627	39	40,132	1,029
Ditto extension ...	15	1,835	122	15	2,442	163	15	7,630	509
Gobri	15	8,442	562	15	10,286	685	15	7,747	516
Do. extension	6	14,406	2,401	9	7,516	835	9	5,008	556
Pattamundi	47	9,972	212	47	4,367	93	47	8,526	181
Taldundah	27	6,471	239	51½	7,587	146	51½	14,051	271
Machgong	32	5,495	172	32	6,071	206	32	11,163	349
High Level, Range I ...	33	12,017	364	33	9,100	277	33	8,914	270
Ditto, do. II ...	12½	3,787	300	12½	4,071	326	12½	6,836	547
Ditto, do. III ...	19	5,589	294	19	4,907	258	19	6,870	362
Jajpur Canal	6½	1,033	158	6½	1,275	196	6½	1,932	297
Total ...	253	99,746	395	279½	82,741	295	279½	1,18,818	425

The expenditure was in almost every case in excess of that of the previous year. The causes, fully described by the Superintending Engineer, were briefly as follows. On the Kendrapara, Pattamundi, Taldunda and Machgong canals, the damages caused by the great Mahanadi flood of July 1892 and by the cyclone of that year were considerable and necessitated a heavy outlay in repairs. A portion of the Kendrapara canal bank had to be raised to bring it above high flood level, and extra expense was incurred in revetting the inner banks of that canal and in silt-clearance from a sluice channel. The renewal of the Beribatty lock-gates on the Taldundah Canal and the dredging of silt, the result of breaches, were also costly works.

On the High Level Canal a very high flood in the Pattia caused much damage, and the repairing of this and the increased cost of masonry works explain the increased maintenance charges.

DISTRIBUTARIES.

32. The average mileage rate for the maintenance of distributaries was Rs. 39·06 as compared with Rs. 20·94 in the previous year:—

	1890-91.			1891-92.			1892-93.		
	Miles.	Cost.	Per mile.	Miles.	Cost.	Per mile.	Miles.	Cost.	Per mile.
1	2	3	4	5	6	7	8	9	10
DISTRIBUTARIES.	No.	Rs.	Rs.	No.	Rs.	Rs.	No.	Rs.	Rs.
Kendrapara Canal System	357	9,975	22·34	357	6,574	18·41	357	14,426	40·49
Taldundah Canal	71½	1,953	27·31	71½	1,186	16·30	71½	3,784	52·92
Machgong Canal	122½	4,084	33·41	122½	2,753	22·52	122½	6,034	41·17
High Level Canal, Range I	131½	3,961	30·18	131½	2,603	20·19	131½	2,945	22·43
Ditto, do. II	.....	.....	.....	.....	.....	.....	.....	.....	.....
Ditto, do. III	49½	2,019	4·80	49½	2,168	43·80	49½	2,164	43·71
Pattamundi Canal	... ..	.....	.....	.....	.....	... ..	37½	680	18·25
Total ...	731½	21,992	30·06	731½	15,324	20·94	768½	30,033	39·06

The lengths of distributaries in the above are those which have been brought on the revenue account, and consequently differ from the lengths given in paragraph 13 which include all so far advanced as to be fit for use, whether the capital account is still open or not.

The increased cost of distributaries was due to the expenditure on repairs to flood damage and to the thorough repairs of the beds of the distributaries which were levelled, cleaned from silt, and supplied with datum blocks, and the outlets provided with shutters.

DRAINAGE AND PROTECTIVE WORKS.

33. The most important works under this head were raising the Kendrapara canal and flood embankments, and the repairs to the embankments on the High Level Canal. The total expenditure on drainage and protective works was Rs. 14,525 against Rs. 10,389 in 1891-92.

DREDGING AND SILT-CLEARING.

34. The cost of silt-clearing and dredging during the year 1892-93 is given in the following table:—

	Silt-clearing.			Dredging.		
	Quantity.	Cost.	Rate per 1,000 c. ft.	Quantity.	Cost.	Rate per 1,000 c. feet.
1	2	3	4	5	6	7
	C. feet.	Rs.	Rs.	C. feet.	Rs.	Rs.
Kendrapara Canal ...	173,850	7,568	4·22	630,817*	4,286	6·79
,, Extension ...	...	...	...	...	...	...
Pattamundi Canal	104,270	209	2·00	...	...	...
Gobri Canal	153,427	338	2·20	...	...	...
,, Extension	202,294	638	3·15	157,831	1,008	6·89
High Level Canal, Range I ...	787,806	2,034	2·58	...	...	...
Taldundah Canal	556,448	1,964	3·53	622,984	2,959	4·75
Machgong Canal	84,581	158	1·87	...	...	...
High Level Canal, Range II ...	356,249	891	2·50	...	...	...
Jajpur Canal	...	...	...	...	...	...
High Level Canal, Range III ...	497,783	1,244	2·50	...	...	...
Total	4,536,708	15,044	3·31	1,411,632	8,333	6·90

* Inclusive of 257,626 cubic feet hand dredged during the rains.

Compared with the previous year the rate for silt clearing was slightly higher on the Gobri Extension and High Level Canals, and less on all the other canals.

TELEGRAPH OFFICES.

35. Three combined post and telegraph offices were opened during the year at Jagatpur, Kendupatna and Aquapada, this department giving a guarantee for three years of a gross receipt of Rs. 400 from each office and undertaking

to make good by a charge against the canal revenue any difference between that sum and the actual receipts.

A statement is subjoined showing the working of each of the Telegraph offices :—

Name of Telegraph office.	Service telegrams.		Private telegrams.		Total.		Number of telegrams received.		Date of opening of the office.
	Number.	Amount.	Number.	Amount.	Number.	Amount.	Service.	Private.	
						Rs. A. P.			
Jagatpore ...	88	...	79	...	167	149 6 0	99	40	1st July 1892.
Kendupatna ...	...	...	...	...	420	440 13 0	283		Ditto.
Aquapada ...	52	...	120	...	172	188 15 0	58	57	3rd July 1892.

The Superintending Engineer remarks :—

"The receipts from the Kendupatna Telegraph office exceeded the amount guaranteed by Government. This office it is reported is now being largely used by the merchants and other private parties, and the total receipts from April to August 1893 amounted to Rs. 206. Additional accommodation for the office has been asked for, which is under consideration, and traffic in the other two offices is reported to have increased since April 1893."

PLANTATIONS. 36. The following table shows the state of the plantations for the last two years :—

Year.	Trees over 12 feet.	Saplings from 4 to 12 feet.	Seedlings below 4 feet.	Total.
1	2	3	4	5
	No.	No.	No.	No.
1891-92 ...	66,307	34,469	23,244	124,020
1892-93 ...	78,976	31,018	32,462	142,456

MIDNAPORE CANAL.

CAPITAL ACCOUNT. 37. The Capital, Interest, and Revenue Accounts of this Canal are given below :—

1.—CAPITAL ACCOUNT.

Heads of Account.	Outlay during 1892-93.	Outlay to the end of 1892-93.
1	2	3
	Rs.	Rs.
Direct charges	...	82,90,269
Less—Receipts on Capital Account	...	31,558
Total direct charges ...	...	82,58,711
Indirect charges	...	1,84,133

This canal is no longer classed as a productive work, and all capital expenditure is now, in accordance with the orders of the Government of India, charged to the head 43—Minor Works and Navigation, and provided from Provincial funds. There was no expenditure under this head during the year under review.

INTEREST ACCOUNT.

2.—INTEREST ACCOUNT.

LENGTHS OF CANALS AND DISTRIBUTARIES.

40. No alteration was made in the length of the canal open for navigation during the year, which was 72 miles, nor were any additions made to the areas protected or commanded. The following table gives particulars of the canals and distributaries and the areas protected, commanded, irrigable, and assessed :—

NAME OF CANAL.	1891-92.							1892-93.							
	Navigable canals.	Canals for irrigation only.	Distributaries and village channels.	Area protected from floods.	Area under command.	Area provided with distributaries.	Area irrigated.	Percentage of area irrigated to area provided with distributaries.	Navigable canals.	Canals for irrigation only.	Distributaries and village channels.	Area protected from floods.	Area under command.	Area provided with distributaries.	Area irrigated.	Percentage of area irrigated to area provided with distributaries.

Do. 1891-92 ...	42·51	30·07	44·84	42·50	39·97	.....

43. The floods in the Cossye and Silye rivers were not abnormally high and did no damage. The highest gauge-readings of the river Cossye at Midnapore and Panchkurah above and below weir, and those of the river Floods.

Rupnarain at Dainan and Kantapukhur, are shown in the statement below, the readings being the height in feet above mean sea level :—

River.	Locality.	1891-92.		1891-92.		Highest recorded.	
		Date.	Reading.	Date.	Reading.	Date.	Reading.
1	2	3	4	5	6	7	8
Cossye	Midnapore above weir	14th August 1891 ...	97·80	17th June 1892 ...	86·10	1868 ...	92·30
	Ditto below weir	Ditto ...	80·00	Ditto ...	79·00	Do. ..	91·55
	Panchkurah above weir	Ditto ...	33·50	19th July 1892 ...	32·10	10th October 1876 ...	35·00
	Ditto below weir	Ditto ...	31·20	Ditto ...	31·60	Ditto ...	34·20
Rupnarain	Dainan	19th August 1891 ...	14 20	9th September 1892 ..	15·40	28th August 1885 ...	17·36
	Kantapukhur	Ditto ...	13·80	Ditto ...	15·20	Ditto ...	16 80

The greatest discharge of the Cossye during the year was 38,778 cubic feet per second on the 17th June 1892. After July the discharge diminished rapidly. The minimum discharge occurred on the 1st February 1893, when only 21 cubic feet per second was registered.

IRRIGATION.

44. The area of each crop irrigated during 1891-92 and the nine previous years exclusive of unleased areas compared with the yearly rainfall is shown below :—

Year.	Kharif.	Rabi.	Perennial.	Total.	Rainfall.	
1	2	3	4	5	6	
	Acres.	Acres.		Acres.	Inches	
1883-84 ..	97,919	...	...	97,919	47·99	*
1884-85 ...	69,294	1,835	...	69,294	53·01	*
1885-86 ...	68,769	..	...	70,604	81·28	*
1886-87 ...	69,762	...	...	69,762	53·05	
1887-88 ..	64,702	1,162	...	65,864	22·08	†
1888-89 ...	66,408	3,369	...	69,777	62·13	†
1889-90 ...	68,370	440	...	68,810	44·47	†
1890-91 ...	82,002	...	...	82,002	55·68	†
1891-92 ...	83,905	68	...	83,973	51·81	†
1892-93 ...	91,217	...	...	91,217	41·28	†

* Mean of observations of two stations—Midnapore and Panchkurah.
† Average of four stations throughout the irrigated areas under the Midnapore and Panchkurah weirs.

The area irrigated during the year was 91,217 acres, as compared with 83,973 acres of the previous year, thus showing an increase of 7,244 acres. The Superintending Engineer gives the following extracts from the Executive Engineer's report :—

"Owing to the almost total failure in the rains from August to October, the demand for canal irrigation during these months was very great. The only way it was possible to meet this demand was to supply the distributaries in rotation, and even then in the long distributaries, irrigation would be only carried out from half their lengths at one time. When the demand on the upper half of a distributary had been fairly met, all the outlets were taken out and the water forced down to the lower half. This was the only way in which anything like a fair distribution of the available supply could be effected. The removal of outlets produced some discontent among the lessees, who in one or two instances proceeded to cut the distributary banks. They were, however, caught in the act and handed over to the police and punished."

This is not a satisfactory system of management, but until masonry outlets are provided, at any rate in the upper halves of distributaries, it appears unavoidable.

The Executive Engineer states :—

"The discharge of the Cossye river went down on the 23rd October to 138 cubic feet per second, while the average discharge of the whole month was about 700 cubic feet per second. It was at this time that the greatest demand for irrigation arose; 90,000 acres were under lease, and every man wanted his fields to be irrigated at once. Excepting a few acres on high lands, which it was impossible to get at, the whole of the leased area received from two to four waterings during the season. The outturn was on most distributaries magnificent. Indeed, the cultivators state that they have not reaped such an excellent harvest for a very long time."

Unirrigated crops in this district to the south and west of Midnapore almost entirely failed.

LEASES.

45. The areas under lease at the beginning of the year, the progress of leasing during the year, and the leases which remained in force after its close, are given in the following table. The figures do not include assessments for illicit irrigation for which leases were executed after 31st March 1892:—

PARTICULARS.	KHARIF.			Sugarcane and other perennial irrigation.	Rabi.	Total.
	Long leases.	Annual leases.	Surreptitious irrigation.			
1	2	3	4	5	6	7
	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.
Leases in force at the end of 1891-92	83,905	68	...	...	...	83,973
,, which expired at the end of 1891-92 ...	17,133	68	...	...	...	17,201

DUTY OF WATER.

46. The duty obtained from the gross discharge during the past three years is detailed in the following statement:—

PARTICULARS.			Under Midnapore weir.	Under Panchkurah weir.
1			2	3
1890-91	Kharif ...	Acres	76,645	4,981
		Duty on gross supply ...	160	89
1891-92	Kharif ...	Acres ...	77,631	5,898
		Duty on gross supply ...	172	64
1892-93	Kharif ...	Acres	82,642	7,690
		Duty on gross supply ...	138	54

The duty is still high, though owing to the scanty rainfall it is below that obtained in the preceding year.

CROP EXPERIMENTS.

47. No experiments on outturn of crops were carried out during the year.

ASSESSMENTS COLLECTIONS, AND BALANCES.

48. The balances, assessments, and recoveries of water-rates on the Midnapore Canal during the last five years are shown in the following statement:—

YEAR.	Amount outstanding at commencement of year.	Amount falling due during the year.	Total for recovery.	Cash realization.	Remitted or written off.	Balance at the end of the year.
1	2	3	4	5	6	7
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1888-89 ...	56,493	1,23,337	1,79,830	91,016	4,041	84,773
1889-90 ...	84,773	1,17,202	2,01,975	1,16,424	34,907	50,644
1890-91 ...	50,644	1,30,595	1,81,239	1,15,438	834	64,967
1891-92 ...	64,967	1,29,822	1,94,789	1,32,981	2,836	58,972
1892-93 ...	58,972	1,39,990	1,98,962	1,49,057	1,338	48,567

The figures in the above statement have been furnished by the Special Deputy Collector in charge of the new Revenue Division formed during the year under the orders of the Superintending Engineer, and agree with those given in the Examiner's memorandum. They show an improvement in all items. The assessments of the year are Rs. 10,168 and the realizations Rs. 16,076 in excess of the figures of the previous year, while the remissions are Rs. 1,498 less than in 1891-92, and the balance for recovery has decreased by Rs. 10,415. This balance, however, was much in excess of what it should have been with so small a demand. Since the close of the year it has been greatly reduced. The failure of rainfall leading to a large demand for water is the cause of the increase in assessments.

ARREARS. 49. In the following table, arrear and current dues are distinguished, the sums composing the demand being distributed by the years in which they were earned, and the proportions of each year's earnings, recovered or remitted, are separately shown:—

YEAR.	Amount previously due and unrealised.	Amount falling due within the year.	Total amount due to end of the year.	ADJUSTMENT OF THE YEAR.				Balance unrealised at end of the month of March 1893.
				Cash recoveries.	Remission authorised.	Written off as being irrecoverable.	Total.	
1	2	3	4	5	6	7	8	9
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
1888-89 ..	625 5 3	...	358 13 9	80 1 6	8 0 3		88 1 9	270 12 0
	−266 7 6							
1889-90 ...	0 7 9	43 6 0	275 9 9	263 11 6	11 10 6	...	275 6 0	0 3 9
	−231 12 0							
1890-91 ...	4 441 15 3	832 5 0	5,908 14 3	4,020 4 6	586 15 3	...	4,607 3 9	701 10 6
	+34 11 6							
1891-92	51,994 10 9	2,345 8 9	56,150 3 6	51,501 11 6	731 5 9	..	52,231 1 3	3,917 2 3
1892-93		1,36,868 13 9	1,36,868 13 9	93,191 9 9	.		93,191 9 9	43,677 4 0
Total .	56,972 5 6	1,30,990 1 6	1,93,963 7 0	1,49,057 6 9	1,337 15 9		1,50,395 6 6	48,567 0 6

These figures show that the total amount collected or otherwise adjusted during the year was 75·5 per cent. of the amount due for water-rates, against a percentage of 69·8 last year.

REMISSIONS. 50. The remissions granted during the year were as follows:—

	Rs.
By Collector under rule 27	1,135
Remissions granted by officers disposing of certificate objections ..	241
Ditto by Government, *vide* letter No. 4391.A., dated the 2nd April 1892	223
Total ...	1,599

Of this sum, Rs. 261 are for miscellaneous revenue. Deducting this amount from the total remissions, there remains a balance of Rs. 1,338, which is the figure shown in the foregoing statements.

CERTIFICATES 51. The following statement gives particulars of the number of certificates issued and disposed of during the year:—

PARTICULARS.	MIDNAPORE.			
	1891-92.		1892-93.	
	No.	Amount.	No.	Amount.
1	2	3	4	5
Cases for disposal.		Rs.		Rs.
1. Cases pending at the close of the preceding year ...	1,958	6,085	449	3,572
2. Cases instituted during the year	3,428	17,765	1,223	9,080
Total ...	5,386	23,850	1,672	12,652
Cases disposed of.				
1. By being struck off, owing to the demand having been remitted.	1,422	6,239	153	1,384
2 By being wholly satisfied	3,515	14,039	1,163	9,306
Total ...	4,937	20,278	1,316	10,690
Balance outstanding at the close of the year ...	449	3,572	356	1,962

The decreases which occurred in the number of cases instituted and the balance outstanding at the end of the year are satisfactory.

Out of the total number of 1,672 certificates for disposal, 142 were for surreptitious irrigation, and 1,530 for satisfaction of demands under kabuliyats. Of the 153 cases struck off, 142 were on account of illicit irrrigation and 11 for satisfaction of domands under kabuliyats. The percentage of disposals is 78·1, against 91·66 in the preceding year. Out of 356 cases pending on the 31st March 1893, only 25 remained pending on the 14th August 1893.

COMPLAINTS.

52 The following table shows the number of complaints filed during the last two years, and how they have been disposed of:—

Year.	Class of complaints.	Received.			Disposed of.			Balance pending at end of the year.		
		Balance pending from previous year.	Received during the year.	Total.	Allowed.	Refused.	Total.	Received during previous years.	Received during the year.	Total.
1	2	3	4	5	6	7	8	9	10	11
1891-92	Ordinary remission	103	474	577	112	407	519	...	...	58
	Other complaints	67	153	219	26	156	182		.	37
	Total	170	626	796	138	563	701	...		95
1892-93	Ordinary remission	58	182	240	60	152	212	...	...	28
	Other complaints	37	159	196	45	110	155	...	...	41
	Total ...	95	341	436	105	262	367	...	..	69

The number of cases received during the year was only 341 compared with 626 of 1891-92. Of the total number of 436 cases, of which 95 were complaints pending on the 1st April 1892, 367 were disposed of during the year, and of this number 28·6 per cent. were established and 71·4 per cent. rejected.

REVENUE ESTABLISHMENT.

53. The following statement compares the cost of the revenue establishment during the last five years:—

Establishment under the Collector.	1888-89.	1889-90.	1890-91.	1891-92.	1892-93.
1	2	3	4	5	6
	Rs.	Rs.	Rs.	Rs.	Rs.
Permanent establishment, including travelling allowances ...	20,474	18,984	19,757	17,947	20,263
Temporary establishment ...	660	604	649	682	441
Contingencies	1,459	1,253	1,260	1,154	1,014
Headman's fees	2,135	49	60	335	375
Total ...	24,728	20,890	21,726	20,118	22,093

In addition to the amounts specified in the foregoing table, the following sums were paid by the Executive Engineer for water regulation:—

	Water-regulation.	
	Permanent.	Temporary.
	Rs.	Rs.
1888-89	546	653
1889-90	480	533
1890-91	488	595
1891-92	473	682
1892-93	419	500

The cost of collection was 14·07 per cent. on the amount realised, against 15·1 per cent. in 1891-92.

NAVIGATION

54. The total tollage receipts of the year were Rs. 1,14,141, against Rs. 1,32,572 in 1891-92. The Superintending Engineer makes the following comments on this decrease:—

"The total tollage receipts of the year were Rs. 1,14,141, against Rs 1,32,572 of the year before. The revenue from tolls on private boats was slightly less as compared with that of the last year, but the total number of passengers was far in excess, viz. 205,804, against 163,856 for 1891-92. The tolls realised from the Calcutta Steam Navigation Company show a decrease of Rs. 12,114 and that from country boats Rs. 6,317. The falling off in the collections of the year is solely due to the failure of the rice crop in parts of the Midnapore district. There was hardly any export of rice or paddy from the south and south-west of Midnapore from October to January. While the receipts from rice and paddy fell, those from other items of import, such as metal, oil-seeds, salt and miscellaneous goods, show an increase over the previous year."

There was a decrease of 14,514 tons of rice and 2,485 tons of paddy carried on the Midnapore Canal as compared with that carried in the previous year.

TRAFFIC.

The usual particulars regarding the traffic carried in vessels, including those of the Calcutta Steam Navigation Company for the last ten years are given below:—

DESCRIPTION.		1883-84.	1884-85.	1885-86.	1886-87.	1887-88.	1888-89.	1889-90.	1890-91	1891-92.	1892-93.

Total	...	11,299	13,016	9,004	19,147	16,979

MAINTENANCE AND REPAIRS.

56. The following figures show the actual cost of maintenance and repairs during the last three years distributed by subheads:—

		1890-91.	1891-92.	1892-93.
		Rs.	Rs.	Rs.
Head works, including buildings	...	11,610	8,373	9,965
Main canal and branches	...	77,323	1,18,241	59,802
Distributaries ...	...	11,851	10,365	12,612
Drainage and protective works	...	1,151	1,239	2,090
Working steamers ...	...	3,103	3,044	2,961
Total	...	1,05,038	1,41,262	87,430

57. The expenditure on the Midnapore and Panchkurah head works during the year was Rs. 7,619 and Rs. 2,346, respectively, against Rs. 4,582 and Rs. 3,700 in last year. On weirs the expenditure was at the rate of Rs. 2·08 per foot run at Midnapore, and Rs. 0·46 at Panchkurah, against Rs. 0·30 and Rs. 1·84, respectively, last year. HEAD WORKS AND WEIRS.

58. The outlay on repairs to the main canal, including that on head works, on working steamers, and on drainage works, was Rs. 74,818 against Rs. 1,30,897 in the previous year. This large decrease in the expenditure on general repairs was mainly owing to the thorough repairs carried out in the preceding year when there was a long closure, but is also partly attributable to close supervision. The expenditure on tools and plant was Rs. 29,885 as compared with Rs. 51,761 of the previous year. MAIN CANAL.

59. On distributaries the expenditure on repairs was Rs. 12,612, or Rs. 44 per mile, against Rs. 10,365, or Rs. 36 per mile, in the previous year. The increase was caused by the bringing into use again of one or two distributaries which had practically been abandoned. DISTRIBUTARIES.

60. The mileage rates for the last ten years, both for main canals and distributaries, are shown in the following table:—

Year.	Main Canal and Head Works, &c.			Distributaries.		
	Length of canal open.	Total cost of work.	Rate per mile.	Length of distributary channels.	Total cost of work.	Rate per mile.
1	2	3	4	5	6	7
	Miles.	Rs.	Rs.	Miles.	Rs.	Rs.
1883-84 ...	48	1,06,425	2,216	277	21,195	76
1884-85 ...	48	1,15,171	2,399	277	18,865	68
1885-86 ...	48	1,10,350	2,299	277	14,424	52

1891-92 ...	48	1,30,897	2,727	283	10,365	36
1892-93 ...	48	74,818	1,558	289	12,612	44

61. The quantity of silt dredged during the year was 3,825,213 cubic feet, at an average rate of Rs. 5·9 per 1,000 cubic feet, whereas the quantity during the previous year was 4,030,769 cubic feet, and the rate Rs. 4·76. The falling off was due to the dredgers being laid up for repairs for considerable periods DREDGING & SILT CLEARIN

The work done by the steam dredgers during the year under review and the cost of working them is shown below:—

Name of dredger.	Quantity of earth dredged.	Actual cost of lifting.	Cost of removing—		Total.	Lifting rate per 1,000 cubic feet.	Removing rate per 1,000 cubic feet.	Total rate per 1,000 cubic feet
			Steam hopper-barges.	Ordinary hopper-barges.

PLANTATIONS.

62. The state of the plantations for the last two years is shown in the following statement:—

YEAR.	Trees upwards of 12 feet high.	Saplings between 4 and 12 feet.	Seedlings below 4 feet.	Total.
1	2	3	4	5
	No.	No.	No.	No.
1891-92 ...	10,082	10,351	2,452	22,885
1892-93 ...	10,296	10,216	2,346	22,858

GENERAL RESULTS.

63. The results of the year may be considered on the whole satisfactory. There was a slight falling off in the receipts due to the diminished exports, but there was also a decrease in the cost of maintenance, and the result is a net profit of Rs. 84,451 against Rs. 18,371 of the previous year. The unusually scanty rainfall in September and October which was noticed in 1891-92 was even more pronounced during the year under review and led to a similarly excessive demand for water for kharif irrigation. It is satisfactory to note that 98 per cent. of the leased area was thoroughly irrigated, notwithstanding the difficulties experienced in meeting the heavy demands, and that bumper crops resulted.

HIJILI TIDAL CANAL.

64. The capital, interest and revenue accounts of this canal are given below:—

CAPITAL ACCOUNT.

1.—CAPITAL ACCOUNT.

HEADS OF ACCOUNT.	Outlay during 1892-93	Outlay to end of 1892-93.
1	2	3
DIRECT CHARGES.	Rs.	Rs.
I.—Works	33,820	15,92,236
II.—Establishment	2,547	5,35,919
III.—Tools and plant	1,952	1,21,004
IV.—Suspense accounts	.....	.....
Loss by exchange	.....	22,790
Total ...	38,319	22,71,949
V.—*Less*—Receipts on capital account	.....	925

INDIRECT CHARGES.		
Capitalization of abatement of land revenue	.. ...	11,210
Leave and pension allowances	357	45,655
Total—indirect charges ...	357	56,865

The works in connection with the remodelling scheme for this canal have been practically completed, with the exception of the new lock at Kalinagar and the arrangements for the supply of Range II. It is expected that a definite decision as to the manner in which these works should be carried out will shortly be arrived at.

Total working expenses ..	48,033	38,248	50,147	22,735	66,976	78,040	26,722	53,574	50,683	33,089
Net revenue ...	15,497	5,259	2,308	30,759	(—)25,118	(—)22,943	15,230	(—)25,530	(—)13,768	20,301

The cost of maintenance was Rs. 33,089 against Rs. 50,683 of the previous year. The high cost of maintaining this canal has been chiefly owing to the heavy influx of silt. In 1892-93 owing to the improved feeding arrangements by means of supply channels there was no closure for purposes of silt clearance. It will, however, probably be necessary to close the canal in the cold weather of the current year.

RAINFALL. 66. The rainfall at Contai station was 52·71 inches against 49·97 inches in 1891 92.

FLOODS. 67. There were no very highfloods in any of the rivers crossed by the Hijili Tidal Canal during the year. The highest gauge readings of the rivers Hooghly, Haldi, and Russulpore are shown in the following statement:—

NAME OF RIVER.	Locality.	1891-92.		1892-93.		HIGHEST RECORD.		REMARKS.
		Date.	Reading.	Date.	Reading.	Date.	Reading.	
1	2	3	4	5	6	7	8	9
Hooghly ...	Gewankhali ..	19th Sept. 1891	115·90	9th Sept. 1892	116·40	Cyclonic storm of 1874.	123 23	
Haldi ...	Etamugra .	Ditto	116·40	Ditto	117·20	* Not known	120·23	* Recorded on plan without date (Mr. Vertannes's).
Russulpore ...	Kalinagar	18th Sept. 1891	114 70	Ditto	115·20	20th August 1888	118·50	

NAVIGATION. 68. The usual particulars regarding the traffic on the Hijili Tidal Canal carried in vessels during the last ten years are given in the following statement. The figures include those relating to the steamers belonging to the Calcutta Steam Navigation Company:—

PARTICULARS.	1883-84.	1884-85.	1885-86.	1886-87.	1887-88	1888-89	1889-90.	1890-91.	1891-92.	1892-93.
1	2	3	4	5	6	7	8	9	10	11
Miles open .. ... No.	29	29	29	29	29	29	29	29	29	29
Toll collections ... Rs.	62,317	41,382	52,143	(a)51,904	(a)40,.06	(a)53,910	(a)40,341	(a)27,145	(a)31,348	(a)32,140
Rate of toll per mile ,,	2,148	1,427	1,798	1,734	1,338	1,700	1,390	921	1,128	1,097
Number of boats, including empty boats No	22,729	17,660	19,316	17,542	13,503	16,481	15,785	10,216	15,332	16,084
Tonnage of boats ... Tons.	196,764	145,434	163,535	149,747	124,963	165,635	134,005	91,1 4	133 575	164,220
Passengers carried .. No.	...	...	...	8,569	11,051	34,033	(b)30,242	(b)22,420	(b)27,330	(b)42,488
Estimated value of cargo, including rafts ... ... Rs.	30,48,029	30,06,853	33,74,961	31,48,830	26,13,351	33,01,123	27,30,730	20,78,972	34,97,725	38,56,550

(a) Inclusive of tolls, Rs. 1,603, Rs. 1,072, Rs. 4,580, Rs. 5,323, Rs. 3,146, Rs. 3,634 and Rs. 5,568 paid by the Calcutta Steam Navigation Company.
(b) Inclusive of passengers, 23,243, 17,554, 21,209, and 31,792, carried by the Company's steamers.

The toll-collections for the year, though still below the figures of 1883-84 and of 1888-89, indicate a decided increase of traffic. The receipts would probably have been much larger if there had not been an indifferent rice crop in Hijili. The introduction of the revised toll tarif will probably give a stimulus to the use of the canal route and still further augment the receipts.

MISCELLANEOUS RECEIPTS. 69. The miscellaneous receipts for the last five years are shown below:—

1888-89.	1889-90.	1890-91.	1891-92.	1892-93.
Rs.	Rs.	Rs.	Rs.	Rs.
1,249	1,614	899	567	1,282

The increase in the miscellaneous receipts during the year, amounting to Rs. 715, was due to the completion of the remodelling works and to the increased rents realized during the year.

DREDGING] 70. The amount of silt dredged from the Terapakia and Etamugra lock entrances, and the cost of removal is shown in the statement below:—

NAME OF DREDGER, HOPPER BARGES AND MUD PUNTS.	Cubic feet dredged	Actual cost of lifting.	COST OF REMOVING.				Lifting rate per 1,000 cubic feet.	Removing rate per 1,000 cubic feet.	Total rate per 1,000 cubic feet.	REMARKS.

Leave and pension allowances	2,580	8,75,220
Total indirect charges	2,580	9,13,131

The original Capital estimate of the Sone Canals was closed on the 30th March 1891, and works chargeable to capital which remained to be finished are being carried out under the rules laid down in Chapter XV of the Public Works Department Code. The present sanction is for Rs. 7,22,013, out of which Rs. 4,39,485 had been expended up to the close of the year. The outlay charged to Capital during the year compared with that of 1891-92 is shown in the following statement:—

I.—Works—	1891-92.	1892-93.
	Rs.	Rs.
(1) Head-works ...	2,035	4,696
(2) Main canal and branches ...	31,337	15,944

GRAND TOTAL ...	2,04,428	58,411
V.—*Less*—Receipts on capital account ...	330	2,159
Net total	2,04,098	56,252

The works which were executed during the year were:—planting trees at Dehri, the construction of permanent outlets on many distributaries, masonry crossings to carry village channels under district and other roads, the Kunjee drainage cut in the Buxar Division, several other smaller drainage projects, the construction of a quay wall at Nokha on the Buxar Canal, and several other works of less importance.

INTEREST ACCOUNT.

2.—INTEREST ACCOUNT.

	Rs.
Interest charges to end of 1891-92	1,65,88,027
Ditto for 1892-93	10,30,409

NOTE.—The details by heads of expenditure for the year 1892-93 and nine preceding years will be found in the table given in paragraph 74 following.

EARNINGS.

73. The earnings as opposed to collections and the actual outlay were as follows:—

	1891-92. Rs.	1892-93. Rs.
Earnings—		
Irrigation ...	9,82,032	8,15,158
Navigation ...	66,517	59,089
Miscellaneous ...	31,827	29,214
Total ...	10,80,376	9,03,461
Deduct refunds of revenue	4,020	3,792
Net earnings ...	10,76,356	8,99,669
Outlay ...	6,97,840	7,51,247
Profit ...	3,78,516	1,48,422

The net earnings include the actual realisations of navigation and miscellaneous revenue, together with the revenue assessed on the irrigation of the year, after deducting refunds. The demand statements for the *rabi* season were mostly despatched after the close of the financial year, but the sums due under them are nevertheless included under earnings, which shows the amount due on account of the irrigation of the year.

The collection of outstanding arrears has helped to swell the receipts. The arrear balance is now small.

74. The receipts on revenue account and working expenses of the canals for the year 1892-93 and the nine preceding years are shown in the statement below :— FINANCIAL RESULTS.

	1883-84.	1884-85.	1885-86.	1886-87.	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.	1892-93.

Net revenue .	61,648	2,26,944	4,78,644	3,04,871	(—)1,63,730	36,846	1,51,045	27,071	2,08,234	3,01,334

Compared with 1891-92 the receipts (less refunds) have increased from Rs. 9,06,074 to Rs. 10,52,581, that is, by Rs. 1,46,507, and the working expenses (direct charges) from Rs. 6,48,060 to Rs. 6,97,691, or by Rs. 49,631. Including indirect charges the net revenue has increased from Rs. 2,08,234 to Rs. 3,01,334. The increase in the working expenses was due mainly to heavy silt clearances in the lower reaches of the Arrah Canal costing over Rs. 18,000 only required every fifth or sixth year, and to increased charges for engineering and revenue establishments amounting to Rs. 19,614 and Rs. 7,187 respectively. The works carried out under the head extensions and improvements were of a minor character, chiefly alterations to bridges. The Eastern Main Canal was closed from the 28th March to the 5th May 1892, and the Western Main Canal from the 6th to the 16th May, for silt clearance, and the lower portion of the Arrah Canal was closed for six weeks for the silt clearance already alluded to.

LENGTHS OF CANALS AND DISTRIBUTARIES.

75. The following table shows the lengths of canals and distributaries in operation, and the areas commanded, provided with distributaries, and irrigated, at the close of the last two years:—

Name of Canal.	1891-92.								1892-93.							
	Navigable canals.	Canals for irrigation only.	Distributaries and village channels.	Area protected from flood.	Area under command.	Area provided with distributaries.	Area irrigated.	Percentage of area irrigated to area provided with distributaries.	Navigable canals.	Canals for irrigation only.	Distributaries.	Area protected from flood.	Area under command. The Government village channels which in 1891-92 were classed as village channels, have since the close of that year been classed as distributaries. The total length of distributaries was only increased by three quarters of a mile during the year, and the canals are now fully provided with them.

VILLAGE CHANNELS AND OUTLETS.

76. The length of village channels made by villagers up to the end of 1892-93 and the number of outlets in use during the year are shown below :—

Division.	Total length of village channels completed up to end of 1892-93.	Total number of temporary and permanent outlets in use during 1892-93.	Number of permanent outlets.
1	2	3	4
	Miles.	No.	No.
Eastern Sone	381½	1,511	786
Arrah	833½	2,255	1,373
Buxar	659	1,458	589
Total, 1892-93 ...	1,874	5,224	2,748
Total, 1891-92 ...	1,987	5,943	2,356

The decrease in the length of channels in the Buxar Division is due to the fact that an unusually large number of channels was made during 1891-92 to irrigate the rabi crop of that year, when there was an extraordinary demand for water. These channels have now disappeared. Although there has been a reduction of 719 in the total number of outlets in consequence of the reduced rabi area of the year, which led to the removal of many temporary outlets, it is satisfactory to note that the number of permanent outlets has risen from 2,356 to 2,748.

77. The rainfall during the last five years registered at 22 stations on, or in the neighbourhood of, the Sone Canals is shown below :— RAINFALL.

		Average of 22 Stations.				
		1888-89.	1889-90.	1890-91.	1891-92.	1892-93.

* Hot weather crop.

The copious rainfall that occurred during the rabi season accounts for the marked decrease in the area of rabi irrigation, compared with that of the previous year, when the rainfall was very scanty. The Superintending Engineer remarks:—

"It is indeed rather surprising that the rabi area was so great as it was, and the fact seems rather to show that the cultivators, who had been compelled by the bad season of 1891-92 to take canal water, had so far acknowledged its benefits that they took it again even in a rabi season of such abundant rainfall as that of the year under review"

The new rules under the Irrigation Act (Notification No. 42 of the 10th February 1891) which had been introduced in 1891-92 were fully in force during the year under review. Under these new rules irrigation is treated mainly by "seasons" and the rates are "season" rates, whereas the old rules treated irrigation more by crops. Under the new rules the area irrigated in any year is the sum of the areas irrigated in the three "seasons." This may lead in some cases to an apparent exaggeration of the area of a crop irrigated. For instance, if a sugarcane crop is irrigated in each of the three seasons—it is frequently irrigated in two—the total area shown under the new system as

irrigated during the year would be treble of the actual area of the crop. Although at first sight this may be held to be objectionable, it is actually correct, if it be allowed that the total area irrigated during the year is the sum of the areas irrigated in the three seasons. Under the old rules the rate for sugarcane under "annual" leases covered the irrigation of the crop in the kharif and rabi seasons, and if it was irrigated in the hot weather a separate lease was taken out. The total irrigated area of the year was found by adding the "hot weather" irrigation to other items (see appendix XIII for instance), this process really resulting in giving a total which included twice over those fields of sugarcane included in "five-year" and "sugarcane" leases which were also irrigated in the hot weather. In this, as in other respects, the old system was faulty.

On account of the change of rules and because one of the old crop rates (that for sugarcane) survived into part of 1891-92, a comparison of the areas irrigated in the two years cannot be made accurately.

80. The following statement gives the areas of each crop irrigated under annual and five-year leases up to 1891-92, and under season and long-term (seven and three-year) leases in 1892-93 under the new rules:—

Crop.		1888-89.	1889-90.	1890-91.	1891-92.	1892-93.	
1		2	3	4	5	6	
		Acres.	Acres.	Acres.	Acres.		Acres.
Kharif ...	Five-year leases ..	154,825	174,780	189,227	200,716	Long-term leases	235,637
	Annual leases ...	69,628	41,917	22,499	48,103	Season leases	39,202
	Total ...	224,453	216,697	211,726	248,819		274,839
Rabi ...	Five-year leases...	27,408	31,128	20,761	20,274	Long-term leases	36,329
	Annual leases ...	69,817	20,336	20,632	177,308	Season leases	89,866
	Total ...	97,225	51,464	41,393	197,582		126,195
Sugarcane	Five-year leases...	17,869	18,360	13,568	13,801	*	
	Annual leases ...	4,600	5,004	4,402	1,196	*	
	Total ...	22,469	23,364	17,970	14,997	...	
Hot-weather		11,762	13,757	9,925	13,325	Season leases	9,727
Grand Total ...		355,909	305,282	281,014	474,723		410,761
Total five-year leases ...		200,102	224,268	223,556	234,791	Total long-term leases	271,966
„ annual leases ...		155,807	81,014	57,458	239,932	„ season leases	138,795

* Under the new rules for the Sone Canals there are no separate leases for sugarcane. They are included in each season lease as explained above.

The total irrigation of the year 1892-93 may be stated in this way:—

	Acres.
Area irrigated under long-term leases	271,966
„ „ „ season leases	129,356
„ „ by sale by volume	5,732
„ „ without permit	3,707
Total ...	410,761

DISTRIBUTION BY DIVISIONS.

The following statement shows the areas irrigated in 1892-93 in divisions and in subdivisions :—

			Acres.	Acres.
Eastern Sone Division—				
Daudnagar subdivision	...	...	42,029	
Bikram ditto	...	...	37,632	
				79,661
Arrah Division—				
Nasriganj subdivision	...	...	37,367	
Koath ditto	...	...	53,596	
Ramnaggar ditto	...	...	52,155	
Agaon ditto	...	...	37,191	
				180,309
Buxar Division—				
Sikroul subdivision	...	...	72,915	
Jamrore ditto	...	...	53,404	
Basawan ditto	...	...	24,472	
				150,791
	Total	...	...	410,761

The year 1891-92 was the last in which any five-year leases were granted under the old rules. The new rules passed (in notification No. 42 of the 10th February 1892) by the Lieutenant-Governor under the Irrigation Act made marked changes in the system of leasing; under rule 71 the new schedule of long-term leases (schedule No. I) came into force on the 1st April 1892, and it is under this schedule that seven and three-year leases, which will in time entirely supersede the old five-year leases, have been introduced. It may perhaps be explained here that the seven-year leases are at the same rate of two rupees an acre (or Re. 1-4 a bigha) which obtained under the five-year leases, but that the three-year leases are rated at Rs. 2-8 an acre (or Re. 1-9 a bigha). In the year under review five-year leases for 44,553 acres lapsed, as they had run their course, and seven and three-year leases for a total area aggregating 65,066 acres were executed. The following statement shows by divisions the main facts with reference to these leases :—

DIVISION.	Leases which lapsed on 31st March 1892.	Five-year leases in force on 1st April 1892.	LEASES ENTERED INTO DURING 1892-93.		Total area under long-term leases in 1892-93.
			Seven-year leases.	Three-year leases.	
	Acres.	Acres.	Acres.	Acres.	Acres.
Eastern Sone	10,235	42,756	18,794	686	62,236
Arrah	21,057	89,490	21,920	4,975	116,385
Buxar	13,261	58,652	13,880	4,811	77,343
Total ...	44,553	190,898	54,594	10,472	255,964

81. The areas actually irrigated in each division since the year 1888-89 are shown by crops in the following statement :—

YEAR.	EASTERN SONE DIVISION.					ARRAH DIVISION.					BUXAR DIVISION.					TOTAL FOR ALL DIVISIONS.

1892-93	64,801	7,873	6,987	...	79,661	124,814	14,835	35,990	4,064	180,309	82,351	10,494	46,383	5,063	150,791	271,966	33,202	89,366	9,727	410,761

The area measured during 1892-93 was 111·87 per cent. of the area for which permits were issued. The proportion of flow to lift irrigation was as 24·6 to 1.

DUTY OF WATER.

82. The average gross discharge is the average supply entering at the head of the canal or series of canals named: the discharge utilised is the discharge at the head less the quantity gauged as escaping from recognised escapes. These duties show a decided improvement over those of the previous year in the kharif season, but the rabi duties are far lower than those of 1891-92, as is shown by the following table:—

Kharif.

	1892-93.		1891-92.		1890-91.	
	Acres.	Duty.	Acres.	Duty.	Acres.	Duty.
Eastern Main Canal Series ...	68,284	56·43	75,037	57·59	60,600	55·22
Arrah Canal System ...	122,471	70·46	119,304	61·25	112,584	86·87
Buxar Canal System ...	84,084	74·87	69,465	55·13	60,512	79·20
Western Main Canal Series ...	206,555	71·52	188,779	57·94	173,096	83·66
Sone Canals ...	274,839	67·06	263,816	57·84	229 696	74·24

Rabi.

	Acres.	Duty.	Acres.	Duty.	Acres.	Duty.
Eastern Main Canal Series ...	11,377	45·51	20,861	48·60	6,735	20·72
Arrah Canal System ...	53,174	76·73	60,115	70·39	30,492	57·75
Buxar Canal System ...	61,644	96·77	131,613	130·82	22,136	55·48
Western Main Canal Series ...	114,818	86·33	191,728	103·02	52,628	56·77
Sone Canals ...	126,195	79·87	212,579	92·83	59,363	47·41

In the case of the Sone Canals, the most important duty is that obtained at the period of maximum demand, as the area leased in the kharif season is restricted to that which it may reasonably be expected can be irrigated at that time.

In the year under review the rainfall in October (Subsidiary Form IVE*a*) was very deficient, and there was a large demand for water. During the ten days ending on the 19th October, when the demand was greatest, the average supply required for the irrigation on the Western Main Canal Series was 3,939 cubic feet per second for 193,118 acres of kharif (exclusive of sugarcane), which is equivalent to a duty of 49 acres per c. ft. per second to the lease of ten days. On the Eastern Main Canal Series the corresponding figure was 42 acres only.

CROP EXPERIMENTS.

83. *Crop experiments.*—The following tables show the results of the experiments made during the year to determine the yield of rice crops, wheat irrigated from the canals during the year 1892-93:—

TABLE I.

Result of experiments on "good" rice crops irrigated with canal water for the year 1892-93.

DIVISION.	Number of experiments.	AVERAGE YIELD PER ACRE WEIGHED DRY.				REMARKS.
		Grain.		Straw.		
		Maunds.	Seers.	Maunds.	Seers.	
Arrah	13	32	38	68	27	
Buxar	14	30	22	68	0	
Eastern Sone	40	42	33	111	2	
Sone Circle average ...	87	37	4	88	1	

N.B.—A good crop means a crop decidedly above the average crop in the village in which it was taken.

TABLE II.

Result of experiments on "good" rabi crops irrigated with canal water for the year 1892-93.

DIVISION.	Staple.	IRRIGATED WITH CANAL WATER.				
		Number of experiments made.	AVERAGE YIELD PER ACRE.			
			Grain.		Straw.	
			Maunds.	Seers.	Maunds.	Seers.
Eastern Sone ..	Wheat ...	16	24	28	49	4
Arrah	,, ...	57	16	38	27	7
Buxar	,, ...	34	14	6	22	13
Sone Circle average ...	...	107	17	8	28	36

The Superintending Engineer makes the following interesting comments upon the effects on the land of continued irrigation with Sone water:—

"It is rather remarkable that the average results of "good" rice crops show a steady improvement year by year, thus:—

Weight of grain from "good" rice crops irrigated with canal water.

	1892-93.	1891-92.	1890-91.	1889-90.
	Mds. srs.	Mds. srs.	Mds. srs.	Mds. srs.
Sone Circle average ...	37 4	36 14	32 2	31 19

and this appears to suggest that one result of irrigation with the silty waters of the Sone, instead of the clear water from nhrahs and from rainfall, is to improve the soil and thus produce superior crops. It would be straining these figures too far to say that they prove this proposition, but they are certainly evidence in that direction. The fact that silt is valuable to the fields needs no proof; the magnificent crops which have been produced in Egypt for 6,000 years or more, with no deterioration of the soil, have established that fact. It is

known that irrigation from the Sone Canals insures the rice crop in bad years from failure; it did so in 1888-89: it is known that the irrigation with canal water of a field, not previously watered by the canals increases the outturn. If it is also true that continuous irrigation for a series of years produces a further increase of crop by improvement of the soil to even half the extent which the above table indicates, the value to the landowner and raiyat of canal irrigation is very vastly in excess of the water paid by the latter. It was asserted at the time of the Sone Canals Commission in 1887-88 that not only was the crop produced by the aid of canal water inferior, but that the longer the land was irrigated, the worse the crop became. The facts which have been collected from these crop experiments are strong evidence that these statements were false, and stronger evidence is found in the fact that the time has already come when the canals in a period of even ordinary demand are not able to satisfy the demands of the people for rice irrigation."

DEMANDS, COLLECTIONS AND BALANCES.

84. The demands, collections, and balances of water-rates for the last five years are shown below:—

Year.	Amount outstanding at commencement of year.	Amount falling due for recovery during the year.	Total for recovery.	Cash realization.	Remitted or written off.	Balance at the end of the year.
1	2	3	4	5	6	7
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs
1888-89 ...	4,11,281	7,53,217	11,64,498	7,59,556	24 329	3,80,613
1889-90 ...	3,80,613	7,52,788	11.33,401	8,16,394	35,225	2.81,782
1890-91 ...	2,81,782	6,29,124	9,10,906	6,44,718	21,460	2,44,728
1891-92 ..	2,44,728	6.93,685	9,38,413	8,11,750	15.220	1,11,443
1892-93 ...	1,11,443	9,50,733	10,62,176	9,59,472	14,914	87,790

The Examiner gives the "assessments of the year" as Rs. 8,91,632, but the above statement shows the "amount falling due during the year" as Rs. 9,50,733, which is arrived at in this way:—

	Rs.	Rs.
Examiner's "assessments of the year" ...		... 8,91,632
Add—The assessments of the rabi of 1891-92 which were "received" in that year but legally due in 1892-93	87,567	
Deduct—The assessments of the rabi of 1892-93 which were "received" in that year but legally due in 1893-94	24,359	63,208
		9,54,840
Deduct—Certain excess recoveries which are treated as "amounts falling due during the year" (see paragraph 21 of Deputy Collector's revenue report)		4,107
Amount falling due during the year		9,50,733

The Examiner gives the outstanding balance at the end of the year as Rs. 1,12,149 instead of Rs. 87,790 as shown above. The Superintending Engineer offers the following explanation of the difference:—

"The demand statements for the rabi crop ought to be submitted to the Deputy Collector on the 15th March, but it is hardly possible to do this; some are submitted before and some after the last day of March. The Deputy Collector includes in his account of "assessments received during the year" all demand statements which reach him between 1st April and 31st March inclusive, and the Examiner's "balance outstanding" is based on those assessments. It is the fact, however, that the money due on the rabi assessments is not legally due until the 1st April, so the amount included in rabi "assessments received during the year" is not "outstanding at the end of the year," although it may be "outstanding on the 1st April" of the next year. The Examiner's figure exaggerates the true outstandings. If all the money legally due on the 1st April were collected on that day, the Examiner's figure, which is really based on the accounts for March, would still show a balance due, although such balance would not exist. At the end of March 1893, the rabi "assessments received during the year" by the Deputy Collector amounted to Rs. 24,359, so that the true "outstanding at the end of the year was (1,12,149—24,359) Rs. 87,790."

The amounts assessed during the last three years as unauthorised use of water and as wastage of water are shown below:—

	1889-90.	1890-91.	1891-92.	1892-93.
	Rs.	Rs.	Rs.	Rs.
For unauthorised use of water ...	913	2,734	13,861	14,549
For wastage of water ...	224	256	314	105

ARREARS. 85. In the following statement the Deputy Collector shows the extent to which the arrears as well as current demand have been worked off:—

	Demand of 1892-93 consisting of	Collected or remitted in 1892-93.	Percentage of demand adjusted.	Unadjusted balance at close of year.
1	2	3	4	5
	Rs.	Rs.		Rs.
Arrears previous to 1890-91	11,626	11,626	...	...
Arrears of 1890-91	4,481	4,207	93·8	274
„ of 1891-92	95,337	88,258	92·5	7,079
Total arrears outstanding on 1st April 1892 ...	1,11,444	1,04,091	93·4	7,353
Current demand for 1892-93	9,50,732	8,70,295	91·5	80,437
Total ...	10,62,176	9,74,386	91·7	87,790

There is on the whole a reduction on the outstanding balance of Rs. 1,23,653, but the rabi assessments which formerly became due on the 31st March, and are now due on the 1st April, no longer form a part of the balance.

COLLECTIONS. 86. The following statement gives the collections in each district:—

District.	Demand.			Adjustments.				Balance on 31st March 1893.	Percentage, column 8 on column 4.
	Arrears on 31st March 1892.	Current demand for 1892-93.	Total.	Collection.	Remission made by canal officers.	Written off as irrecoverable.	Total.		
1	2	3	4	5	6	7	8	9	10
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	
Shahabad	56,678	7,72,054	8,29,332	7,71,169	1,837	1,443	7,74,449	54,883	93·3
Patna	29,184	74,280	1,03,434	74,778	8,476	1,583	86,837	16,597	83·9
Gaya	25,611	1,03,798	1,29,410	1,13,525	965	610	1,15,100	14,310	88·9
Total ...	1,11,443	9,50,732	10,62,176	9,59,472	11,278	3,636	9,74,386	87,790	91·7

The collections during the year were everywhere satisfactory and show improvement over those of the preceding year. The heavy balance of Rs. 6,95,306 in 1884-85 was reduced to Rs. 87,790 at the close of the year under review. This result is very creditable to the Deputy Collector and his staff.

Besides the collections of Rs. 9,66,712 shown above, a further sum of Rs. 7,239 was credited to water-rate accounts as below:—

	Rs.
Surplus or excess recoveries	4,107
Process fees in certificate cases	2,945
Miscellaneous	187
Total ...	7,239

REMISSIONS. 87. The sums remitted during the year under review and the preceding year according to the figures given by the Examiner of Accounts are:—

	1891-92.	1892-93.
	Rs.	Rs.
By Canal officers ...	2,555	2,171
By Civil „ ...	12,665	8,252
	15,220	10,423

According to the figures supplied by the Superintending Engineer the remissions are—

	1891-92.	1892-93.
	Rs.	Rs.
Written off by Civil officers as irrecoverable ...	11,510	12,743
Remissions granted by Executive Engineers ...	3,304	4,620
Extraordinary remissions by Superintending Engineer ..	1,248	...
Remitted on revised and cancelled khatianies ...	1,365	1,921
	17,427	19,284

Leaving out the extraordinary items amounting to Rs. 9,107, which were misappropriated by tahsildars in past years in the Patna district under the old system of collections which is not real remission, and Rs. 2,449 treated as refunds of revenue and charged to working expenses, there remains Rs. 5,807, which is the actual remission during the year. This amount consists of Rs. 2,172 granted by the Canal officers to correct wrong and unfair assessments, and Rs. 3,635 remitted by the Revenue officers owing to death or absconding of rate-payers, or owing to their being too poor to pay. Compared with 1890-91 and 1891-92, when the amounts remitted were Rs. 21,460 and Rs. 15,221, the result is apparently favorable, but is really so only in the case of sums written off as irrecoverable by civil officers. The remissions by Executive Engineers were in excess of those granted during the previous year, and besides demand statements aggregating Rs. 1,921 were cancelled as against Rs. 1,365 in 1891-92. This unsatisfactory result is probably not unconnected with the delay in submitting demand statements, which it is claimed were held back with the view of ensuring greater accuracy. The Superintending-Engineer is taking steps to bring about an improvement in this respect.

The ordinary remissions by the Executive Engineers are classified in the following table:—

Class.	Causes.	Eastern Sone Division.	Arrah Division.	Buxar Division.	Total, 1892-93.	Total 1891-92.
1	2	3	4	5	6	7
		Rs.	Rs.	Rs.	Rs.	Rs.
a	Charged by mistake for land cultivated by others	...	...	...	...	23
b	Excess measurement or errors in calculation	557	189	194	940	417
c	Lift charged as flow	25	38	156	219	61
d	Irrigation not denied, but remitted as not chargeable under the Act ...	59	4	170	233	707
e	Land not having been irrigated at all	733	162	110	1,005	691
f	Injury to crop due to insufficient supply	193	69	...	262	694
g	Land thrown temporarily out of cultivation	...	1	69	70	...
h	(Applicable to long leases only) Failure of crop originally sown, rule 82	27	382	1,162	1,571	306
i	Land appropriated for other purposes than cultivation	...	16	...	16	42
j	Double assessment, as when land assessed on a season lease is subsequently included in a long lease in the same year	189	88	27	304	363
	Total ...	1,783	949	1,888	4,620	3,304

The increase in the amount remitted is not satisfactory, as evincing less careful preparation of the demand statement. The increase under head *h* is

mainly due to rule 82, having been held by some Executive Engineers to justify remissions in cases to which it was scarcely intended to apply. The matter is now under consideration.

The remissions implying errors in assessments were for the last five years as follows:—

1888-89.	1889-90.	1890-91.	1891-92.	1892-93.
Rs.	Rs.	Rs.	Rs.	Rs.
18,813	11,284	6,555	3,304	4,620

The percentage on the gross demand of remissions by canal officers is as follows:—

	Percentage of remissions to gross demand.	
	1891-92.	1892-93.
Eastern Sone Division ...	0·68	0·73
Arrah „ ...	0·31	0·24

Percentage	20·7	18·6	22·3	18·66	16·4

* Lumberdar's fees and contractor's percentage.

The increased expenditure is due to the large rabi irrigation of the previous year and to the heavy collections of that under review. A large part of the expense of the rabi assessments of 1891-92 is shown in the accounts of 1892-93, the headmen's fees being wholly calculated on the assessments of the previous year. The result of substituting fixed establishments for tahsildars paid by fees has been an increase in cost of from Rs. 2,000 to Rs. 3,000 a year, accompanied, however, by a very considerable increase in the efficiency of the staff. Columns 3 and 4 of the table are not altogether satisfactory, as the establishment is also employed on matters connected with areas measured and assessed in previous years. They are, however, useful for purposes of comparison.

89. The cost per acre of assessments, including permanent and temporary establishments and headmen's fees, is given in the statement below:— ASSESSMENTS.

Division.	Areas measured and assessed during 1892-93.	Cost of permanent and temporary establishment.		Area which concerns headmen's fees.	Headmen's fees earned.		Total cost of assessments per acre.	
		Total.	Per acre assessed.		Total.	Per acre assessed.	1892-93.	1891-92.

The Superintending Engineer writes:—

"There is an increase in the number of complaints in the Arrah Division from 2,333 in 1891-92 to 2,770 in 1892-93, mainly due to the partial failure of the hot weather supply: in the Buxar Division the increase is from 737 to 3,944; in the Eastern Sone Division there is a decrease from 1,785 to 719; the increases are largely under the heads "(*b*) excess measurements" and "(*c*) land charge not having been irrigated." The cause assigned for the increase in the Buxar Division is that in the heavy rabi season of 1891-92 there was no time to check the rabi khasrahs before the khationees had been despatched, and afterwards mistakes were found to have occurred. Out of 7,417 complaints dealt with during the year, one-third were held to be good and two-thirds were refused. The number of cases in which the petitioners were not satisfied with, or at any rate did not accept, the orders of the canal officers in the 7,417 cases dealt with, was 33 only; in these cases an appeal was made to the

Collector of the district. Out of 45 such cases about 25 per cent. were allowed by the Collectors to be good and 75 per cent. of the appeals were rejected" The following table shows the figures in the different Divisions :—

Division.	Number of appeals.		Appeals allowed.	Appeals discharged.	Pending.
	Pending from last year.	Instituted during the year.			
1	2	3	4	5	6

Total, 1892-93	4,788	1,576	2,578	634
Total, 1891-92	5,025	1,867	2,412	746
Total 1890-91	4,335	2,312	1,557	466

APPEALS. 91. There were, including 12 pending from the previous year, 45 appeals to the Collectors of districts against Executive Engineers' decisions. Of these 11 were allowed, 32 discharged, and two had not been decided at the close of the year.

Nine cases were decided by Engineers vested with magisterial powers under the Bengal Irrigation Act. Twenty-five persons accused of offences under the Act were convicted, and twenty-five discharged. The amount of fines imposed was Rs. 357, and the number of days' imprisonment thirty-eight.

CERTIFICATES. 92. The Special Deputy Collector in charge of the collections still continues to deal with the certificates required in realising water-rates.

The amount of certificate work done in each district during the year under review, as compared with that of the previous year, is shown in the following statement:—

	Shahabad.				Patna.				Gaya.				Total.			
	1891-92.		1892-93.		1891-92.		1892-93.		1891-92.		1892-93.		1891-92.		1892-93.

Cases disposed of—																
1. By being struck off owing to the demand having been remitted and cancelled.	208	2,400	86	1,226	55	9,925	70	4,603	17	3,467	8	153	280	15,892	164	5,992
2. By being wholly satisfied ...	3,033	29,537	2,393	19,227	1,198	1,664	247	3,001	19	184	178	1,925	4,250	31,385	2,820	24,753
Total ...	3,241	32,027	2,481	20,465	1,253	11,589	317	8,203	36	3,651	186	2,077	4,530	47,277	2,984	30,745
Balance outstanding at the close of the year.	156	2,038	98	1,664	67	6,888	37	1,732	11	277	18	111	234	9,193	153	3,527

The number for disposal was 3,137, inclusive of the outstanding balance from last year, covering a sum of Rs. 34,272 as compared with Rs. 4,764 and Rs. 56,460 in the previous year. The demand adjusted was Rs. 30,745 as against Rs. 47,267, the remissions being Rs. 5,992 compared with Rs. 15,882. The outstanding balance was reduced from Rs. 9,193 to Rs. 3,527, and the number of cases pending at the close of the year shows a satisfactory decrease of 81 cases.

The following are the Deputy Collector's remarks:—

"In Shahabad, where the arrears were generally at a normal level, there was a decrease in the number of cases. In Patna and Gaya, there was necessity for larger institutions, with a view to the adjustment of very old arrears outstanding since the year 1883-84. It may be here observed that in Patna the institutions were not above the average; on the contrary, less. Here in 1891-92 the institutions were almost nil, as in this year all the good and realizable arrears were got in, leaving only the bad debts to be dealt with in the year under report. All the 153 cases left pending at the close of the year have since been disposed of, with only eight exceptions.

Resistance to process.—Two cases of resistance to processes were prosecuted before the Criminal Court, and in both these conviction was obtained."

93. The following statements show the receipts from navigation for the last five years:— NAVIGATION.

NAVIGATION RECEIPTS.

Year.	Eastern Main Series.			Western Main Series.			Total.	Total tollage only.
	Number of miles open.	Tollage receipts.	Transport service receipts.	Number of miles open.	Tollage receipts.	Transport service receipts.

1892-93	86½	20,892	...	132½	29,164	9,093*	59,089	49,996

* There is no longer any Government transport service. These receipts are on account of hire of steamers, boats and sundries.

TOLLAGE.

TOLLAGE (ASSESSED).

Year.	Patna Canal system, Eastern Main Canal series.	Arrah Canal system.	Buxar Canal system.	Total.
1	2	3	4	5
	Rs.	Rs.	Rs.	Rs.
1888-89	25,165	18,121	8,826	52,412
1889-90	24,271	18,565	7,479	50,315
1890-91	28,526	18,180	9,998	56,704
1891-92	25,455	21,048	10,789	57,292
1892-93	20,963	18,196	10,869	50,028

TRAFFIC.

COMPARISON OF TRAFFIC.

	1888-89	1889-90.	1890-91.	1891-92.	1892-93.
1	2	3	4	5	6
Number of miles open ... No.	218½	218½	218½	218½	218½
Toll collections ... Rs.	52,412	50,315	56,704	57,292	50,028
Collections per mile ... „	240	230	259	262	229
Boats, including empties ... No.	8,096	8,058	8,644	8,645	6,710
Tonnage of boats ... Tons.	100,788	104,390	114,996	129,147	97,841
Estimated value of cargo, including rafts ... Rs.	58,04,029	49,36,564	65,25,714	70,06,595	57,32,365

The decrease in all items was caused by the rather poor outturn of crops in all but the irrigated parts of the district, the result of the scanty rainfall of the previous year.

TRANSPORT SERVICE.

94. The transport service was worked by Messrs. Hodges and Radford under the contract which had been renewed for two years from 1st December 1892. The charges, Rs. 600 per month for steamer hire, and Rs. 500 for compounded tolls, are the same as in past years. The ordinary repairs of the steamers which belong to Government are executed by the lessees.

The extent of the traffic in connection with the steamers is shown below:—

Particulars.		Arrah Canal.	Buxar Canal.	Patna Canal.	Total.
1		2	3	4	5
Passengers carried	Up ... No.	11,665	8,295	4,192	24,152
	Down „	11,217	8,027	4,225	23,469
Cargo carried	Up ... Tons.	399	251	971	1,621
	Down ... „	918	465	773	2,156

On the Arrah and Buxar Canal the steamers make two trips each way in every week. On the Patna Canal, which is the longer route the steamer makes

only one trip each way in a week. For the hire of the steamers Rs. 7,220 was realized during the year.

There are in addition to the steamers four cargo boats, the property of Government, for the hire of which Rs. 1,710 was received during the year, besides which Rs. 163 was recovered by way of fees for the use of the accommodation boats and mud punts.

MISCELLANEOUS RECEIPTS.

95. The following table shows the details of the miscellaneous receipts for the last five years :—

PARTICULARS.	1888-89.	1889-90.	1890-91.	1891-92.	1892-93.
1	2	3	4	5	6
	Rs.	Rs.	Rs.	Rs.	Rs.
Sale of water	387	514	893	1,056	805
Plantations	383	279	355	995	852
Other canal produce	1,816	1,542	1,815	742	967
Water-power	835	769	1,158	1,049	1,138
Rent of buildings	8,247	8,313	8,164	8,397	8,807
Fines	224	28	40	5	362
Miscellaneous — Rent of lands ...	7,995	6,939	8,114	9,920	9,241
Miscellaneous — Fisheries ...	734	597	431	489	523
Miscellaneous — Cost of process ...	3,739	3,244	2,937	3,769	2,955
Miscellaneous — Sale of old materials	102	17	121	82	85
Miscellaneous — Other items ...	2,042	1,100	2,610	5,323	3,529
Total ...	26,504	23,342	26,128	31,827	29,214

MAINTENANCE CHARGES.

96. The expenditure on works and maintenance will now be briefly reviewed.

EXTENSIONS AND IMPROVEMENTS.

The principal works executed under "extensions and improvements," on which Rs. 6,541 were spent, have already been described in paragraph 74.

REPAIRS.

97. The expenditure on maintenance and repairs by main sub-heads for the last three years is shown below :—

PARTICULARS.	1890-91.	1891-92.	1892-93.
1	2	3	4
	Rs.	Rs.	Rs.
Head works ...	20,353	20,922	22,374
Main canal, including branches	1,78,593	1,75,837	2,00,130*
Distributaries	67,616	58,248	55,918
Drainage and protective works...	6,101	3,622	2,157
Cost of working transport service	...	1,155	...
Compensation	168	28	...
Total ...	2,72,831	2,59,832	2,80,579

* Includes Rs. 600 for the Arrah-Dehri Telegraph line, and Rs. 4,491 on account of a theft money in the Revenue Division and of money embezzled in the Patna district.

REPAIRS TO HEAD WORKS.

98. The figures below give the cost of repairs to head works during the last three years :—

	1890-91.	1891-92.	1892-93.
	Rs.	Rs.	Rs.
Weir on Sone River ...	11,151	11,617	14,058
Other works ...	8,743	8,773	7,577
Total ...	19,894	20,390	21,635

The increased cost of maintenance of the Sone weir is due to extra dredging which had to be done in the Sone river during the year.

MAINTENANCE OF MAIN CANALS AND DISTRIBUTARIES.

99. Details of the expenditure on maintenance and repairs on the main canals and distributaries in each division during the last three years are given in the following statement:—

	Arrah Division.			Buxar Division.			Eastern Sone Division.			Total.		
	1890-91.	1891-92.	1892-93.	1890-91.	1891-92.	1892-93.	1890-91.	1891-92.	1892-93.	1890-91.	1891-92.	1892-93.
1	2	3	4	5	6	7	8	9	10	11	12	13
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

Distributaries	33,706	24,943	24,668	17,747	16,927	15,587	16,161	16,377	15,663	67,614	58,247	55,908
Drainage and protective works	4,232	1,841	1,099	...	140	102	1,76 g	1,605	956	6,100	3,586	2,157
Total ...	1,21,905	1,08,003	1,28,084	57,324	52,258	50,842	73,493	79,118	75,530	2,52,722	2,39,379	2,54,456

* Includes cost of maintaining the Telegraph line from Arrah to Dehri.

An increase of Rs. 15,077 has taken place in the total expenditure during the year, as compared with 1891-92.

The lower portion of the Arrah Canal was closed during the year for six weeks, a longer period than usual. Advantage was taken of the long closure to carry out a good deal of work in repairs and silt clearance, and this was the main cause of the increase under those heads. The increase in the Buxar Division was mainly due to heavy repairs to bridges on the Main Western and Gurra Chowbey Branch Canal. In the Western Main Canal the decrease was the result of the efforts to effect economy in working the dredgers.

SILT-CLEARING AND DREDGING.

100. The following table shows the quantity of silt dredged from the Eastern and Western Main and Buxar Canals, and the rate at which the work was done during the last three years:—

Canals.	1890-91.			1891-92.			1892-93.		
	Quantity dredged.	Cost, including removal over spoil bank, or discharge into river.	Rate per 1,000 cubic feet.	Quantity dredged.	Cost, including removal over spoil bank, or discharge into river.	Rate per 1,000 cubic feet.	Quantity dredged.	Cost, including removal over spoil bank, or discharge into river.	Rate per 1,000 cubic feet.

In addition to the above, the following dredging work was done in the Arrah and Buxar Divisions during the year:—

Arrah Division.—Fouracres' dredgers were employed in this Division in dredging silt: 630,457 cubic feet were dredged in the Nasriganj subdivision at a cost of Rs. 2,893, and 135,440 were dredged in the Ageaon subdivision at a cost of Rs. 890.

Buxar Division.—In this Division a Fouracres' dredger was at work for 567 hours in the 13th mile of the Main Western Canal, where it excavated 213,448 cubic feet of silt at a cost of Rs. 964. The same dredger also works at lock No. 1 of the Buxar Canal, where 6,930 cubic feet of silt were excavated at a cost of Rs. 68.

The rates shown in the above table include the cost of lifting the silt into barges and of carrying it either over the spoil banks or into the river. The rates necessarily vary much under the latter head owing to different heights of spoil bank and of different lengths of lead to the river.

The cost of lifting the silt on to the barges or dredging proper was as shown below:—

	1890-91.			1891-92.			1892-93.		
	Quantity dredged.	Cost of dredging.	Rate per 1,000 cubic feet.	Quantity dredged.	Cost of dredging.	Rate per 1,000 cubic feet.	Quantity dredged.	Cost of dredging.	Rate per 1,000 cubic feet.

River Sone	1,502,555	1,928	1 4 6	1,921,530	3,571	1 13 7	3,376,392	6,727	1 15 10
Head Lock	66,224	208	3 2 3	64,124	177	2 12 1	123,939	346	3 5 5
Total	12,357,802	22,471	1 13 1	10,628,252	20,042	1 14 2	12,068,714	22,161	2 2 4

Taking the Eastern Main and Patna Canal together, the cost of "lifting" the silt was only Rs. 1-6-7 per 1,000 cubic feet as compared with Rs. 1-13-10 in 1891-92 and Rs. 1-10-3 in 1890-91. A considerable reduction. The cost for "labour" is also less than in 1891-92. The cost for "discharging" was Rs. 4-6-11 per 1,000 cubic feet against Rs. 4-8-4 in the previous year. The total cost per 1,000 cubic feet of removing the silt was Rs. 5-13-6 as compared with Rs. 6-6-2 in 1891-92.

101. The statement below compares the expenditure on repairs to dredgers during the year under review with that of the two previous years:—

	1890-91.	1891-92.	1892-93.
1	2	3	4
	Rs.	Rs.	Rs.
12 Fouracres' dredgers	6,857	7,004	6,752
2 Bruce's ditto	436	750	546
2 English ditto	3,552	3,170	3,081
Mud punts ...	4,790	3,009	3,076
Total ...	15,635	13,933	13,455

102. The cost of lifting the silt on to barges, for each class of dredger used, including interest on capital cost and expenditure on repairs, is compared by Superintending Engineer as follows:—

	Average cost in 1892-93 of lifting per 1,000 cubic feet.	Interest on capital cost per 1,000 cubic feet lifted.	Cost of repairs per 1,000 cubic feet lifted.	Total.
1	2	3	4	5
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
Fouracres' dredgers ...	1 14 1	0 8 7	0 13 7	3 4 3
Bruce's dredger ...	1 11 2	0 12 4	0 5 1	2 12 7
English ladder dredgers	2 1 4	1 6 8	0 14 5	4 6 5

These figures do not include the charges for interest and repairs of mud punts amounting to 14 annas and 11 pies for each class of dredger. The results show that the Bruce's dredgers are the most economical.

103. The quantity of silt cleared by hand from main canals in the Eastern Sone Division and the cost, compared with the figures for the two previous years, is shown below:—

	1890-91.			1891-92.			1892-93.		
	Quantity cleared by hand.	Cost.	Rate.	Quantity cleared by hand.	Cost.	Rate.	Quantity cleared by hand.	Cost.	Rate.
1	2	3	4	5	6	7	8	9	10
	C. feet.	Rs.	Rs. A. P.	C. feet.	Rs.	Rs. A. P.	C. feet.	Rs.	Rs. A. P.
Eastern Main and Patna Canals...	4,282,127	19,021	4 7 0	6,283,004	24,798	3 15 2	5,836,101	23,430	4 0 2

The Western Main Canal was closed during the year from 6th May to 16th May, and 986,104 cubic feet of silt were excavated by hand.

WEED CLEARING.

104. The following figures give the cost of weed-clearing for the last five years:—

Division.	1888-89.	1889-90.	1890-91.	1891-92.	1892-93.
1	2	3	4	5	6
	Rs.	Rs.	Rs.	Rs.	Rs.
Eastern Sone ...	217	9	396	277	366
Arrah ...	1,053	715	1,299	2,470	466
Dehri Workshops ...	899	911	1,350	1,060	1,435
Buxar ...	869	726	1,505	2,206	1,583
Total ...	3,038	2,361	4,550	6,013	3,850

The decrease in the cost of weed-clearing was mainly due to the long closure of the lower reaches of the Arrah Canal.

MILLAGE RATES OF REPAIRS OF CANALS AND DISTRIBUTARIES.

105. The cost per mile of repairs to main canals and distributaries for the last three years are shown below:—

Canal.	Division.	1890-91.		1891-92.		1892-93.	
		Number of miles.	Cost per mile.	Number of miles.	Cost per mile	Number of miles.	Cost per mile.
1	2	3	4	5	6	7	8
		No.	Rs.	No.	Rs.	No.	Rs.
Eastern Main Canal ...	Eastern Sone ...	7¼	4,054	7¼	4,472	7¼	3,870
Western ditto ...	Dehri Workshop ...	9	6,266	9	6,194	9	5,641
	Buxar	12½	364	12½	267	12½	467
Buxar Canal ...	Do.	45¼	351	45¼	305	45¼	306
Patna do. ...	Eastern Sone	79	323	79	361	79	388
Arrah do. ...	Arrah	65½	383	65½	350	65½	653
Doomraon Branch ...	Do.	40¼	163	40¼	144	40¼	145
Behea ditto ...	Do.	31	193	31	162	31	256
Chowsa ditto ...	Buxar	39½	117	39½	166	39½	150
Gurrah Chowbey Branch	Do.	38	76	38	74	38	107
Distributaries ...	Arrah	467¼	72	469	53	469	53
	Buxar	370¼	48	373¼	45	388¼	40
	Eastern Sone	358	45	350¼	47	350¼	45

The charge for establishment not specially shown under the head "Revenue establishment" was Rs. 2,08,810 in 1892-93, against Rs 1,89,196 in 1891-92. This increase was not unforeseen. In last year's note it was shown that the cost of establishment debitable to revenue was largely dependent on the expenditure on capital construction and on provincial roads and buildings, works for which a percentage charge is made.

PLANTATIONS.

106. Below is a statement showing the number of trees, classified according to size, in the plantations in each division:—

Division.	1891-92.				1892-93.				Increase.
	Trees over 12 feet in height.	Saplings between 4 and 12 feet.	Seedlings under 4 feet.	Total.	Trees over 12 feet in height.	Saplings between 4 and 12 feet.	Seedlings under 4 feet.	Total.	
1	2	3	4	5	6	7	8	9	10
	No.	No.	No.	No.	No.	No.	No.	No.	No.
Eastern Sone	81,517	29,422	97,704	168,443	94,864	34,976	51,642	181,082	12,639
Arrah	50,755	27,738	39,900	118,393	55,986	37,842	33,611	125,380	6,986
Dehri Workshop	6,058	40,089	5,564	58,311	8,343	45,340	12,544	66,227	7,916
Buxar	20,149	8,185	14,798	43,132	19,671	10,448	14,682	44,801	1,669
Total ...	158,879	111,434	117,966	388,279	176,814	128,206	112,479	417,490	29,210

It is satisfactory to notice that there has been an increase in the number of trees in all the divisions. The least progress was made in the Buxar Division.

The receipts and expenditure of the year were as under:—

Division.	Receipts.	Expenditure.
	Rs.	Rs.
Eastern Sone ...	345	680
Arrah ...	220	2,165
Debri Workshop ...	201	882
Buxar ...	86	2,344
Total ...	852	6,071

The Superintending Engineer remarks:—"The expenditure in the Buxar Division is the largest, and the result the least satisfactory. The special attention of the Executive Engineer has already been drawn to the matter. He explains that the decrease in the number of trees is partly due to the fact that trees were formerly planted too near together and had to be thinned out: he also has some doubts as to the correctness of the former account of the trees, and doubts if there were as many as reported: storms, too, are said to have destroyed some trees. The Buxar Canal is at present conspicuously the least wooded of all the main canals."

CALCUTTA AND EASTERN CANALS.

107. The Capital and Revenue Accounts of these canals are given below:—

1.—CAPITAL ACCOUNT.

Capital account.

Heads of Account.	Outlay during 1892-93.	Outlay to end of 1892-93.
	Rs.	Rs.
Direct charges	72,923	53,49,933
Less—Receipts on capital account	...	54,467
Total direct charges ...	72,923	52,95,466
Indirect charges	1,356	62 383

The only works chargeable to Capital Account which were carried out during the year were—(*a*) improving two bad bends in the Jangulia river, which on account of silt deposits had become very difficult to navigate, (*b*) the construction of tow-paths with rustic bridges in No. 5 subdivision, (*c*) the construction of a toll-house at Chetla at the entrance of the boat canal. Rupees 16,800 was spent in the construction at the Calcutta Workshops, Sibpur, of six mud barges for use in the Division.

2.—REVENUE ACCOUNT—(Actuals).

Revenue account.

	Expenditure—			Receipts—	
	During 1891-92.	During 1892-93.		During 1891-92.	During 1892-93.

The profits in the working of the canals were Rs. 2,27,037, or 4·2 per cent. on the capital outlay. Results for ten years are given below:—

YEAR.	CAPITAL OUTLAY (DIRECT AND INDIRECT)—		RECEIPTS AND WORKING EXPENSES.			Percentage of net revenue to capital outlay to end of year.
	During the year.	To end of the year.	Gross revenue.	Charges (direct or indirect).	Net revenue.	
1	2	3	4	5	6	7
	Rs.	Rs.	Rs.	Rs.	Rs.	
1883-84	1,55,534	52,51,534	5,64,101	2,32,031	3,32,070	6·3
1884-85	9,013	52,60 547	(a) 5,69,726	2,91,214	2,78,512	5·2
1885-86	(—)42,566	52,17,981	(b) 4,79,484	1,96,209	2,83,275	5·4
1886-87	5,293	52,23,274	4,83,654	1,92,264	2,91,390	5·5
1887-88	15,842	52,39,116	5,79,934	2,24,656	3,55,278	6·7
1888-89	49,369	52,88,485	5,75,125	2,93,801	2,81,324	5·3
1889-90	(—)281	52,88,204	4,95,543	2,79,133	2,16,410	4·1
1890-91	5,693	52,93,897	5,25,085	3,23,957	2,01,128	3·8
1891-92	(—)10.327	52,83,570	5,25,219	3,43,399	1,81,820	3·4
1892-93	74,279	53,57,849	4,80,114	2,52,177	2,27,937	4·2

(a) Is Rs. 35,185 larger than it should be by reason of error of account.
(b) Is Rs. 35,185 smaller than ditto ditto ditto.

It will be seen from these figures that the increase in the net revenue derived from the canals during the year was due not to an increase in the receipts which were Rs. 45,105 less than in the previous year, but to a marked reduction in the working expenses of Rs. 91,222 compared with the figures of 1891-92. The large decrease in the net receipts was due almost entirely to the general depression of trade and falling off of exports from Calcutta during the year. As this depression has been very keenly felt by both Railway Companies and shippers, it is not necessary to enter into its details, and to trace its causes is beyond the scope of this note. The other causes that contributed to the falling off in the receipts were the transfer of the carriage of coal by the Oriental Gas Company from the canals to the Eastern Bengal State Railway, the Company having constructed a branch line from their premises to Sealdah; the withdrawal of a large amount of the jute traffic from the canals, owing to it being shipped from Chittagong instead of from Calcutta; the realisation in 1891-92 of a sum of Rs. 2,800 for arrears of rent for godowns

which swelled the receipts of that year compared to those of 1892-93; and the successful competition of the Eastern Bengal State Railway with the canals in a few minor instances.

LENGTHS OF CANALS.

109. The lengths of canals open for navigation during the year, including the steamer route, was the same as that of the preceding year 1891-92, viz., 713 miles as detailed below:—

			Miles.
Calcutta and new canals			10
Tolly's Nala with 20 miles of Kasorapookhar khal			37
Total Calcutta Canals ...			47
Eastern Canals { Inner boat route	189		
Outer ditto	127		
		316	
Steamer route		350	
Total Calcutta and Eastern Canals ...			713

NAVIGATION.

110. The navigation receipts during the last two years by the Collector and Supervisor of the canals and by the Executive Engineer are shown in the following statement:—

CANALS.	Number of boats and rafts.	COLLECTIONS BY COLLECTOR AND SUPERVISOR.						COLLECTIONS BY EXECUTIVE ENGINEER.	GRAND TOTAL, GROSS REVENUE.
		Tolls from boats and rafts.	Demurrage.	Ferry tolls.	Tolls from steamers and flats.	Rents of buildings, lands, and other miscellaneous receipts.	Total.	Rents of buildings, lands, and other miscellaneous receipts.	
1	2	3	4	5	6	7	8	9	10
	No.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Calcutta and Eastern ...	80,414	3,54,752	6,233	4,945	4,955	5,006	3,76,491	11,295	4,80,244
Tolly's Nala ...	62,174	90,027	979	1,070	..	382	92,458		
Total 1892-93 ...	142,588	4,44,779	7,212	6,015	4,955	5,388	4,68,949	11,295	4,80,244
Total 1891-92 ...	149,748	4,96,980	6,747	5,090	5,455	7,986	5,22,258	3,085	5,25,343

The chief source of revenue from these canals is the tolls from boats and rafts. They amounted to Rs. 4,44,779 during the year against Rs. 4,96,980 of 1891-92, showing a decrease of Rs. 52,201.

The recent construction by some of the leading Steamer Companies of large cargo flats for canal navigation appears to indicate an approaching development in a new direction of the boat traffic which will probably swell the toll receipts in the future.

BOATS.

111. The particulars regarding the boats which used the canals during the last two years are given below:—

CANAL.	YEAR.	NUMBER AND CLASS OF BOATS.					
		Up to 100 maunds.	Between 100 and 1,000 maunds.	Between 1,000 and 2,500 maunds.	Between 2,500 and 5,000 maunds.	Over 5,000 maunds.	Total.
1	2	3	4	5	6	7	8

Total ...	1891-92	53,448	43,653	26,282	2,875	98	126,355

There was a general decrease in all classes of boats up to 2,500 maunds and an increase in those above it. The decrease is mainly due to the falling off in the rice traffic, while the increase in the number of larger boats is attributed to the preference given them by the mahajans who find them more economical than small ones.

The number of small boats and dinghies, which entering Tolly's Nala from Kourapukhar, pay toll at Russa, was 25,607 against 23,244 in 1891-92. They are not classified.

The following table gives the tonnage of boats by canal measurement and the estimated weight and value of the cargoes for the Calcutta Canals and Tolly's Nala compared with the corresponding figures for 1891-92 :— TRAFFIC.

	Number of boats.	Tonnage of boats by canal measurement.	Weight of cargo carried.	Value of cargo carried.	Tollage including demurrage.	Percentage of toll on value of cargo.
1	2	3	4	5	6	7

The dulness in the rice trade in Calcutta during the year is probably the principal cause of the decrease in all items of traffic.

112. The continued reduction in the number of missing tickets is shown by the figures below, and shows that the toll system is steadily improving. MISSING TICKETS.

YEAR.	No.	YEAR.	No.
1883-84	3,086	1888-89	329
1884-85	1,404	1889-90	238

Total cost of establishment ...	37,684	36,281	38,210	41,359	39,935

* Includes salary of darogas, clerks, cashiers, kootnawises, koyals, toll peons, and dinghies with crew.

These figures show a decrease in the total cost of establishment Rs. 1,424 compared with those of the previous year.

MISCELLANEOUS RECEIPTS.

114. The miscellaneous receipts during the year were Rs. 15,528 against Rs. 10,218 in 1891-92, showing an increase of Rs. 5,310. This was mainly due to the crediting under this head of the sale proceeds of certain canal surplus lands, and also of the security deposit of the Pachete Trading Company, who failed to supply stone metal in accordance with the terms of their contract.

EXTENSIONS AND IMPROVEMENTS.

115. Under this head Rs. 1,502 was spent during the year, of which Rs. 256 was on the construction of a latrine in the compound of the Chitpur Lock and Rs. 1,246 on the iron girder bridge over Tolly's Nala at Kalighat which had been completed during the previous year. The recovery of Rs. 30,000, contributed by the Calcutta Municipality towards this work, converts the total expenditure under this head into a credit balance of Rs. 28,498.

MAINTENANCE AND REPAIRS.

116. The cost of maintenance of the canal by sub-heads as compared with that of the previous year is given below:—

Canals.	Locks.	Masonry bridge.	Roads.	Buildings.	Plantations.	Dredging.	Channel and banks.	Towpath.	Rustic bridges.	Steam-launches.	Miscellaneous.	Drainage.	Total.
1	2	3	4	5	6	7	8	9	10	11	12	13	14

Total, 1892-93 ..	2,546	7,999	16,422	4,588	1,322	19,592	51,779	17,403	20,590	4,949	18,033	...	1,65,223
Total, 1891-92 ...	12,039	8,828	16,482	5,594	1,249	24,118	39,973	17,243	20,620	3,703	21,311	1,297	1,72,457

The expenditure of the year shows a decrease of Rs. 7,234 compared with that of 1891-92. The causes of the increase and decrease under the several sub-heads may be briefly noticed. The decrease of Rs. 9,493 under the head 'Locks' was because the canal locks needed no extensive repairs during the year. Under the head 'buildings' the decrease is nearly Rs. 1,000, due to the fact that extensive repairs to certain buildings in 1891-92 were not needed in 1892-93.

Under the head 'dredging' the decrease is Rs. 4,526, very little dredging was done during the year, and the expenditure would have been still less than it was, but for the fact that an arrear of Rs. 16,000 for silt clearance in Bhangor and Assassooni khals done in 1891-92 was paid in 1892-93.

Under "channel and banks" the increase was Rs. 11,806, due to a variety of petty works being required. Under the head 'miscellaneous' a new latrine constructed in 1891-92 at a cost of Rs. 3,845 swelled the accounts of that year, and as no such works were found necessary during the year under review, the decrease amounted to Rs. 3,390.

117. The quantity of silt dredged, the expenditure incurred, and the rate per 1,000 cubic feet during the year, including the cost of delivering the mud are shown below:— DREDGING AND SILT CLEARANCE.

	Quantity dredged.	Cost.	Rate per 1,000 cubic feet.
1	2	3	4
	C. feet.	Rs.	Rs. A. P.
Steam dredger *Victoria* ...	1,384,875	8,282	5 15 0
Fouracres' dredger ...	556,080	4,690	8 6 1
Marchant's dredger ...	273,900	2,719	9 14 9
Hydraulic dredger *Clinker* ...	756,600	6,133	7 14 11

Omitting the cost of delivering the mud, the rates of dredging proper, exclusive of the cost of repairs and of interest on original cost, were per 1,000 cubic feet—

	Rs. A. P.
Steam dredger *Victoria*	4 0 7
Fouracres' dredger	3 1 0
Marchant's dredger	0 12 1
Hydraulic dredger *Clinker*	2 11 0

118. The state of the plantations for the last two years is shown below:— PLANTATIONS.

YEAR.	Trees over 12 feet.	Saplings from 4 to 12 feet.	Seedlings below 4 feet..	Total.
1	2	3	4	5
	No.	No.	No.	No.
1891-92 ...	2,307	1,381	1,308	4,996
1892-93 ...	2,304	1,627	1,773	5,104

The cost incurred during the year was Rs. 1,322 against Rs. 1,249 in 1891-92.

119. *Floods.*—There were no high floods during the year in any of the rivers crossed by the Calcutta and Eastern Canals. The highest gauge readings of the river Hooghly at Chitpur, Salt-Water Lake at Dhappa, and river Ichamati at Titulia are shown in the following statement:— FLOODS.

River.	Locality.	1892-93.		1891-92.		HIGHEST KNOWN.

Less—Receipts on capital account	...	3,293
Total direct charges ...	2,460	42,41,459
Indirect charges	22	1,02,975

The canal was open throughout its entire length of 97⅓ miles. The only work which remained to be completed during the year was the Panchpally dock on Range IVA. Fair progress had been made on it before the year closed. The measures to be adopted, in view of the changes in the Subarnarekha river, to secure an easy communication between the Jamcunda and Bhograi locks are under consideration.

REVENUE ACCOUNT.

2.—REVENUE ACCOUNT—(Actuals).

NOTE.—The details by heads of expenditure for the year 1892-93 and seven preceding years will be found in the table given in paragraph 121 following.

There was an improvement in the total receipts of Rs. 2,877 over the figures of the previous year, but the working expenses still exceeded the receipts by Rs. 14,718. The tolls, however, realised in March and amounting to Rs. 9,663 show what the canal can do, and there is reason to consider the prospect more hopeful, and that the stimulus to traffic afforded by the recent reductions in the through tolls will result in an increase in the receipts.

121. The receipts on Revenue account and working expenses of the canal for the last eight years are shown in the following statement:— FINANCIAL RESULTS.

	1885-86.	1886-87.	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.	1892-93.

The total direct charges were Rs. 979 higher than those of last year, though the cost of repairs was Rs. 3,108 lower. The excess charges were chiefly under Tools and Plant, and were caused by repairs which were necessary to the steamer "*Falcon*" and to dredgers, punts, barges and other floating plant.

On works alone the cost of maintenance was at the rate of Rs. 466 per mile against Rs. 498 of the preceding year. The constant work that is required at the Sabarnarekha crossing to keep the river channels navigable swells to no inconsiderable degree the yearly maintenance charges.

NAVIGATION. 122. As compared with 1891-92 an increase of traffic on all ranges except range III took place, and a large number of Bengali boats from and beyond Ghatal came for the time on to Range V.

The tollage receipts on each range of the canal for the last five years are shown below:—

RANGES.	Miles of canal open.	TOLLAGE RECEIPTS.				
		1888-89.	1889-90.	1890-91.	1891-92.	1892-93.

1,381	1,563	1,410	2,072	9,149

DREDGING AND SILT CLEARANCE.

125. Two dredgers, the *Comus* and the *Marchant*, were at work during the year in excavating silt at Bhaitghar lock and at certain points along Range V, where the crossing of thousands of cattle had caused the accumulation of bars of silt. The quantity dredged, and the cost and rate per 1,000 cubic feet, for the last two years are shown in the following table:—

Year.	Names of dredgers.	Quantity dredged.	Cost of—			Rate per 1,000 C.Ft.		
			Lifting by dredger.	Removing by mud-punts.	Total.	Lifting.	Removing.	Total.
1	2	3	4	5	6	7	8	9
						Rs. A. P.	Rs. A. P.	Rs. A. P.
1891-92 ...	*Comus* with 10 mud-punts.	395,950	2,138	1,406	3,544	5 6 5	3 8 0	8 14 5
1892-93	*Comus* with 10 mud-punts.	180,275	824	845	1,669	4 9 0	4 11 0	9 4 0

130. The lengths of canal and distributaries in operation at the close of the year 1892-93, compared with 1891-92, are given in the following table:— LENGTH OF CANALS OPEN AND AREAS COMMANDED AND IRRIGATED.

Name of Canal.	1891-92.								1892-93.							
	Navigable canals.	Canals for irrigation only.	Distributaries and village channels.	Area protected from flood.	Area under command.	Area provided with distributaries.	Area irrigated.	Percentage of area irrigated to area provided with distributaries.	Navigable canals.	Canals for irrigation only.	Distributaries and village channels.	Area protected from flood.	Area under command.	Area provided with distributaries.	Area irrigated.	Percentage of area irrigated to area provided with distributaries.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17
Saran Canals.		Miles.			Acres.		Acres.			Miles.			Acres.		Acres.	
Main canal or head cut		6·34								6·34						
Branch Canals.																
I.—Daha feeder ..		3·34	...	...	64,000		3,560	...	...	3·34	...	...	64,000	...	5,905	...
II.—Gandaki ...		1·57								1·57						
III.—Dhanni ...		1·00								1·00						
IV.—Gangri ...		6·57								6·57						
In addition to the above, the following are maintained:—																
I.—Thakraha Sota .		1·50	...	...	...	...	...	..	...	1·50	...	...	..	...	...	...
II.—Roopan Chap Sota		27·00	...	...	..	...	...	...	...	27·00	...	...	...	...	...	...

There was no alteration in the lengths of the cuts and channels constructed and maintained by the Manager of the Moniara Estate, which aggregate about 33 miles. No distributaries or village channels are maintained by Government. There are nine permanent dams and regulators in the branch canals, and twenty-five temporary bunds were constructed during the year to regulate the supply of water.

131. The average rainfall on the area under command is shown by seasons in the table below for the last four years:— RAINFALL.

	1889-90.	1890-91.	1891-92.	1892-93.
	Inches.	Inches.	Inches.	Inches.
Kharif season*... ...	19·47	24·60	11·52	27·52
Rabi	1·20	1·43	0·61	2·33
Year	45·09	58·63	35·05	48·82

* August, September and October.

The total rainfall was slightly in excess of the normal, but in October there was no rainfall, and there was in consequence a large demand for water for rice irrigation.

132. A very high flood occurred in the river Gandak in August 1892. The height reached at Sisua was only 0·83 below the maximum recorded. No damage to the canals resulted. FLOODS.

133. The areas irrigated as obtained from the Canal Manager's reports during the past ten years, together with the rainfall, are given in the table below:— IRRIGATION.

Year.	Kharif.	Rabi.	Perennial.	Total.	Rainfall.
1	2	3	4	5	6
	Acres.	Acres.	Acres.	Acres.	Inches.

1892-93 ...	1,338	2,222	...	3,560	48·82

DUTY OF WATER.

134. The duty of water cannot be calculated, as there is no regular irrigation, and the canals are drainage as well as irrigation channels.

The agreement with the proprietors of Moniara and Sadowa under which the canals were worked in 1891-92 was subsequently revised, and a new agreement between the Secretary of State and the proprietors was entered into. This agreement cancelled the previous one, and its terms consequently embraced both the years 1891-92 and 1892-93. Under it the lessees are to pay Government the actual cost of maintaining the canals, excluding the cost of establishment up to a limit of Rs. 22,000 for the two years, less the net amounts realized from irrigation and the sale of water, &c., outside the limits of their dehats. Government on the other hand undertakes to maintain the canals in good order, but to limit the expenditure on maintenance for the two years to Rs. 22,000 excluding the cost of establishment. It is, however, very doubtful whether this agreement will ever form a permanent basis for the administration of the Saran canals. The Manager of the Sadowa Estate has shown no desire for the extension of the agreement, and it is more than probable that Government will eventually be compelled to close the canals.

ASSESSMENTS, COLLECTIONS AND BALANCES.

135. The following comparative statement shows the balances, assessments, and recoveries of water-rates for the last thirteen years :—

YEAR.	Amount outstanding at commencement of year.	Amount falling due during the year.	Total for recovery.	Cash realization.	Remitted or written off.	Balance at the end of the year.
1	2	3	4	5	6	7
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
1880-81		9,750 0 0	9,750 0 0	10,080 0 9	...	380 6 9

1887-88	23,540 6 3	21,800 0 0	45,340 6 3	21,000 0 0	...	24,340 13 3
1888-89	24,340 13 3	21,850 0 0	46,170 13 3	20,415 0 0	...	25,755 13 3
1889-90	25,755 13 3	21,850 0 0	47,605 13 3	23,999 0 3	1,250 0 0	23,305 13 0
1890-91	23,305 13 0	21,850 0 0	45,215 13 0	37,036 2 9	...	8,179 10 3
1891-92	8,179 10 3	11,000 0 0	19,179 10 3	15,783 8 4	231 4 6	3,163 13 5
1892-93	3,163 13 5	11,000 0 0	14,163 13 5	1,491 11 4	...	12,671 2 1

The outstanding balance shows an increase from Rs. 3,163 to Rs. 12,671 at the end of the year under review.

MAINTENANCE AND REPAIRS.

136. The following table shows the expenditure on maintenance during the past four years :—

	Miles	1889-90.	1890-91.	1891-92.	1892-93.
1	2	3	4	5	6
		Rs.	Rs.	Rs.	Rs.
Repairs to head cut and river protective works	6·34	10,026	7,445	4,304	1,341
Repairs to Daha feeder ...	3·34	909	1,200	357	544
„ to Gandaki feeder ..	1·57	1,118	1,735	221	1,550
„ to Dhanai feeder ...	1·00	722	592	65	411
„ to Gangri feeder ...	6·57	768	2,777	129	565
„ to dams and channels for irrigation purposes	...	11,357	12,615	3,945	5,106
Total ...	...	24,900	26,454	9,021	9,517
Establishment	...	12,422	10,560	3,710	3,772
Tools and plant (actual) ...	...	991	389	(—)193	213
GRAND TOTAL ...	...	38,313	37,403	12,538	13,502

The cost of maintaining the head works was much less during the year than in 1891-92. The reason of this is that there was no time for clearing silt from the head cut on account of the early demand for water, and consequently there was no expenditure under this head.

137. There are no dredgers on the canals, and the silt is removed by hand only. DREDGING AND SILT CLEARANCE.

The following statement shows the total quantity of silt removed from the canals and the cost during the year as compared with the two previous years:—

	1890-91.		1891-92.		1892-93.	
1	2	3	4	5	6	7
	C. ft.	Rs.	C. ft.	Rs.	C. ft.	Rs.
Head cut or main canal .	342,745	1,740	44,465	244	18,201	100
Feeders or branch canals	1,339,675	4,080	24,755	95	445,891	1,567
Thakaraha Sota mouth ...	549,781	2,077	594,957	1,785	383,159	1,149
Total ...	2,232,201	7,897	664,177	2,124	847,258	2,816

138. The state of the plantations for the last two years is shown below:— PLANTATIONS.

YEAR.	Trees over 12 feet.	Saplings between 4 and 12 feet.	Seedlings under 4 feet.	TOTAL.
1	2	3	4	5
	No.	No.	No.	No.
1891-92	2,642	2,979	3,993	9,614
1892-93	4,939	6,973	6,988	18,895

These figures show that the number of trees has increased from 9,614 to 18,895. The expenditure has decreased from Rs. 57 to Rs. 45.

NADIA RIVERS.

139. The approximate length of the channels comprising the Nadia rivers' system is 477 miles. No capital account of expenditure is kept. The revenue account for the last two years is given below:— REVENUE ACCOUNT.

PARTICULARS.	EXPENDITURE.		PARTICULARS.	RECEIPTS.	
	During 1891-92.	During 1892-93.		During 1891-92.	During 1892-93.

Indirect Charges.										
Leave and pension allowances	5,647	4,807	4,419	4,101	5,870	6,075	5,395	6,357	6,417	7,221
Total indirect charges ...	5,647	4,807	4,419	4,101	5,870	6,075	5,395	6,357	6,417	7,221
Total working expenses ...	1,30,922	1,00,643	82,087	64,314	97,892	1,40,769	92,989	1,09,894	1,13,274	1,30,275
Net revenue ...	71,912	94,814	1,01,694	1,38,936	1,00,783	51,119	93,834	90,568	79,463	35,245

There was a heavy fall in the total receipts during the year as compared with 1891-92, the decrease amounting to Rs. 27,217. This was almost entirely due to the abnormally depressed condition of trade during the year, though the bad state of the head of the Mathabhanga river which closed early in the year may have contributed in some measure towards making the net revenue the smallest on record.

RAINFALL AND FLOODS.

141. No rainfall register is kept up for these rivers. The flood of 1892 was higher than that of the previous year, but still much below the highest recorded level.

The gauge readings at Gheria and Berhampore for the last four years are given below:—

	GHERIA.	BERHAMPORE.
1889 ...	34·00	... 30′4½″
1890 ...	34·70	... 30′11¾′
1891 ...	29·30	... 26′7″
1892 ...	31·55	... 29′1¼″

A statement showing the highest gauge readings of the Nadia rivers is given below as compared with those of the previous year:—

River.	Locality.	1892-93.		1891-92.		Highest known.	
		Date.	Reading.	Date.	Reading.	Date.	Reading.
1	2	3	4	5	6	7	8

	No.	Tons.	Tons.	Rs.	Rs.	
Bhagirathi	10,987	161,353	73,045	51,44,253	81,117	...
Ditto and Bhyrub-Janlangi...	32,948	501,824	193,663	2,66,11,567	1,09,302	...
Mathabhanga and Ichamati ...	10,855	120,312	39,586	38,37,074	24,961	...
Total, 1892-93 ...	54,790	783,489	306,294	3,55,92,894	1,65,380	0·46
Total, 1891-92 ...	60,167	804,623	352,744	3,76,05,221	1,92,718	0·52

144. The cost of the revenue establishment for the last five years is shown below:— REVENUE ESTABLISHMENT.

	1888-89.	1889-90.	1890-91.	1891-92.	1892-93.
1	2	3	4	5	6
	Rs.	Rs.	Rs.	Rs.	Rs.
Salary and commission of Collectors	12,671	11,943	13,224	13,210	12,391
Accounts and office establishment	9,397	8,986	9,223	8,942	8,879
Travelling allowance ...	463	390	711	530	601
Contingencies	475	441	472	452	411
Total ...	23,006	21,760	23,630	23,134	22,282

The decrease results from the smaller commission earned by toll-collectors and darogas owing to diminished revenue.

MAINTENANCE AND REPAIRS.

145. The charges for maintenance and repairs for the last three years are detailed below:—

PARTICULARS.	1890-91.	1891-92.	1892-93.
1	2	3	4
	Rs.	Rs.	Rs.
Re-opening lower entrance channel, Bhagirathi river	1,422	1,290	...
Inspection shed, upper entrance... ...	...	496	...
Training works in river Bhagirathi ...	31,438	40,413	46,518
" " Bhyrub ...	2,313	2,593	3,174
" " Jalangi ...	1,695	1,960	3,287
" " Mathabhanga ...	1,641	1,415	3,062
Sounding Nadia Rivers	5,921	6,015	6,161
Maintaining and working divisional boats ...	2,862	3,102	2,698
Petty and other charges	5,190	5,420	3,863
Total ...	52,482	62,704	68,763

The total expenditure for the year was very heavy, being Rs. 6,059 in excess of that of 1891-92, and Rs. 16,281 higher than the figures of 1890-91. This was caused by the large outlay on training works in the several rivers, more especially in the Bhagiratni, which was necessary in order to prevent the entire closure of the navigable channels.

MISCELLANEOUS RECEIPTS.

146. The miscellaneous receipts during the year amounted to Rs. 158, against Rs. 247 in the previous year.

DREDGING AND SILT CLEARANCE.

147. There was no expenditure under this head during the year.

PLANTATIONS.

148. The only plantations kept up are on the berms of the embankments. A number of young trees of different kinds were planted during the year. The number now existing is 17,864 against 17,004 of last year.

EDEN CANAL.

LENGTH OF CANAL.

149. No capital or revenue account of this canal is maintained. Its total length inclusive of that of the excavated channels is 26½ miles, as detailed below:—

Jujuty sluice channels	...	...	2 miles.
Eden Canal proper	...	...	19½ "
Kana Damodar junction cut	...	...	2½ "
Saraswati junction cut	...	...	2½ "
Total		...	26½ "

Besides the above length the natural channels of the Kana Nadi,. Kana Damodar, and North and South Saraswati are included in the system.

The rainfall during the year was 50·89 against 46·70 in 1891-92. During the kharif season it was scanty and the demand for water was very great; from December 1892 to middle of February it was almost nil.

REVENUE ACCOUNT.

150. The receipts and expenditure for the last two years are given below:—

RECEIPTS.	1891-92.	1892-93.	EXPENDITURE.	1891-92.	1892-93.
1	2	3	4	5	6
	Rs.	Rs.		Rs.	Rs.
Water-rates ..	9,430	30,310	Works	4	(—)18
Miscellaneous	728	803	Maintenance and repairs	18,623	26,478
			Establishment ...	6,541	10,078
Total ...	10,158	31,113	Tools and plant .	495	652
Less—Refunds of revenue	39	70	Total expenditure ...	25,663	37,160
Net total receipts ...	10,119	31,043	Balance, deficit ...	15,544	6,117

There was a very satisfactory increase in the receipts from water-rates amounting to Rs. 20,880 over the figures of 1891-92. Referring to the very high maintenance charges for the year the Superintending Engineer writes:—

"The actual excess in the cost of work in maintenance was Rs. 7,863, due chiefly to causes having their origin in more extended use of the canal for irrigation purposes, such as silt clearance, repairs of floors, sluices, &c. Another cause was the extensive weed and jungle clearance of the natural channels to improve the drinking water-supply."

The sand dam across the Damodar at Jujuti to keep up the cold weather supply of the canal was constructed as usual.

IRRIGATION.

151. The irrigation operations during the year were very satisfactory. The total area irrigated was 71,333 acres of which 38,024 acres were in the Burdwan and 33,309 acres in the Hooghly district. The corresponding figures for last year were only 12,145 acres in Burdwan and 562 acres in Hooghly. The areas irrigated during the last four years were as below:—

Nature of leases.	1889-90.	1890-91.	1891-92.	1892-93.
1	2	3	4	5
	Acres.	Acres.	Acres.	Acres.
Annual ...	9,693	1,330	1,478	6,534
Long leases ...	...	...	12,707	47,848
Unauthorized ...	...	...	...	16,951
Total ...	9,693	1,330	14,185	71,333

The total demand for the year was Rs. 67,411, of which Rs. 30,706 were actually collected and Rs. 54 remitted, leaving an unrealised balance of Rs. 36,650, a large portion of which it is known will not be collected, as irrigation was effected under private agreements and not under the Irrigation Act. Owing to the proprietary rights possessed by the zamindars in the old river channels which are utilized as canals, there is considerable difficulty in framing any irrigation rules.

The outturn of crops on the irrigated area was exceedingly good, whereas on the unirrigated lands it was very poor.

REVENUE ESTABLISHMENT.

152. The cost of establishment employed on irrigation during the year was Rs. 1,536 against Rs. 966 in 1891-92, the increase being due to the larger area under irrigation.

MADHUBAN CANAL.

EXPENDITURE.

153. The expenditure on works and maintenance of this canal during the last four years are given below:—

Particulars.	1889-90.	1890-91.	1891-92.	1892-93.
1	2	3	4	5
	Rs.	Rs.	Rs.	Rs.
Works ...	2,957	6,236	...	...
Maintenance ...	3,257	2,011	7,300	7,093
Establishment	3,100	3,293	3,003	2,813
Tools and plant ...	23	287	203	126
Total ...	9,337	11,827	10,506	10,032

The Tour weir was again damaged during the floods of 1892, a large portion of the east revetment having been carried away, with a resulting erosion that at first threatened to outflank the weir.

During a portion of the year, a qualified sub-overseer was especially deputed to reside in the vicinity of the canal and to examine carefully by actual observations its capabilities as regards the areas irrigable. His presence stimulated irrigation, which is usually resorted to in a very half-hearted manner, although no charge is made for water. The development of irrigation from this canal by the construction of distributaries is now under consideration.

No revenue is derived from the canal.

The miscellaneous receipts were Rs. 163 against Rs. 92 in 1891-92.

IRRIGATION. The areas irrigated during the last three years are shown below:—

Nature of crop.	1890-91.	1891-92.	1892-93.
1	2	3	4
	Acres.	Acres.	Acres.
Kharif	...	2,539	4,895
Rabi	2	495	150
Poppy	852	552	734
Other crops ...	...	...	640
Total ...	854	3,586	6,400

GENERAL RESULTS.

NET REVENUE. 154. The net results of the year 1892-93, compared with those of the previous year, are shown below:—

PARTICULARS.	Receipts from all sources.	Working expenses, including refunds of revenue. (Direct and indirect charges.)	Profit or loss.
1	2	3	4
MAJOR IRRIGATION WORKS.	Rs	Rs.	Rs.
1891-92	16,02,710	14,42,037	+1,60,673
1892-93	18,87,670	14,89,716	+3,97,954
MINOR WORKS AND NAVIGATION.			
For which Capital and Revenue accounts are kept.			
1891-92	6,03,297	4,35,195	+1,68,102
1892-93	5,46,751	3,46,036	+2,00,715
For which only Revenue accounts are kept.			
1891-92	1,92,965	1,13,502	+79,463
1892-93	1,65,538	1,30,293	+35,245
For which neither Capital nor Revenue accounts are kept.			
1891-92	10,250	36,208	−25,958
1892-93	31,276	47,262	−15,986
Total 1891-92 ...	24,09,222	20,26,942	+3,82,280
Total 1892-93 ...	26,31,235	20,13,307	+6,17,928

The actual receipts exceeded the figures of the revised Budget estimates by Rs. 2,07,235, while the expenses were Rs. 1,06,720 more than the budgetted amount.

EARNINGS.

155. Compared with 1891-92 the net result of the Major Irrigation Works reckoned on earnings, that is, on assessed revenue instead of on actual receipts, was:—

	Earnings.	Working expenses.	Profit or loss.
	Rs.	Rs.	Rs.
1891-92 ...	18,14,485	14,37,935	+ 3,76,550
1892-93 ...	16,09,209	14,85,393	+ 1,23,816

The expenditure was only slightly above the average.

The revenue from Minor Works and Navigation is derived mainly from tollage receipts.

ARREARS.

156. The following summary shows the progress in the recovery of water-rates during the year :—

CANALS.	Outstanding on 1st April 1892.	Demand of 1892-93.	Collected or adjusted.	Outstanding on 1st April 1893.
1	2	3	4	5
	Rs.	Rs.	Rs.	Rs.
Orissa Canals	2,33,704	2,61,023	4,04,911	89,816
Midnapore Canal	58,972	1,39,990	1,50,395	48,567
Sone Canals	1,11,444	9,50,732	9,74,386	87,790
Total ...	4,04,120	13,51,745	15,29,692	2,26,173

VALUE OF CROPS.

157. The approximate value of crops irrigated by Major Irrigation Works during the last two years is shown below :—

CANALS.	1891-92.		1892-93.	
	Area irrigated.	Value of crops.	Area irrigated.	Value of crops.
1	2	3	4	5
	Acres.	Rs.	Acres.	Rs.
Orissa Canals	177,685	47,87,546	160,952	42 12,253
Midnapore Canal	83,973	20,99,325	91,217	22,80,425
Sone Canals	474,723	1,44,85,957	410,761	1,58,91,273
Total ...	736,381	2,13,72,828	662,930	2,23,83,951

The average value per acre of the various crops irrigated has increased from Rs. 29·0 to Rs. 33·7.

TOURS AND INSPECTIONS.

158. Two tables are attached as appendices to this note, (I)—showing the number of days spent on tour by each officer of the Irrigation Department, (II) the dates of inspections of the divisional and subdivisional offices by each of the Superintending and Executive Engineers during the year 1892-93.

159. The date fixed for the submission of revenue reports to the office of the Chief Engineer is the 5th September. The dates when the different reports were received are shown below :—

		In 1892.	In 1893.
Orissa Circle	Commissioner's report ..	27th September.	13th October.
	Superintending Engineer's report	23rd ditto.	5th September.
South-Western Circle	Commissioner's report ...	24th ditto.	21st ditto
	Superintending Engineer's report	17th ditto.	6th ditto
Sone Circle	Commissioner's report ...	26th ditto.	7th ditto
	Superintending Engineer's report	15th ditto.	7th ditto

All the reports were practically punctual, excepting that of the Commissioner of Orissa, which was not received until the 13th October 1893. The delay was in the office of the Superintending Engineer, who received the report early in July.

160. Last year I remarked that I thought the results of the year's working, which showed a net profit on major and minor works of Rs. 3,82,280, against Rs. 1,42,628 in 1890-91, would be considered satisfactory. This year the net revenue has reached Rs. 6,17,928. In major works only the profit has been Rs. 3,97,954, against Rs. 1,60,673 in 1891-92. If, however, earnings are considered in place of collections, the revenue during 1891-92 was, owing to the failure of the autumn rains in that year, the greater, viz., Rs. 3,76,550, against Rs. 1,20,685 in the year under review. The net revenue is largely dependent on the sum expended on repairs, and by minimizing these, it would be possible to show returns more favourable than the real facts of the case warranted. In 1892-93 the working expenses were Rs. 13,635 only less than in 1891-92, there having been extra expenditure on major works, whilst a smaller sum sufficed to keep the minor works in good order.

161. There is still more, especially in Orissa, great pressure on the staff, the system on which the canals are managed has in that circle been entirely changed during the last two years, and credit is due to the Engineers and subordinates for the energy with which they have endeavoured to meet the altered circumstances. Mr. C. A. White, Executive Engineer in charge of the Kendupatna sub-division, deserves special praise for bringing nearly all the existing irrigation under lease on the conditions approved by Sir Charles Elliott in April 1892. The irrigation from the Eden Canal was very extensive, and Rai Bama Charan Paramanic Bahadur, Honorary Assistant Engineer, had a difficult task in making the most of the water-supply available and in distributing it equitably, in both respect he succeeded. In the body of this note the good work of Babu Saroda Prosad Chatterjee, Deputy Collector, Revenue Division, Sone Canals, and Babu Jagdam Sahai, Deputy Collector, Revenue Division, Orissa Canals, has been frequently alluded to, and they both, I think, deserve the thanks of Government.

C. W. ODLING,

The 25th November 1893. *Chief Engineer.*

APPENDIX I.

Statement showing the number of days spent on duty by Superintending, Executive, and Assistant Engineers and Upper Subordinates of the Irrigation Branch of the Public Works Department during the year 1892-93.

Name.	Circle or Division.	Number of days—		Remarks.
		On duty.	On tour.	
Superintending Engineers.				
Lieut.-Col. A. D. McArthur...	South-Western ...	356	87	On privilege leave for 9 days.
Mr. D. B. Horn	Ditto ...	9	...	
„ W. Connan	Orissa	365	154	
„ W. A. Inglis ...	Sone	365	190	
Executive Engineers.				
Mr. J. P. Scotland ...	Cossye	365	226	
„ T. M. L. Thompson ...	Northern Drainage and Embankment.	365	183	
„ C. E. Livesay ...	Nadia Rivers ...	365	236	
„ D. B. Horn	Brahmini-Byturni ...	365	134	
„ G. A. G. Shawe ...	Puri, Mahanadi and Superintending Engineer's Office.	92	29	Returned from furlough and joined Division on the 30th December 1892.
„ T. Butler	Mahanadi ...	273	102	On privilege leave for 92 days.
„ J. R. Swinden ...	Puri	173	64	On 2 years' furlough from 15th October 1892.
„ M. H. Arnott ...	Aquapada-Jajpur and Brahmini-Byturni.	365	253	
Rai Bahadur Prosunno Coomar Daneary.	Puri	28	...	Returned from furlough and joined Division on the 4th March 1893.
Mr. C. A. White... ...	Kendupatna ...	365	248	
„ H. Barlow	Jagatsingpore ...	349	258	On 25 days' privilege leave.
„ J. S. L. Long ..	Gandak, Puri, and Kendupatna.	212	87	Joined Division 3rd September 1892.
„ M. J. J. P. Norman ...	Buxar	365	169	
„ O. C. Lees	Gandak ...	274	104	On 91 days' privilege leave.
„ A. S. Thomson ...	Eastern Sone ...	273	110	On 92 days' privilege leave.
„ L. R. Fraser	Dehri Workshops ...	365	68	The greater part of the work of this Division is at head-quarters.
„ R. E. Carter ...	Arrah	340	156	Transferred to the Orissa Circle from the 6th March 1893.
	Brahmini-Byturni ...	14	...	Joined Division on the 18th March 1893.
„ A. E. Silk ...	Arrah	6	2	Transferred to Eastern Sone.
	Eastern Sone ...	122	35	Joined Division on 11th April 1892. Transferred to the Roads and Buildings Branch from 18th August 1892.
„ C. H. DeMello ...	Arrah	25	7	Transferred to Buxar Division.
	Buxar	330	179	Took 10 days' joining time.
„ H. H. Green ...	Gandak ...	101	44	Transferred from the Roads and Buildings Branch and joined Division on 28th April 1892. Took charge of the division on 7th May 1892. Made over charge on the 6th August 1892.
	Ditto ...	237	149	Took charge of Siwan sub-division on 7th August 1892.
„ A. Hayes	Balasore ...	359	160	On leave for 6 days.
„ T. H. Clowes ...	Ditto ...	314	195	On leave for 7 days. Proceeded on 9 months' furlough from 22nd February 1893.
Assistant Engineers.				
Mr. A. H. C. MacCarthy ...	Arrah ...	5	...	Transferred to the South-Western Circle.
	South Western ...	172	88	Joined Superintending Engineer's office from 15th July 1892. Leave on private affairs for 6 months from 3rd January 1893.
„ W. S. Bremner ...	Cossye ...	365	170	
Rai Bahadur Bama Charn Pramanic.	Northern Drainage and Embankment.	365	235	
Mr. J. W. Fox	Circular and Eastern Canals.	364	187	On leave for one day.
„ P. G. Jacobs ...	Eastern Sone ...	297	181	Transferred to the South-Western Circle.
	Balasore ...	53	31	Joined Division on 7th February 1893.
„ J. C. Hewitt ...	Buxar	292	156	
	Eastern Sone ...	73	45	
„ F. A. A. Cowley ...	Arrah	365	278	
Rai Sahib Beni Madhab Mittra	Do. ...	340	252	On leave for 25 days.
Mr. E. A. Smith ...	Dehri Workshops ...	50	...	Joined Superintending Engineer's office in the latter part of December 1892. Joined workshops on 8th January 1893.
	Arrah	32	21	Joined Division on 28th February 1893.

APPENDIX I—*continued.*

Name.	Circle or Division.	Number of days—		Remarks.
		On duty.	On tour.	
***Assistant Engineers*—concld.**				
Mr. G. L. Scaright ...	Buxar	59	27	Returned from 18 months' special leave and joined Division on 1st February 1893.
„ J. Zorab	Do.	73	46	Transferred from the Roads and Buildings Branch, and joined Division from 16th November 1892. Was employed in charge of a section from 16th November 1892 to 17th January 1893.
„ J. S. L. Long ...	Gandak ...	102	13	On leave for 40 days. Transferred to the Orissa Circle.
Rai Sahib Kally Pada Sen ...	Aquapada ...	273	134	On 92 days' privilege leave.
Rai Sahib Annada Prosad Sircar	Ditto ...	365	208	
Mr. O. S. Smith	Brahmini-Byturni ...	341	182	Transferred from the Roads and Buildings Branch. Joined Division on 18th May 1892.
„ H. G. Gearing ...	Mahanadi ...	365	39	Most of the works are within 5 miles of head-quarters.
Sub-Engineers.				
Babu Jodunath Bose ...	Cossye ...	365	123	
Rai Sahib Gopal Chunder Daw	Northern Drainage and Embankment.	365	242	
Babu Rakhal Dass Roy ...	Circular and Eastern Canals.	273	74	Returned from employment under the District Board of Khulna, and joined the Division on the 2nd July 1892.
Mr. J. Bradshaw ...	Balasore ...	360	207	On leave for 5 days.
„ I. J. Atkinson ...	Ditto ...	357	39	On leave for 8 days. Principal works lie at head-quarters being in charge of workshops.
Rai Sahib Satcowry Chatterjee	Eastern Sone ...	285	12	On privilege leave for 80 days. Principal works lie at head-quarters.
Mr. S. Street	Arrah	305	191	On privilege leave for 60 days.
„ J. C. Coxe	Puri ...	365	307	
Rai Sahib Prosunno Coomar Pal.	Aquapada-Jajpur ...	365	229	
Supervisors.				
Babu Jogendra Lall Chatterjee.	Northern Drainage and Embankment.	199	128	Returned from famine duty in Madras and joined the Division on the 20th September 1892.
„ Rakhal Dass Chatterjee	Nadia Rivers ...	365	113	
„ Lokenath Mitter ...	Ditto ...	365	216	
Mr. C. M. S. Rooke ...	Ditto ..	365	...	Employed as Toll-collector, Jangipur.
Babu Dukhina Runjan Mookerjee.	Circular and Eastern Canals.	190	85	Returned from famine duty in Madras and joined Division on the 23rd September 1892.
„ Ashutosh Mitter ...	Ditto ...	358	235	On leave for seven days.
Mr. W. W. H. Leslie ...	Gandak ...	365	139	
Babu Rudra Prosonno Singh	Do. ...	305	112	
„ Troylokho Nath Sircar	Do. ...	176	14	On privilege leave for 81 days.
„ Gopal Chander Mukherjee.	Do. ...	174	12	
„ Chundra Bhusan Dutt	Eastern Sone ...	76	2	On privilege leave for 90 days'
	Gandak ...	14	2	Principal works lie at head-quarters.
	Dehri Workshops	289	216	On privilege leave for 60 days and 2 days' joining time.
„ Kanti Chundra Banerjee.	Arrah ...	60	40	
	Eastern Sone ...	286	78	On leave for 19 days, including joining time on two occasions. Principal works lie at head-quarters.
Mr. H. E. Willimson ...	Dehri Workshops ...	365	42	Principal works lie at head-quarters.
Babu Gopal Chunder Ghose	Ditto ...	365	80	Ditto ditto.
„ Durga Charan Chakerbutty.	Eastern Sone ...	363	225	Two days' joining time.
„ Kenaram Bose ...	Ditto ...	365	185	
„ Mohendro Nath Sircar	Buxar ...	365	235	
„ Pran Kissen Sen ...	Mahanadi ...	365	257	
Mr. C. A. Marchant ...	Ditto ...	201	11	Transferred from the Calcutta Canals and joined Division 28th October 1892.
Overseers.				
Babu Romanath Sircar ...	Cossye ...	365	254	
„ Kirtybas Mytl ...	Do. ...	365	84	Worked principally at head-quarters.
Mr. P. Madge	Do. ...	14	...	Transfered to Madras from 15th April 1892.

APPENDIX I—*concluded.*

Name.	Circle or Division.	Number of days—		Remarks.
		On duty.	On tour.	
Overseers—concld.				
Babu Mohini Mohan Lahiri	Northern Drainage and Embankment.	144	78	On leave for 14 days. Appointed to the Department, and joined the Division on the 24th November 1892.
„ Akhoy Krishna Bose ...	Nadia Rivers ...	164	122	Was on Madras famine duty from 1st April 1892 to 22nd September 1892. Was on transit form 23rd September to 1st October 1892.
„ Rajendra Nath Mukherjee.	Ditto ...	365	120	
Mr. A. E. Hefferman ...	Balasore ...	320	135	On privilege leave for 45 days.
Babu Suresh Chunder Ganguli.	Ditto ...	353	152	On leave for 12 days.
„ Rajendro Lall Sircar ...	Arrah ...	359	324	
„ Kherode Chunder Mukherjee.	Dehri Workshops ...	10	...	Transferred from the Roads and Buildings Branch and joined the Division on the 22nd March 1893.
„ Surendra Nath Barat...	Brahmini-Byturni ...	307	272	On leave for 31 days. Transferred from the Arrah Division, and joined 26th April 1892.
„ Hurry Churn Mukerjea.	Mahanadi ...	296	240	On leave for 69 days.
„ Banku Behari Mukerjea.	Puri ...	365	166	
„ Bhoosun Chunder Banerjea.	Do. ...	296	...	Transferred from the Gandak Division, and joined on the 19th June 1892. Work at headquarters.
„ Krisna Dhone Banerjea	Aquapada-Jajpur ...	359	165	
„ Bankim Krishna Ghose	Brahmini-Byturni ...	365	335	
„ Troyluckonath Muzumdar.	Ditto ...	296	288	Appointed to Department on 15th June 1892, and joined Division on 21st June 1892.
„ Soshi Bhushan Muzumdar.	Mahanadi ...	348	271	
„ Hira Lall Sen ...	Puri and Mahanadi	365	122	
„ Upendranath Mukerjea...	Aquapada-Jajpur ...	132	26	Appointed to the Department on 16th November 1892, and joined Division 20th November 1892.
Calcutta Canals.				
Supervisors.				
Mr. W. R. Cooksey ...	.....	365	...	Daily inspections of few hours only.
„ P. O. Wight ...	Toll Inspector, Dhappa.	197	...	Joined Division on 15th November 1892.
Babu J. N. Gupta ...	Canal Inspector, Tolly's Nala.	365	...	Daily inspections of few hours only.
Sone Canals.				
Revenue Division.				
Babu Soroda Prosad Chatterjee.	Deputy Collector ...	273	93	On privilege leave for 92 days.
„ Siva Sanker Singh ...	Ditto ...	355	243	On leave for 10 days.
„ Madho Lall ...	Sub-Deputy Collector	297	172	Joined Division on 8th June 1892.
„ Probhat Chundra Mukerjee.	Ditto ...	64	34	
Orissa Canals.				
Rai Bahadur Jugdum Sahai...	Deputy Collector ...	341	146	
Babu Gopal Bullub Mittor ...	Sub-Deputy Collector	325	178	

APPENDIX II.

Statements showing the dates of inspections of the Divisional and Subdivisional and Toll Offices by the Superintending and Executive Engineers, Orissa, South-Western and Sone Circles during the year 1892-93.

* The area (5,600 acres) commanded by the Samaram distributary has been added.

(*a*) Rupees 19,58,336 sanctioned for direct outlay on the Orissa Project from 1st April 1890 to date of closing of construction estimate on 31st March 1895—*vide* Government of India, Public Works Department, letter No. 2981,, dated 8th December 1892. From 1890-91 to 1892-93 Rs. 10,83,551 have been expended out of this amount.

(*b*) and (*c*) The estimates for the Midnapore and Hidgellee Tidal canals, respectively, having been withdrawn and closed, the figures shown are the totals of the old and fresh sanctions.

(*d*) Sanction to the construction estimate for the Sone Project expired on 31st March 1891. The expenditure from 1st April 1891 is chargeable against the schedule of works amounting to Rs. 7,05,797 for direct outlay and Rs. 16,366 for indirect outlay sanctioned in Government of India, Public Works Department letter, No. 6I., dated 6th January 1893.

(*e*) There is no general sanctioned estimate for this project.

(*f*) Includes Rs. 8,66,000 expended from Famine Relief funds.

* Cannot be filled in, as the payment is partly for water supplied for the manufacture of indigo.

Note A.—In this table the water-rates shown as assessed during the year are the amounts for which occupiers have rendered themselves liable in return for canal water supplied during the year, and include some demands which were not legally recoverable, and others of which the assessment papers were not completed till after the close of the year.

Note B.—Refunds of revenue have been deducted from "Gross assessed revenue from all sources."

Season Leases (Hot weather).

	FLOW OR LIFT.		
	Per acre.	Per bigah.	Per tenth of a bigah.
	Rs. A. P	Rs. A. P.	Rs. A. P.
For water supplied between the 25th March and the 25th June, or at the option of the applicant, between the 25th of February and the 25th of May, for all crops.	4 0 0	2 8 0	0 4 0

In the case of charges under schedules I to IV, any smaller area than one-tenth of a bigah will be charged as one tenth. The bigah contains 27,225 square feet.

SCHEDULE No. V.

For water supplied by volume in the kharif season.

For water supplied between the 1st of September and the 31st October, four rupees for a calculated discharge of one cubic foot per second for twelve hours. For less than a cubic foot per second or less than twelve hours, a proportionate charge shall be made, but a fraction of less than one-sixteenth shall be charged as one-sixteenth.

SCHEDULE No. VI.

For water supplied by volume to fill aharas

For water supplied between the 1st of November and the 25th of March, one rupee for a calculated discharge of one cubic foot per second for twelve hours. For less than a cubic foot per second or less then twelve hours, a proportionate charge shall be made, but a fraction of less than one-sixteenth shall be charged as one-sixteenth.

List of Officers in charge of Irrigation Circles and Divisions during the year 1892-93.

Circle or Division.	Name of Officer.	Period of charge.
SECRETARIAT.		
Joint-Secretary, Irrigation Department.	Mr. C. W. Odling ...	From 1st April 1892 to 16th January 1893.
Secretary, Irrigation Department.	Ditto ...	„ 17th January to 31st March 1893.
Under-Secretary, Irrigation Department.	„ G. C. Maconchy ...	„ 1st April 1892 to 31st March 1893.

Circle or Division.	Name of Officer.	Period of charge.

SUPERINTENDING ENGINEERS IN CHARGE OF CIRCLES.

South-Western Circle ...	Lieutenant-Colonel A. D. McArthur, R.E.	From 1st April 1892 to 22nd March 1893 [on privilege leave from 23rd March 1893].
Ditto ...	Mr. D. B. Horn ...	„ 23rd to 31st March 1893. Officiating.
Orissa Circle	„ W. Connan ...	„ 1st April 1892 to 31st March 1893.
Sone Circle	„ W. A. Inglis ...	„ 1st April 1892 to 31st March 1893.

EXECUTIVE ENGINEERS IN CHARGE OF CIRCLES.

South-Western Circle.

Nadia Rivers Division ...	Mr. C. E. Livesay ...	From 1st April 1893 to 31st March 1893.
Cossye Division ...	„ J. P. Scotland ...	Ditto ditto.
Northern Drainage and Embankment Division.	„ T. M. L. Thompson ...	Ditto ditto.
Circular and Eastern Canals Division.	„ G. J. R. Leeson ...	„ 1st April 1892 to 15th March 1893.
Ditto ...	„ J. W. Fox, Honorary Assistant Engineer.	„ 16th to 31st March 1893.
Balasore Division ...	„ A. Hayes ...	„ 1st April 1892 to 31st March 1893.

Orissa Circle.

Acquapada-Jajpur Division ...	Rai Sahib Kally Pada Sen ...	From 1st April to 30th May 1892.
Ditto ditto ...	Mr. M. H. Arnott ...	„ 31st May 1892 to 31st March 1893.
Brahmini-Byturni Division ...	„ D. B. Horn ...	„ 1st April 1892 to 17th March 1893.
Ditto ditto ...	„ R. E. Carter ...	„ 18th March to 31st March 1893.
Puri Division ...	„ J. R. Swinden ...	„ 1st April to 20th September 1892.
Ditto ...	„ J. S. L. Long ...	„ 21st September 1892 to 25th January 1893
Ditto ...	„ G. A. G. Shawe ...	„ 26th January 1893 to 6th March 1893.
Ditto ...	Rai Bahadur Prossono Coomar Daniari.	„ 7th March to 31st March 1893.
Mahanadi Division ...	Mr. T. Butler ...	„ 1st March to 14th April 1892 [on privilege leave for 3 months from 15th April 1892].
Ditto ditto ...	Ditto ...	„ 15th July 1892 to 15th March 1893.
Ditto ditto ...	„ H. Barlow ...	„ 15th April to 14th July 1892.
Ditto ditto ...	„ G. A. G. Shawe ...	„ 16th March to 31st March 1893.

Sone Circle.

Arrah Division	Mr. R. E. Carter ...	From 1st April 1892 to 27th February 1893.
Ditto	„ C. H. DeMello ...	„ 28th February to 31st March 1893.
Buxar Division	„ M. J. J. P. Norman ...	„ 1st April 1892 to 31st March 1893.
Eastern Sone Division ...	„ A. S. Thomson ...	„ 1st April to 2nd May 1892 (on privilege leave for 3 months from 3rd May 1892)
Ditto ...	Ditto ...	„ 3rd August 1892 to 31st March 1893.
Ditto ...	„ A. E. Silk ...	„ 3rd May to 2nd August 1892.
Gandak Division ...	„ O. C. Lees ...	„ 1st April 1892 to 31st March 1893.
Dehri Workshop Division ...	„ L. R. Fraser ...	Ditto ditto.

CANAL REVENUE OFFICERS.

Deputy Collector, Revenue Division, Sone Canals.	Babu Saroda Prosad Chatterjee.	From 1st April 1892 to 31st March 1893 (on privilege leave from 17th June 1893 to 16th September 1892).
Ditto ...	Babu Siva Sanker Singh ...	„ 17th June 1892 to 16th September 1892. Officiating.
Deputy Revenue Superintendent, Orissa.	Mr. S. C. Roberts ...	„ 1st to 24th April 1892.
Deputy Collector, Revenue Division, Orissa Canals.	Babu Jugdum Sahai ...	„ 25th April 1892 to 31st March 1893.
Deputy Revenue Superintendent, Midnapore.	Mr. Koylash Chunder Ghose	„ 1st April 1892 to 31st March 1893.
Supervisor, Calcutta Canals	„ W. R. Cooksey ...	Ditto ditto.

RESOLUTION ON THE REPORT FROM THE BOARD OF REVENUE ON THE ROAD AND PUBLIC WORKS CESS OPERATIONS FOR THE YEAR 1892-93.

FINANCIAL DEPARTMENT—ROAD AND PUBLIC WORKS CESS.

Calcutta, the 5th December 1893.

RESOLUTION No. 5301R.P.

READ—

The Report of the Board of Revenue on the Road and Public Works cess operations for the year 1892-93.

The Road and Public Works cesses were levied at maximum rates during the year under review in all the districts in which Bengal Act IX of 1880 is in force, except in Backergunge, where, as in preceding years, the Public Works cess continued to be levied at the full rate, and the Road cess at half of the maximum rate. In reviewing the reports for 1890-91 and 1891-92, it was observed that the reasons which led to the reduction of the rate in Backergunge in 1877-78 had spent their force, and that the opposition of the District Board to increase the rate was no longer justifiable. The Lieutenant-Governor is glad to notice that the District Board have decided to levy road cess at three-fourths of the maximum rate in 1893-94. This is a step in the right direction, but the local authorities should not rest content until the full rate has been imposed, or the inability of the district to pay it has been satisfactorily demonstrated.

2. The following statement exhibits the main results of the working of the Cess Act during the past two years:—

		1892-93.	1891-92.
1	Current demand	Rs. 80,91,015	Rs. 79 67,933
2	Arrear demand (*a*)	„ 16,58,357	„ 19,44,615
3	Gross demand	„ 97,49,372	„ 99,12,548
4	Advance collections made in previous year ...	„ 2,49,067	„ 2,29,276
5	Net demand	„ 95,00,305	„ 96,83,272
6	Total collections	„ 82,76,738	„ 80,61,032
7	Remissions	„ 13,368	„ 25,453
8	Net balance (*a*)	„ 14,86,471	„ 18,35,454
9	Percentage of total collections on current demand...	102·2	101·1
10	Percentage of current collections on current demand	84·9	83·3
11	Number of revenue-paying estates assessed ...	212,670	255,655
12	Number of revenue-free estates and rent-free tenures assessed	188,593	196,955
13	Number of tenures assessed	1,264,601	1,211.264
14	Number of recorded shareholders in estates ...	1,302,506	1,597,918
15	Number of recorded shareholders in tenures ...	2,326,776	2,222,256
16	Current demand of land revenue ...	...Rs. 3,83,72,332	Rs. 3,78,53,979
17	Present gross rental	... „ 14,94,80,155	„ 14,78,83,221
18	Gross rental at first assessment ...	... „ 13,11,68,432	

3. The figures for 1891-92 under the following heads, as given in the report under review, do not correspond with those given in the report for that year:—

(11)—Number of revenue-paying estates assessed.
(12)—Number of revenue-free estates and rent-free tenures assessed.
(13)—Number of tenures assessed.
(14)—Number of recorded shareholders in estates.
(15)—Number of recorded shareholders in tenures.

The differences are due to rent-free tenures being shown separately in accordance with the orders of the Government, to the effect of revaluations, to the opening of separate accounts, to the creation of new estates by partition, to transfers of estates from one district to another, to the mutation of names of shareholders, and to the correction of errors.

(*a*) Excluding advance collections made in the current year on account of future years.

4 The arrear demand given above, as brought forward from 1891-92, is less than the net closing balance shown in the report of that year by Rs. 1,77,097, and the alteration in the figures is attributed to the adjustment of the accounts of rent-free tenures in Burdwan and in other districts, to the revaluations of rent-free holdings with retrospective effect, to the correction and adjustment of accounts, and to the revision of assessments. The total collections show an increase of Rs. 2,15,706 as compared with the figures of the preceding year. The percentage of arrear collections on arrear demand, and that of current collections on current demand, were 80·9 and 84·9 respectively, against 70·6 and 83·3 in 1891-92. The balance unrealised at the close of the year was smaller by Rs. 1,71,886 than that with which it opened. The remissions were reduced from Rs. 25,453 in 1891-92 to Rs. 13,368 during the year under review, but these figures do not include a sum of Rs. 1,90,310 written off with the sanction of the Board on account of the cesses of certain rent-free holdings in Burdwan. The general results of the year's work show an improvement over those of the preceding year, and are satisfactory as a whole, notwithstanding that in several districts, owing to the partial failure of crops, the collections fell off somewhat and that in this as in other years the fifteen days' grace allowed to assessees under section 45 of the Act affected collections.

5. The percentage of current collections on current demand fell short of 90 per cent., the accepted standard, in twenty-four districts against twenty-five in the year before that under review:—

	Percentage of current collections on current demand.	
	1892-93.	1891-92.
Manbhum	59·2	64·7
Hooghly	68·8	69 1
Champaran	69·6	75·7
Saran	70·7	66·2
Midnapore	72·0	76·9
Muzaffarpur	77·1	70·5
Patna	77·2	76·1
Jessore	77·9	74·6
Faridpur	78·8	74·2
Gaya	80·2	74 7
Bankura	80·6	79·7
Purnea	81 1	93·4
Monghyr	81·5	72·7
Rajshahi	82·0	82·6
24-Parganas	85·1	85·3
Darbhanga	86·2	85·4
Bakergunge	87·1	84 0
Murshidabad	87 3	88·4
Palamau	87·3	.....
Cuttack	87 8	91·5
Khulna	88·1	86·5
Burdwan	88·6	83·6
Lohardaga	88·8	93·5
Pabna	89·2	86·3

In all these districts, except Purnea, Cuttack, and Lohardaga, there was a failure to collect 90 per cent. in 1891-92 also, and the realisations in Manbhum, Hooghly, Champaran, Midnapore, and Murshidabad, during the year under review, were even worse than those of the preceding year. The short collections in Manbhum are explained by the Deputy Commissioner to be due to the unwillingness of the people of the district to pay the cesses until the certificate procedure is put in force. The Board rightly observe that the reason assigned is insufficient, because cess-payers would not voluntarily submit, without some good cause, to the extra payments which the issue of process involves, and the Lieutenant-Governor is not prepared to accept the explanation as satisfactory. The percentage of collections in this district has declined from 89·8 in 1889-90 to 59·2 in the year under review, and His Honour requests that energetic measures may now be taken to put matters on a proper footing.

The poor results in Hooghly are ascribed to a falling off in voluntary payments owing to the partial failure of crops during the past two years, and to the

difficulty of realising cesses from rent-free holdings, of which there are some 30,000 recorded in the district. The non-payment of cesses by some of the principal landholders of the district is said to have affected the collections in Champaran. The short collections in Midnapore are attributed to failure of crops and to the fact that coercive measures could not be taken until after December, in consequence of the whole office establishment having been engaged up to that time in correcting the mistakes of previous years and adjusting accounts. The involved circumstances of certain zamindars, the difficulty in tracing out the owners of rent-free holdings, and the fifteen days' grace allowed for payments, are said to have interfered with the collection of the demand in Murshidabad. No explanation is given of the short collections in Purnea, Rajshahi, the 24-Parganas, and Lohardaga. The bad result in Cuttack is said to have been due to the prevalence of high prices during the greater part of the year, and to the inability of the Collector's office to issue certificates in time. The latter in its turn is attributed to the issue of a larger number of certificates owing to the collections having been taken out of the hands of kanungos, and to the inadequacy of the amount provided in the budget on account of court-fees. It is stated that an application was made for an additional grant, but that no orders were received during the year. The Board observe that the high prices were due less to bad harvests in Orissa than to short harvests in Madras and Bengal, and that the high prices of produce with a fair crop should have facilitated collections; while as regards the delay in the issue of certificates, they consider that the Collector would have acted wisely if he had exceeded the grant in anticipation of sanction. The Lieutenant-Governor agrees with the Board in thinking that the reasons put forward in explanation of short collections in this district are inadequate. In the remaining districts given in the list above, the collections, though far from satisfactory, show an improvement as compared with the previous year.

6. In eight, as compared with thirteen, districts in the year 1891-92, the percentage of collection of the arrear demand was below 80 per cent.—

	Percentage of arrear collections on arrear demand.	
	1892-93.	1891-92.
Murshidabad	49·3	43·0
Burdwan	50·7	14·2
Bankura	53·1	51·3
Cuttack	60·0	80·5
Gaya	68·5	58·5
Shahabad	71·8	72·8
Midnapore	76·5	87·4
Darbhanga	76·9	80·2

In all these districts, with the exception of Shahabad, the current demand also was indifferently collected, the receipts being below 90 per cent. It is, however, satisfactory to notice that in the first three districts the collections, which were very low in 1891-92, show some improvement, although they are not yet up to the standard. In Cuttack and Darbhanga the percentage of collections was far below that of the preceding year, and in the former the causes which interfered with current collections are said to have affected the arrear collections as well. The bad result in Darbhanga is ascribed to the scarcity from which the district suffered in the first two quarters of the year, and to the people having been engaged in celebrating marriages in the fourth-quarter. The last is an excuse which does not commend itself to the Lieutenant-Governor, as the condition is more or less constant, and it seems likely that after the bad harvests in the earlier part of the year its effect must have been less rather than greater than usual.

7. Arrears to the extent of Rs. 6,618 have become barred by limitation. They occurred in five districts, Burdwan heading the list with Rs. 3,672. These figures are exclusive of the sum of Rs. 1,90,310 referred to in paragraph 4, which was written off as barred by limitation or otherwise irrecoverable. Moreover demands are said to have become barred in two other districts, viz., Midnapore and Hooghly, but the particulars have not been furnished.

8. The gross collections, *i.e.*, the sum of both current and arrear collections, exceeded 90 per cent. of the gross demand in the seventeen districts given below as compared with eleven in 1891-92, and seven in 1890-91:—

	1892-93.		1891-92.	
	Percentage of current collections on current demand.	Percentage of arrear collections on arrear demand.	Percentage of current collections on current demand.	Percentage of arrear collections on arrear demand.
Darjeeling	99·8	100	99·8	100
Singhbhum	99·8	...	100	...
Jalpaiguri	99·5	100	94·4	100
Noakhali	97·6	99·3	89 9	91·5
Puri	97·3	91·0	96·1	69·6
Hazaribagh	96·1	99·9	97·2	100
Bogra	94·8	100	94·0	100
Birbhum	94·7	95·6	94·8	97·1
Nadia	94·3	98 9	93·9	99·3
Balasore	93·8	92·2	92 2	73·6
Rangpur	93 4	96·3	92·7	95·2
Dinajpur	92·3	99·5	84·1	99·5
Tippera	92·1	97·1	86·8	94·0
Mymensingh	92·0	93·4	92·5	95·6
Chittagong	91·1	95·9	91·8	94·4
Dacca	90·5	93·5	86·1	92·3
Malda	90·2	99·9	86·6	99·6

The results are satisfactory and creditable to the officers concerned, and the success of the local officers in Singhbhum, where there was no arrear demand and 99·8 per cent. was collected of the current demand, serves to accentuate the failure in the neighbouring district of Manbhum noticed in paragraph 5.

9. The certificate procedure under the Public Demands Recovery Act is in some parts of the province largely employed for the realisation of cesses, and the following statement compares the working of this procedure during the past two years:—

	1892-93.	1891-92.
Certificates pending from the previous year ...	49,718	30,494
Filed during the year	77,794	84,984
Total for disposal	127,512	115,478
Cancelled on objection	1,118	912
Struck off	7,341	1,631
Fully discharged	79,728	63,211
Pending at the close of the year	39,325	49,724
Sales effected	1,045	791
Sales set aside	30	17

The number of certificates filed was as usual smallest in the Chota Nagpur Division (553) and largest in the Patna, Burdwan and Presidency Divisions, where they amounted respectively to 25,053, 18,100 and 8,575. Taking districts singly, the largest number was instituted in Hooghly (7,154), Darbhanga (6,077); Gaya (4,543), Bankura (4,463), and Saran (4,141). In Midnapore the number of certificates filed was 350 in excess of that of the previous year, but owing to the delay in issuing the notices of demand the number disposed of was small, so that the unrealized balance at the close of the year rose from Rs. 72,347 in 1891-92 to Rs. 94,300 in the year under review. It is stated that this balance has been reduced by Rs. 25,000 since the close of the year, and now that the accounts have been put in order, the Lieutenant-Governor trusts that active measures will be taken to realise the arrears. His Honour is glad to observe that although the number of cases for disposal was larger than in 1891-92, the number disposed of was also greater, so that the number of certificate cases pending at the close of the year was in the whole province 10,399 less than in the preceding year.

10. Complete revaluations of the districts of Murshidabad, Nadia, Pabna, and Balasore were brought to a close during the year and resulted in each case in an increase on the existing valuation; and partial valuations and revaluations were concluded in the districts of the 24-Parganas, Jessore, Dinajpur, Bogra, Darjeeling, Jalpaiguri, Faridpur, Backergunge, Chittagong, Noakhali, Monghyr, Balasore, and Manbhum. Statement VII attached to the Board's

report shows that valuation or revaluation work is in progress in eighteen districts. In two of these, viz. Mymensingh and Noakhali, the valuation operations have been completed, but no completion report has been received. The Lieutenant Governor desires that in future a column may be added to Statement VII showing the date of the commencement of proceedings in each district.

11. Statement VI, appended to the Report, compares the gross rental for 1892-93, calculated from the returns under the Cess Act, with the gross rental ascertained in the same manner when road cess was first assessed. The gross rental at first assessment compares as follows with the gross rental in 1891-92 and in 1892-93 :—

			Rs.
Gross rental at first assessment	...	...	13,11,68,432
Ditto in 1891-92	...	...	14,78,83,221
Ditto in 1892-93	...	...	14,94,80,155

As in the preceding year, there was a decrease of gross rental in eight districts compared with the gross rental at first assessment: in seven of them the decrease is due either to transfer of areas from these districts to others, or to diluvion. Backergunge, the remaining district, which last year showed an increase on the original valuation, now shows a decrease owing to a reduction in the valuation of the Dakhin Shabazpur estate under section 37 of the Cess Act. Tippera shows an increase of Rs. 1,22,364 as against a decrease of Rs. 1,00,615 in 1891-92. This result is attributed to the effect of valuations and revaluations.

12. The names of the Deputy Collectors whose work is favourably noticed by the Board will be communicated to the Appointment Department.

13. The Lieutenant-Governor's acknowledgments are due to the Board for their careful and efficient administration of the Department, and for the complete report now submitted.

By order of the Lieutenant-Governor of Bengal,

J. A. BOURDILLON,

Offg. Secretary to the Government of Bengal.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different districts of Bengal, as reported to Government, during the week ending the 2nd December, 1893.

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL.			
BURDWAN DIVN.			
1	Burdwan Dec. 2, '93	Nil	Weather—cold and occasionally cloudy. Winter rice is being harvested. Sowing of *rabi* crops nearly finished. Fodder and water sufficient. Prices of common rice :—

* Means for 6 days. | † Mean of 5 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same perio
The *humidity* of the atmosphere is expressed at percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by (
rainfall the normal mean are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional statio
district, *i.e.* from total rainfall at the subdivisional stations in the district sending in returns divided by the number of stations. A rainy day is one

for the week ending Saturday, the 2nd of December 1893.

Variation from normal mean.	Mean 8 A.M., temperature.	Average humidity at 8 A.M.	Average cloud amount at 8 A.M.	Rainfall of week at observing station.	DISTRICT OBSERVATIONS. OF WEEK. Mean for district.	Normal mean.	Average number of rainy days.	Normal number of rainy days.	RAINFALL. Since 1st of month. Mean for district.	Normal mean.	Variation.	Since 16th October 1893. Mean for district.	Normal mean.	Variation.	DISTRICT.

for the last ten years. The variations are *negative* when the mean for the week is less than the corresponding normal mean, and *positive* when greater. The numbers denoting cloud amount represents the part of the sky covered the whole sky being denoted by 10. Under the head *District observations* of for the period in question during the past ten years. The means of the district are the numerical average of the rainfall returned received in the which at least a tenth of an inch fell.

Statement of Rainfall in Bengal for the week ending Saturday (8 a.m.), the 2nd of December 1893.

Meteorological Division.	District.	Station.	Rainfall. Sunday, 26th Nov.	Monday, 27th Nov.	Tuesday, 28th Nov.	Wednesday, 29th Nov.	Thursday, 30th Nov.	Friday, 1st	Saturday, 2nd.	Total number of rainy days.	Rainfall of week.	Average rainfall of week.	Total rainfall since 1st of month.	Average total rainfall from 1st of month.	Total rainfall since 16th Oct, 1893.	Average rainfall from 16th Oct. to date.

Explanation.—... indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

CALCUTTA, *the 5th December* 1893.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 2ND OF DECEMBER 1893.

THE meteorological changes during the week have been small and unimportant, and fine settled weather has prevailed in most districts during this period. During the previous week conditions in Bengal had been distinctly disturbed from the existence of two storms, the first of which had passed over North-Western India from the Arabian Sea, and the second which passed from the Bay of Bengal across the south of the Peninsula. At the close of that week the unsettled conditions were rapidly passing away, and fine north-east monsoon weather was establishing itself over the province. At the beginning of the present week therefore pressure was comparatively high over the province, though on the 26th it had fallen by small amounts; a fairly steady north-westerly and northerly wind current had established itself, and conditions were fairly normal, except that temperature was in excess, the excess being small at the eastern stations and increasing towards the west of the province where the mean temperature was 4° and 5° above the normal at many stations. On the 26th, however, both temperature and humidity had fallen by small amounts. On the 27th the changes were very similar to those on the 26th, and pressure had fallen slowly, while humidity was lower, and a rather rapid fall of temperature had occurred. On the 28th the barometric changes over north-eastern India were irregular, humidity had decidedly increased, while temperature had fallen. On the 29th a rather rapid fall of pressure had occurred, and pressure became in defect by amounts varying up to 0·06″ at the north-western stations. Temperature and humidity changes were decidedly irregular, and a rapid increase of cloud had taken place in and near the hills, and a few rain showers were reported in the Jalpaiguri and Darjeeling districts. On the 30th a rapid increase of pressure had occurred, the rise being largest in and near the hills, and the distribution of pressure had become distinctly irregular. The large changes on the 29th and 30th pointed clearly to the existence of disturbed conditions, particularly in and near the hills, and on the 30th moderate general rain was reported in the Jalpaiguri, Kuch Bihar and Darjeeling districts. Humidity increased considerably on the 30th, but temperature had generally fallen. A further rapid increase of pressure took place on the 1st December, and pressure became in excess by about a tenth of an inch, and the distribution over the province was more regular. Hence conditions improved in North Bengal, and weather became fine again over the whole province, while temperature also rapidly decreased and became generally below the normal. On the 2nd pressure had begun to fall, but it was still in excess. Temperature changes were also small, and at the majority of stations the mean temperature was nearly normal. Light northerly winds also prevailed over the whole province. Thus weather has been of north-east monsoon character throughout the week except in parts of North Bengal, where unsettled conditions prevailed on the 29th and 30th.

Pressure.—The mean pressure for the week has been in excess of the normal by from about 0·02″ to 0·04″. This excess has been fairly equally distributed in all districts.

Temperature.—The mean temperature of the whole province for the week has again been in excess by about half a degree. The largest excess has been registered in Orissa, where it equals 1·7°.

The actual temperatures registered during the week and their variations from the usual temperature for the present season are most clearly seen in the table below, where the average maximum, minimum and mean temperatures for the week at nine typical stations in different districts of the province are compared with the normal values for the same period. The variations from the normal it will be seen have been small.

Table showing the excess or defect of the actual mean temperature from the normal for the week ending Saturday, the 2nd of December 1893.

	Normal mean maximum temperature for the week ending 2nd December.	Actual mean maximum temperature for the week ending 2nd December 1893.	Variation of actual mean from the normal.	Normal mean minimum temperature for the week ending 2nd December.	Actual mean minimum temperature for the week ending 2nd December 1893.	Variation of actual mean from the normal.	Normal mean daily temperature for the week ending 2nd December.	Actual mean daily temperature for the week ending 2nd December 1893.	Variation of actual mean from the normal.

Rainfall.—The average rainfall in the Kuch Bihar and Darjeeling districts has equalled 0·52 inch, and in the Jalpaiguri district 0·39 inch. Elsewhere the whole province has been practically rainless.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 2nd of December 1893:—

Meteorological Divisions.	Temperature.						Rainfall.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 16th Oct. 1893.

The total fall from 1st January to 2nd December 1893		85·23
The average fall of the corresponding period for 24 years, Surveyor-General's Office		65·16

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

Δ, dew.

NOTIFICATION—No. 3022.

The 12th December 1893.—In exercise of the power conferred on him by clause (1) of section 18 of the Indian Factories Act XV of 1881 as amended by section 16 of Act XI of 1891, the Lieutenant-Governor is pleased to make the following additions to, and alterations in, the Rules published under Notification No. 1315, dated the 30th April 1892.

1. The following Rule is substituted for Rule 24 :—

24. Every occupier of a factory shall keep a monthly Register in Form E attached to these Rules, and no such Register shall be destroyed or removed from the factory without the written permission of an Inspector.

2. The following Rule is substituted for Rule 25:—

25. Every occupier of a factory shall set up and maintain in a conspicuous place in the factory a printed or written notice in English and in the vernacular of the daily working hours and intervals of rest of the factory in Form G below.

3. The following Rule is substituted for Rule 31 of the Rules:—

31. A copy of these Rules with a translation thereof in the vernacular of the district in which the factory is situated shall be kept hanging up in a conspicuous place in each factory.

If the copy of the Rules become defaced or illegible, a fresh copy must be obtained. Copies of the Rules and of the Factory Act, either in English or in the Vernacular, can be obtained by purchase from the Superintendent of Government Printing, Bengal.

4. The following Form is substituted for Form E appended to the Rules:—

FORM E.

(UNDER RULE 24 OF THE RULES MADE UNDER SECTION 18 OF THE INDIAN FACTORIES ACT XV OF 1881 AS AMENDED BY SECTION 16 OF ACT XI OF 1891).

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION—No. 4822A.

The 30th November 1893.—The following Rules for admission to the Executive Branch of the Provincial Civil Service and to the Subordinate Civil Service, which have received the sanction of the Government of India, are published for general information.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

I.—RULES FOR ADMISSION INTO THE EXECUTIVE BRANCH OF THE PROVINCIAL CIVIL SERVICE.

DEFINITION.—"The Executive Branch of the Provincial Civil Service" includes Deputy Collectorships and Deputy Magistracies.

1. The Lieutenant-Governor will determine from time to time what proportion of appointments to the Executive Branch of the Provincial Civil Service shall be made (1) by direct competition, (2) by selection from among candidates after examination, and (3) by promotion of selected officers who are already in the Subordinate Civil Service.

2. Sufficient notice shall be given to the public regarding the date and place of the examination and the number of appointments to be filled up by direct competitive examination and by selection after examination.

3. All candidates for examination shall apply in writing to the Under-Secretary in the Appointment Department not later than the first day of the month preceding that in which the examination will be held. The application shall be accompanied by a fee of Rs. 20, and by certificates to the following effect:—

(1) That on the date fixed for the examination the candidate's age will not exceed 25 years. This certificate should be supported by the candidate's horoscope, or if the horoscope cannot for sufficient reason be produced, by other sufficient evidence, such as the sworn affidavit of a near relation. This condition of age may be relaxed on sufficient grounds being shown in favour of persons already in the Government service, who may be considered suitable candidates for these appointments.

(2) That he is of good moral character.

(3) That he has passed the B.A. examination of the Calcutta University, or that he has received an education not below the standard of such examination.

(4) That he is of sound health and good physique, and capable of bearing fatigue and exposure. This certificate must be signed either by the Civil Surgeon of the district in which the candidate resides, or if in Calcutta, by the Resident Physician or the Resident Surgeon of the Calcutta Medical College Hospital. The fee for medical examination will in all cases be Rs. 4.

(5) That he is of active habits and able to ride. The certificate must be signed by a District Officer (or in his absence from head-quarters by the Joint-Magistrate in charge), or by the Commissioner or Deputy Commissioner of Police, Calcutta.

Each candidate shall also submit a statement showing the landed property owned by him or in which he may have any interest, or which may be held by and managed by his wife or by any other member of his family living with or in any way dependent on him.

The Lieutenant-Governor may at his discretion call for such additional proof as he may think fit in reference to any of the above points.

4. The subjects of examination and the marks to be awarded will, until further orders, be as follows :—

(*a*) *English.*—The examination will be so arranged as to test a candidate's ability to write correct and idiomatic English, and will include précis-writing and letter-drafting. In awarding marks in these papers, great weight will be attached to good and legible handwriting.

(*b*) *Vernacular.*—Candidates will be examined in one of the following languages at their option :—Bengali, Urdu, Hindi and Uriya. The examination will include—

(1) Translation into English of proceedings, petitions, reports, &c., written in manuscript.

(2) Translation from English into the vernacular selected.

(*c*) *Law.*—

(1) Regulation I of 1793 and Field's Introduction to the Regulations ; Act VIII of 1885 ; Regulation VII of 1822 ; Act X of 1870.

(2) The Penal Code ; the Code of Criminal Procedure ; the Code of Civil Procedure ; the Evidence Act.

(*d*) *Surveying.*—Survey and mensuration.

The marks will be given on the following scale :—

English ..	...	...	...	200
Vernacular	...	...	...	100
Law ...	...	...	...	300
Surveying	...	...	...	100
		Total	...	800

5. On receipt of the results of the examination, the Lieutenant-Governor will declare the names of those candidates who are entitled, by the results of the competition, to obtain an appointment, and will also select for appointment from among those who have obtained an aggregate of not less than one-third of the maximum marks awarded at the examination, the candidates whom he may consider qualified for the appointments which have been reserved for selection after examination.

6. Nothing in these rules shall be held to prevent the Lieutenant-Governor from appointing, in exceptional cases, any person whom he may consider to be specially qualified for the Provincial Service by nomination pure and simple.

7. Every person appointed to the Provincial Service, otherwise than by selection from officers who are in the Subordinate Civil Service, shall be subject to a period of probation or training, during which time his appointment will be probationary only, unless in special cases the Lieutenant-Governor declares such probation or training to be unnecessary.

8. Probationers will receive a subsistence allowance of Rs. 50 per mensem.

9. Europeans who do not satisfy the definition of Native of India, contained in section 6, Statute 33 Victoria, Chapter 3, are not eligible for appointment to the Provincial Service without the previous sanction in each case of the Government of India. With such sanction they may be appointed if they are qualified under the conditions mentioned in Rule 3.

10. The subjects of Native Princes in alliance with Her Majesty the Queen-Empress of India are eligible for appointment to the Provincial Service if they are qualified under the conditions mentioned in Rule 3.

11. All candidates for admission to the Provincial Service must furnish satisfactory evidence of a thorough knowledge of at least one of the vernacular languages of the Province. The Lieutenant-Governor will require all candidates (other than officers promoted from the Subordinate Civil Service), who have not already furnished such evidence at some recognized examination, to pass a special examination in either Bengali, Hindi, Urdu, or Uriya before appointment. The object of the examination will be to test the candidate's knowledge of the language and ability to write and read the written character with facility, and the examination will correspond with that described above in Rule 4(*b*).

12. Promotion to grades below that on Rs. 500 a month will ordinarily be given according to seniority, subject to fitness and approved conduct. But the Lieutenant-Governor reserves to himself the right to make promotion to the senior grades of the Provincial Service by special selection for merit without regard to seniority, and hereby declares that seniority alone shall not give a claim to appointment to the grade on Rs. 500 or higher grades.

13. No member of the Provincial Service shall be dismissed otherwise than on the result of a judicial or formal departmental enquiry.

II.—RULES FOR ADMISSION INTO THE SUBORDINATE CIVIL SERVICE.

DEFINITION—"The Subordinate Civil Service" includes Sub-Deputy Collectorships and any other appointments which the Lieutenant-Governor may from time to time declare specifically to be included therein.

1. The Lieutenant-Governor will determine from time to time what proportion of the appointments to the Subordinate Civil Service shall be made by direct competition and by selection after examination, and will give sufficient notice to the public regarding the number of appointments to be so made.

2. The examination for appointments to the Subordinate Civil Service will be the same as that prescribed for entrance to the Executive Branch of the Provincial Civil Service, and after the number of candidates required for the Executive Branch has been selected, the Lieutenant-Governor will select from the remaining candidates the number required for the Subordinate Service.

3. The subjects of Native Princes in alliance with Her Majesty the Queen-Empress of India are eligible for appointment to the Subordinate Civil Service if they are qualified under the conditions mentioned in Rule 3 of the rules for the Executive Branch of the Provincial Civil Service.

4. Nothing in these rules shall be held to prevent the Lieutenant-Governor from appointing in exceptional cases any person whom he may consider to be specially qualified for the Subordinate Civil Service by nomination pure and simple.

5. Every person appointed to the Subordinate Civil Service shall be subject to a period of probation or training, during which time his appointment will be probationary only, unless in special cases the Lieutenant-Governor declares such probation or training to be unnecessary.

6. Probationers will receive a subsistence allowance of Rs. 30 per mensem.

IRRIGATION.

The 20th November 1893.

Notification.—*No.* 308.—In exercise of the powers conferred on him by section 99 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor proposes to make the following rules as Nos. 31 and 32 of the revised water-rate rules for the Midnapore canal, which were passed in this Department Notification No. 162, dated the 19th June 1893.

C. W. ODLING,
Secy. to the Govt. of Bengal.

31. Tanks may be filled with canal water without charge, wherever water can be made available without injury to the cultivation dependent on any canal under the following conditions:—

I.—No tank shall be filled unless the water is to be exclusively used for domestic purposes or for watering cattle.

II.—No tank shall be filled from which irrigation is practised.

III.—No tank shall be filled which intercepts any line of drainage or is liable to overflow from the accumulation of water from natural causes.

IV.—No tank shall be filled except on the written order of the subdivisional canal officer issued on the written application of the persons concerned.

V.—No tank shall be filled unless the village channel used to convey water to it shall be shown to the satisfaction of the subdivisional canal officer to be in a sound condition when the application is made.

VI.—The privilege here accorded may, by the written order of the subdivisional canal officer, be suspended for twelve months for breach of any of the above rules.

32. The Divisional Canal officer may supply water for manufacturing or other purposes, and charge for the same at the rate of one rupee for each 10,000 cubic feet or part of 10,000 cubic feet supplied. The same charge will be made if water is taken into a tank without authority or used in an unauthorized manner.

M. PROTHERO, *Inspector of Schools,*
Rajshahi Circle and Burdwan Division.

CHINSURA, *the 24th November* 1893.

NOTIFICATION.

Rajshahi Circle and Burdwan Division, Entrance Examination.

PRIVATE students from the Rajshahi Circle and the Burdwan Division, who intend to go in for the ensuing Entrance Examination, are required to appear at the Test Examination of one of the undermentioned schools. Only those candidates who have not read in any institution from the 1st September 1893 will be recognized as private students. They will be required to furnish satisfactory proof that they have not read in any school from that date. They must also produce certificates of conduct and progress in studies from the authorities of the last school where they read, or from other respectable and well-known gentlemen. Candidates who have been transferred since the 1st of September next preceding the examination without the consent of the Inspector to the school in which they are reading will also be regarded as private students. "Private student" includes school-masters.

	Name of school.	First day of Test Examination.
1.	Darjeeling High English School... ...	22nd November 1893.
2.	Pabna Zilla ,, ...	27th ,, ,,
3.	Rangpur Zilla	28th ,, ,,

16.	Ghatal Municipal	11th December ,,

Each candidate from the Rajshahi Circle will be admitted to the Test Examination on his handing over to the head-master of the school where he will be examined a receipt showing the previous payment by him of Rs. 2 into any Government Treasury, and each candidate from the Burdwan Division shall have to pay Rs. 2 *in cash* to the head-master of the school where he will be examined. Should the head-master certify that there is in his opinion a reasonable probability of his passing the Entrance Examination, the application of the candidate for admission to the examination signed by him *in the presence* of the head-master should be forwarded to this office for countersignature, and it will be returned to the candidate, who will have to send it along with the entrance fee to the Registrar of the University.

M. PROTHERO, *Inspector of Schools,*
Rajshahi Circle and Burdwan Divn.

CHINSURA, *the* 24*th November* 1893.

Civil Engineering College, Sibpur.

AN examination for admission to the Mechanical Apprentice Department will be held at the College on Monday and Tuesday, the 8th and 9th January 1894.

Every candidate must apply in writing for permission to appear at the examination, and all applications must reach the Principal on or before the 15th December. Each application must be accompanied by a fee of Rs. 2, a certificate of good conduct, and a certificate of age. Applications unaccompanied by fee and proper certificates will not be considered, and after this date all undecided cases will be rejected.

For admission to this Department a candidate must be at least 15 and not more than 17 years of age.

The subjects of examination are—

Arithmetic	...	...	...	The whole.
Algebra	...	...	...	To simple equations.
Euclid	...	...	...	Books I and II.

English Grammar and Composition.

Candidates who have passed by Standard VII of the Code for European Schools or the University examination in English and Mathematics are admitted without further test and without payment of a fee. They must submit their applications accompanied by a certificate of age, and a certificate showing that they have passed the requisite standard, so as to reach the Principal not later than the 15th January of each year. No applications will be attended to after this date.

Every applicant before admission to the College will be examined by the College Surgeon as to his physical strength, chest measurement, fitness for manual labour and eyesight. If this officer's report is unsatisfactory, the applicant will not be admitted: his fee, however, will be returned.

* Rupees 5 per mensem.

There will be one vacancy on the fee list for Christian apprentices in February next, and thirteen on the reduced* fee list.

For natives there will be at least ten vacancies, possibly more, on the reduced† fee list.

† Rupees 2 per mensem.

These vacancies will be filled up after the opening of the session by the Board of Visitors from those apprentices who join the College. No guarantee can therefore be given beforehand; but forms to be filled in for the consideration of the Board can be had on application to the Principal.

Owing to want of accommodation, the number of *Hindu* apprentices to be admitted is limited. Candidates will be selected in order of merit.

J. S. SLATER,
Principal, Civil Engineering College.

SIBPUR, *the* 14*th November* 1893.

NOTIFICATION OF THE BOARD OF REVENUE.

No. 2079B.

NOTICE is hereby given that the First Sale of Opium, the Provision of 1891-92 and 1892-93, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Wednesday, the 3rd January 1894, at 11 A.M., and will comprise 3,525 chests, viz.—

	Chests.
Opium manufactured at the Patna Factory, of season 1891-92 ...	1,815

	Total	...	21,780	20,520	42,300

The following are the conditions of sale:—

1.—The opium will be sold for exporation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.

On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.

On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.

And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said

Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government Superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazeepore Factory for the year 1892-93, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale, that may be desired by parties connected with the trade, will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

T. INGLIS,

FORT WILLIAM, *the 25th November* 1893. *Secretary.*

NOTIFICATION—No. 3924Med.

The 12th December 1893.

CHARITABLE ENDOWMENTS ACT, 1890

In the matter of the Syedani Tahirunissa Bibi Chowdhurani Female Hospital at Bogra in the Province of Bengal, and in the matter of the Bogra Public Library.

WHEREAS application has been made to the Government of Bengal by Nawab Syed Abdus Sobhan Chowdhury of Bogra, zamindar (hereinafter referred to as the Donor), that with a view to creating a permanent Endowment Fund of Rs. 720 per annum for the support of the above hospital, which the said Nawab Syed Abdus Sobhan Chowdhury has determined to erect at his own cost on a site to be provided at his own expense in the town of Bogra in order to perpetuate the memory of his deceased wife, the late Syedani Tahirunissa Bibi Chowdhurani, and also with a view to creating an Endowment Fund of Rs. 120 per annum as a contribution to the up-keep and maintenance of the Bogra Public Library, the immoveable properties described in the schedule hereto, of which the Donor is the absolute owner, may be vested in the Treasurer of Charitable Endowments for the Lower Provinces upon the following terms, that is to say—

1. That the net rents and profits of the said property be applied as follows, that is to say, in providing a sum of Rs. 720 per annum for the permanent maintenance of the hospital for females at Bogra about to be erected by the said Nawab Syed Abdus Sobhan Chowdhury, and which, in memory of his deceased wife, is to be known as the Syedani Tahirunissa Bibi Chowdhurani Female Hospital, and the further sum of Rs. 120 per annum as a contribution to the maintenance of the Public Library at Bogra aforesaid.

2. That the said sum of Rs 720 so as aforesaid applicable to the maintenance of the said Hospital for females shall be appropriated as follows, that is to say, the sum of Rs. 300 per annum, or Rs. 30 per mensem, in paying the salary of the female medical officer in charge, whose duty it will be to attend daily at the Hospital to see outdoor female patients and attend to and treat female indoor patients, and the balance or sum of Rs 360 per annum, or Rs. 30 per mensem in paying for the diet and medicine of patients, the salary and maintenance of a nurse and other incidental expenses.

3. That the trustee to be appointed under section 5(1) of Act VI of 1890 to administer the trust shall be the Collector for the time being of Bogra, and the said properties shall be leased in putni to the said Nawab Syed Abdus Sobhan Chowdhury at a rent of Rs. 840 per annum, exclusive of the Government Revenue and cesses payable in respect of the same, which shall be paid by the said Nawab Syed Abdus Sobhan Chowdhury. The said rent shall be paid by four equal instalments to the said Collector.

4. That the duties of the said Collector as such trustee shall be to appropriate and apply the said annual rent of Rs. 840 as and when received in manner directed in clauses 1 and 2.

5. That the said trustee shall in books to be kept by him regularly enter or cause to be entered full and true accounts of all monies received and paid respectively on account of the trusts of the said endowment, and shall from time to time submit to such public servant as the Local Government may from time to time appoint in that behalf in such form and at such times as the said Local Government may from time to time prescribe an abstract of such accounts and such return as to other matters relating to the administration of the trust as the said Local Government may from time to time see fit to require.

Notice is hereby given that an order is proposed to be made by the Government of Bengal after the expiration of one calendar month to be computed from the first publication of this notice vesting the said property described in the schedule hereto in the said treasurer upon the terms aforesaid.

Any objections to the proposed order or suggestions thereon may be transmitted in writing to the Secretary to the Government of Bengal, Municipal Department, before the thirteenth day of January 1894.

The Schedule above referred to.

No. 1.—Out of 16 annas share of dihi Jangirabad, bearing Bogra Collectorate tauzi No. 69-72, the 4 gandas 1 kara 1 krantee and 17½ tils share of Nawab Syed Abdus Sobhan Chowdhury, the Government revenue payable being Rs. 73-2-1 pie only.

No 2.—Out of 16 annas share of taraf Bihar the 1 gonda 1 kara 12½ tils share of Nawab Syed Abdus Sobhan Chowdhury, Bogra Collectorate tauzi No. 1013, Government revenue payable being Rs. 26-5-6 pie only.

No. 3.—Out of 16 annas share of dihi Jangirabad, bearing Bogra Collectorate tauzi No. 69-72, the 4 gandas 1 kara 1 krantee and 17½ tils share of Nawab Syed Abdus Sobhan Chowdhury, the Government revenue payable being Rs. 73-2-1 pie only.

No. 4.—The 11 annas share of mukarrari jote kismut Malgaon, estate No. 1 of the Bogra Collectorate. The annual rent, amounting to Rs. 179-15-11 gandas, is payable to the said Nawab Syed Abdus Sobhan Chowdhury.

No. 5.—The 3 annas and 2½ gandas share of the same mukarrari jote, rent Rs. 51-2-2½.

No. 6.—The 5 annas share of mukarrari chak jama kismut Polashbari in estate No. 1 of the Bogra Collectorate, the annual rent, amounting to Rs. 35, being payable to the said Nawab Syed Abdus Sobhan Chowdhury.

Dated this 11th day of November 1893.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION—No. 3926Med.

The 12th December 1893.

CHARITABLE ENDOWMENTS ACT, 1890.

In the matter of the Elliott Charitable Dispensary at Soro, in the district of Balasore, in the Province of Bengal,

and

In the matter of the Albert Victor Charitable Dispensary at Jellasore, in the said district of Balasore,

and

In the matter of the Rani Srimati Charitable Female Dispensary attached to the Raja Shyama Nunda Dé Dispensary in the town of Balasore,

and

In the matter of the said Raja Shyama Nunda Dé Dispensary.

IT is hereby notified that the Lieutenant-Governor of Bengal, in exercise of the powers conferred by sections 4 and 5 of the Charitable Endowments Act, 1890, and upon the appli-

cation and with the concurrence of Raja Baikantha Nath Dé Bahadur and Babu Satyendra Nath Dé, sons of the late Raja Shyama Nunda Dé Bahadur, deceased, of Rajnagur in pargana Sunhat, in the district of Balasore, zamindars, doth hereby order and direct that the immoveable property, of which the particulars are contained in the first schedule hereunder written, shall, as from the date of the first publication in the *Calcutta Gazette* of this notification, vest and be thenceforth vested in the Treasurer of Charitable Endowments for the territories subject to the Government of Bengal, to be held by him and his successors (subject to the provisions of the said Charitable Endowments Act, 1890, and any rules from time to time framed thereunder by the Governor-General in Council) upon trust, to permit the said property to be managed and the rents and profits thereof applied in manner and for the purposes set forth in the scheme for the endowment of the Elliott Charitable Dispensary at Soro in the district of Balasore, the Albert Victor Charitable Dispensary at Jellasore in the said district of Balasore, the Rani Srimati Charitable Female Dispensary attached to the Raja Shyama Nunda Dé Dispensary in the town of Balasore, and the said Raja Shyama Nunda Dé Dispensary, of which scheme particulars are contained in the second schedule hereunder written. And it is hereby further notified that the said scheme, of which the particulars are contained in the said second schedule, shall come into operation on the vesting of the said property in the said Treasurer of Charitable Endowments for the territories subject to the Government of Bengal upon the first publication of this notification in the said *Calcutta Gazette*.

The first Schedule above referred to.

All that undivided moiety or half share of and in all that permanently-settled mahal called or known as Khasuraban in pargana Kasijora, bearing tauzi No. 900 in the Collectorate of Midnapore and in the registration district of Panskura and thana of Panskura, the Government revenue payable for which amounts to Rs. 2,047-15-7, the proportionate revenue for the said moiety being Rs. 1,023-15-9½, and the annual income of which moiety or half share at present amounts to Rs. 1,535.

The second Schedule above referred to.

1. The rents and profits of the said property after payment of the Government revenue, costs of collection and charges of management shall be applied as follows: that is to say, in providing a sum of Rs. 300 per annum as a contribution to the permanent maintenance of the dispensary at Soro known as the Elliott Charitable Dispensary, the further sum of Rs. 240 per annum for the maintenance of the dispensary at Jellasore known as the Albert Victor Charitable Dispensary, and the sum of Rs. 600 per annum for the maintenance of the female ward attached to the Raja Shyama Nunda Dé Dispensary at Balasore and known as the "Rani Srimati Charitable Female Dispensary," and the balance, if any, of such funds shall be devoted to the up-keep and maintenance of the said Raja Shyama Nunda Dé Dispensary, it being hereby declared that the said several sums of Rs. 300, Rs. 240 and Rs. 600 shall rank *pari passu inter se* as an accumulative first charge on the net rents and profits of the said endowed property, and that, if such net profits shall be insufficient in any one year to meet the same in full, the said sums of Rs. 300, Rs. 240 and Rs. 600 shall be proportionately reduced, but in that case the surplus profits of the next or any succeeding year shall be applied in the first place in making good the deficiency, and only the balance, after making good such deficiency, shall be available for the purposes of the said Raja Shyama Nunda Dé Dispensary.

2. The supervision, management and control of the said endowed properties and of the said dispensaries shall be in the hands of a Committee of three persons, of whom the District Magistrate for the time being of Balasore shall be the President, the Civil Surgeon of the district of Balasore for the time being a member, and a member of the donors' family the Secretary, and in the course of such management the said Committee shall be at liberty to let out the said properties either for a term or in perpetuity, or to retain the same in their own khas possession, with power to do all acts and things for the proper and efficient management thereof, and the collection and realisation of the rents and profits thereof which they may think proper.

3. Such Committee may meet together for the despatch of business and adjourn and otherwise regulate their meetings as they shall think fit, but they shall at all times conform to and abide by any rules relating to the administration of endowments under the said Charitable Endowments Act, 1890, which the Governor-General in Council, in exercise of the powers conferred by section 13 of that Act, may from time to time see fit to make.

4. Such Committee shall, in books to be kept by them, regularly enter or cause to be entered full and true accounts of all moneys received and paid respectively on account of the trusts of the said endowment, and shall from time to time submit to such public servant as the Local Government may from time to time appoint in that behalf, in such form and at such times as the said Local Government may from time to time prescribe, an abstract of such accounts and such returns as to other matters relating to the administration of the trust as the said Local Government may from time to time see fit to require.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

No. 3884*M.*—*The* 11*th December* 1893.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Muzaffarpur Municipality for a public purpose, viz., for a latrine and depôt in the village of Mohamedpur Kazi, chakla Nai, pargana Bisara, zilla Muzaffarpur, it is hereby declared that for the above purpose a piece of land measuring, more or less, 2 cottahs and 11 chittaks of standard measurement, is required within the aforesaid village. The land is bounded on the North by Mussamat Teta's land; on the East by Mussamut Teta's and Thaga Mistri's land; on the South by Rajb Ail's bamboo garden, and on the West by a kutcha public lane leading to Worsley road.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

No. 3885*M.*—*The* 11*th December* 1893.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Muzaffarpur Municipality for a public purpose, viz., for a latrine and depôt in the village of Kanhowligunge, pargana Bisara, zilla Muzaffarpur, it is hereby declared that for the above purpose a piece of land measuring, more or less, 6 cottas and 15 chittaks of standard measurement is required within the aforesaid village. The land is bounded on the North by the public drain and road called Isa road; on the East by Lachmi Narain's land and Gajadhar Prosad's land, and a small kutcha lane running east and Bharat Thakur's house and bamboo garden; on the South by Dukhit's bamboo garden, and on the West by a drain and Dukhit and Ramjiban's land, and a kutcha public lane and Gajadhar Prosad and Sakhichand's lands.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

No. 3901*M.*—*The* 11*th December* 1893.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz., for widening and improving Mohesh Chunder Chowdhury's Lane, it is hereby declared that for the above purpose pieces of lands Nos. 1, 2, and 5, Mohesh Chunder Chowdhury's Lane, and Nos. 4/1, 5, and 6, Chuckerbere Road, South, in the town of Calcutta, district 24-Parganas, measuring, more or less, 5 cottas 4 chittacks and 27 square feet, are required. The boundaries of the lands are as follows: portion marked A on the plan is bounded on the north and west by a public drain, on the south by Chuckerbere Road, South, on the east by No. 6, Chuckerbere Road, South; portion marked B is bounded on the north by Mohesh Chunder Chowdhury's Lane, on the south by Chuckerbere Road, South, on the east by a public drain, on the west by Nos. 4 and 5, Chuckerbere Road, South; portion marked C is bounded on the north by No. 2, Mohesh Chunder Chowdhury's Lane, on the south and east by Mohesh Chunder Chowdhury's Lane, on the west by No. 2, Mohesh Chunder Chowdhury's Lane; portion marked D is bounded on the north by No. 1, Mohesh Chunder Chowdhury's Lane, on the south and east by Mohesh Chunder Chowdhury's Lane, on the west by No. 2, Mohesh Chunder Chowdhury's Lane; portion marked E on the plan is bounded on the north by Mohesh Chunder Chowdhury's Lane, on the south and west by public drain, on the east by No. 5, Mohesh Chunder Chowdhury's Lane.

Plans and specifications of the lands are filed in the office of the Commissioners for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

No. 3907*M.*—*The* 11*th December* 1893.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Uttarpara Municipality for a public purpose, viz., for extending College Street to the New Circular Road, in the village of Uttarpara, pargana Boroe, zilla Hooghly, it is hereby declared that for the above purpose a piece of land measuring, more or less, 2 cottahs and 12 chittacks of standard measurement is required. The land is bounded on the north by College Street, on the east by brohmottar lands of Nokul Chandra Ghosal and Kali Kristo Ghosal, on the south by the New Circular Road, and on the west by brohmottar lands of Baranosi Ghose and Nokul Chandra Ghosal and others.

A plan and specification of the land are filed in the office of the Commissioners for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

Barhamghat, the 1st April 1886.

Pure Sulphate of Quinine

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION.

THE price of this quinine is as follows:—
1 pound tin Rs. 16, or, post free, Rs. 16-12.
½ ,, ,, ,, 8, ,, ,, ,, ,, 8-8.
¼ ,, ,, ,, 4, ,, ,, ,, ,, 4-8.

Analysis shows this quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloiks Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanical Garden, Sibpur, near Calcutta. It can be had either white or coloured pink.

Reduction in price of Cinchona Febrifuge.

FROM 1st April 1891, and until further orders Cinchona Febrifuge can be purchased by all Government officers and by any one taking *ten pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates. Four ounce tin Rs. 2-8; eight ounce tin Rs. 5; one pound tin Rs. 10. The general public can be supplied by the Superintendent, Botanic Garden, *for cash only* at the undernoted rates:—Per four ounce tin Rs. 3; per eight ounce tin Rs. 6; per pound tin Rs. 12. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage four annas per 4 ounce tin, eight annas per 8 ounce tin, and twelve annas per pound tin, in addition to the foregoing rates.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8.

	Without postage.	With postage.
	Rs. A. P.	Rs. A. P.
For the Calcutta Series	10 0 0	12 8 0
„ each of the Madras, Bombay, and Allahabad Series	6 0 0	7 0 0
„ a part of the Calcutta Series purchased separately (*inclusive of postage in India*)	.....	2 0 0
„ a part of each of the Madras, Bombay, and Allahabad Series purchased separately (*inclusive of postage in India*)	.....	1 0 0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied of subscribers when required in place of copies lost in transit:—

	For town.	For mofussil.
	Rs. A. P.	Rs. A. P.
For the Calcutta Series, per copy ...	0 8 9	0 10 3
„ each of the Madras, Bombay, and Allahabad Series, per copy	0 5 3	0 5 9
„ the Calcutta Series. For the year	7 2 6	8 6 3
„ each of the Madras, Bombay and Allahabad Series. For the year	4 4 6	4 11 3

Persons desiring to subscribe for or purchase the Report should apply to—

Superintendent, Government Press, Madras.
The Superintendent, Government Central Press, Bombay.
„ Curator of Government Books, North-Western Provinces and Oudh.
„ Superintendent of Government Printing, Bengal.

Orders and subscriptions for 1893 *should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.*

ADVERTISEMENTS will be received for publication on the wrappers of the Indian Law Reports, Calcutta Series, at the following rates, payable in advance—

	One page.	Half page.	Quarter page.
For one issue ...	Rs. 20	Rs. 14	Rs. 9
„ three issues ...	„ 55	„ 36	„ 24
„ six „ ...	„ 100	„ 68	„ 45
„ nine „ ...	„ 145	„ 96	„ 64
„ twelve „ ...	„ 180	„ 120	„ 80

SEVERAL volumes of the BENGAL LAW REPORTS, from August 1868 to December 1875, and FULL BENCH RULINGS, Parts I and II, are available at the following rates:—

	Without postage.	With postage.
	Rs. A. P.	Rs. A. P.
Bengal Law Reports for one year ...	20 0 0	22 8 0
Single copies, Rs. 2 per copy.		
Full Bench Rulings, Parts I and II ...	20 0 0	22 8 0

Bengal Secretariat Press, 10, Lyon's Range, Calcutta.

Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

THE following Weather Reports of the Bengal Meteorological Department, issued by orders of the Government of Bengal can be supplied to the public at the prices annexed:

1st.—Bay of Bengal Daily Report, giving meteorological observations taken at 28 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Bay of Bengal Storm Signal Service. The report giving 8 A.M. observations of the day is distributed by peon in Calcutta soon after 11 A.M. Price to subscribers in Calcutta Rs. 2 per mensem.

2nd.—Bengal Daily Report, containing observations taken at 48 meteorological stations in Bengal and Assam, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 8 A.M. observations of each day is printed in time for the evening mail, and is distributed to subscribers in Calcutta the same evening. This report for the present is only published during the south-west monsoon, i.e., from about May 15th to November 15th, or thereabouts. Price Rs 2-8 per mensem, including postage.

3rd.—A Weekly and Monthly Statement of Meteorological Observations taken at 49 observing stations, and of rainfall recorded at 276 subdivisional and other stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable, in advance and of the Monthly Summary Rs. 2 per annum payable in, advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal, 5, Russel Street, Calcutta, for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

ALEX. PEDLER,
Meteorological Reporter to the Govt. of Bengal.

NOTICE TO SUBSCRIBERS.

SUBSCRIBERS to the *Calcutta* and *Bengali Gazettes* and *Indian Law Reports* are hereby informed that unless the amount of their subscription for 1894 is received before the 31st December 1893, it will be concluded that the Gazettes and Reports are no longer required, and the supply will accordingly be discontinued from 1st January 1894.

All remittances should be made direct to the Accountant and Treasurer, Bengal Secretariat, Calcutta, by means of money-orders. No postage stamps or stamps of any other kind will be received in payment of subscriptions.

The correct address of the subscriber should be legibly written on the money-order coupon, and the period for which the subscription is paid should also be stated.

N. BONHAM-CARTER,
Offg. Under-Secy. to the Govt. of Bengal.
The 4th December 1893.

Act IX of 1890 (Railways), as originally passed. In Nagri. 3a. 6p. (2a.)

In the Press.

Act XV of 1877 (Limitation), as modified up to 1st December 1892. In Urdu.

Act I of 1882 (Assam Labour and Emigration) as modified up to 1st May 1893. In Urdu.
Ditto. In Nagri.

V.—MISCELLANEOUS WORKS.

Merchant Shipping in India: A Digest of the Statutes and Acts relating to edition, 1884. By T. A. PEARSON, Barrister-at-Law. Rs. 5 (12a.)

Index to the Enactments relating to India, with Chronological Tables of Statutes relating to India and the Acts and Regulations of the Indian Legislatures. Second edition, 1883. By WILLIAM FISCHER AGNEW, Barrister-at-Law. Rs. 4 (12a.)

Copies of the first edition, compiled by Stephen Jacob, B.C.S., can be had at Rs. 2 (12a.)

A Digest of Indian Law Cases, containing High Court Reports, 1862-1886, and Privy Council Reports of Appeals from India, 1836-1886, with an Index of Cases. Compiled under the orders of the Government of India by JOSEPH VERE WOODMAN, of the Middle Temple, Barrister-at-Law, and Advocate of the High Court, Calcutta. In five volumes. Super royal 8vo. Rs. 50 per set; quarter-bound copies, Rs. 55 (Rs. 3-2); payable in advance.

Abstracts of Proceedings of the Legislative Council of the Governor-General, from July 1882 Super royal, 4to. Annual subscription Rs. 5 (Re. 1). Single issue 4a., including postage.

Report of the Indian Law Commission, 1879. F. cap boards, Re. 1. (5a.)

Lists of British Enactments in Force in Native States, Southern India (Madras and Mysore). Corrected to 30th November 1888. Compiled by J. M. MACPHERSON, of the Inner Temple, Barrister-at-Law, Deputy Secretary to the Government of India, Legislative Department. Full cloth, super royal 8vo. Rs. 2-8, 4a.)

Lists of British Enactments in Force in Native States, Southern India (Hyderabad). Corrected to 31st December 1888. Compiled by J. M. MACPHERSON, of the Inner Temple, Barrister-at-Law, Deputy Secretary to the Government of India, Legislative Department. Full cloth, super royal 8vo. Rs. 4-8 (6a.).

Lists of British Enactments in force in Native States, Northern India (Bengal, Assam, Burma, the North-Western Provinces, the Punjab, Kashmir, Nepal, and Baluchistan). Corrected up to 20th May 1891. Compiled by J. M. MACPHERSON, of the Inner Temple, Barrister-at-Law, Deputy Secretary to the Government of India, Legislative Department. Full cloth, super royal 8vo. Rs. 4 (6a.)

Lists of British Enactments in force in Native States, Rajputana. Corrected up to the 20th August 1891. Compiled by J. M. MACPHERSON, of the Inner Temple, Barrister-at-Law, Deputy Secretary to the Government of India, Legislative Department. Full cloth, super royal 8vo. Rs. 2-8 (4a.)

Lists of British Enactments in force in Native States: Central India (Central Provinces and the Central India Agency). Corrected up to the 31st December 1892. Compiled by J. M. MACPHERSON, of the Inner Temple, Barrister-at-Law, Officiating Secretary to the Government of India, Legislative Department. Full cloth, super royal 8vo. Rs. 4-8 (6a.)

In the Press.

Lists of British Enactments in Force in Native States: Western India (Bombay, Baroda, Persian Coast and Islands, Muscat, Zanzibar and Somali Coast).

N. B.—The Revised Prices herein entered cover the cost of packing, postage, and other incidental charges (except commission for value-payable supplies), and are for all purchasers other than resident College Students.

Drawing Instruments, drawing materials, &c., are not available at the College Book Depôt, but are obtainable from the Superintendent, Canal Foundry and Workshops, Roorkee.

Catalogue of Books, English and Vernacular, Printed and Published at the Thomason College Press, with list of English Books procurable at the Thomason College Book Depot.

Application to be made to Curator.

CASH MUST ACCOMPANY ORDER, OR ARTICLES WILL BE SENT BY VALUE-PAYABLE POST.

It is advised that letters containing remittances be registered.

LIST OF BOOKS PUBLISHED AT THE THOMASON COLLEGE PRESS.

COLLEGE TEXT BOOKS.

Roorkee Treatise on Civil Engineering in India.

Royal Octavo with numerous plates.

First two volumes are published in separate convenient-sized Sections, as below, but can be bound up in Volumes if required.

VOLUME I.*

Sec.		Price. Rs.	A.
I.—Building Materials (in the Press).			
II.—Masonry (1891)	... ...	1	8
III.—Carpentry (1889)	... ...	1	8
IV.—Earthwork	... ...	1	8
V.—Tools and Plant (never published).

THOMASON COLLEGE PRESS.

Orders for Printing Professional and Scientific Publications and Miscellaneous Works, also for Lithography and Bookbinding, will be received by the Superintendent of the Press.

COLLEGE PHOTOGRAPH CLASS.

Over 500 views of scenes in the Himalayas, buildings of interest all over Northern India, works on the Ganges Canal, &c., on sale. Catalogue on application to Instructor of Photography.

COLLEGE LIBRARY.

Professional Works may be borrowed by Government Engineers on application to the Librarian, and by other Members of the Profession, on proper security being given against loss or damage.

COLLEGE REGISTER.

A Register is open at the College for the names of passed students and others belonging to the Profession, who may be in want of situations, and officers desirous of engaging men should apply to the Principl. Full particulars should in both cases be furnished.

J. CLIBBORN, MAJOR, R.E.,
Principal, T. C. E. College.

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, DECEMBER 13, 1893.

NOTICES TO MARINERS.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 283.

[First Publication.]

KOREA, SOUTH-WEST COAST—LYNE SOUND.

Rock south-eastward of Maju island.

THE British Admiralty has given notice (No. 564 of 1893) of the existence of a rock about three-quarters of a cable long north-west and south-east, and one-quarter of a cable broad, with a depth of 6 feet on it at low water springs, lying in the northern part of Lyne sound, with Needle hill bearing S.E. ¾ S. (S. 36°E.), distant 9¼ miles; and south extreme of Carles island, S.W. by W. ¾ W. (S. 64° W.); or approximately in lat. 34° 36′ 15″ N., long. 126° 12′ 45″ E.

(*Variation, 4° Westerly in* 1893.)

B. P. CREAGH, *Comdr.*, R.I.M.,
Port Officer of Calcutta.

Published for general information.

K. H. STEPHEN,
Under-Secretary, Marine Department.

CALCUTTA, *the 9th December* 1893.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 284.

AUSTRALIA, EAST COAST—INNER ROUTE.

Hope islands—Beacons discontinued on B and E reefs.

THE British Admiralty has given notice (No. 565 of 1893) that the black beacon on Bee (B) reef, and the black beacon on E reef, northward of Hope islands, southern approach to Cooktown, have both fallen down and will not be replaced.

Approximate position of beacon on Bee reef, lat. 15° 39′ S., long. 145° 26′ E.

Approximate position of beacon on E reef, lat. 15° 29′ S., long. 145° 24¼′ E.

SOUTH PACIFIC OCEAN—Rotumah island.

Shoals westward of Chilinha point and south-westward of Atana islands.

Notice to Mariners, No. 538 of 1893, issued by the British Admiralty, is republished. The following information has been received from H.M.S. *Rapid*:—

1. A shoal, with a depth of 9 feet on it, circular in shape and about a cable in diameter, lies about three-quarters of a mile westward of Chilinha point, the west extreme of Rotumah.

Position, to be considered doubtful, lat. 12° 29′ 30″ S., long. 176° 59′ 30″ E.

2. A shoal is reported to extend about 4 miles south-westward from the Atana islands, westward of Rotumah; with a rock, on which the sea does not break, situated on the shoal about 2 miles from the islands. The distance to which the shoal extends from the islands is not known, and it may be found to be further than 4 miles.

REPORT OF THE WINTER RICE CROP, 1893.

THE following is published for general information.

REVENUE DEPT., *The 11th December*, 1893.

C. E. BUCKLAND, *Secy. to the Govt. of Bengal.*

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Final report on the winter rice crop of Bengal, 1893.

1. *Character of the Season.*—The character of the season up to the middle of September last was described in the summary of the district returns given in the preliminary forecast issued on the 4th October 1893. Up to that time the season, although characterized by excessive rainfall, proved favourable on the whole to the winter rice crop, except in certain limited areas, where the crop could not be sown or transplanted on account of excessive accumulation of water or was damaged by floods. Since the middle of September, the distribution of rainfall has been exceedingly favourable to the winter rice crop, and prospects have generally improved. From 26 out of the 46 districts a better outturn of

the crop is now reported than was reported in the preliminary forecasts. Fourteen District officers have maintained and only six* have reduced their preliminary estimates. In three out of the six last mentioned districts namely Darbhanga, Muzaffarpur and Champaran, the crop appears to have been damaged by the recurrence of flood in October.

* Darbhanga. | Muzaffarpur.
Champaran. | Cuttack.
Hazaribagh. | Singhbhum.

2. *Area cultivated.*—The district estimates of area cultivated with winter rice in the current and the last year, as reported in the preliminary forecasts, remain unaltered with a few minor exceptions. The total area in Bengal cultivated with winter rice this year appears from the district returns appended hereto to be 30,570,388 acres, against 29,881,400 acres estimated to have been cropped last year (or 30,172,678 acres as returned for the year 1892 in this Department's note, dated the 15th November 1892.

3. *Character of the crop.*—It will be seen on reference to the district returns that 21 out of the 46 districts have reported a full average (16 annas) or more than a full average crop, 16 have reported the crop to vary from 12 to 16 annas, and 9 from 9 to 12 annas. No district, as a whole, returns less than a 9 anna crop, although there are a few subdivisions where the crop has been estimated at 8 annas or less in consequence of the injury caused by excessive rainfall and floods. Thirty-one out of the 46 districts have reported this year's crop to be better than last year's; two have reported the crop to be equal to that of the last year, and only 13 have reported worse crops. This year's crop may, therefore, be taken to be better than the crop of 1892. For Bengal as a whole the winter rice crop of 1892 was estimated in the final report on that crop at about 14 annas; the crop of 1893 may be estimated at fully 16 annas, or about 2 annas in excess of the last year's crop.

4. *Gross outturn.*—The outturn in cwts has been obtained in rough fashion for the whole province by multiplying the total area cultivated by 15 maunds, or 1,230 lbs., which has been assumed to be the average yield of clean rice to the acre in the case of the winter rice crop. An attempt was made to obtain from district officers estimates in cwt. of the outturn of the crop, based on such rates of yield as they might think proper to adopt whether with reference to the estimates made in this office letter No. 291T., dated 14th June 1892 (addressed to the Government of Bengal) or to other reliable sources of information. On the whole, however, it has been thought best in the present note to omit the district figures. It is not clear whether in forming their estimates, district officers have taken into account the yield of winter rice only or also the yield of the early rice crop, and the figures representing yield of rice must be further elucidated before particular estimates for each district are substituted for the rough estimate for these provinces hitherto adopted.

B. C. BASU,

Asst. to Director of Land Records and Agriculture, Bengal.

W. C. MACPHERSON,

Offg. Director of Land Records and Agriculture, Bengal.

CALCUTTA,
The 6th December 1893.

Sadar ...	210,600	192,000	228,600	+5·16	11·13	13	13	.....	.....	.....	.....	.....	.....	.....	In the Sadar subdivision, as there was heavy rain in due time, the outturn is better than what had been expected. Owing to timely rains the prospect in the Saitbira subdivision is somewhat better than last year, but as the hâl lands could not be brought under cultivation, the outturn is below average. In some places of the Bazerhat sub-division there was a bumper crop and in some places an average one owing to sufficient rains, but as in some low places the crop was utterly destroyed, the outturn may be little below the average.	The Collectorate's the average of current year's crop from 62,000 (as given in the preliminary forecast of winter rice crop, 1893) to 630,600 on the ground that it is unlikely that one-third of the area usually under winter rice has been left waste this year.

																	present estimates are more accurate. The area brought under the crop in the Bangaon sub-division is much less than last year's normal, owing to a large portion of the lands, specially in thana Mahespur, having been submerged under rain water in the sowing season. In all the sub-divisions except Bangaon, the outturn will be below normal and last year's owing to excessive rainfall. In Bangaon the crop planted on high lands has suffered less from the rains; hence the outturn will be better than that of the last year, in which the crop suffered from short rain.

LIBERALITY OF HIS HIGHNESS THE MAHARAJA OF HILL TIPPERA AND CERTAIN OTHER NATIVE GENTLEMEN IN RELIEVING DISTRESS CAUSED BY THE INUNDATIONS OF AUGUST 1893, IN TIPPERA AND NOAKHALI.

REVENUE DEPARTMENT, AGRICULTURE.

Calcutta, the 7th December 1893.

RESOLUTION—No. 5013.

READ—

A letter No. 727C., dated the 20th November 1893, from the Commissioner of the Chittagong Division.

The Lieutenant-Governor is glad to record his recognition of the liberality displayed by His Highness the Maharaja of Hill Tippera and other native gentlemen in the promotion of measures to alleviate the distress which occurred in the districts of Tippera and Noakhali owing to the inundations of August 1893.

2. His Highness the Maharaja of Hill Tippera placed sums aggregating Rs. 6,000 at the disposal of the Collectors of these districts for the relief of his distressed tenants. Rai Abhoy Churn Mitra Bahadur, the contractor for the South Lushai Hills, who has property in Tippera, contributed Rs. 400 for relief operations in the two districts. Maharaja Durga Churn Laha, C.I.E., of Calcutta, and Mr. Arthur Caspersz, Receiver, Joynagar estate, Noakhali, each gave a donation of Rs. 200 to the Collector of Noakhali to be spent in relieving sufferers.

3. Nawab Khaja Ahsanulla Bahadur, C.I.E., of Dacca, and Maharajkumar Benoy Krishna Deb of Sobhabazar, Calcutta, dealt directly with their distressed tenants. The former distributed Rs. 5,000 in gratuitous relief and gave Rs. 5,000 in loans to such of his tenants as required them. The exact amount spent by the latter on these objects has not been ascertained, but the Commissioner reports that his liberality was on a similar scale.

4. In Noakhali M. Yakub Ali Choudhuri and his brothers, Zamindars of Raipur, and Babu Chandra Kumar Roy of Dalalbazar, distributed 10 maunds of rice daily for a period of over a month.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Commissioner of Chittagong for information and for communication to the noblemen and gentlemen referred to.

Ordered also that this Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

Secretary to the Government of Bengal.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different districts of Bengal, as reported to Government, during the week ending the 9th December, 1893.

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF NOVEMBER 1893.

THE principal features which have characterised the meteorology of November have been:—

1. Pressure has been in excess of the normal in each week of the month, and the mean excess has varied from 0·04 " to 0·07 "

2. Temperature was nearly normal for the first ten days, and then became rather excessive, and for the period from about the 18th to the 25th the mean temperature was about 8° higher than usual. This excess, however, quickly decreased towards the end of the month, and the average excess for the whole of November equalled about a degree.

3. Humidity and cloud proportion were decidedly higher than usual for the greater part of the month, and the mean monthly amounts were in moderate excess.

4. Rainfall was almost absent for the greater part of the month, though a few unimportant showers fell during certain periods of disturbance. The total falls for the month in most districts have not averaged more than a tenth of one inch, and the highest only a fifth of an inch in South Bihar. Hence rainfall has been less than the normal amount, except in Bihar, where very small excess falls have been registered.

5. The weather during the month has been far less settled than usual, owing to the existence of several storms which formed over the sea area. One cyclonic storm formed in the south of the Bay and struck the Madras Coast to the south of Madras on the 6th, when the disturbed conditions due to the breaking up of the storm, advanced northwards over Bengal. A severe cyclonic storm from the Arabian Sea struck the coast of Kathiawar near Veraval on the 20th, and the disturbed conditions from this spread over the whole of Northern India, Bihar, &c. Another small cyclonic storm formed in the south of the Bay and crossed the south of the Peninsula on the 24th. Lastly, slightly disturbed conditions existed in the hills to the north of Bengal towards the close of the month. All of these disturbances affected the weather in Bengal, and hence conditions in Bengal were unusually disturbed during November.

The meterology of November in Bengal calls for little detailed review. For the first few days weather was of fine settled character in Bengal, though in the south of the Bay a feeble storm had commenced to form. This advanced slowly towards the Madras Coast, and on the 4th was at some little distance from it, and was still probably only of little importance. On the 5th a brisk fall of pressure occurred in the south-west of the Bay, and a very distinct barometric depression was formed, the centre of which was lying off the South Madras Coast. Conditions having thus become more seriously disturbed over the Bay, weather in Bengal also became a little more unsettled, and the sky clouded over rapidly at the southern stations From the 5th to the 6th the small storm advanced in a westerly or north-westerly direction, and struck the Madras Coast a little to the south of Madras, probably close to the Seven Pagodas, shortly before 8 A.M. on the 6th. The barometric depression at the centre was considerable, and the storm, though small, was accompanied by a severe gale of wind, very high sea and heavy rain. The depression apparently broke up as a separate storm on striking the coast, but the disturbed conditions due to its disintegration steadily and rather rapidly spread northwards. A moderate wave of humid monsoon winds advanced along the west coast of the Bay, and gave heavily clouded skies with rain at first in Orissa and over the southern parts of Bengal from the 6th to the 8th and 9th; and then as the moist winds again advanced northwards over the province, rainfall extended to Chota Nagpur and Bihar, the rain being reported over the last district, principally on the 9th instant. As the wave of humid winds advanced up the west coast of the Bay, it did not penetrate to any great extent over either East or North Bengal, which districts therefore received very little rain. This advance of humid winds was only temporary and was soon overcome by the superior force of the winds from Upper India, and it was soon driven back towards the Bay by the dry north-westerly and northerly current from Northern India, and on the 11th the rainfall over the province had practically ceased.

Conditions in Bengal therefore from about the 6th to the 11th, were very abnormal, and for the greater part of the time the sky was heavily clouded, the air was unusually damp, the day temperatures were comparatively low, and the night temperatures high, and rain was received in most districts on one or two days.

For the period from the 11th to the 18th weather was generally fine and of ordinary north-east monsoon character, and only a few showers occurred in Orissa and in the hills to the north of Bengal. The humid winds brought up by the storm in the Bay had completely retreated from Bengal, though temperature, humidity, and cloud proportion were still somewhat higher than usual. At this time weather conditions in Bengal again became disturbed, the disturbance being due to the formation and of advance of two storms. The first storm formed in the Arabian Sea, probably about the 17th, and rapidly increased in intensity. It moved in a northerly and north-easterly of direction, and struck the Kathiawar coast near Veraval on the 20th. The disturbed conditions and rainfall due to this storm spread in an easterly direction over Central India and the North-Western Provinces, and reached Bihar, and on the 21st and 22nd moderate showers were reported over this area, while more or less disturbed and cloudy weather prevailed over a large part of Bengal. The disturbed conditions at this time were increased by the existence of a storm in the south of the Bay, which formed on the 19th or 20th and advanced slowly in a westerly direction, crossing the south of the Peninsula on the 24th.

It will be thus seen that weather conditions generally during the period from the 18th to the 25th were very decidedly disturbed by the existence of the two storms. Hence, as is

usual during disturbed weather, temperature and humidity were decidedly high in Bengal; the sky was also much more clouded than usual during the north-east monsoon months, and light showers fell in many districts. From about the 25th instant, however, the disturbed conditions due to the two storms were very rapidly passing away, and from the 25th to the close of the month fine settled weather of ordinary north-east monsoon conditions obtained.

Pressure.—At the commencement of the month was above the normal by about 0·06″ to 0·1″. In the second week the excess had increased to 0·07″ to 0·11″, but it then diminished and equalled about 0·05″ for the next fortnight, and at the close of the month it had still further decreased and equalled about 0·02″ to 0·04″. For the whole month the mean excess has usually ranged between 0·04″ and 0·07″, and the smallest excess pressures have been shown in Orissa and parts of Bihar, while the largest excess pressures have been registered in the extreme east and extreme west of the province, where Sibsagar on the one hand and Ranchi on the other have registered an excess of 0·075″.

Temperature was almost normal up to about the 18th, but from the 18th to the 25th it was in excess by about 3°, and from the 25th to the end of the month by about half a degree. For the whole month the average excess in the mean temperature has equalled 1°.

This excess has, however, been almost entirely confined to the night or minimum temperatures, which for the month have been from about 1° to 3° in excess On the other hand, at the great majority of stations the average day or maximum temperatures for the month have been slightly below the normal, the defect usually equalling about a degree.

Rainfall.—The largest average divisional fall has only equalled 0·22 inch in South Bihar. In Orissa, North Bengal and North Bihar the falls have averaged from a fifth to a tenth of an inch, and in the remaining divisions the falls for the month have been less than a tenth of an inch. The only division receiving a fall in excess of the usual amount for November has been Bihar, and in this division the Shahabad district has received the largest amount of 0·85 inch. In the remaining districts a fall of 0·89 inch is reported in Darjeeling, one of 0·69 inch in Kuch Bihar, and one of 0·42 inch in Puri.

The following table gives in a condensed form the rainfall information for each of the seven large meteorological divisions of Bengal for the present year up to the close of November. The numbers there given as in the case of the former months of the year are the actual average rainfalls in each division expressed as a percentage of the normal fall for the period, and the last column also gives the total rainfall up to the close of November expressed in the same way. The rainfall for the year, it will be seen, has been rather largely in excess of the normal in all divisions.

Meteorological Divisions.	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	Actual rainfall of first eleven months of 1893 expressed as a percentage of the normal fall for the period.

* Means for 6 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the readings during the same period. The *humidity* of the atmosphere is expressed as percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The rainfall the normal mean are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional station district, i.e. from total rainfall at the subdivisional stations in the district sending in returns divided by the number of stations. A rainy day is one of

for the week ending Saturday, the 9th of December 1893.

Explanation.—... indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

CALCUTTA, *the 12th December* 1893.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 9TH OF DECEMBER 1893.

THE changes during the week have been very small, and have been of a character to intensify the north-east monsoon conditions obtaining over Bengal. At the commencement of the week pressure and temperature were in excess of the normal by small to moderate amounts, and a rather light northerly wind current was reported in all districts. Pressure fell slowly on the 3rd on the first day of the week under review, and this fall continued on the 4th, but a rather brisk increase set in on the 5th, which continued on the 6th, but was succeeded on the 7th by a moderate fall, though on the 8th and 9th pressure was again increasing moderately. The effect of these changes was to make pressure in excess at the close of the week by about 0·11″ to 0·12″, and as the excess pressure in the south of the Bay was much smaller than this, baric gradients had become decidedly favourable for a strong north-east monsoon, and thus at the close of the week a moderately strong northerly wind current was blowing in all districts. Temperature also has been falling decidedly for the greater part of the week, and from being in excess at the commencement by nearly 2°, at its close the mean temperature had become in defect at all except the extreme south-eastern stations and at the western stations in Bihar, Chota Nagpur and Orissa. In the districts named moderate excess temperatures were still registered at the end of the week, but elsewhere the mean temperature was in defect by amounts ranging up to about 3° in North-East Bengal. In most districts also fine settled weather with nearly cloudless skies has prevailed for almost the whole week, but somewhat cloudy weather was reported in East and North Bengal on two or three days, and a few local showers, but of no practical importance, fell in these districts on the 4th and 5th. Fine settled and dry weather with rather low temperature and humidity therefore prevailed generally for the greater part of the week.

Pressure has been above the normal for the greater part of the week; and the average has shown an excess of about 0·06″ to 0·1″, the excess being largest at the northern stations and smallest in Orissa.

Temperature.—The mean temperature was in excess at the beginning and in defect of the normal at the close of the week. For the whole of the period an excess of 1·3° has been registered, the excess having been largest in South Bihar and Chota Nagpur, where it has equalled about 2°.

The actual temperatures registered during the week and their variations from the usual temperature for the present season are most clearly seen in the table below, where the average maximum, minimum and mean temperatures for the week at nine typical stations in different districts of the province are compared with the normal values for the same period. The variations it will be seen have been largest in the night or minimum temperatures, which have been rather considerably above the normal.

Table showing the excess or defect of the actual mean temperature from the normal for the week ending Saturday, the 9th of December 1893.

	Normal mean maximum temperature for the week ending 9th December.	Actual mean maximum temperature for the week ending 9th December 1893.	Variation of actual mean from the normal.	Normal mean minimum temperature for the week ending 9th December.	Actual mean minimum temperature for the week ending 9th December 1893.	Variation of actual mean from the normal.	Normal mean daily temperature for the week ending 9th December.	Actual mean daily temperature for the week ending 9th December 1893.	Variation of actual mean from the normal.

Rainfall.—Except for a few unimportant local showers in East and North Bengal, the whole province has been rainless during the week.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 9th of December 1893:—

Meteorological Divisions.	Temperature.						Rainfall.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 16th Oct, 1893.	
			Of highest of each day.	Of lowest of each day.	Of mean for each day.		Average.	Normal average.	Variation.	Average number in week.	Normal average number in week.	Variation.	Average.	Normal average.	Average.	Normal average.

METEOROLOGICAL OFFICE, BENGAL,
The 12th December 1893.

A. PEDLER,
Meteorological Reporter to the Govt. of Bengal.

Abstract of the results of Meteorological Observations taken at the Alipore Observatory in the month of November 1893.

	Inches.	Date.	Hour.
The mean pressure of the month	29 995		
The average pressure of November from 24 years' registers ...	29·970		
The highest pressure in the month	30 116	25th.	10
The lowest pressure in the month	29 885	18th.	16
The range of pressure	0·231		
	Hours.		
The total number of hours of bright sunshine during the month	208 8		
The maximum possible number of hours of sunshine ...	330·8		
	○		
The mean temperature of the month	72·5		
The average temperature of November from 24 years' registers	74 8		
The highest temperature in the month	84·0	1st.	
The lowest temperature in the month	58·7	30th.	
The range of temperature during the month	25·3		
The mean daily range of temperature	14·8		
The greatest range of temperature in one day	19·5	30th.	
	Per cent.		
The mean humidity of the month	79		
The average humidity of November from 24 years' registers ...	72		
	Inches.		
The mean vapour tension of the month	0·627		
The average vapour tension of November from 9 years' registers	0·616		
The mean cloud proportion of the month	2·90		
The average cloud proportion of November from 16 years' registers	2·54		
The total rainfall of the month	0·03		
The total rainfall indicated by a Beckley's self-registering rain-gauge (mouth of the gauge about 52 feet above the ground)	0·02		
The average fall of November from 48 years' registers ...	0·65		
The greatest fall in 24 hours	0·03	6th.	
	Days.		
The number of rainy days in the month	1		
The average number of rainy days in November from 24 years' registers	2		
	⊖		
The mean maximum equilibrium temperature of solar radiation during the month	132·7		
The mean difference of sun and air temperatures	52·3		
The greatest sun temperature	143·4	3rd.	
The greatest excess of sun over air temperature	61·2	3rd.	
The mean temperature of the nocturnal radiation thermometer on woollen cloth	60·0		
The mean depression of the nocturnal radiation thermometer below the minimum air temperature at 4 feet above the ground	5·7		
The greatest depression of the nocturnal radiation thermometer below the minimum air temperature	8·3	30th.	
	Miles.		
The mean movement of the wind per day	34·1		
The greatest movement of the wind in one day	57·0	13th.	
The greatest movement of the wind in one hour	10·0	26th, 1 to 2 P.M. and 2 to 3 P.M.	

The number of hours with winds from each of the 8 points—

N. 219, N.E. 72, E. 14, S.E. 6, S. 1, S.W. 2, W. 20, N.W. 66, Calm 320.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 1·6° lower; and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

C. LITTLE,

For Meteorological Reporter to the Govt. of India.

The total fall from 1st January to 9th December 1893		85·23
The average fall of the corresponding period for 24 years, Surveyor-General's Office		65·19

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; ⌓, dew; =, fog.

NOTIFICATION—No. 5602F.

The 18th December 1893.—The following notification issued by the Comptroller-General is republished for general information.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

Rate of exchange compensation allowance.

The 15th December 1893.—Under rule 8 of the rules published with Finance Department Resolution No. 3624A, dated 18th August 1893, it is hereby notified, for general information, that the market rate of exchange for the fourth quarter of 1893-94 has been fixed at 1*s.* $3\frac{3}{32}$*d.*, the percentage of salary admissible on account of exchange compensation allowance in that quarter being $9\frac{3}{7}$.

STEPHEN JACOB,
Comptroller-General.

RULES UNDER SECTION 55 OF THE INDIAN STAMP ACT (I OF 1879).

UNDER the notifications noted in the margin, in exercise of the powers conferred by section 55 of the Indian Stamp Act (I of 1879), the Lieutenant-Governor has been pleased to make the following rules for regulating the supply and sale of stamps and stamped papers, the persons by whom alone such sale is to be conducted, and the duties and remuneration of such persons :—

Dated 25th April 1881.
" 5th August 1881.
" 25th July 1891.
No. 1078.R., dated 5th January 1893.
" 2178S.R., dated 24th April 1893.

I.—According to the rules made by the Governor-General in Council under sections 9, 15, 17, 32, 51, and 56 of the Act, as finally published by notification No. 2170, dated 22nd May 1891, there are two kinds of stamps for indicating the payment of duty on instruments under the Indian Stamp Act, namely,—

Impressed stamps, including—

(*a*) *Impressed sheets*, that is to say, sheets of papers bearing the impression of stamps of different values engraved thereon, and sold to the public for use by them in accordance with the above rules.

Impressed labels, to be affixed and impressed by Government officers as directed in Chapter III of the Rules of the Government of India above referred to.

(*b*) *Adhesive stamps*, sold to the public for use by them in accordance with the above rules.

The Collector of Calcutta shall obtain from the Superintendent of Stamps, Calcutta, and keep in his store a supply of the impressed labels, and shall, upon receipt of any instruments mentioned in Chapter III of the rules made by the Governor-General in Council, referred to above, affix thereto, in the manner directed in those rules, an impressed label or labels of such value as may be required. The Superintendent of Stamps shall also keep a supply of the two other descriptions of stamps, viz., *impressed sheets* and *adhesive stamps*, and shall issue them on indent to the Collectors of districts, Deputy Commissioners and such other District Officers as may be authorized by the Board to indent directly on the Stamp Office for stamps. The Collector, Deputy Commissioner, or such other officer as aforesaid, shall keep the stamps in such manner, and under such rules, as the Board may direct, and shall issue them to the treasurer or stamp darogah at the head-quarters of each district, to subdivisional nazirs, or to any of their subordinates entrusted with the custody and sale of stamps on behalf of Government, and the stamps shall be sold to the public through *ex-officio* or licensed vendors in the manner hereinafter prescribed.

II.—The treasurer or stamp darogah at the head-quarters of a district, the subdivisional nazir, or any other subordinate officer entrusted with the custody and sale of stamps on behalf of Government, as mentioned in Rule I, shall be *ex-officio* vendors, and shall sell on behalf of Government impressed sheets, hundi stamps, and adhesive stamps, to licensed vendors and to the public on application.

III.—Such persons as may be licensed by the Collectors or Deputy Commissioners shall be licensed vendors, and shall sell to the public such stamps as are indicated in their licenses.

IV.—Every license shall specify the name of licensee, the description of stamps which may be sold under the license, the place of vend, and such other matters as may be necessary, and shall be signed by the authority granting it. The license shall be revokable at any time by the authority who grants it.

V.—Subject to Rule VI, every licensed vendor who purchases from Government by payment of ready money impressed sheets, hundi stamps, and adhesive stamps, shall receive the same at a discount at the following rates :—

	Adhesive Stamps.			Impressed Sheets and Hundi Stamps.	
	Stamps not exceeding in value 8 annas each.	Stamps exceeding in value 8 annas each, but not exceeding in value Rs. 5 each.	Stamps exceeding in value Rs. 5 each, but not exceeding in value Rs. 50 each.		
	Per cent.	Per cent.	Per cent.		Per cent.
Calcutta—Howrah (Sadar station), 24-Parganas (Sadar station), Burdwan (Sadar station), Hooghly (Sadar station).	3¾=two pice in the rupee.	1¼=one pice in the rupee.	1¼=one pice in the rupee.	At all places ...	3¾=two pice in the rupee.
All other places	4¼=three pice in the rupee.	3¾=two pice in the rupee.	1¼=one pice in the rupee.	.....	.....

VI.—No discount shall be given on account of the purchase of any stamp exceeding Rs. 50 in value, nor on any stamp applied on material furnished by the purchaser himself. Discount shall not be allowed if the total value of the quantity of stamps purchased at one time does not amount to Rs. 25 or upwards.

VII.—Licensed vendors alone are allowed discount on the purchase of stamps. No *ex-officio* vendor is allowed to purchase stamps at a discount for sale on his own account to the public.

VIII.—No licensed vendor shall be supplied with stamps on credit without the special sanction of Government.

IX.—Every licensed vendor shall at all times have stuck up, in a conspicuous place outside the place of vend, a signboard bearing the name of the vendor, with the words "*Licensed Vendor of Stamps*" in the vernacular language of the district. He shall also have in the place of vend his license and the Acts of the Legislature and their Schedules referring to the stamps sold by him, together with these rules in English, placed so that they can readily be seen and read by purchasers.

X.—Every *ex-officio* or licensed vendor shall write at the time of sale in the vernacular language of the district, on the back of every impressed sheet which he sells, a serial number, the date of sale, the name and residence of the purchaser, and the value of the stamp in full in words, and shall affix his signature to the endorsement; at the same time he shall make corresponding entries in a register to be kept by him in the following form:—

Serial No.	Date of sale.	Value of stamps.			Name and residence of purchaser.	Remarks.
		Rs.	A.	P.		

No vendor shall knowingly make a false endorsement on the impressed sheet sold, or a false entry in his register.

XI.—No *ex-officio* or licensed vendor shall take for any stamp more than the value denoted thereon, and every such vendor shall without delay deliver any stamp which he has in his possession for sale on demand by any person tendering the value in any currency which would be accepted on behalf of Government by the Collector of the district.

XII.—No licensed vendor shall sell any stamps the use of which has been ordered by competent authority to be discontinued.

XIII.—A licensed vendor shall obtain all the supplies of stamps which he is authorized to sell only from the treasury of the district for which his license was granted, and shall sell stamps only at the place mentioned in his license.

XIV.—Every *ex-officio* vendor shall keep and render such accounts as may be prescribed from time to time by the Board of Revenue.

XV.—Every vendor shall allow the Collector of the district, or any officer duly authorised by such Collector, or by the Local Government, at any time to inspect his accounts and registers, and to examine the store of stamps in his possession.

XVI.—Every licensed vendor shall, at any time on the demand of the Collector or other officer duly authorised by the Local Government, deliver up all stamps, or any class of stamps, remaining in his possession.

Stamps may be recalled by the Collector.

XVII.—In the following cases the full value of the stamps returned into store, less one anna in the rupee, shall be paid to the stamp vendors:—

Refund of value of stamps.

(*a*) When the vendor resigns his license.
(*b*) When the license is revoked for any fault of the licensee.
(*c*) When the stamps are returned on the death of the vendor.
(*d*) When the stamps are returned on the application of the vendor for leave to restore any stamps.

In the following cases the full value of the stamps returned into store, less only the discount allowed on their sale, shall be paid to licensed vendors—

(*a*) When stamps are returned on expiry of the license.
(*b*) When they are recalled by Government.
(*c*) When the license is revoked for any cause other than the fault of the licensee.

Provided that a licensed vendor may exchange unsold stamps, which are fit for use, for other stamps of the same kind.

Stamps may be exchanged.

XVIII.—When an impressed sheet is required for any instrument, a single sheet is to be issued of the required value, unless, where the application for the required stamp is made at a treasury, the officer in charge of such treasury, or where such application is made to a stamp vendor, the vendor is unable to furnish a single stamp of the required value, in which case he shall give a certificate to that effect to the purchaser.

(*a*) When a treasury officer or stamp vendor has certified under the above clause that he is unable to furnish a single stamp of the required value, the number of sheets issued for indicating the payment of duty is not to exceed the number which the treasury officer or the stamp vendor certifies in either case to be the smallest number which he can furnish so as to make up the required amount.

XIX.—In making a certificate under the above rule, a stamp-vendor must declare truly (1) that he is unable to furnish a single stamp of the required amount, and (2) that the number of sheets furnished is the smallest number he can supply so as to make up the required amount.

(*a*) No such certificate shall be made by a stamp vendor in any case in which the stamp duty required exceeds the highest value of the stamps which such vendor is authorised to sell.

The following form is prescribed for the vendor's certificate mentioned in the above rules:—

"Certified that a single stamp of the value of Rs. required for this document is not available, and that the smallest number of stamps which I can furnish so as to make up the required amount is as follows:—

E. H. H. COLLEN,
Secy. to the Govt. of India.

[Third Publication.]

NOTIFICATION—No. 4822A.

The 30th November 1893.—The following Rules for admission to the Executive Branch of the Provincial Civil Service and to the Subordinate Civil Service, which have received the sanction of the Government of India, are published for general information.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

I.—RULES FOR ADMISSION INTO THE EXECUTIVE BRANCH OF THE PROVINCIAL CIVIL SERVICE.

DEFINITION.—"The Executive Branch of the Provincial Civil Service" includes Deputy Collectorships and Deputy Magistracies.

1. The Lieutenant-Governor will determine from time to time what proportion of appointments to the Executive Branch of the Provincial Civil Service shall be made (1) by direct competition, (2) by selection from among candidates after examination, and (3) by promotion of selected officers who are already in the Subordinate Civil Service.

2. Sufficient notice shall be given to the public regarding the date and place of the examination and the number of appointments to be filled up by direct competitive examination and by selection after examination.

3. All candidates for examination shall apply in writing to the Under-Secretary in the Appointment Department not later than the first day of the month preceding that in which the examination will be held. The application shall be accompanied by a fee of Rs. 20, and by certificates to the following effect:—

(1) That on the date fixed for the examination the candidate's age will not exceed 25 years. This certificate should be supported by the candidate's horoscope, or if the horoscope cannot for sufficient reason be produced, by other sufficient evidence, such as the sworn affidavit of a near relation. This condition of age may be relaxed on sufficient grounds being shown in favour of persons already in the Government service, who may be considered suitable candidates for these appointments.

(2) That he is of good moral character.

(3) That he has passed the B.A. examination of the Calcutta University, or that he has received an education not below the standard of such examination.

(4) That he is of sound health and good physique, and capable of bearing fatigue and exposure. This certificate must be signed either by the Civil Surgeon of the district in which the candidate resides, or if in Calcutta, by the Resident Physician or the Resident Surgeon of the Calcutta Medical College Hospital. The fee for medical examination will in all cases be Rs. 4.

(5) That he is of active habits and able to ride. The certificate must be signed by a District Officer (or in his absence from head-quarters by the Joint-Magistrate in charge), or by the Commissioner or Deputy Commissioner of Police, Calcutta.

Each candidate shall also submit a statement showing the landed property owned by him or in which he may have any interest, or which may be held by and managed by his wife or by any other member of his family living with or in any way dependent on him.

The Lieutenant-Governor may at his discretion call for such additional proof as he may think fit in reference to any of the above points.

4. The subjects of examination and the marks to be awarded will, until further orders, be as follows:—

(*a*) *English.*—The examination will be so arranged as to test a candidate's ability to write correct and idiomatic English, and will include précis-writing and letter-drafting. In awarding marks in these papers, great weight will be attached to good and legible handwriting.

(*b*) *Vernacular.*—Candidates will be examined in one of the following languages at their option:—Bengali, Urdu, Hindi and Uriya. The examination will include—

(1) Translation into English of proceedings, petitions, reports, &c., written in manuscript.

(2) Translation from English into the vernacular selected.

(*c*) *Law.*—

(1) Regulation I of 1793 and Field's Introduction to the Regulations; Act VIII of 1885; Regulation VII of 1822; Act X of 1870.

(2) The Penal Code; the Code of Criminal Procedure; the Code of Civil Procedure; the Evidence Act.

(*d*) *Surveying.*—Survey and mensuration.

The marks will be given on the following scale:—

English ...	...	...	...	300
Vernacular	...	...	...	100
Law ...	...	...	...	300
Surveying	...	...	...	100
		Total	...	800

5. On receipt of the results of the examination, the Lieutenant-Governor will declare the names of those candidates who are entitled, by the results of the competition, to obtain an appointment, and will also select for appointment from among those who have obtained an aggregate of not less than one-third of the maximum marks awarded at the examination, the candidates whom he may consider qualified for the appointments which have been reserved for selection after examination.

6. Nothing in these rules shall be held to prevent the Lieutenant-Governor from appointing, in exceptional cases, any person whom he may consider to be specially qualified for the Provincial Service by nomination pure and simple.

7. Every person appointed to the Provincial Service, otherwise than by selection from officers who are in the Subordinate Civil Service, shall be subject to a period of probation or training, during which time his appointment will be probationary only, unless in special cases the Lieutenant-Governor declares such probation or training to be unnecessary.

8. Probationers will receive a subsistence allowance of Rs. 50 per mensem.

9. Europeans who do not satisfy the definition of Native of India, contained in section 6, Statute 33 Victoria, Chapter 3, are not eligible for appointment to the Provincial Service without the previous sanction in each case of the Government of India. With such sanction they may be appointed if they are qualified under the conditions mentioned in Rule 3.

10. The subjects of Native Princes in alliance with Her Majesty the Queen-Empress of India are eligible for appointment to the Provincial Service if they are qualified under the conditions mentioned in Rule 3.

11. All candidates for admission to the Provincial Service must furnish satisfactory evidence of a thorough knowledge of at least one of the vernacular languages of the Province. The Lieutenant-Governor will require all candidates (other than officers promoted from the Subordinate Civil Service), who have not already furnished such evidence at some recognized examination, to pass a special examination in either Bengali, Hindi, Urdu, or Uriya before appointment. The object of the examination will be to test the candidate's knowledge of the language and ability to write and read the written character with facility, and the examination will correspond with that described above in Rule 4(*b*).

12. Promotion to grades below that on Rs. 500 a month will ordinarily be given according to seniority, subject to fitness and approved conduct. But the Lieutenant-Governor reserves to himself the right to make promotion to the senior grades of the Provincial Service by special selection for merit without regard to seniority, and hereby declares that seniority alone shall not give a claim to appointment to the grade on Rs. 500 or higher grades.

13. No member of the Provincial Service shall be dismissed otherwise than on the result of a judicial or formal departmental enquiry.

II.—RULES FOR ADMISSION INTO THE SUBORDINATE CIVIL SERVICE.

DEFINITION—"The Subordinate Civil Service" includes Sub-Deputy Collectorships and any other appointments which the Lieutenant-Governor may from time to time declare specifically to be included therein.

1. The Lieutenant-Governor will determine from time to time what proportion of the appointments to the Subordinate Civil Service shall be made by direct competition and by selection after examination, and will give sufficient notice to the public regarding the number of appointments to be so made.

2. The examination for appointments to the Subordinate Civil Service will be the same as that prescribed for entrance to the Executive Branch of the Provincial Civil Service, and after the number of candidates required for the Executive Branch has been selected, the Lieutenant-Governor will select from the remaining candidates the number required for the Subordinate Service.

3. The subjects of Native Princes in alliance with Her Majesty the Queen-Empress of India are eligible for appointment to the Subordinate Civil Service if they are qualified under the conditions mentioned in Rule 3 of the rules for the Executive Branch of the Provincial Civil Service.

4. Nothing in these rules shall be held to prevent the Lieutenant-Governor from appointing in exceptional cases any person whom he may consider to be specially qualified for the Subordinate Civil Service by nomination pure and simple.

5. Every person appointed to the Subordinate Civil Service shall be subject to a period of probation or training, during which time his appointment will be probationary only, unless in special cases the Lieutenant-Governor declares such probation or training to be unnecessary.

6. Probationers will receive a subsistence allowance of Rs. 30 per mensem.

PUBLIC WORKS DEPARTMENT,—(BENGAL).

RAILWAY.

The 19th December 1893.

No. 342.—*Notification.*—This Department declaration (No. 305, dated 14th November 1893) under section 6 of Act X of 1870, relative to the acquisition of land required by the D-H. Railway Company for station purposes at Tundaria, which was published at page 948, Part I of the *Calcutta Gazette* of the 15th November 1893, is hereby cancelled.

COMMUNICATIONS.

The 19th December 1893.

No. 343.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for improving road No. 24 (Raigunj to Pirgunj) in the villages of Kasimpore, Hemtabad and Baruibari, pargana *Mohaso*, zilla Dinajpur, it is hereby declared that for the above purpose pieces of land lying on either side of the road on the 8th and 9th miles, and varying in width from about 10 feet to 13 feet and measuring more or less 2·4 bighas, are required within the aforesaid villages of Kasimpore, Hemtabad and Baruibari.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

ESTABLISHMENTS.

The 19th December 1893.

No. 344.—*Notification.*—The Lieutenant-Governor is pleased to make the following promotion and reversion in the Engineer Establishment with effect from the date specified :—

Names.	From	To	With effect from	Nature of promotion.
T. W. Clowes ...	Assistant Engineer, 1st grade.	Executive Engineer, 3rd grade.	1st December 1893	Temporary.
H. H. Green ...	Executive Engineer, 3rd grade.	Assistant Engineer, 1st grade.	1st „ „	Reversion.

F. J. JOHNSTONE,
Secy. to the Govt. of Bengal.

ESTABLISHMENT.

The 18th December 1893.

No. 333.—*Notification.*—Mr. D. B. Horn, Executive Engineer, is appointed to be Executive Engineer of the Circular and Eastern Canals Division, of which he assumed charge on the forenoon of the 7th December 1893.

No. 334.—*Corrigendum.*—In Notification No. 315, dated 28th November 1893, *for* "16th November 1893" *read* "17th November 1893."

The 19th December 1893.

No. 335.—*Notification.*—With reference to the Appointment Department notification dated the 24th November 1893, Maulvi Syed Mahomed Nasiruddin, Deputy Collector, is appointed to have charge of the Revenue Division, Sone Canals, with effect from the 1st January 1894.

No. 336.—*Notification.*—Maulvi Syed Mahomed Nasiruddin, Deputy Collector, in charge of water-rate collections in the districts of Patna, Gaya and Shahabad, is vested with the powers of a Collector under Act III (B.C.) of 1876, except as regard sections 39, 76 (*c*), 87, 88, and 91 of the Act in all those districts.

No. 337.—*Notification.*—Maulvi Syed Mahomed Nasiruddin, Deputy Collector, in charge of the Revenue Division, Sone Canals, is vested with the powers of a Collector in respect to the rules passed by the Lieutenant-Governor of Bengal, for the Sone Canals, in notification No. 42, dated the 10th February 1891, with the exception of rules 1, 4, 25, 37, 38, 40, 41, 47 and 70.

IRRIGATION.

The 19th December 1893.

Notification.—*No.* 338.—Whereas on enquiry made by the Collector of Midnapore it has been found that it is unnecessary for the public interests to retain the embankments described below, mentioned in Schedule D to Bengal Act VI of 1873, the Lieutenant-Governor, in accordance with the first clause of section 43 of Act II (B.C.) of 1882, is pleased to direct that the same shall be no longer included in the said schedule.

SCHEDULE D.

No. 1.—*Right Embankment on the Selye river from Isnagore to Kola.*

This is a continuous line of embankment on the right bank of the Selye river, 3 miles 4,780 feet, more or less, in length. It commences at a masonry pillar fixed in the ground in the village of Isnagore, of pargana Bogree, and terminates at a masonry pillar in the village of Kola in the said pargana.

No. 2.—*Right Embankment on the Selye river from Chota Roopram to Narooa.*

This is a continuous line of embankment on the right bank of the Selye river, 4 miles 770 feet, more or less, in length. It commences at a masonry pillar fixed in the ground in the village of Chota Roopram, of pargana Bogree, and terminates at a masonry pillar in the village of Narooa in the said pargana.

No. 4.—*Left Embankment of the Selye river from Kursi to Kulakuri.*

This is a continuous line of embankment on the left bank of the Selye river, 6 miles 5,265 feet, more or less, in length. It commences at a masonry pillar fixed in the ground in the village of Kursi, of pargana Bogree, and terminates at a masonry pillar in the village of Kulakuri in the said pargana.

IRRIGATION.

The 19th December 1893.

Notification.—*No.* 339.—In supersession of all previous notifications, it is hereby declared that, under section 6 of Act V (B.C.) of 1864, the Lieutenant-Governor of Bengal is pleased to fix the following rates for the levy of tolls at the undermentioned places in the Hijili Tidal Canal, Ranges I and II, in the Orissa Coast Canal, Ranges III, IVA, IVB and V, in the Baliagahi Drain, and in the Terapakia and Palaboni Pass khalls with effect from the 1st of January 1894 :—

C. W. ODLING,
Secy. to the Govt. of Bengal.

IRRIGATION.

The 19th December 1893.

No. 340.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for constructing a road on the eastern side of the Kaithi drainage cut beginning at the 1st mile, 2nd chain, and ending at the 1st mile, 11th chain, and 45th feet of the drainage cut, in the village of Kachhwa Kalianpur, pargana Dunwar, zilla Shahabad, it is hereby declared that for the above purpose a piece of land measuring, more or less, 1 rood and 11¼ poles of standard measurement, is required within the aforesaid village of Kachhwa Kalianpur.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

C. W. ODLING,
Secretary to the Govt. of Bengal.

[Fifth Publication.]

IRRIGATION.

The 20th November 1893.

Notification.—*No.* 308.—In exercise of the powers conferred on him by section 99 of Act III (B C.) of 1876, the Hon'ble the Lieutenant-Governor proposes to make the following rules as Nos. 31 and 32 of the revised water-rate rules for the Midnapore canal, which were passed in this Department Notification No. 162, dated the 19th June 1893.

C. W. ODLING,
Secy. to the Govt. of Bengal.

31. Tanks may be filled with canal water without charge, wherever water can be made available without injury to the cultivation dependent on any canal under the following conditions:—

I.—No tank shall be filled unless the water is to be exclusively used for domestic purposes or for watering cattle.

II.—No tank shall be filled from which irrigation is practised.

III.—No tank shall be filled which intercepts any line of drainage or is liable to overflow from the accumulation of water from natural causes.

IV.—No tank shall be filled except on the written order of the subdivisional canal officer issued on the written application of the persons concerned.

V.—No tank shall be filled unless the village channel used to convey water to it shall be shown to the satisfaction of the subdivisional canal officer to be in a sound condition when the application is made.

VI.—The privilege here accorded may, by the written order of the subdivisional canal officer, be suspended for twelve months for breach of any of the above rules.

32. The Divisional Canal officer may supply water for manufacturing or other purposes, and charge for the same at the rate of one rupee for each 10,000 cubic feet or part of 10,000 cubic feet supplied. The same charge will be made if water is taken into a tank without authority or used in an unauthorized manner.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

The 18th December 1893.

No. 91*Marine.*—In exercise of the powers conferred upon him by section 22 of Act VI of 1884 (the Inland Steam-Vessels Act), the Lieutenant-Governor is pleased to appoint the gentlemen named below for the purpose of examining the qualifications of persons desirous of obtaining certificates of competency as second-class masters and serangs of inland steam-vessels at the examination which will be held this day—

The Port Officer of Calcutta ... ... *President.*
Mr. S. K. Elsou, Licensed Branch Pilot ... ...
Captain W. M. Reaks, Certificated Master under the Inland Steam-Vessels Act ... ... } *Members.*

C. W. ODLING,
Secy. to the Govt. of Bengal.

A. CROFT, *Director of Public Instruction.*

NOTIFICATION.

The 14th December 1893.—In reference to the notification of this office, published in the *Calcutta Gazette* of the 11th October last, prescribing the course and text-books for the Middle Scholarship Examination of 1895, it is hereby notified that questions in the History of (*a*) England, or (*b*) Greece and Rome, or (*c*) the World, will, as heretofore, be set in the examination of 1895 in addition to questions in the History of India. Any change that may be made in the course will take effect from the examination of 1896. Copies of the course will immediately be issued for distribution to middle schools.

A. CROFT,

Director of Public Instruction, Bengal.

NOTIFICATION OF THE BOARD OF REVENUE.

No. 2079B.

NOTICE is hereby given that the First Sale of Opium, the Provision of 1891-92 and 1892-93, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Wednesday, the 3rd January 1894, at 11 A.M., and will comprise 3,525 chests, viz.—

	Chests
Opium manufactured at the Patna Factory, of season 1891-92 ..	1,815
Ditto ditto at the Ghazeepore Factory, of season 1892-93	1,710
Total ...	3,525

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 25th November 1893, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 8th and 18th January 1894 respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 3-30 P.M. of Monday, the 8th January 1894, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Thursday, the 18th January 1894.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Patna and Ghazeepore Factories will be brought to sale up to December next about the date specified below. The Board of Revenue, however, reserve to themselves the right of altering this date should circumstances render it expedient to do so :—

On or about Monday, 3rd December	,,	...	1,815	1,710	3,525
	Total	...	21,780	20,520	42,300

The following are the conditions of sale:—

1.—The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.

On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.

On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.

And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said

Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government Superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazeepore Factory for the year 1892-93, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale, that may be desired by parties connected with the trade, will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

T. INGLIS,
Secretary.

FORT WILLIAM, *the 25th November* 1893.

NOTICE—No. 2179B.

APPLICATIONS for tickets of admission to the Opium Sale-rooms for the year 1894 should be made at the office of the Board of Revenue, L.P., on or after the 20th instant.

Tickets for the year 1893, which have not already been surrendered, should be returned at the same time.

By order of the Board of Revenue, L.P.,

CALCUTTA, *the 9th December* 1893. T. INGLIS, *Secretary.*

NOTIFICATION—No. 3924Med.

The 12th December 1893.

CHARITABLE ENDOWMENTS ACT, 1890

In the matter of the Syedani Tahirunissa Bibi Chowdhurani Female Hospital at Bogra in the Province of Bengal, and in the matter of the Bogra Public Library.

WHEREAS application has been made to the Government of Bengal by Nawab Syed Abdus Sobhan Chowdhury of Bogra, zamindar (hereinafter referred to as the Donor), that with a view to creating a permanent Endowment Fund of Rs. 720 per annum for the support of the above hospital, which the said Nawab Syed Abdus Sobhan Chowdhury has determined to erect at his own cost on a site to be provided at his own expense in the town of Bogra in order to perpetuate the memory of his deceased wife, the late Syedani Tahirunissa Bibi Chowdhurani, and also with a view to creating an Endowment Fund of Rs. 120 per annum as a contribution to the up-keep and maintenance of the Bogra Public Library, the immoveable properties described in the schedule hereto, of which the Donor is the absolute owner, may be vested in the Treasurer of Charitable Endowments for the Lower Provinces upon the following terms, that is to say—

1. That the net rents and profits of the said property be applied as follows, that is to say, in providing a sum of Rs. 720 per annum for the permanent maintenance of the hospital for females at Bogra about to be erected by the said Nawab Syed Abdus Sobhan Chowdhury, and which, in memory of his deceased wife, is to be known as the Syedani Tahirunissa Bibi Chowdhurani Female Hospital, and the further sum of Rs. 120 per annum as a contribution to the maintenance of the Public Library at Bogra aforesaid.

2. That the said sum of Rs 720 so as aforesaid applicable to the maintenance of the said Hospital for females shall be appropriated as follows, that is to say, the sum of Rs. 360 per annum, or Rs. 30 per mensem, in paying the salary of the female medical officer in charge, whose duty it will be to attend daily at the Hospital to see outdoor female patients and attend to and treat female indoor patients, and the balance or sum of Rs 360 per annum, or Rs. 30 per mensem in paying for the diet and medicine of patients, the salary and maintenance of a nurse and other incidental expenses.

3. That the trustee to be appointed under section 5(1) of Act VI of 1890 to administer the trust shall be the Collector for the time being of Bogra, and the said properties shall be leased in putni to the said Nawab Syed Abdus Sobhan Chowdhury at a rent of Rs. 840 per annum, exclusive of the Government Revenue and cesses payable in respect of the same, which shall be paid by the said Nawab Syed Abdus Sobhan Chowdhury. The said rent shall be paid by four equal instalments to the said Collector.

4. That the duties of the said Collector as such trustee shall be to appropriate and apply the said annual rent of Rs. 840 as and when received in manner directed in clauses 1 and 2.

5. That the said trustee shall in books to be kept by him regularly enter or cause to be entered full and true accounts of all monies received and paid respectively on account of the trusts of the said endowment, and shall from time to time submit to such public servant as the Local Government may from time to time appoint in that behalf in such form and at such times as the said Local Government may from time to time prescribe an abstract of such accounts and such return as to other matters relating to the administration of the trust as the said Local Government may from time to time see fit to require.

Notice is hereby given that an order is proposed to be made by the Government of Bengal after the expiration of one calendar month to be computed from the first publication of this notice vesting the said property described in the schedule hereto in the said treasurer upon the terms aforesaid.

Any objections to the proposed order or suggestions thereon may be transmitted in writing to the Secretary to the Government of Bengal, Municipal Department, before the thirteenth day of January 1894.

The Schedule above referred to.

No. 1.—Out of 16 annas share of dihi Jangirabad, bearing Bogra Collectorate tauzi No. 69-72, the 4 gandas 1 kara 1 krantee and 17½ tils share of Nawab Syed Abdus Sobhan Chowdhury, the Government revenue payable being Rs. 73-2-1 pie only.

No 2.—Out of 16 annas share of taraf Bihar the 1 gonda 1 kara 12½ tils share of Nawab Syed Abdus Sobhan Chowdhury, Bogra Collectorate tauzi No. 1013, Government revenue payable being Rs. 26-5-6 pie only.

No. 3.—Out of 16 annas share of dihi Jangirabad, bearing Bogra Collectorate tauzi No. 69-72, the 4 gandas 1 kara 1 krantee and 17½ tils share of Nawab Syed Abdus Sobhan Chowdhury, the Government revenue payable being Rs. 73-2-1 pie only.

No. 4.—The 11 annas share of mukarrari jote kismut Malgaon, estate No. 1 of the Bogra Collectorate. The annual rent, amounting to Rs. 179-15-11 gandas, is payable to the said Nawab Syed Abdus Sobhan Chowdhury.

No. 5.—The 3 annas and 2½ gandas share of the same mukarrari jote, rent Rs. 51-2-2½.

No. 6.—The 5 annas share of mukarrari chak jama kismut Polashbari in estate No. 1 of the Bogra Collectorate, the annual rent, amounting to Rs. 35, being payable to the said Nawab Syed Abdus Sobhan Chowdhury.

No. 7.—The 5 annas share of mukarrari jote mauza Chak Nazib in estate No. 12-15 of the Bogra Collectorate, the annual rent, amounting to Rs. 20-9, being payable to the said Nawab Syed Abdus Sobhan Chowdhury.

No. 8.—Mukarrari jote in village Kanar, station Bogra, in mahal No. 1, pargana Silbarsa, of 75 bighas 1 pan 7½ gandas of land, bearing an annual rent of Rs. 15 only. Payable to the said Nawab Syed Abdus Sobhan Chowdhury.

Dated this 11th day of November 1893.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION—No. 3926Med.

The 12th December 1893.

CHARITABLE ENDOWMENTS ACT, 1890.

In the matter of the Elliott Charitable Dispensary at Soro, in the district of Balasore, in the Province of Bengal,

and

In the matter of the Albert Victor Charitable Dispensary at Jellasore, in the said district of Balasore,

and

In the matter of the Rani Srimati Charitable Female Dispensary attached to the Raja Shyama Nunda Dé Dispensary in the town of Balasore,

and

In the matter of the said Raja Shyama Nunda Dé Dispensary.

IT is hereby notified that the Lieutenant-Governor of Bengal, in exercise of the powers conferred by sections 4 and 5 of the Charitable Endowments Act, 1890, and upon the application and with the concurrence of Raja Baikantha Nath Dé Bahadur and Babu Satyendra Nath Dé, sons of the late Raja Shyama Nunda Dé Bahadur, deceased, of Rajnagur in pargana Sunhat, in the district of Balasore, zamindars, doth hereby order and direct that the immoveable property, of which the particulars are contained in the first schedule hereunder written, shall, as from the date of the first publication in the *Calcutta Gazette* of this notification, vest and be thenceforth vested in the Treasurer of Charitable Endowments for the territories subject to the Government of Bengal, to be held by him and his successors (subject to the provisions of the said Charitable Endowments Act, 1890, and any rules from time to time framed thereunder by the Governor-General in Council) upon trust, to permit the said property to be managed and the rents and profits thereof applied in manner and for the purposes set forth in the scheme for the endowment of the Elliott Charitable Dispensary at Soro in the district of Balasore, the Albert Victor Charitable Dispensary at Jellasore in the said district of Balasore, the Rani Srimati Charitable Female Dispensary attached to the Raja Shyama Nunda Dé Dispensary in the town of Balasore, and the said Raja Shyama Nunda Dé Dispensary, of which scheme particulars are contained in the second schedule hereunder written. And it is hereby further notified that the said scheme, of which the particulars are contained in the said second schedule, shall come into operation on the vesting of the said property in the said Treasurer of Charitable Endowments for the territories subject to the Government of Bengal upon the first publication of this notification in the said *Calcutta Gazette.*

The first Schedule above referred to.

All that undivided moiety or half share of and in all that permanently-settled mahal called or known as Khasuraban in pargana Kasijora, bearing tauzi No. 900 in the Collectorate of Midnapore and in the registration district of Panskura and thana of Panskura, the Government revenue payable for which amounts to Rs. 2,047-15-7, the proportionate revenue for the said moiety being Rs. 1,023-15-9½, and the annual income of which moiety or half share at present amounts to Rs. 1,535.

The second Schedule above referred to.

1. The rents and profits of the said property after payment of the Government revenue, costs of collection and charges of management shall be applied as follows: that is to say, in providing a sum of Rs. 300 per annum as a contribution to the permanent maintenance of the dispensary at Soro known as the Elliott Charitable Dispensary, the further sum of Rs. 240 per annum for the maintenance of the dispensary at Jellasore known as the Albert Victor Charitable Dispensary, and the sum of Rs. 600 per annum for the maintenance of the female ward attached to the Raja Shyama Nunda Dé Dispensary at Balasore and known as the "Rani Srimati Charitable Female Dispensary," and the balance, if any, of such funds shall be devoted to the up-keep and maintenance of the said Raja Shyama Nunda Dé Dispensary, it being hereby declared that the said several sums of Rs. 300, Rs. 240 and Rs. 600 shall rank *pari passu inter se* as an accumulative first charge on the net rents and profits of the said endowed property, and that, if such net profits shall be insufficient in any one year to meet the

same in full, the said sums of Rs. 300, Rs. 240 and Rs. 600 shall be proportionately reduced, but in that case the surplus profits of the next or any succeeding year shall be applied in the first place in making good the deficiency, and only the balance, after making good such deficiency, shall be available for the purposes of the said Raja Shyama Nunda Dé Dispensary.

2. The supervision, management and control of the said endowed properties and of the said dispensaries shall be in the hands of a Committee of three persons, of whom the District Magistrate for the time being of Balasore shall be the President, the Civil Surgeon of the district of Balasore for the time being a member, and a member of the donors' family the Secretary, and in the course of such management the said Committee shall be at liberty to let out the said properties either for a term or in perpetuity, or to retain the same in their own khas possession, with power to do all acts and things for the proper and efficient management thereof, and the collection and realisation of the rents and profits thereof which they may think proper.

3. Such Committee may meet together for the despatch of business and adjourn and otherwise regulate their meetings as they shall think fit, but they shall at all times conform to and abide by any rules relating to the administration of endowments under the said Charitable Endowments Act, 1890, which the Governor-General in Council, in exercise of the powers conferred by section 13 of that Act, may from time to time see fit to make.

4. Such Committee shall, in books to be kept by them, regularly enter or cause to be entered full and true accounts of all moneys received and paid respectively on account of the trusts of the said endowment, and shall from time to time submit to such public servant as the Local Government may from time to time appoint in that behalf, in such form and at such times as the said Local Government may from time to time prescribe, an abstract of such accounts and such returns as to other matters relating to the administration of the trust as the said Local Government may from time to time see fit to require.

J. KENNEDY, Collector of Murshidabad.

Murshidabad Collectorate, dated Berhampur, the 14th November 1893.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates or shares of estates, in the district of Midnapore, will be put up for sale at the Collector's Office of that district, on Saturday, the 30th December 1893, corresponding with 17th Pous 1301 A S., for arrears of revenue and other demands, which, by the Regulations and Acts in force, are directed to be realised in the same manner as arrears of revenue.

When in columns 5, 7 and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share and the other share or shares in the estate are excluded from the sale :—

Shahabad Collectorate, Arrah, the 12th December 1893.

NOGENDRONATH MAITRA, for Collector.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates or shares of estates in the district of Darbhanga will be put up for sale at the Collector's office of that district on the 29th December 1893, corresponding to 6th Pous 1301 F.S., on Friday, at 12 o'clock for arrears of revenue and other demands, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue.

When in columns 5, 7 and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share and the other share or shares in the estate are excluded from the sale:—

(784—1)

Oudh Forest Department.

BAHRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sál beams and scantlings supplied from this depot will be as follows:—

BEAMS—21 feet length, at Rs. 2-10 per cubic foot.
22 ,, ,, 2-12 ,,
23 ,, ,, 2-14 ,,
24 ,, ,, 3 ,,

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS—From 12 to 20 feet, at Rs. 2-8 per c. ft.
Under 12 and over 7 ,, 2-4 ,,
Under 7 feet ,, 2 ,,

The above prices are for ordinary building purpose.

For *Planking Sleepers*, &c., special rates will be fixed by agreement.

The Department will still taken orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, N.-W.P. and Oudh, Oudh Circle.

KANHYA LAL,
Sub-Assistant Conservator of Forests,
Barhamghat Division.

Barhamghat, the 1st April 1886.

Pure Sulphate of Quinine

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION.

THE price of this quinine is as follows:—
1 pound tin Rs. 16, or, post free, Rs. 16-12.
½ ,, ,, ,, 8, ,, ,, ,, ,, 8-8.
¼ ,, ,, ,, 4, ,, ,, ,, ,, 4-8.

Analysis shows this quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanical Garden, Sibpur, near Calcutta. It can be had either white or coloured pink.

The general public can be supplied by the Superintendent, Botanic Garden, *for cash only* at the undernoted rates:—Per four ounce tin Rs. 3; per eight ounce tin Rs. 6; per pound tin Rs. 12. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage four annas per 4 ounce tin, eight annas per 8 ounce tin, and twelve annas per pound tin, in addition to the foregoing rates.

Reduction in price of Cinchona Febrifuge.

FROM 1st April 1891, and until further orders Cinchona Febrifuge can be purchased by all Government officers and by any one taking *ten pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates. Four ounce tin Rs. 2-8; eight ounce tin Rs. 5; one pound tin Rs. 10.

NOTICE TO SUBSCRIBERS.

SUBSCRIBERS to the *Calcutta* and *Bengali Gazettes* and *Indian Law Reports* are hereby informed that unless the amount of their subscription for 1894 is received before the 31st December 1893, it will be concluded that the Gazettes and Reports are no longer required, and the supply will accordingly be discontinued from 1st January 1894.

All remittances should be made direct to the Accountant and Treasurer, Bengal Secretariat, Calcutta, by means of money-orders. No postage stamps or stamps of any other kind will be received in payment of subscriptions.

The correct address of the subscriber should be legibly written on the money-order coupon, and the period for which the subscription is paid should also be stated.

N. BONHAM-CARTER,
Offg. Under-Secy. to the Govt. of Bengal.
The 4th December 1893.

The List of Books available for sale at the Secretariat Press will in future be published once only in each month. Spare copies of the List will, however, be kept in stock ready for issue on receipt of applications for them.

NOTICES TO MARINERS.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 285.

[First Publication.]

CHINA SEA—FORMOSA.

Tamsui—Intended alterations in bar signals.

THE British Admiralty has given notice (No. 571 of 1893) that the following signals will be substituted for those now shown to indicate the depth on the bar at Tamsui, north coast of Formosa :—

Depth of water on bar.	North yardarm.	South yardarm.
10 feet	●	
11 ,, ...	●	●
12 ,, ...	● ●	
13 ,, ...	● ●	●
14 ,, ...		● ●
15 ,, ...	● ●	● ●

Half feet will be shown by a ball half-way out on the north yardarm.
Rising tide will be shown by a ball at the masthead.
The symbols will be painted white and hoisted at the Custom-house flagstaff.
Flag Signals by the International Code will be answered at the Custom-house flagstaff.

[First Publication.]

PACIFIC OCEAN—CAROLINE ISLANDS.

Helene shoal—Foul ground to the westward.

THE British Admiralty has given notice (No. 587 of 1893) that information has been received from the Master of the steamer *Angers* that at 2h. 30m. p.m., 16th September 1893, in lat. 5° 33′ N., long. 149° 3′ E., or westward of the reported position of Helene shoal, the vessel passed over a narrow patch of shoal water, with apparently depths of 5 to 6 fathoms on it; no soundings were taken, but the bottom was distinctly visible. This shoal is probably connected with Helene shoal, as green water was observed from the *Angers* stretching far to the eastward of the above position.

EASTERN ARCHIPELAGO—Strait of Mangkasar—Celebes, south-west coast.

Date of exhibition of light on Dajang-Dajangan islet.

With reference to Notice to Mariners (No. 261, dated 10th ultimo), issued by this office, the following further notice (No. 34, dated 20th November 1893), issued by the Vice-Admiral Commanding the Naval forces in Neth.-India is republished for general information:—

With reference to Notice to Mariners, No. 30, Batavia, 1893, notice is given that the beacon light on *Dajang-Dajangan* islet has been exhibited on the 16th November last.

The light, shown from a framework iron support, is a *fixed white* light of the fifth order. It is elevated 63·3 feet above high water, and should be visible from a distance of 14 miles in all directions, except where obscured by *Tanna-Kéké* islet. It will, however, be visible over the lower parts of this islet.

The light-house 67·7 feet above high water, and the stone watch-house with red roof are painted white.

Approximate position, lat. 5° 23′ 38″ S., long. 119° 10′ 26″ E.

This notice affects the charts: Zuid-Westkust Celebes, 1880, and Straat Mangkasar, blad II, 1883.

NOTE ON THE EARLY COTTON CROP IN BENGAL, 1893.

THE following is published for general information.

REVENUE DEPT.,
The 14th December, 1893.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Note on the Early Cotton Crop in Bengal, 1893.

1. *Explanatory.*—There are, generally speaking, two cotton crops in Bengal, namely, the early crop, believed to be the more important of the two, which is sown during the monsoon rains and harvested during the cold weather, and the late crop which is sown at the close of the rainy season and harvested in the hot weather. This report is prepared in accordance with the orders of Government prescribing the issue of two annual forecasts—one dealing with the early crop, and the other with the late crop. The report on the late cotton crop of this year will be issued in the beginning of February next.

The cultivation of cotton has ceased to be important in Bengal, except in the Chittagong Hill Tracts and in a few districts of Bihar, Chota Nagpur, and Orissa. The Chittagong Hill Tracts is the only district which now grows cotton for export; the produce of the other districts is locally consumed.

2. *Area sown.*—The total area sown in early cotton this year appears from the returns annexed hereto to be 226,437 acres against 231,780 acres estimated to have been sown last year. In some districts the area sown this year is reported to be less than last year's area on account of excessive rainfall at the sowing time, but on the whole there does not appear to have been any marked decrease in the area sown this year.

3. *Character of the crop.*—The excessive rainfall which characterised the last rainy season is reported to have more or less injured the cotton crop in most districts; and in some places the crop was further damaged by floods. Taking all the cotton-growing districts together, the outturn of the early crop may be estimated at 10½ annas or two-thirds of an average crop. The crop is reported to be extremely poor in the Chittagong Hill Tracts, which is, as already remarked, the only cotton-exporting district in Bengal.

B. C. BASU,

Assistant to Director of Land Records and Agriculture, Bengal.

COUNTERSIGNED.

W. C. MACPHERSON,

Offg. Director of the Dept. of Land Records and Agriculture, Bengal.

CALCUTTA,
The 8th December 1893.

Forecast of the early cotton crop of Bengal, 1893.

1	2	3	4	5	6	7	8	9
Division.	District.	Approximate normal area under cotton in acres.	Approximate area sown last year in acres.	Estimated area sown this year in acres.	Taking 16 annas to represent the average outturn per acre, how many annas represented outturn last year?	Taking 16 annas to represent the average outturn per acre, how many annas will represent this year's outturn?	Remarks by the District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal.
Burdwan ...	Bankura ...	2,000	1,650	1,440	Annas. 8	Annas. 7	Owing to rainfall during the sowing time the cultivation of this crop is not very favourable, and it is expected that the outturn will be much below the normal.	In the preliminary bhadoi crop's forecast for 1893, the area under early cotton was shown as 2,000 acres.
	Birbhum ...	1,000	1,000	1,000	16	16	.....	No return was called for from this district. The figures shown here have been taken from the preliminary bhadoi forecast for 1893.
	Midnapore ...	7,000	7,000	5,100	9	7	The decrease in the area and outturn is due to the unusually heavy rainfall during the year.	In the preliminary bhadoi crop's forecast for 1893 the area under early cotton this year was shown as 7,200 acres.
Rajshahi ...	Jalpaiguri ...	450	240	275	14	12	Owing to moderate rain in sowing time an increased area was sown. Heavy rainfall at the growing time injured the growth of the plant; hence this year's outturn will be worse than that of the last year.	It is not apparent why the area sown in early cotton this year should be short of the normal.
Chittagong ...	Chittagong Hill Tracts.	17,000	17,000	17,000	7½	4	Excessive rain did much damage to cotton crop; hence the low forecast. The acreage under cotton crop is shown in Table A I of the agricultural statistics for 1891-92 as 12,500, but 17,000 acres as returned under jum crops in Table A1 of 1892-93 represent, according to the process of cultivation followed by hill-men here, the area actually under cotton.	The figures in columns 3, 4 and 5 have been changed in consequence of the Assistant Commissioner's remarks to 17,000 acres.

1	2	3	4	5	6	7	8	9
Division.	District.	Approximate normal area under cotton in acres.	Approximate area sown last year in acres.	Estimated area sown this year in acres.	Taking 16 annas to represent the average outturn per acre, how many annas represented outturn last year?	Taking 16 annas to represent the averaged outturn per acre, how many annas will represent this year's outturn?	Remarks by the District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal.
Patna	Patna	13,072	9,800	6,366	Annas. 11½	Annas. 16	In the Sadar sub-division there is a decrease in the area sown which was due to excessive rainfall, but the area, though smaller, will give a better yield as the crop is doing well. There is a decrease both in area sown and the estimated outturn in the Barh sub-division, which is due to excessive rain at the ploughing and sowing season. It also injured the seeds sown. In the Dinapore sub-division, owing to heavy rainfall throughout the season, the seeds did not germinate properly; hence there is a decrease in outturn.	Hitherto the area under cotton cultivation in this district used to be estimated at 3,400 acres (vide Table A1-3 of 1891-92, and Report on cotton crops in Bengal for year ending June 1892.) In the preliminary, blended crops forecast for 1893, the area sown in cotton during the last rainy season was shown as 2,825 acres. The Collector now estimates the normal area under early cotton crop (i.e. exclusive of late cotton, if any) at 13,073 acres, and the area sown this year at 6,366 acres. It is necessary to reconcile such discrepant estimates. Out of the estimated average under cotton this year, 6,700 acres appear to be in the Barh sub-division alone; the area in the Sadar and Dinapur sub-divisions are insignificant.
	Gaya	100	100	100	16	16	The cultivation of cotton is only nominal, any slight change in the cultivated area or estimated outturn is therefore almost imperceptible.	The estimates of area under cotton appear to be very doubtful.
	Darbhanga ...	12,914	12,914	12,914	16	16	The excessive rain in August and September has affected the outturn.	The rainfall during August was almost equal to the normal, but in September and October it was considerably in excess of the normal fall.

Muzaffarpur	9,000	9,000	9,000			6	The decrease in the outturn of the year is due to the excessive rains and high floods that have caused a great damage to this crop throughout the district.	Much of the loss is believed to have been due to floods, for the distribution of rainfall was very much like what it was in the neighbouring district of Saran, where a full average crop is expected.
Saran	40,000	40,000	40,000			16	Better outturn this year is due to favourable rainfall.	The present estimate of area sown in cotton agrees with the estimates given in Table A of Agricultural Statistics for 1892-93 and in the Report on cotton crop for Year ending 30th June 1894; but it differs very widely from the estimate given in the preliminary bhadoi forecast for 1893, while it is put at 11,700 acres.
Champaran ...	1,000	1,000	1,030	14	10	Increased rains and floods are the causes of decrease in the outturn.		
Bhagalpur ... Monghyr	10,7-07	10,850	10,700	15½	8? }	.....		No return was called for from these two districts. The figures shown here have been taken from the preliminary bhadoi forecast for 1893, with the exception of the estimate of normal area in Monghyr, which has been taken at the same figure as the area sown this year. The estimate of outturn in Monghyr seems rather low.
Bhagalpur ...	14,000	14,000	14,000	15	16 }			
Southal Pargana	12,500	12,150	12,500	13	13	The increase in the area sown this year is due to the favourable rain that fell.		The present estimate of area sown with early cotton this year differs slightly from the estimate (11,150 acres) given in the preliminary bhadoi forecast of 1893, but it differs greatly from the estimate of area (both early and late) sown in 1892-93, which is given as 1,857 acres only in the Report of cotton crop for that year.
Orissa ... Cuttack	4,000	5,140	1,914	11	10	Owing to unusual heavy rain and consequent floods at the sowing time, the area under this year's cotton crop is below the normal. The low outturn is also due to the same cause and to the high floods and untimely rainfall.	The area sown in cotton during the last bhadoi season was given in the preliminary bhadoi forecast as 3,53 acres against 1,914 acres now shown.	
Balasore	953	963	910	11	13	The decrease in area is due to excessive rain at the time of sowing, and the increase in outturn, as compared with that of last year, is in consequence of good rains.		

1	2	3	4	5	6	7	8	9
Division.	District.	Approximate normal area under cotton in acres.	Approximate area sown last year in acres.	Estimated area sown this year in acres.	Taking 16 annas to represent the average outturn per acre, how many annas represented outturn last year.	Taking 16 annas to represent the average outturn per acre, how many annas will represent this year's outturn?	Remarks by the District Officer.	Remarks by the Department of Land Records and Agriculture, Bengal.
					Annas.	Annas.		
	Puri	14,460	12,492	9,960	6	12	Owing to abundant rainfall in May, the area under cotton decreased, but the outturn is expected to be good owing to the season being favourable.	In the preliminary bhadoi crops forecast for 1893, the area sown in cotton during the last *bhadoi* season was shown as 8,800 acres
	Angul and Khand Mals.	5,000 *	5,000 †	5,000	7	16	.....	No return was called for from this district. The figures shown have been taken from the preliminary bhadoi forecast of 1893, with the exception of the figures in columns 3 and 4, which have been assumed to be equal to the area sown this year.
Chota Nagpur ...	Hazaribagh ..	7,471	7,471	7,471	19½	12	.....	The return for Hazaribagh has not been received. The figures shown here have been reproduced from the preliminary bhadoi crops forecast.
	Lohardaga ...	11,000	11,000	11,000	14	12	This is not a cotton-producing district. What is produced is barely sufficient to meet the consumption of the people of the district.	In the report of cotton for year ending June 1892, the area under cotton in this district was estimated at 61,175 acres. This includes both early and late cotton, but the area under the latter is believed to be insignificant as compared with the acreage under the early crop. The present estimate agrees, however, with the estimate of area sown in cotton in the last bhadoi as shown in the preliminary bhadoi forecast for 1893.
	Palamau	10,000	5,827	5,827	13	11	Owing to excessive rainfall the outturn is worse than last year.	In the preliminary bhadoi forecast for 1893, the area sown in cotton

Manbhum... ...	40,000	40,000	40,000	6	7	The heavy rains were injurious to cotton. At the Sadar the outturn is estimated at 8 annas on an average, and in the Gobindpur sub-division at 6 annas.	in the last bhadoi season was shown as 7,927 acres. It is not stated why the area sown this year should be below the normal. Is it due to excessive rainfall at sowing time or to the usual misconception about the terms 'normal area,' which are wrongly taken to be the maximum area capable of being sown in a particular crop?
Singhbhum ...	23,000	10,113	10,413	13	11	The area sown this year is equal to that of last year, but the little decrease in outturn of this year is due to the excessive rainfall.	In the preliminary bhadoi forecast of 1893, the area sown in cotton in the last bhadoi season was given as 9,731 acres. It is not explained why this year's area should be so short of the normal. *Vide* remarks under Palamau.
Total for the cotton-growing districts above entered.	255 800	231,780	226,437	11½	10½		

FINAL REPORT ON THE BHADOI CROPS, 1893.

THE following is published for general information.

REVENUE DEPARTMENT,
The 19th December, 1893.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Final Report on the Bhadoi crops, 1893.

Character of the season.—The yield of the *bhadoi* or *aus* crops is, generally speaking, determined by the rainfall of the period from April to September, and especially by the rainfall from the middle of May onwards. The earlier months of the present year, namely, from January to April, were unusually wet, and although the frequent and abundant showers which fell during this period were favourable on the whole to the preliminary operations of cultivation, they prevented much of the low-lying areas from being brought under cultivation. During May and June, when the sowing and weeding operations were in progress, the weather was unfavourable. Except in a few districts of North Bengal and North Bihar: the rainfall during these months was exceedingly heavy, and the growth of the young crops was checked in consequence; while in some parts the crops in low-lying lands suffered from accumulation of water. In July, again, the rainfall was above the normal, except in Orissa and South-West Bengal. During August the rainfall was generally short of the normal, but September was marked again by exceedingly heavy rainfall, except in some of the Eastern districts. Excessive rain was, therefore, a marked characteristic of the last monsoon season, and the mischief thereby caused to the *bhadoi* crops was aggravated by floods in many districts of Eastern Bengal and in parts of Darbhanga, Muzaffarpur, Champaran and Cuttack.

2. *Area sown.*—The total area cropped with *bhadoi* crops this year appears from the appended returns to have been 15,650,099 acres against 15,963,824 acres estimated to have been sown last year. Out of the total area cropped this year, *bhadoi* paddy occupied about 7,300,000 acres or about 46 per cent., and maize and millets nearly three million acres or about 20 per cent. Taking the Provinces as a whole, the total area sown with *bhadoi* crops this year does not seem to have been much below that of last year. The localities where the area sown was returned as considerably short of that sown last year were shown in a statement appended to the first forecast of the *bhadoi* crops issued on the 24th September last.

3. *Estimated outturn of the crops.*—The *bhadoi* food crops, including paddy, maize and millets, have been more or less damaged by excessive rainfall in almost every district in Bengal, and in some districts in East Bengal, and parts of Cuttack and North Bihar, by floods also. It will appear from the appended returns that only a few districts* or sub-divisions have reported a full or more than a full crop. A statement is annexed to this report showing the sub-divisions in which the food crops have suffered to the extent of eight annas and upwards. The outturn of the *bhadoi* food-crops in these Provinces may be estimated at about $\frac{14}{15}$ths of an average or 16 annas outturn, at which it was estimated in the first forecast, dated the 24th September 1893. The estimates of outturn now returned for several sub-divisions are found to vary from those stated in their preliminary forecasts, but the variations, though large in case of a few sub-divisions, do not appreciably affect the preliminary estimate of outturn for Bengal as a whole. The *bhadoi* crops of this year have been much poorer than those of the last year, which were estimated at fully 16 annas.

* Bankura, Birbhum, Sadar (Hooghly), Basirhat (24-Parganas), Ranaghat (Nadia), Dinajpur, Kurigram and Gaibanda (Rangpur), Jamalpur (Mymensingh), Gopalganj (Saran), Madhepura (Bhagalpur), Purnea, Malda, and Khurda (Puri).

B. C. BASU,
Assistant to Director of Land Records and Agriculture, Bengal.

CALCUTTA,
The 7th December 1893.

W. C. MACPHERSON,
Offg. Director of the Dept. of Land Records and Agriculture, Bengal.

APPENDIX I.

Final Report on the Bhadoi crops, 1893.

DISTRICT.	Sub-division.	Total area of sub-division in acres.	Total area estimated to be under cultivation in acres.	Name of crop.	Approximate normal area under each *bhadoi* crop in acres.	Approximate area under each of the last year's *bhadoi* crops in acres.	Estimated area under each of this year's *bhadoi* crops in acres.	Taking 16 annas to represent the average outturn, how many annas represented outturn last year?	Taking 16 annas to represent the average outturn, how many annas will represent this year's outturn?	Remarks by the District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal.
Cossye—	Sadar ...	563,960	304,600	Bhadoi paddy ...	135,200	133,600	128,600	Annas. 16	Annas. 12	The decrease in area sown with bhadoi paddy, jute, til and miscellaneous crops as compared with normal and last year's is due to heavy rainfall at the sowing season. The decrease in outturn is due to injury caused to the crops by heavy and continued rains. The increase in the normal area under bhadoi paddy is due to the fact that the area previously grown with indigo, which has ceased to be cultivated, is now brought under cultivation of this crop.	
				Jute ...	800	540	600	16	6

Bangaon	...	415,360	248,960	Bhadoi paddy ...	...	105,000	130,000	80,000	15	12	The figures shown in columns 6 and 7 against indigo differ from those given in the final forecast of 1892, owing to revision based on minute and careful enquiry this year. The areas under bhadoi paddy, bhadoi pulse and indigo are below normal and last year's owing to excessive rain at the sowing season. The slight increase in the area under jute over last year's calls for no explanation, but the decrease as compared with normal is attributed to heavy rains. The area under til is larger than in the preceding year, but below normal. The increase may be attributed to the season being more favourable to the sowing of this crop. The decrease in the area under miscellaneous crops as compared with normal may be attributed to the heavy rainfall of the year. The fall in the outturns of bhadoi paddy, bhadoi pulse, jute, and indigo is attributed to excessive and incessant rain which destroyed the young plants or stunted their growth. The slight increase in the outturns of til and miscellaneous crops call for no comments.

DISTRICT.	Sub-division.	Total area of sub-division in acres.	Total area estimated to be under cultivation in acres.	Name of crop.	Approximate normal area under each *bhadoi* crop in acres.	Approximate area under each of the last year's *bhadoi* crops in acres.	Estimated area under each of this year's *bhadoi* crops in acres.	Taking 16 annas to represent the average outturn, how many annas represented outturn last year?	Taking 16 annas to represent the average outturn, how many annas will represent this year's outturn?	Remarks by the District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal.
Rangpur—*concld.*	Gaibanda	486,400	371,260	Bhadoi paddy	64,000	64,000	64,000	Annas. 14	Annas. 16	The price of winter rice was high last year. People naturally turned their attention to food-crops, but unseasonable weather interfered with their growth. The outturn was better, however, than at first feared. The unequal distribution of rain did little harm to the hardy *thakri* pulse. Jute, being a profitable crop, is gaining steadily in area year by year. But for the lands being water-logged the crop would have been still more plentiful. Very little indigo is grown in the district. The excessive rains did not harm the *ási* crop so badly as was feared at first. There is an increase in area under this year's *bhadoi* crops owing to a large quantity of lands having been utilised in sowing *bhadoi* paddy owing to the high price of rice during the previous year.	The outturn of Jute was estimated in the Final Jute Report at 13 annas. It is now estimated at 18 annas.

Remarks by the District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal.
Mymensingh —*concld.*	Kishoreganj ...	476,160	224,000	Bhadoi paddy	64,000	57,600	57,600	Annas. 10	Annas. 10	Owing to the incessant heavy rain in May last, the area cultivated this year has been smaller than the normal area; but the area brought under jute cultivation this year is greater than that of last year. This is owing to the high prices of jute in early part of last year. In the preliminary forecast the expected outturn was shown 8 annas, but the actual outturn proved to be 10 annas, as the rains did not do so much damage as was apprehended.	
				Jute	57,600	44,800	45,000	12	10		
	Total ...	476,160	224,000	All bhadoi crops ...	121,600	102,400	102,600	11	10		
	Jamalpur ...	817,752	627,200	Bhadoi paddy	60,700	25,000	25,000	8	16	This year's outturn is much better than last year's owing to the seasonable and sufficient rainfall. It had been estimated at 17 annas, but the harvest came to 16 annas, as a small portion was lost for the excessive rainfall at the time of reaping.

District.	Sub-division.	Total area of sub-division in acres.	Total area estimated to be under cultivation in acres.	Name of crop.	Approximate normal area under each *bhadoi* crop in acres.	Approximate area under each of the last year's *bhadoi* crops in acres.	Estimated area under each of this year's *bhadoi* crops in acres.	Taking 16 annas to represent the average outturn, how many annas represented outturn last year?	Taking 16 annas to represent the average outturn, how many annas will represent this year's outturn?	Remarks by the District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal.
Gaya—*concld.*	Nawada ...	611,360	469,600	Bhadoi paddy	5,300	5,100	5,300	Annas. 14	Annas. 12	The crops were generally damaged by excessive rain. More than normal area at Anrugabad and normal area elsewhere was sown on account of good rain at the time. As the bhadoi crops were nearly ripe at the time of submission of preliminary forecast, no changes were actually to be made in the report from those of the former ones. The normal area is understood to have been sown everywhere on account of good rain at the time. The crops, with the exception of paddy, have been greatly damaged by too continuous rain in June and July. The areas in column 3 have been corrected according to the Census Report of 1891.

The decrease in the area sown this year, as compared with the figures in column 7, is due to the fact that in the last year's forecast the area was very disproportionate. The figures have now been revised and should be taken as approximately correct.

The material falling in the estimated outturn of this year is due to damage caused by the continued rains and unprecedented high floods throughout the district.

Banks											
		758,400	588,000	Bhadoi paddy ...	30,200	30,200	10,200	16	16	There is no reason to alter the estimates of outturn generally. But the Subdivisional Officer, Banka, has reduced the estimate under indigo. The plant in dearda was injured by too abundant rainfall. The Subdivisional Officer, Nupani, has also modified his estimates for paddy and millets, the former having been injured by heavy floods, and the outturn of the latter having proved better than was anticipated. The modifications are too slight to materially affect the original estimates for the whole district.

(a) The increase in outturn (from 10 annas in the preliminary forecast) is due to rains in due time.

(b) The decrease in outturn (from 13½, 14 and 12½ annas in the preliminary forecast) is due to heavy rains.

(c) The decrease in area is due to heavy rains at the time of cultivation.

Sadar ...	979,200	460,800	Bhadoi paddy ...	22,400	22,400	27,500	7	8	Last year the outturn was small in consequence of deficient rainfall and damage done by floods. This year the excessive rainfall in May retarded sowing and also affected the area. The reason of increase in columns 4 and 5 is that some new land has been brought under cultivation. Last year the rainfall was deficient. This year it was favourable.				It is not understood why bhadoi paddy and millets should yield such poor outturn in the Sadar sub-division, although the season is said to have been favourable.

APPENDIX II.

Statement showing sub-divisions and districts in which bhadoi food-crops of 1893 *are estimated at* 8 *annas or less.*

District.	Sub-division.	Estimate of outturn in annas.	Remarks.
Midnapore ...	Contai	7	The loss is due to excessive rain fall.
Hooghly ...	Uluberia	8	Ditto ditto.
24-Parganas ...	Diamond Harbour ...	4	The loss is due to excessive rainfall. The *bhadoi* food crops in the Diamond Harbour sub-division occupy a small area (about 3,000 acres), and are unimportant.
	Sadar	6	
Khulna	Bagirhat	3	The loss is due to excessive rains.
Nadia	Kushtea	3	Ditto ditto.
	Meherpur	3	
Jessore	Jhenida	3	
	Narail	6	The loss is due to excessive rains, and early rise of the rivers.
Dacca	Sadar	6	Excessive rain and high floods damaged the crops.
	Narainganj	7	
	Manickganj	8	
Faridpur	Sadar	6	
	Goalundo	6	The loss is due to high floods. The crops were destroyed on about one-half the area. Much of the area could not also be sown owing to accumulation of water in the *beels*.
	Madaripur	5	
Backergunge ...	Sadar	2	The loss is due to heavy and continuous rainfall and unusual floods.
	Patuakhali	3	
	Pirojpur	3	
	Bhola	4	
Mymensingh ...	Netrokona	3	Ditto ditto.
Tippera	Brambanbaria ...	3	Ditto ditto.
	Chandpur	6	
Noakhali	Sadar	7	Ditto ditto.
Chittagong Hill Tracts.	.....	7	The loss is due to abnormally heavy rainfall. The area cropped is very small.
Patna	Barh	7	Ditto ditto.
	Dinapur	6	
Gaya	Sadar	7	Ditto ditto.
	Jahanabad	8½	
Shahabad	Sasaram	5½	The loss is due to excessive rainfall. In Bhabua the crops were further damaged by the overflowing of the *Durgawti* and *Karmanasa*.
	Sadar	4	
	Bhabua	4	
Darbhanga	Sadar	6	The damage is due to heavy floods.
Muzaffarpur ...	Sadar	5	Ditto ditto.
	Hajipur	7	....
	Sitamarhi	6½	....
Monghyr	Jamui	6	The damage is due to excessive rainfall.
	Begusarai	8	
Sonthal Parganas	Sadar	6	Ditto ditto.
	Godda	7	
	Rajmahal	7	
	Jamtara	7	
	Pakaur	4	
	Deoghur	7	
Angul	.....	7½	The loss is due to irregular rainfall.
Hazaribagh ...	Sadar	3½	The loss is due to excessive rainfall.
	Giridih	7	
Palamau	.....	8	Ditto ditto.
Manbhum ...	Sadar	6½	Ditto ditto.
	Govindpur	2½	

REPORT OF THE TRUSTEES OF THE INDIAN MUSEUM ON THE ECONOMIC AND ART SECTION OF THE MUSEUM.

REVENUE DEPARTMENT—MISCELLANEOUS.

Calcutta, the 18th December, 1893.

RESOLUTION No. 6216.

READ—

The Report of the Trustees of the Indian Museum on the Economic and Art Section of the Indian Museum for the year 1892-93.

The Report of the Officer in charge of the Economic and Art Section of the Indian Museum with the remarks of the Trustees was received on the 7th December 1893.

The most important work in the Economic and Art Section of the Museum during the year was the arrangement of the specimens in the Sudder Street extension. In August 1892 the arrangement of the Art Court was complete. On the 1st September 1892 the Court was opened to the general public. The Ethnological Court was subsequently opened to the public on the 1st January 1893. Both these Courts are reported to be very popular with the visitors to the Museum.

2. During the year under report some specimens of Art manufactures from the extinct Shillong Museum were incorporated with the Museum Collections. Other additions worthy of note were:—in the Ethnological Court (i) a very interesting collection of specimens illustrating the Santhals and Oraons by Mr. J. Cleghorn, Executive Engineer, Public Works Department, and (ii) a series of excellent photographs of the Andamanese taken by Mr. V. Portman, Assistant Superintendent, Port Blair; and in the Art Court (i) a collection of the silver jewellery worn by the peasantry of the Simla Hills, (ii) some cotton fabrics from Bengal, and (iii) mats from Tanjore and Tinnivelly.

3. The collection of both specimens and information was actively carried on, and a number of useful handbooks on individual products were compiled by Mr. Thurston, Officer in charge of the Economic and Art Section, assisted in the case of "Coal" by Dr. W. King, the Director of the Geological Survey, and in the case of "Mica" by Mr. T. H. Holland of the same Department.

4. Certain changes occurred during the year among the Trustees nominated by the Lieutenant-Governor. Mr. C. E. Buckland, Secretary to Government, proceeded to England on three months' leave, Mr. W. Maude, Officiating Secretary, acting as a Trustee during his absence. On the 3rd May 1892 Mr. W. C. Macpherson was appointed to officiate as Director of the Department of Land Records and Agriculture, Bengal, *vice* Mr. M. Finucane, and took the latter's seat at the Trustees' Board. On the 31st May 1892 the Lieutenant-Governor re-appointed Mr. A. Simson to the seat vacated by Mr. J. D. Maxwell on his departure for Europe.

5. The Lieutenant-Governor has heard with great regret of the death of Mr. J. Wood-Mason, Superintendent of the Indian Museum, on the 10th May 1893 on his journey homewards for the benefit of his health. The memoir of Mr. Wood-Mason's career and researches, quoted by the Trustees in their annual report, is a record of excellent service rendered to the Indian Museum and to the cause of Science.

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

Secretary to the Government of Bengal.

RESOLUTION ON THE LEPER ASYLUM COMMITTEE'S REPORT.

MUNICIPAL DEPARTMENT, MEDICAL.

Calcutta, the 18th December 1893.

RESOLUTION—No. 403. Med.

READ—

Bengal Government Resolutions (Medical), dated the 29th July 1890 and the 16th September 1890.

The Report of the Leper Asylum Committee, dated 13th March 1893.

The Calcutta Leper Asylum, which in one form or another has been in existence since the year 1811, has since 1840 been established in its present site in Amherst Street. But, while the benefits which the institution has conferred upon a section of the population universally pitied have been continually acknowledged, certain disadvantages of the present site have from time to time been pointed out. In 1889 public interest in the local asylum was stimulated in Calcutta, and when His Royal Highness the late Prince Albert Victor visited Bengal in the winter of the same year, a general desire was felt that as a permanent memorial of his visit a new Leper Asylum should be erected to replace the old institution.

2. In these circumstances the Lieutenant-Governor decided to appoint, for the consideration of the whole question, a Committee which should be thoroughly representative, and accordingly, after nominations had been obtained from the principal bodies concerned, a Committee consisting of the following gentlemen was appointed by the second of the Resolutions quoted in the preamble:—The Hon'ble Mr. Justice Prinsep (President), Messrs. J. Lambert, C.I.E., H. Lee, W. M. Osmond, W. J. Simmons, Drs. Gregg and Simpson, Nawab Abdul Latif Bahadur, C.I.E., Babus Isser Chunder Mitter, Surendra Nath Banerjea, and Amrita Nath Mitter, with Mr. P. McGuire as Secretary. The name of Mr. W. Banks Gwyther was subsequently added. All these gentlemen have signed the report with the exception of Dr. Simpson and Mr. W. M. Osmond, whose places, owing to their absence from India, have been taken by Dr. R. Sen and Dr. A. L. Sandel.

3. The duties of the Committee were laid down in the Resolution of the 29th July 1890 in the following terms:—

"The most obvious topics for the consideration of the Committee appear to be the locality for a new asylum, the number of inmates for whom accommodation should be provided (on the assumption that no more stringent provision is made for compulsory detention than is contained in the Bill already circulated by the Government of India), the provision of funds for its maintenance and superintendence, the constitution of a governing body, and the regulation of the conditions under which patients are to be admitted, retained, and discharged. But this enumeration is not intended to be exhaustive, and Sir Steuart Bayley will be glad to receive the advice of the Committee on any other points which may appear to them likely to promote the successful establishment and management of this most important institution."

4. The report which has now been submitted is the outcome of these orders. The deliberations of the Committee have extended over a period of two and-a-half years; but it is explained that they have been much protracted, partly by the uncertainty which was felt as to the intentions of the Government of India in regard to the compulsory seclusion of lepers, and partly by the delay which has occurred in the publication of the report of the Leprosy Commission, the appearance of which it was thought advisable to await, but which after all has been published some time subsequent to the submission of the report under review.

5. The first point with which the report deals is the locality of the proposed new Asylum. The recommendation of the Committee is that the existing site and buildings should be sold, and that, with the proceeds of this sale and the subscriptions collected by the Prince Albert Victor Memorial Committee, a house and grounds then available in Manicktollah should be purchased and improved by the alteration of existing and the erection of additional buildings. As regards the number of inmates for whom accommodation should be provided, the finding of the Committee is that at

present 200 may be regarded as a maximum, of whom twelve men and the same number of women would be non-Asiatics, and the remainder natives of India in the proportion of three males to one female. On the subject of funds, the report deals fully with the proposed arrangements for selling the present site and preparing the new one; but the Committee have been unable to make any recommendation as to the source from which the funds for maintenance are to be supplied, nor have they attempted to propound any rules for the admission, retention, and discharge of lepers. On the other hand, their recommendation is clear and definite that the Leper Asylum should be a Government institution managed by a Committee to be appointed by Government, upon which all persons or bodies contributing towards the foundation or maintenance of the Asylum should be suitably represented. To all these recommendations the Lieutenant-Governor has given his careful attention, and is pleased to pass the following orders upon them.

6. As regards the question of site, although the Manicktollah premises, which the Lieutenant-Governor has personally inspected, possess many advantages, Sir Charles Elliott is unable to accept the recommendations of the Committee in respect of them. He considers it to be of the first importance that a Leper Asylum should be provided with a complete and sound system of drainage. It is notorious that this condition is not fulfilled by the site in Manicktollah; and although it might be possible to remedy the defect, this operation would add considerably to the cost of the scheme. Moreover, the Lieutenant-Governor is advised that if the Asylum is located outside the limits of the Calcutta Municipality, there would be legal obstacles to the contribution of funds by the Commissioners, who, in His Honour's opinion, should liberally support the institution. Many representations have been made to Government against the retention of the Asylum in its present situation, and these have received careful attention, but in no instance has any other suitable site been indicated. The Officiating Lieutenant-Governor, Sir A. P. MacDonnell, also made enquiry into the question, but failed to discover any such locality, and was constrained to decide that the Asylum shall remain where it is, and that the efforts of those interested in the welfare of its inmates must be directed, not to its removal, but to its improvement. With this conclusion Sir Charles Elliott agrees.

7. In these circumstances it is manifest that the funds which were anticipated from the advantageous sale of the old site will not now be available; but the Committee of the Prince Albert Victor Memorial Fund have, through their Secretaries, intimated their willingness to fall in with the scheme now propounded, and to place at the disposal of Government the funds which they have collected, on certain conditions, one of which is that the Asylum should be named after His Royal Highness the late Prince Albert Victor. To this stipulation the Lieutenant-Governor gladly assents, and the Secretaries to the Fund have been asked to take the necessary steps to transfer the amount collected to the Treasurer of Charitable Endowments. With the sum so provided it is in the first place proposed to acquire a plot of land adjoining the present Asylum, and there to erect suitable buildings for the female patients; and secondly, to remodel and extend the existing wards so as to provide additional space for male patients and separate accommodation for non-Asiatics. The area thus enlarged will provide room for about 120 Hindu and Muhammadan male patients, 50 female patients and 25 or 30 European or Eurasian patients of both sexes.

8. At present the cost of the institution averages Rs. 9,929 a year for 87 patients, and the cost of each patient is thus about Rs. 114 per annum. This expenditure is met by the interest on certain special Trust Funds (Rs. 820) by a Government contribution for medicines (Rs. 125), and by a subsidy from the Calcutta Corporation of Rs. 2,400, the deficiency (about Rs. 7,000) being made up from the funds of the District Charitable Society. The Lieutenant-Governor is now prepared to relieve the District Charitable Society of this charge, and to make a contribution of Rs. 8,000 per annum from Government Funds. The available balance of the sum collected by the Prince Albert Victor Memorial Fund amounts to Rs. 27,000, and it is possible that a portion of the sum of Rs. 13,000 which has been promised but not paid in, may be

realised. From this source the cost of the land to be acquired and part of the cost of new buildings will be met, the remainder being defrayed by Government. As the number of lepers increases, it may be hoped that the endowment of the Asylum will be enriched by the donations of the benevolent and by an increased contribution from the Calcutta Corporation.

9. The Lieutenant-Governor accepts the recommendation of the Committee that the institution should be under Government management, and he has decided that the governing body shall consist of a Committee of seven, of whom four shall be *ex-officio* members, viz., the Inspector-General of Civil Hospitals (President), the Secretary to the Government of Bengal in the Medical Department, the Chairman of the Corporation of Calcutta, and the Commissioner of Police, Calcutta; two of the remaining three places will be filled up on the nomination of the Committees of the District Charitable Society and the Prince Albert Victor Memorial Fund, the seventh member being appointed directly by the Lieutenant-Governor. The executive charge will, as recommended, remain with the Commissioner of Police, Calcutta. Steps have already been taken for the acquisition of the land required; and it will be the duty of this Committee, whose appointment is separately notified, to take over the charge of the Asylum as soon as possible, to arrange for the alteration and construction of the buildings as already described, and to revise thoroughly the rules for the admission, maintenance, and discharge of the lepers, and the general conduct of the institution. The ground on which the Asylum stands and the existing buildings are the property of the District Charitable Society, who, since they will now be relieved of the support of the Asylum, have agreed to transfer them in due form to the Committee of the new institution. The Trust Funds which will be transferred by the District Charitable Society under proper legal safeguards, and the sum to be made available by the Permanent Memorial Committee, together with any sums that may hereafter be contributed, will be held by the Accountant-General as Treasurer of Charitable Endowments under Act VI of 1890.

10. In conclusion, the Lieutenant-Governor desires to express his acknowledgments to the gentlemen who formed the Leper Asylum Committee, and to say that the many other points of detail in their report, which have not been dealt with in the foregoing Resolution, will receive due consideration at the hands of the Committee of the enlarged Leper Asylum.

By order of the Lieutenant-Governor of Bengal,

J. A. BOURDILLON,

Offg. Secretary to the Government of Bengal.

RESOLUTION REVIEWING THE REPORTS ON THE WORKING OF DISTRICT BOARDS IN BENGAL DURING THE YEAR 1892-93.

MUNICIPAL DEPARTMENT—LOCAL SELF-GOVERNMENT.

Calcutta, the 18th December, 1893.

RESOLUTION—No. 4036L.S.-G.

READ—

The Reports from the several Commissioners of Divisions on the working of District Boards in Bengal during the year 1892-93.

Read again—

The Resolution reviewing the Divisional Reports on the working of District Boards in Bengal during 1891-92.

The Lieutenant-Governor has in previous years been obliged to notice the late submission of Divisional reports, but in 1892 an improvement was visible, and only one was received after the due date. His Honour regrets to observe that this improvement has not been maintained, for out of the eight Divisional reports for 1892-93 five only were received on or about the prescribed date, while the last to arrive, viz. that from Dacca, was one month and eleven days late. It is explained that the delay is caused by the submission of incomplete or late reports by some district officers. Commissioners of Divisions are again requested to take timely steps to secure the punctual submission of these reports.

2. The number of District Boards remained unchanged during the year, but the number of Local Boards was reduced from 106 to 104 owing to the abolition of the Chuadanga sub-division in the Nadia district, and the Lalbag sub-division in the Murshidabad district. This number has, since the close of the year, been further reduced to 102 in consequence of the abolition of the Barrackpore and Dum-Dum sub-divisions in the district of the 24-Parganas. As compared with the previous year, the area controlled by District Boards and the population of that area exhibit a decrease, which is understood to be due to the exclusion of certain tracts from the jurisdiction of District Boards and their inclusion within municipal limits, and also to the substitution for the old figures of those furnished by the latest census returns. Similar variations are noticeable in the area and population subject to the authority of the various Local Boards, and are attributable to the same cause.

3. *Constitution of District Boards.*—The number of members of District Boards amounted to 793, being three greater than in the previous year. Of this number, 170 held their seats *ex-officio*, 314 were nominated by Government, and 309 were elected by the Local Boards: 247 of them were officials and 546 non-officials. The European or Eurasian members numbered 192, and the natives of the country 601. The variations in the composition of the Boards since the previous year are too slight to call for any remarks. In every instance the Magistrate of the district was re-appointed Chairman under section 24 of the Act on the expiry of his term of office.

4. The Boards held altogether 624 meetings, giving an average of 16·4 meetings for each Board, as compared with 512, or an average of 13·4 in the previous year. The District Board of Dinajpur heads the list with 24 meetings; Jalpaiguri comes next with 23 meetings, while the District Boards of Bogra, Gaya, Cuttack, Puri, Mymensingh and Rangpur held 20 or more meetings each. But these figures include adjourned meetings and those that have proved abortive from the want of a quorum. The total number of such meetings amounted to 114, of which 8 occurred in Jessore, 7 each in Champaran

and Jalpaiguri, and 6 each in Dinajpur, Murshidabad, Backergunge, and Bhagalpur, while in Cuttack they reached the large number of 19. In the last-named district only two meetings were successfully convened at the first attempt, ten being adjourned and nine in effectual for want of a quorum. On this subject the Chairman (Mr. Stevenson) writes—

"Members did not always attend regularly, which necessitated adjourned meetings as above shown; some, I fear, contracting the habit of not attending the first summons in the expectation that there could not be a quorum, and thus bringing about that very result. Several of the town members evinced interest in the proceedings. As a rule the mufassal members fail to attend unless some subject comes up for discussion affecting their part of the district directly. This is not perhaps altogether to be wondered at."

The Commissioner of the Division (Mr. Cooke), however, attributes the poor attendance of members to the persistent failure of the Chairman to preside up till 15th November, since which date he has done so under protest. The Lieutenant-Governor fully endorses the observations of the Commissioner on Mr. Stevenson's view of his duties, which His Honour considers incorrect. The smallest number of meetings was held by the District Boards of Bankura, the 24-Parganas, Patna, Saran and Monghyr (12 meetings each). The falling off in the 24-Parganas is said to be due to the delay which occurred in reconstituting the Board after the general elections held in September 1892. In the case of the other District Boards mentioned no explanation has been offered.

5. The average attendance at each meeting of a District Board was 9·43, or 45·3 per cent. of the members, as compared with 9·61, or 46·4 per cent., in the previous year. The attendance was best in Tippera, Chittagong, Noakhali, and Backergunge, and worst in Cuttack, Bhagalpur, and Dinajpur, where it was below one-third of the actual strength of the Boards. The attendance of non-officials was on the whole fair, except in Jalpaiguri, Malda, and Champaran; that of the official members was bad in Purnea, Puri, Cuttack, Bhagalpur, Khulna, and Darbhanga. The Lieutenant-Governor trusts that in these districts such unsatisfactory results will not be allowed to recur, whether they are due to the apathy of the members themselves, or to the nomination of gentlemen who have not the leisure to attend.

6. *Constitution of Local Boards.*—The 104 Local Boards had a total strength, including the Chairmen, of 1,230 members, of which 152 were officials and 1,078 non-officials. Of the total number, 45 sat as *ex-officio* members, 720 were nominated by Government, and 465 were elected. The preponderance of nominated members is due to the privilege of election not having been extended to several Local Boards. Europeans or Eurasians held 104 and natives of India 1,126 seats on the Boards.

7. The Local Boards held 1,048 meetings, or 87 more than in 1891-92. Of this number, 197, or 18·7 per cent., were adjourned or proved abortive from the absence of a quorum. Only 26 Local Boards held more than 12 meetings during the year. The highest number (19) was attained by the Local Board of the Sadar sub-division in Backergunge; Bangaon and Birbhum come next with 18 meetings each. The Local Boards that met least often were those noted in the margin. Looking at the figures for the province as a whole, there has been a slight improvement in the attendance of members, the average number present at each meeting being 5·24, or 44·4 per cent., of the members, against 5·16, or 44·1 per cent., in the previous year. Taking the classes separately, the attendance of official members at the Local Boards, as in the case of District Boards, shows a falling off which is much to be regretted.

Puri	2	Vishnupur	4
Basirhat	3	Mimapore	4
Barrackpore	3	Khurda	4

8. *Elections.*—During the year under review were held the third general elections of members of those District and Local Boards which had been formed soon after the passing of Act III (B.C.) of 1885. The elections as a rule excited little or no interest, except in a few localities, such as Burdwan, Hooghly, Kisnaghar, Rampur Boalia and some thanas of the Dacca district: in a large number of the mufassal thanas so little store was set by the right of election that the proceedings ended in failure. Considering that in many districts this is the third occasion on which a general election has been held, the results show clearly how indifferent the masses still are to what is sometimes described as a dearly prized privilege.

9. *Occupations of members of District and Local Boards.*—In the subjoined table the members of the several District and Local Boards are classified according to their professions and occupations:—

Name of Division.		Government servants.		Zamindars, talukdars, and zamindars' servants.		Pleaders and mukhtears.		Planters.		Missionaries.		Government pensioners.		Other occupations.		Total number of members.

Grand Total	District Boards	243	30·6	233	29·3	185	23·3	64	8·4	8	1	17	2·1	44	5·5	793
	Local Boards	152	12·3	544	44·2	325	26·4	48	3·9	4	·3	12	·9	145	11·7	1,230

These figures call for little comment. It is but right and proper that the landholding interests should be largely represented on both District and Local Boards. The percentage of representatives of the legal professions has risen, as compared with the figures for 1891-92, from 22·6 to 23·3 in District Boards, and from 23·8 to 26·4 in Local Boards. The Lieutenant-Governor is inclined to concur with the opinion of the Presidency Commissioner that this result is not entirely satisfactory. No doubt very useful and energetic members are frequently drawn from among gentlemen of this class; but inasmuch as local knowledge of the wants of the interior of the district is essential to the successful administration of the District and Local Board funds, and as these gentlemen, owing to the exigencies of their profession, necessarily reside at head-quarters, their predominance on the Boards is not altogether a matter for congratulation. The Commissioner of Chittagong states that on the several District Boards of his Division the Muhammadans are not sufficiently represented. The Commissioner of Dacca remarks that the bulk of the people are unrepresented unless it may be assumed that their interests are protected by the official members of the Boards.

10. *Powers of Local Boards.*—In paragraph 11 of the Resolution on Local Self-Government for 1891-92, the Lieutenant-Governor recorded his views as to the measure of power which should be accorded to Local Boards and as to the principles on which such delegation should be based, and he invited all District Boards to review the subject in the light of the remarks then recorded. This has been done in most cases, but the powers delegated to Local Boards underwent but little change in consequence. The management of ferries and primary education was made over to the Local Boards of Hooghly, and of pounds and ferries to the Local Boards of Howrah. The Tippera District Board, moreover, with the sanction of Government, have granted, to the Local Boards in that district with effect from 1st April 1893, certain modified powers in regard to primary education, pounds, ferries, public works and roads. The Local Boards in Midnapore, owing to their inefficient administration, have been relieved of the duty of constructing and repairing village roads: this change apparently leaves them with no duty beyond that of managing the pounds, which is hardly enough to justify their existence. Admitting that great discretion must be used in the delegation of authority to Local Boards, the Lieutenant-Governor desires to point out that too great a curtailment of their powers must necessarily defeat its own object by depriving the Boards of all interest in their work. In other districts the Local Boards continued to perform such duties as have been made over to them, including the repair of village roads, the administration of pounds, ferries and primary education, the supervision of dispensaries and the disbursement of grants for sanitary purposes. As to the manner in which these powers have

been exercised by the Local Boards concerned, the Commissioner of Burdwan remarks that all the Local Boards in Burdwan are said to have displayed some interest in educational matters, and paid attention to the maintenance of village roads. The Local Boards in the district of Birbhum are said to have administered with fair zeal the grants for village roads and primary education.

11. The Chairman of the District Board of Nadia states that some of the Local Boards worked with regularity, while complaints were made against others of dilatoriness in the despatch of business. The management of secondary education by the Local Boards in the Jessore district has not been satisfactory, and the question whether the District Board should take it into their own hands is under consideration. Mr. Fiddian, the Chairman of the Board, writes:—

"The administration by Local Boards has given only a moderate degree of success. They have not been so successful as might have been expected from their local knowledge in dealing with pounds, and their attitude towards the managers of middle schools has not evinced sufficient tact."

This only corroborates the opinion of the Lieutenant-Governor as expressed in paragraph 11 of last year's Resolution:—"Whatever may be said of primary education, the Lieutenant-Governor feels no doubt that Local Boards should have no concern with secondary education." His Honour hopes that, having found out by experience the justice of these remarks, the District Board will hesitate no longer to act upon them. The Chairman of the Khulna District Board (Mr. B. Dé) remarks that as a body each Local Board takes much interest in the condition of the roads and bridges under its supervision, but that they are unable to do much real good for want of comprehensive knowledge of the areas under their jurisdiction. He adds that the quality of their work depends a great deal on the kind of Chairman they have. The Chairman of the Murshidabad District Board writes:—

"The Local Boards, both under official and non-official Chairmen, really do very little work indeed. I cannot find that a single member anywhere helps the Chairman in checking the work done on village roads, and the Chairmen themselves do far too little in this matter. Things are left too much altogether to sub-overseers and contractors."

In Mr. Westmacott's opinion Local Boards do not appear to have been of much use anywhere, thus fulfilling his anticipations on the subject.

12. The Chairman of the Rajshahi District Board (Mr. Price) reports that the Local Boards have exercised the powers delegated to them in a very intelligent and satisfactory manner, and that they take considerable interest in their work. Mr. Harris writes from Rangpur that the duties entrusted to the Local Boards were satisfactorily discharged on the whole. The Chairman of the Pabna District Board (Kumar Gopendra Krishna) complains of the delay that the system of Local Boards entails in the disposal of business, on the ground that all points not coming within the scope of the powers delegated to them require to be referred to the District Board for final orders. From this remark and from the context of the Commissioner's report it appears clear that the distribution of duties between the District and Local Boards in Pabna should be scrutinised afresh.

13. From Dacca it is reported that the Local Boards of that district exercised the powers entrusted to them fairly well. Mr. Growse, the Chairman of the Faridpur District Board, complains that, even in the simple duty of distributing the funds allotted for the repairs of roads, the Local Boards have sometimes displayed a want of proper discretion, and in the matter of pounds and ferries their administration cannot be pronounced successful: he therefore cannot recommend any extension of their powers. Mr. Savage, who has long been Chairman of the Backergunge District Board, remarks that the various Local Boards have exercised carefully and satisfactorily the powers delegated to them. Mr. Earle, the Chairman of the District Board, Mymensingh, states that the administration of the Local Boards was generally successful, but in the matter of primary education they do not appear to have shown sufficient interest.

14. Five out of the twenty-one Local Boards in the Patna Division, viz. Bihar, Aurangabad, Buxar, Muzaffarpur, Hajipur, and also all the Local Boards of Saran, failed to utilise the full amount of the allotment made for village roads. The expenditure under Sanitation and Medical Relief was, however, generally satisfactory. In Gaya there was an apparent failure to work up to the allotment, but this, it is stated, has been explained satisfactorily. With regard to

the powers which are or should be given to Local Boards, and the manner in which they exercise them, Mr. Hare, of Muzaffarpur, says:—

The question of giving more powers to Local Boards is now under the consideration of the District Board. It may be possible to make over to them a larger number of roads and more funds to administer. This is the direction in which probably most can be done.

In Gaya, where the Local Boards enjoyed some extended powers, Mr. Macpherson writes:—

They continued to administer the grants for village roads and to control the working of cattle-pounds and ferries. With regard to dispensaries, they are practically only consultative bodies, merely preparing estimates and forwarding recommendations for the District Board, and disbursing most of the expenditure on bills passed by the latter.

15. Mr. Faulder, the Chairman of the Purnea District Board, remarks that the members of the Sadar Local Board rendered much help with their supervision in the repair of roads and bridges. The Chairman of the District Board of Balasore (Mr. Cornish) states that the Local Boards exercised their powers satisfactorily, and increased regularity of inspection and supervision by the Sadar Local Board has been specially noticed. The members of the Cuttack Local Board are said to have taken a lively interest, those of the Kendrapara Local Board a fair interest, and those of Jajpur but little interest, in the proceedings. The Commissioner Mr. Cooke remarks:—

It may be noted that the day is far distant in Orissa when the Local Boards will contend for increased powers. This cannot be expected in the infancy of the institution in a backward division. It is satisfactory to note that these bodies are working fairly on the whole.

16. In perusing the above-quoted remarks, it must be borne in mind that the views taken by local officers of the work of the Boards vary very much according to the standard by which they judge them. As compared with a country where local self-government is an indigenous institution, the total sum of the year's work may not seem great, nor the manner of its execution altogether and universally successful, but compared with the work of other years, which is a fairer standard to adopt, and having regard to the progress made since the introduction of the system, the Lieutenant-Governor is of opinion that the past 12 months have been marked by fair progress.

17. *Union Committees.*—No Union Committees have yet been formed under the Local Self-Government Act; but in accordance with the wishes of the Government of India, the question of forming a few village unions experimentally in selected rural areas in the more advanced districts is under the consideration of this Government.

18. *Financial results.*—The following statement shows the principal items in the income and expenditure of District Boards during the two years 1891-92 and 1892-93:—

INCOME.

	1891-92.	1892-93.
	Rs.	Rs.
I.—Land Revenue	33,829	66,249
VI.—Provincial rates	35,10,235	36,27,676
XII.—Interest	453	666
XVII.—Police (including pounds)	4,72,187	4,57,159
XIX.—Education	37,803	62,761
XX.—Medical	10,006	17,095
XXI.—Scientific and other Minor Departments ...	3,123	3,631
XXV.—Miscellaneous	1,55,633	1,61,812
XXX.—Irrigation—Minor Works and Navigation	410	286
XXXII.—Civil Works (including ferries) ...	4,18,759	4,44,518
Contributions	8,01,509	11,63,815
Debt	7,69,377	11,88,137
Total ...	62,13,324	71,93,805

EXPENDITURE.

	1891-92.	1892-93.
	Rs.	Rs.
1.—Refunds	93	403
18.—Administration	2,82,895	2,98,983
20.—Police (pounds)	33,874	35,235
22.—Education	11,05,875	10,54,477
24.—Medical	76,323	96,420
26.—Scientific and other Minor Departments ...	8,016	8,579
29.—Superannuation allowances and pensions ..	3,459	3,530
30.—Stationery and printing	48,527	50,022
32.—Miscellaneous	40,890	55,390
33.—Famine relief	12,675	2,86,713
43.—Minor works and navigation ...	13,181	12,302
45.—Civil works	40,43,238	42,88,747
Contributions	5,130	12,370
Debt	6,12,636	8,12,821
Interest on debt...	5,345	7,758
Total ...	62,91,657	70,23,750

Credit balance.—The year 1891-92 closed with a credit balance of Rs. 15,93,162. At the close of the year 1892-93, this balance was increased to Rs. 17,63,217.

INCOME.

19. *Land Revenue* (*Rs.* 66,249).—The receipts under this head advanced from Rs. 33,829 to Rs. 66,249. The increase is chiefly due to the fact that certain collections which during previous years were credited to "miscellaneous" in the Dacca and Rajshahi Divisions were treated as land revenue in the year under report. The revenue derived from canal tolls in Chittagong also increased from Rs. 12,444 to Rs. 13,741, and fees, fines and forfeitures from Rs. 544 to Rs. 8,984.

20 *Provincial rates* (*Rs.* 36,27,676).—The whole amount shown under this head represents the receipts of the road cess in each district which is credited to the District Board after deducting the cost of collection and revaluation. Compared with the figures for the previous year, the income derived from this source showed an increase from Rs. 35,10,235 to Rs. 36,27,676, which is attributed to the successful realisation of arrears, to the effect of revaluation, and to collections made in advance. The largest increase during the year was in Muzaffarpur and Gaya—from Rs. 1,77,036 and Rs. 2,14,036 in 1891-92 to Rs. 2,16,192 and Rs. 2,39,315 in 1892-93 respectively.

21. *Pounds* (*Rs.* 4,57,159).—The receipts from pounds show a decrease of Rs. 15,028 as compared with the collections of 1891-92, although there is an increase of Rs. 13,384 over those of 1890-91. The decrease is variously attributed in different districts to the poor harvests of the year, to the effect of floods, to the exercise of a stricter supervision over the profits of farmers to the practice of insisting on the payment of rents in advance, to cattle disease and other causes. In Burdwan the number of pounds had been allowed to grow unduly large, having been 251 in 1891-92, and a reduction of 64 in their number was so successful that the receipts increased. One pound inspector was entertained throughout the year in each of the districts of Burdwan and Birbhum, and three in Midnapore for some months. They are reported to have done good work in expediting collections and making satisfactory settlements, but their services were dispensed with under Government order No. 42L.S-G., dated 1st December 1892. The Lieutenant-Governor takes this opportunity to point out that it was not intended by that circular that District Boards should be debarred from employing paid Inspectors for the inspection of their pounds, and any District Board may entertain a paid official for the purpose. The services of the pound inspector appointed by the Champaran District Board during the preceding year were dispensed with from January last, as no marked improvement had resulted in the working of the pounds, and his duties are now being performed by the Sub-Inspectors of Schools in addition to their ordinary work. A paid inspector of pounds and ferries was appointed by the Shahabad District Board during the second half

of the year under review. In Gaya the sub-overseer under each Local Board is entrusted with the duty of inspecting pounds.

22. In sanctioning the continuance of the system of farming cattle-pounds in Bengal, in deference to the confident opinion expressed by Sir Charles Elliott that on the whole that was the system most suitable to Bengal, the Government of India gave expression to the hope that the Local Government would be able to make such arrangements for inspection as would prevent abuses and ensure the proper exercise of the powers of control given by law. Accordingly, Sir Charles Elliott commended to the notice of Commissioners of Divisions the following measures which, if thoroughly carried out, would in his opinion exercise a most important effect upon the administration of pounds, whether farmed or managed direct:—

(*a*) the regular and systematic inspection of pounds by officers of Government and of the District Boards;

(*b*) the grant of leases for a longer period than one year to persons of known position and solvency residing in the neighbourhood of the pound;

(*c*) an alteration of the form of agreement, so as to define better the District Boards' power of control; and lastly

(*d*) the introduction of such registers and forms of receipt as would enable a proper check to be kept over the pound-keepers without making unduly close enquiry into the amount of the farmer's profits when the pounds are let in farm.

Sir Charles Elliott was accordingly pleased to direct that pounds should in future be inspected by District Officers and their Assistants and Deputies, as well as by Chairmen of Local Boards, Vice-Chairmen of District and Local Boards, and Sub-Inspectors of Schools, besides the Inspectors employed by the District Boards. The form of the pound keeper's agreement has also been altered, and revised registers and forms of receipts have been prescribed for general use. If the officers named above carry out with care the examination of the books and registers now prescribed, the Lieutenant-Governor is confident that the check will be sufficient to prevent all abuses, and that the District Boards will be supplied with adequate and timely information as to the administration of their pounds.

23. A statement is annexed (Appendix A) giving the number of pounds and their income and expenditure under the several District Boards during the past three years. It shows that the total income from pounds during each of these three years exceeded the estimate of Rs. 4,20,153 on which the Provincial allotment to District Boards was based, thus justifying the often repeated assertion of Government that with judicious management the Boards have in pounds a fertile source of revenue.

24. *Education* (*Rs.* 62,761).—The receipts under this head increased from Rs. 37,803 to Rs. 62,761. To this increase all the District Boards contribute, except those of Rajshahi, Jalpaiguri, Backergunge, Saran, Cuttack and Puri, in which districts there was a decrease. Compared with the previous year, the receipts in the Dacca Division show a considerable increase, which is due to a contribution of Rs. 11,000 made by Babu Jogendra Kishore Rai Choudry of Ramgopalpur in Mymensingh towards the cost of establishing a technical school at the district Head-quarters. In Pabna, Rangpur, Tippera and Purnea also the receipts have been swelled by private subscription. Elsewhere the increase appears to be mainly due to the refund by Government of contribution paid on account of the pensions of teachers.

25. *Medical.*—(Rs. 17,095). Compared with the previous year, the total income under this head shows an increase which occurred chiefly in the Bogra district of the Rajshahi Division. A sum of Rs. 5,178 for constructing five dispensary buildings in the interior of the district was placed at the disposal of the District Board of Bogra by the Reception Committee formed for commemorating the visit of His Honour the Lieutenant-Governor of Bengal in August 1892.

26. *Scientific and other Minor Departments.*—(Rs. 3,631). The income under this head was Rs. 3,631, against Rs. 3,123 in 1891-92. The receipts are reported from four districts only, viz. the 24-Parganas, Pabna, Dacca, and Saran, and were on account of conservancy arrangements made at various fairs in those districts.

The realization of the small amount of Rs. 6 in the Pabna district has not been explained.

27. *Miscellaneous.*—(Rs. 1,61,812). The income under this head, amounted to Rs. 1,61,812, against Rs. 1,55,633. It includes the proceeds of the sale of old stores, the receipts from serais and staging bungalows and other miscellaneous receipts, notably fines and forfeitures, many of which were awarded in connection with revaluation proceedings. The increase is noticeable under all the heads except "Staging bungalow and Serai fees," in which there is a decrease of Rs. 1,089.

28. *Civil works.*—(Rs. 4,44,518). Of the several items which make up the total under this head, receipts from ferries alone call for notice. Compared with the previous year, there was a falling off of Rs. 7,247. The decrease occurred in fifteen districts, viz. Burdwan, Howrah, 24-Parganas, Murshidabad, Rajshahi, Rangpur, Jalpaiguri, Dacca, Noakhali, Shahabad, Champaran, Malda, Cuttack, Balasore and Puri. The decrease in Burdwan is said to be due to lower prices having been realized at auction for the leases owing to the shallowness of the Bhagirathi river and to the opening of the Bengal-Nagpur Railway, which affected the receipts of the ferry over the Damudar river. The falling off in the 24-Parganas (Rs. 2,447) is due partly to the total of the year 1891-92 having been swelled by large collections of arrear rents, and partly to the resettlement of certain ferries at reduced rents owing to the original lessees having defaulted. The falling off in Murshidabad (Rs. 837) is ascribed to the ferries having been plied for two months only instead of four on account of scanty rainfall. In Jalpaiguri it is due to the adjustment of outstanding balances of deposits received from the ferry farmers in 1891-92, and in Dacca (Rs. 3,882) to the fact that in 1891-92 the gross receipts of the steam ferry at Narainganj were credited to the District Fund without deducting the expenditure incurred on account of establishment, &c. The falling off in Noakhali (Rs. 1,593) is attributed to the shifting of the steamer station, and in Champaran to the resettlement of two of the ferries in the district having resulted in a loss of income. In Balasore the decrease of Rs. 789 is ascribed to the pilgrims preferring the steamer journey to that by land. In Cuttack (Rs 2,783) it is partly due to the contribution for municipal ferries not being paid in time to be credited during the year, and partly to the inability of certain lessees to pay their dues. The falling off in the remaining six districts is unimportant.

29. In paragraph 24 of the Government Resolution on the working of District Boards for the year 1891-92, it was suggested that the leases executed by ferry farmers should provide for the payment of a quarter's rent in advance as well as the deposit of an equal amount as security, and that the ferries should be leased out for a longer period than one year to persons of known solvency. The Commissioner of the Presidency Division states that these suggestions have as a rule been carried out in the 24-Parganas, and the Commissioner of Patna reports similarly of the districts in his Division. No mention is made of the matter in the reports from other districts, but the Lieutenant-Governor trusts that both in regard to pounds and ferries these suggestions have not been overlooked.

30. *Contributions* (*Rs.* 11,63,815).—The contributions made to District Boards from the provincial revenues principally to maintain equilibrium between the receipts and expenditure of those bodies amounted to Rs. 11,54,584, against Rs. 8,01,198 in 1891-92. The increase is mainly due to the grants made by Government during the year, as explained in paragraph 50 below, for the maintenance of Government buildings and roads transferred to the care of District Boards, as well as for original works executed by the Boards on behalf of Government. In Chittagong there is an item of receipt of Rs. 4,370, made up of contributions from the Khas Mahal Improvement Fund, from the Sitakhund Lodging house Fund and from the District Fund to defray the cost of excavating a tank at Sitakhund for the supply of good drinking-water for the annual gathering of pilgrims.

31. *Loans.*—The sum of Rs. 30,000 shown against the Dinajpur District Board is part of the loan of Rs. 2,00,000 obtained from Government in 1890 to enable the Board to construct permanent bridges on the more important roads of the district. The loan was to be advanced by Government in five instalments of Rs. 40,000 each, but the District Board drew only Rs. 30,000 during the year under review. The sum of Rs. 2,80,000 shown against Darbhanga represents the amount of advances made by Government during the year to the District Board for carrying on relief works in the district. The amount was in the first instance granted as a loan at 4½ per cent., but since the close of the year Government has decided that of the whole amount Rs. 1,00,000 is to be

granted to the Board absolutely as a contribution from Provincial revenues towards the expenditure on famine relief, and only the remaining sum of Rs 1,80,000 is to be treated as a loan to be repaid by the District Board in due course.

32. *Deposits and Advances.*—The sums deposited by farmers of pounds and ferries as security for payment of revenue and the advances given by the Boards for the execution of works to be recovered by subsequent adjustment advanced from Rs. 6,39,377 to Rs. 8,78,137. The increase is marked in the Patna and Bhagalpur Divisions. In the former Division it is principally due to the adjustment of advances made in 1891-92 and 1892-93 on account of famine relief works, and in the latter Division to the recoveries of such advances, and to deposits made in Malda by farmers of pounds and ferries.

Expenditure.

33. *Administration.*—The cost of general administration has increased from Rs. 2,82,895 to Rs. 2,98,983. The various reasons assigned for the increase are the creation of new posts, the grant of annual increments to employés, the payment of increased charges for establishment in offices of account, control and audit, the expenses incurred in elections and increased charges on account of travelling allowance. In no Division or district does the fluctuation deserve special notice.

34. *Pension and Provident Fund Rules.*—With the exception of Bhagalpur, all the District Boards in Bengal have now adopted the model rules for the management of a Provident Fund for the benefit of those of their employés whose whole service has been under them. The Lieutenant-Governor trusts that in consideration of the admitted advantages of the Provident Fund system, both as regards efficiency and economy, the District Board of Bhagalpur will soon see its way to accepting it. Twenty-nine out of the thirty-eight District Boards have framed pension rules for those of their employés who have been transferred from pensionable service under Government or under the late Road Cess Committee: it is hoped that the remaining nine District Boards, viz., Bankura, Dinajpur, Jalpaiguri, Faridpur, Tippera, Chittagong, Bhagalpur, Purnea, and Malda, will at no distant time follow the example of the majority.

35. *Pounds.*—The expenditure on account of cattle pounds shows an increase of Rs. 1,361. The increase is considerable nowhere except in Rajshahi and Dinajpur, where it was caused by the employment of Inspectors of Pounds during the year. The new statement prescribed by Government and which appears as Appendix A shows that out of 3,389 pounds in the province only 208 are now managed direct. It also shows that the average profit on each farmed pound was nearly Rs. 124, while that on each pound managed direct amounted only to Rs. 49, owing greatly to the fact that while the expenditure on a farmed pound averaged only Rs. 5, that on pounds managed direct reached the high figure of Rs. 90. As a matter of fact the system of direct management now survives only in Bihar and Orissa

36. *Education.*—The expenditure on education during the year under report amounted to Rs. 10,54,477 against Rs. 11,05,375 in the year 1891-92, showing a decrease of Rs. 50,898 This decrease occurred in all the districts, except fourteen, viz., 24-Parganas, Murshidabad, Faridpur, Mymensingh, Tippera, Noakhali, Chittagong, Patna, Darbhanga, Balasore, Rangpur, Purnea, Puri and Pabna. The figures in the margin taken from Form No. III, prescribed by the Government of India and appended to the Divisional Reports, show how much was spent in 1891-92 and in the year under review by District Boards on each main head of expenditure. The fluctuations under almost every head are so large as to raise a doubt whether the figures have been compiled on the same system in both years, and the Lieutenant-Governor considers it useless to comment upon them. He is the less inclined to do so, because he caused to be prepared during the year statistics which will be found as Appendix B in a form which, it was hoped, would set forth more clearly the amount really expended under each head, and would also bring the figures supplied by the local officers into accord with those furnished by the Director of Public Instruction in his annual report. The second of these expectations has not been realised, and on this subject separate orders will be issued. The value of the new form will not be fully appreciated till the figures for the current

	1891-92. Rs.	1892-93. Rs.

year come to be reviewed and compared with those of the year just past, but even as it is, the new table yields the following figures, which, in the opinion of His Honour, afford a more accurate view of the educational expenditure of the District Boards than the authorized forms hitherto in use. The main heads of expenditure are detailed in the margin, and they show that out of the total expenditure, 46·6 per cent. was spent on primary schools, 23·8 per cent. on middle schools, and 22·6 per cent. on Inspection. In the Lieutenant-Governor's opinion too large a proportion of the funds of the District Board is devoted to other than primary education: in the Resolution on the administration of municipalities in 1891-92 and in other places Sir Charles Elliott has inculcated the principle that until full provision has been made for primary education, no part of a Local Fund should be diverted to the support of education of a higher kind, which is beyond the needs of the majority of tax-payers, and which may well be paid for by those who desire it. To these principles he again wishes to draw attention, and desires that they may not be lost sight of when District Boards prepare and Commissioners of Division scrutinise the budget estimates of District Boards for 1894-95.

Total ...	59,96,437	5,12,168	10,54,477	8·5	17·5

The object of this statement is apparent from paragraphs 31-33 of the Resolution on the Report for 1891-92. Sir Charles Elliott there expressed the hope that those District Boards which contributed to education less than 10 per cent. of their ordinary income, would raise their grants and increase the number of schools maintained or aided by them, as he looked on it as one of the primary duties of a District Board to afford the opportunity of obtaining elementary education to every boy residing within its jurisdiction, and it was desired that a more liberal expenditure should be sanctioned for this purpose during the current year. His Honour is mortified to notice that so far from this being the case, the average expenditure on education incurred by the District Boards during the year was 17·5 per cent. of their ordinary income against 20·5 in 1891-92, and that on primary education 8·5 per cent. against 9·9. The highest place in respect of educational expenditure as a whole is taken by the District Boards of Balasore, Bankura, Cuttack, Howrah, Nadia and Puri, all of which devoted 30 per cent. or more of their income to this purpose, while fourteen others show an expenditure 20 per cent. or more. On the other hand, in all the districts of the Patna Division, the expenditure was below the general average, and in five, viz., Gaya, Shahabad, Darbhanga, Muzaffarpur, and Saran, it was below 10 per cent. of their income. In Bhagalpur it was 0·2 per cent. and in Jalpaiguri it was only 5·2 per cent. In last year's Resolution the Lieutenant-Governor drew attention to the low expenditure in the first four of the districts just named, and he is dissatisfied to find that the percentage of expenditure, far from having increased, is now in each case less than that in the previous year. The explanations given are not adequate, and the Lieutenant-Governor trusts that he may not have occasion to utter a similar admonition again.

38. Comparing expenditure on education generally with that on primary education, the District Boards of Tippera, with 13·9 per cent. out of 23·7 and of Champaran with 10·9 per cent. out of 16·9, deserve special commendation, as do those of Bankura, Murshidabad, and Backergunge. On the other hand, the principles stated in paragraph 36 have been ignored by twenty-five District Boards, all of which have devoted less than half their educational expenditure to primary education, the most flagrant cases being Nadia, Bogra and Jalpaiguri.

39. *Special Schools.*—The Backergunge District Board continues to support a technical school at Barisal, which is said to serve a very useful purpose as a survey school. A site has been acquired for the technical school which Babu Jogendra Kishore Chaudhuri of Ramgopalpur has founded at Nasirabad, the head-quarters of the Mymensingh district, and a commodious building has been erected. The Bihar Industrial School was opened at Bankipore on the 25th November 1892: the endowment consists of the surplus balance from the Prince of Wales' Reception Fund collected in 1876, which, with interest, amounted to Rs. 2,50,410 at the close of the year. The number of boys at present under instruction is 53, viz. 28 apprentices and 25 in the artisan class. All the boys except six hold scholarships from the various District Boards or receive an allowance from the endowment fund of the school. There are five special schools under the Rangpur District Board, namely, one technical school, two madrassas and two Sanskrit tols. A technical school in which surveying, drawing, mensuration, and carpenter and blacksmith's work are taught was started at Pabna by private subscriptions, and made over to the District Board during the year. The cost of the school-building, furniture and tools was over Rs. 16,000. Besides the technical school, the Pabna District Board paid Rs. 10 a month to a Sanskrit *tol* at Salgorea during the year. A new class has been opened in the Comilla Elliott Artizan School since August 1892 for teaching smith's work: one passed carpenter pupil of this school is said to have set up a workshop in his native village. The Maharaja of Hill Tippera has given a donation of Rs. 1,700 towards this institution, and Maharaj Kumar Binay Krishna of Sobhabazar in Calcutta has promised a yearly grant of Rs. 500 for five years. The scheme for starting a technical school at Noakhali received the sanction of Government in September last, but the school could not be opened till the latter end of March for want of a competent head-master. A technical school was opened in the town of Burdwan on the 11th April 1893; it is maintained by the Burdwan Board, but the local municipality

contributes Rs. 20 a month. The Mysadal Raja's Technical School under the management of the Midnapore District Board is now supported by subscriptions and grants from the District Board and Government. In Bankura the number of Sanskrit tols increased from 30 to 42, and the number of pupils from 287 to 335, but the number of Arabic or Persian schools decreased from 8 to 5, and the number of pupils from 141 to 59. In Hooghly there were 70 Sanskrit tols with 346 pupils, and 36 Arabic and Persian schools with 507 pupils, besides 34 elementary schools with 230 pupils. In Howrah there were 12 Muhammadan schools teaching the Koran with 168 pupils. There were also 9 tols attended by 49 young men. In Burdwan 9 maktabs were started during the year, teaching Persian and Urdu in addition to Bengali. The District Boards of Howrah, Midnapore, Balasore, and Cuttack granted scholarships to students in the Sibpur Engineering College or in other similar institutions.

40. *Female Medical Education.*—Scholarships to female medical students were granted by the District Boards of Burdwan, the 24-Parganas, Backergunge, Mymensingh, Patna, Saran and Puri. In Bankura, Faridpur, Champaran, Muzaffarpur, Rajshahi, Pabna and Dinajpur scholarships were available, but no candidates came forward. Some progress was made during the year in the direction of providing medical attendance for women in addition to that mentioned above.

41. *Medical.*—The total outlay under this head amounted to Rs. 96,420, being Rs. 20,097 more than in the previous year. The excess is chiefly in the expenditure on "Hospitals and Dispensaries," but all the sub-heads show an increase except "General Medical Establishment." The increase is satisfactory so far as it goes, but the percentage on the total expenditure even now amounts only to 1·6 on the ordinary income for the year, and this appears to the Lieutenant-Governor far too low in a province many of the districts of which are notorious for the insalubrity of their climate. In the healthier districts no doubt there is less necessity for any large expenditure, but there can be no question that the District Boards of Hooghly and Murshidabad, who have spent nothing during the year on medical relief, have failed to realize the importance of this branch of their duties. The District Boards of Nadia, Dacca, Khulna, Malda, Jalpaiguri, Midnapore, Howrah, Rajshahi and Darbhanga, whose expenditure amounted to less than Rs. 1,000 each, are in a scarcely better position. The Lieutenant-Governor hopes that prompt measures will be taken in these districts to carry out the very obvious duty of bringing medical relief within reach of the inhabitants of non-urban areas. Even among those District Boards who are shown to have spent something on the medical requirements of their districts, there appears to be a tendency to make over their grants bodily to municipalities, and thus avoid the responsibility and trouble of seeing the money properly disbursed. The medical expenditure of the District Board of Bankura, for instance, as of Nadia, is represented solely by grants to municipal institutions, and no provision is made for the inhabitants of the district. In Birbhum, out of a total expenditure of Rs. 2,444, Rs. 1,441 were expended in this way. The Lieutenant-Governor admits that, in so far as inhabitants of the interior of districts make use of municipal dispensaries and hospitals, it is equitable for District Boards to make some contribution towards the support of these institutions, but it should always be borne in mind that the District Fund is intended primarily for expenditure in the district outside municipal areas. From an examination of Form III, which exhibits the expenditure of the various District Boards during the year under report, it will be seen that more than half of the total medical expenditure of the year was incurred in the two Divisions of Patna and Chittagong, which, it may be noted, are by no means the most unhealthy in the province. Of all the districts Tippera heads the list with an expenditure of Rs. 9,636: besides contributing to the Dufferin Fund and to the municipal institutions at Comilla and Brahmanbaria, the Board maintained eleven dispensaries. The number of patients in these dispensaries shows a most satisfactory increase from 41,004 in 1891-92 to 54,042 in the year under report. The zenana hospital, called after Nawab Sahiba Faizunissa Begum, who gave the site and Rs. 10,000 for it, is still under construction. The Patna district comes next with an expenditure of Rs. 9,404, or nearly double that of the previous year. The increase is due chiefly to the establishment of six new dispensaries. In Gaya the expenditure of Rs. 8,832 was slightly less than

in the previous year. Of this sum Rs. 3,578 went to the Gaya Pilgrim Hospital, and the remainder (except for an item of Rs. 105 for vaccination) to dispensaries. In Chittagong Rs. 6,612, or more than double the outlay of the previous year, were spent under this head. The Board employs a lady doctor, paying her Rs. 100 a month, and with the help of local subscriptions maintains five dispensaries, which are reported to be working well and to be appreciated by the people. The District Boards of Shahabad and Saran each devoted more than Rs. 5,000 to their medical requirements; in the latter district Rs. 4,179 represents the cost of maintenance of four mufassal dispensaries. The District Board of Bogra have decided to open five additional dispensaries in the interior of the district, the money for the buildings having been subscribed on the occasion of the visit of His Honour the Lieutenant-Governor to the district in August 1892. In Faridpur a new dispensary has been opened at Bhanga, and the District Board has expressed its willingness to come forward with aid in any case where it can be shown that the people want a dispensary and will contribute to it, but the Lieutenant-Governor is of opinion that unless some steps are taken to bring the advantages of this offer forcibly home to the people, the poor and ignorant for whose benefit charitable dispensaries exist will not avail themselves of it. In all these districts the work during the year has been satisfactory, and the Lieutenant-Governor trusts that the progress made will encourage the Boards of other districts to follow their good example.

42. The Tippera District Board contributed Rs. 50 a month to the pay of a lady doctor, and the Chittagong District Board continued, as in the previous year, to make a grant for the same purpose. Trained midwives were engaged by the District Boards of Saran and Shahabad. In Birbhum an attempt was made, but without success, to obtain the services of a lady doctor, and the Midnapore Board have resolved to devote a monthly sum to the same purpose. Srimati Kailash Basini Dasi, who has received a medical education at the cost of the Rangpur District Board, commenced during the year, according to her agreement, to practise in the district. The District Board of Gaya expended Rs. 557 during the year in the training of midwives at the Gaya Pilgrim Hospital. As no lying-in patients, however, resort to it, the Board has had for the present to abandon the scheme as one for training midwives, but since the 1st of January 1893 it has kept on the nurses as an establishment for the female ward of the hospital. An opportunity of training in midwifery is expected to be obtained when the Dufferin Female Hospital is established.

43. *Sanitation.*—Particulars of the sanitary works undertaken by District Boards during the year are given in Appendix IV. The total expenditure of the year amounts to Rs. 1,31,915 as against Rs. 56,110 in 1891-92: details are given in the margin. The advance is respectable, but the amount is still comparatively insignificant, representing only 2·7 per cent. of the ordinary income of District Boards during the year, and it is subject to the important qualification that Rs. 52,500, or more than one-third of the whole amount, were expended in the Monghyr and Bhagalpur districts in digging new and cleaning out old tanks as measures of famine relief, and not primarily for any sanitary purpose. It is also disappointing to find that the greatest diversity exists in the action of the different District Boards in this matter. Bogra spent absolutely nothing, and the expenditure in Howrah, Khulna, Pabna, Backergunge, Chittagong and Malda has been less than Rs. 500. The Divisional expenditure, excluding that on tanks in Bhagalpur and Monghyr, is detailed in the margin. It is clear that most District Boards are not yet alive to their duties in respect of sanitation, which is a matter of vital importance to the people. In this regard Bengal is far behind other provinces of the Empire, while the need for sanitary reform is greater in those provinces than in most others. In the Resolution on the Sanitary Commissioner's Report for 1892 the Officiating Lieutenant-Governor dwelt upon the importance of a pure water-supply, and Sir Charl s Elliott, though he does not go so far as to desire to

increase taxation generally for the purpose, would view gladly the inception by local bodies of moderate and well-considered efforts to improve water-supply, drainage and the conservancy of rural areas. His Honour hopes that during the current year a suitable proportion of the income of District Boards may be devoted to these objects.

44. Among districts the expenditure incurred in the improvement of water-supply was largest in that of Bhagalpur, amounting to Rs. 45,037. Of this amount, Rs. 35,915 were expended in the excavation of tanks in the Supul sub-division during the late scarcity, and Rs. 8,852 in the re-excavation of 14 tanks in the Madhipur sub-division. The districts of Murshidabad, Bogra, Tippera, Gaya, Darbhanga and Balasore also shew no expenditure under the head of water-supply. The District Boards of the Dacca Division, except that of Dacca district, appear to have realised that small sums spent at random throughout a district are wasted and lead to nothing, but that the result is very different if the same amounts are devote to furthering some recognized scheme. Mr. Savage, Chairman of the Backergunge District Board, says that in his opinion one tank reserved for the supply of drinking-water is required in every village in the district, and the Board has voted Rs. 10,000 for expenditure during 1893-94 in commencing to carry out the scheme. The Chairman of the District Board of Mymensingh reports that, in view of the heavy cost of excavating tanks and of constructing masonry wells, it is proposed to consider the introduction of ring wells or tube wells. The Chairman of the District Board of Faridpur states that the tanks excavated or re-excavated in that district are more or less a failure on account of the sandy nature of the soil, and a general scheme for sinking wells is therefore under the consideration of the Board. In the Chittagong Division the District Board of Noakhali have devised a scheme for reserving tanks for drinking purposes, and hope to induce the owners of centrally situated tanks to make them over to the management and control of the Board. The Chairman of the District Board of Rajshahi raises an old objection to the digging of wells, viz., that they will not be used by all castes and sects alike. The Lieutenant-Governor agrees with the Commissioner of the Division that the difficulty does not seem to be of much importance. The Commissioner of Patna writes:—

"On the whole I consider that sufficient attention has not been paid in the different districts during the year under review to the important matter of taking over and maintaining roadside wells under section 76 of the Act along the most important thoroughfares. This is undoubtedly one of the most efficacious as well as the most simple and cheapest means of preventing the spread of contagion among, and especially by, wayfarers passing through and coming from unhealthy localities, and is particularly applicable to routes frequented by pilgrims. I am issuing a circular on the subject to the different District Boards, which I trust will meet with attention."

Efforts in this direction have the Lieutenant-Governor's full approval, since the matter is one not only of local, but, along pilgrim routes, of Imperial importance.

45. Towards the improvement of village sites and the conservancy of villages only Rs 63 were spent, the greater part of which was in Shahabad. Doubtless the District Boards rightly consider that save in very exceptional cases expenditure on this work should be defrayed by the villagers themselves.

46. *Sanitation at fairs.*—The Birbhum Board undertook the sanitary arrangements at the Joydeb, Kenduli, and Bakreswar fairs The District Board of Dacca provides for sanitary and conservancy arrangements at the Kartick Baroni and Naglband fairs, and recovers the cost from the zamindars on whose lands the fairs are held. The District Board of Saran spent Rs. 3,871 on a sanitary arrangements at the different fairs held in that district, of which Rs. 3,314 were expended on the arrangements for the Sonepur fair. Sanitary precautions were adopted by the District Board of Shahabad at the Barahpore fair at a cost of Rs. 66. In Patna a sum of Rs. 25 was spent by the Sadar Local Board for sanitation at the Phulwari fair. It is explained that the local zamindars in this district are accustomed to make their own arrangements for the sanitation of fairs held on their property.

47. *Stationery and Printing.*—There was an increase of expenditure under this head, amounting to Rs. 1,495. The increase was largest in the Patna Division, particularly in the districts of Muzaffarpur and Saran. The charges under this head in the Patna Division are always very high, and the attention

of the Commissioner is invited to the matter in order that steps may be taken, if necessary, to curtail in the coming year any undue expenditure in this direction.

48. *Miscellaneous.*—Miscellaneous charges rose from Rs. 40,890 to Rs. 55,390. The increase is partly due to the larger expenditure on serais and dâk bungalows. Miscellaneous refunds also rose from Rs. 4,261 in 1891-92 to Rs. 8,921. Contributions towards the Provident Fund amounted to Rs. 1,193, and were made by the District Boards of Rajshahi, Jalpaiguri, Dacca, Faridpur, Backergunge, Noakhali, Monghyr, Purnea, and Malda only. In two districts rewards were paid for the destruction of wild animals and snakes.

49. *Famine Relief.*—The largest sum expended under this head was that spent by the District Board of Darbhanga, amounting to Rs. 2,69,816. The relief works in that district were commenced in March 1892, when the distress became apparent, and were closed in the following July. They consisted of raising and repairing old village tracks, about 582 miles in length, and the excavation and reclamation of sixty-seven tanks. No new roads were undertaken in connection with the relief works, as the distress did not continue long enough to render this necessary, but eight large projects for new roads were prepared in case of emergency. The large excess of expenditure over the funds at the disposal of the Board has been met by a contribution of one lakh of rupees from the Provincial revenues and a loan of Rs. 1,80,000. In Muzaffarpur the expenditure under this head aggregated Rs. 77,854, but it has been charged to the respective service heads, and thus absorbed in the ordinary expenditure of the year. The work consisted in raising and re-aligning twenty-two roads and in reclaiming and re-excavating sixteen tanks. The District Boards of Monghyr and Bhagalpur spent Rs. 1,595 and Rs. 6,609, respectively, on gratuitous relief. In addition to this the Monghyr Board spent Rs. 8,000 and the Bhagalpur Board Rs. 77,752 on other relief works. These amounts have been shown under the head of Civil Works, the labourers not having been paid in excess of normal rates. The amount shown against Purnea, viz. Rs. 3,413, represents the excess of the cost of relief works over normal rates. In Dinajpur Rs. 20,192 were provided for affording relief to landless labourers and petty jotedars, out of which Rs. 17,841 were spent in improving roads by piece-work, and were accounted for under the head of repairs to roads. Besides these, some expenditure on relief works was incurred by the District Boards of Bogra, Gya, 24-Parganas, Jalpaiguri, Saran, Balasore, Cuttack, and Puri.

50. *Civil works.*—A very important innovation was introduced during the year under review. In consequence of the duplication of work and establishments caused by the maintenance side by side of Executive and District Engineers in certain districts, Sir Charles Elliott suggested to the Government of India that the whole of the work placed under the Executive Engineers of the Burdwan, Dacca, and Chittagong Public Works Divisions, as well as some of that under the Executive Engineer of the Darjeeling Division, might be entrusted to the District Engineers in those districts without any detriment to the efficiency of the work, and with considerable advantage as regards economy. The proposal having met with the approval of the Government of India, the maintenance and repairs of all provincial works, consisting mainly of buildings, in the districts named in the margin, which were under the Executive Engineers of the abovementioned Divisions, and also of the Imperial buildings, viz., post-offices and telegraph offices, were made over to the District Boards, and placed in charge of their District Engineers, the necessary funds for their upkeep being transferred to the Boards at the same time. As, however, it appeared desirable to introduce the scheme for a short period only in the first instance in order to test its working, the grants for the maintenance of the works in question, aggregating Rs. 1,35,468 per annum, were made for a period of four years, commencing from 1892-93. In consideration also of the fact that these transfers would throw increased work and responsibility

Burdwan.	Tippera.	Khulna.

Mymensingh.		

on the District Engineers, a further annual grant of Rs. 10,200 was made to District Boards to meet the cost of the special allowances to be given to their District Engineers.

51. The statement below compares the expenditure under the head "Civil works" for the past two years—

Year.	Ferry establishment, contingencies and refunds.	Original works.	Repairs.	Establishment and contingencies.	Tools and plant.	Water-supply and water-works.	Drainage works.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1891-92	38,468	12,85,516	20,85,897	5,64,463	26,171	34,147	5,556	40,43,238
1892-93	43,591	1,407,865	20,99,253	5,96,197	31,339	1,08,889	10,783	42,39,767

The total expenditure shows an increase of Rs. 2,45,509, to which all the heads in the table contribute, the largest increase being under the head "Water-supply and water-works," due in great part to the expenditure of Rs. 45,037 in Bhagalpur on tanks as noticed above. The expenditure under head "Original works" was largest in Mymensingh, where it amounted to Rs. 1,24,360. A considerable portion of this sum represents expenditure of funds made over to the Board for the construction of Imperial and Provincial works under the system described above; but besides this, five important bridges and several new roads were constructed. In Patna the expenditure on original works amounted to Rs. 1,22,953. A girder bridge over the Punpun river, estimated to cost more than a lakh of rupees, was more than half completed, and Rs. 39,217 were spent on the improvement of the Fatua-Hilsa Road. The expenditure on original works in Muzaffarpur is shown to be Rs. 1,04,680, but of this Rs. 66,790 was of the nature of famine relief. The same cause, it is to be presumed, accounts for the large total in the Darbhanga district, though the fact is not definitely stated in the Commissioner's report. In Gaya the timber bridge over the Khuri river in the Nawada subdivision was completed at a cost of Rs. 53,587. In Burdwan Rs. 12,000 were spent during the year on the Victoria Bridge over the Khori river, which was nearly completed. The office buildings of the Dinajpur District Board, costing Rs. 13,115, were completed before the close of the year. There is a decrease of Rs. 70,290 in the total expenditure on communications, the figures being as in the margin. The adequate maintenance of the roads is a matter to which the attention of every District Board should always be given, since it was for this purpose that the cess was first imposed, and in no other way can the interests of the general tax-payers be better served. Under the head of repairs the largest expenditure was in the 24-Parganas, owing to the special repairs which had to be executed to the Diamond Harbour Road out of funds advanced by Government. Burdwan comes next with an expenditure of more than a lakh and-a-half of rupees. In the thirteen other districts named in the margin, the expenditure on the repairs of roads exceeded half a lakh of rupees. Under the head of establishment by far the largest expenditure was incurred in the Patna Division. It is more than double that of any other Division, and is the natural result of the expenditure on civil works being more than twice that of any other Division.

52. *Village Roads.*—The statement in the margin shows the outlay on village roads in each Division during the past two years, and the length of roads maintained—

The expenditure was highest in the Patna Division, viz., Rs. 77,070, which is said to represent about 8·76 per cent. of the expenditure incurred on original and repair works on the main roads in the Division. In Saran, where the expenditure in previous years was very high, the list of village roads was carefully revised with the result that the expenditure was reduced. The Lieutenant-Governor has read with pleasure that the misunderstanding which occurred during 1891-92 between the members of the District Board of Darbhanga and some of the indigo-planters of the district was removed during the year, and that the Board received great help from these gentlemen in the supervision and maintenance of the village roads in the vicinity of their respective factories. In Saran, Malda, and Monghyr also a certain number of village roads were repaired through the agency of the resident indigo-planters and other private gentlemen. It is satisfactory to note that in the Feni subdivision (Noakhali) Rs. 756 were paid as a local contribution for the roads by the villagers interested, and the land in all instances was given free of cost, and that similarly certain villagers in the Hugli district supplemented by contributions the Board's grant for the erection of a bridge. As in the previous year, the total expenditure on village roads varied enormously in different districts, from Rs. 18,910 in Saran to Rs. 478 in Jalpaiguri. The Commissioner of the Presidency Division remarks that he grudges every pice spent on village roads. This is hardly in consonance with the Lieutenant-Governor's remarks in last year's Resolution, in which he said—"Under any circumstances an allotment of Rs. 2,500 seems insufficient for so large a district (Nadia), and the Lieutenant-Governor trusts that the District Board will take steps to see that this important branch of their duties is more carefully looked after in future." No doubt village roads are useful chiefly as feeders to the main roads, but no district is so well provided with the latter as to be able to dispense entirely with the former, and in many districts of the province, notably in Bihar, many of the so-called village roads differ little in importance from those which are accepted as the main arteries of communication of the district.

53. *Water communications.*—Expenditure under this head occurs for the most part in the eastern districts. The Telkupi *khal* in Pabna was kept navigable during the year at a cost of Rs. 443. In Backergunge Rs. 149 were expended during the year in clearing jungle from the banks of the Bokhainagar river, and of the *khal* from Berer Done to Bighai river in order to make tow-paths. In Mymensingh three *khals* in the Kishoreganj subdivision were improved and cleared of weeds and plants, with the double object of improving communications and of supplying good drinking-water to the people of the villages on their banks. Seventy-two important navigable channels in the Noakhali district have been taken over by the District Board. The Daudpur *khal* is being deepened, and a big bend near its mouth straightened. The channel from Gangapur to the Megna river is also being improved, and, when completed, will greatly facilitate boat communication. The side excavations of the road from Noakhali to Feni have been converted into navigable channels, and greatly extended in many parts; the re-excavation of the Gokarna *khal* in Tippera was also carried out during the year. The Commissioner of Dacca writes—"I am surprised that so little is done under this head in the three southern districts, where water must always be the chief means of communication." The Lieutenant-Governor concurs that in all districts where this is the case and where expenditure on roads is comparatively small, a larger outlay in improving navigable channels is in every way advisable.

54. *Steam communications.*—The District Board of Dacca still maintains a steam-ferry between Narainganj and Munshiganj, which is of great benefit to the public. In Backergunge the Board subsidized the steam service between Barisal and Khulna to the extent of Rs. 6,000, and that between Barisal and Patuakhali to the extent of Rs. 1,200 per annum. The Malda District Board contributed to the cost of the steam service between English Bazar and Rampur Boalia, the total amount paid during the year being Rs. 1,282. The District Board of Noakhali continued to pay Rs. 200 a month to the Bengal Central Flotilla Company for their steamer service from Barisal to Noakhali. The service between Sandwip and the mainland was not maintained regularly, and steamers which used to ply twice a week before ran once a week only during the winter season. In Tippera a grant of Rs. 300 was made by the District Board

to a Steamer Company for working a launch between Daudkandi and Shatnal, which commenced running from the 15th November 1892 and continued until the close of the year. One of this company's steamers now plies daily between Daudkandi and Narainganj, thus establishing through communication for passengers and goods between Daudkandi and Goalundo. Another steamer plied daily between Hajiganj and Chandpur throughout the year, and received a monthly subsidy of Rs. 250. Owing to the irregular working of this steamer, the Board determined to withdraw its grant from the 1st April 1893 until the arrangements became satisfactory. Negotiations are being carried on by the District Boards of Backergunge, Faridpur, Mymensingh and Noakhali for the further development of steam communications in those districts.

55. *Miscellaneous Public Improvements.*—In Faridpur a sum of Rs. 792 was spent under this head for collecting statistics of the traffic for the extension of the Eastern Bengal Railway from Panchooria to Govindapur and for some enamelled mile-posts for some of the important roads in the district. Some attention is reported to have been paid in almost all districts to arboriculture, and some money spent in planting and maintaining trees along the sides of roads. In Gaya the expenditure amounted to Rs. 6,330, of which Rs. 2,574 represents the cost of iron fences for young trees. In Saran no new trees were planted, but the cost of fencing and maintaining those already existing came to Rs. 4,157. In Champaran Rs. 322 was spent principally in planting 22,525 *tar* tree seeds along the sides of several district roads to demarcate the boundaries.

56. *Railway feeder roads.* - A feeder road, one mile in length, connecting the Galsi Railway Station, in the Burdwan district, with the 87th mile of the Grand Trunk Road, was under construction The earthwork was completed during the year at a cost of Rs. 2,495, and arrangements are being made for metalling. The plan and estimate for the construction of the three miles of road from the Debipur Railway Station to village Debipur, at the expense of a local zamindar, Babu Kali Das Singha, have been prepared, but the work could not be commenced until the lands required for the purpose had been acquired. In Dacca the railway feeder road from Kudda (Kusimpur) to Simulia, which was undertaken in 1891-92, was in progress during the year under report, but was not completed, as the necessary land had not yet been taken up. Steps have been taken to secure the land and complete the work in the current year. Great improvements were also carried out to the railway feeder roads from Tangi to Kaliganj, Rajendrapur to Mirzapur, and Rajendrapur to Kapasia in the same district. In Mymensingh the earthwork and pipe culverts of the two important feeder roads from Balipara to Nandail (15 miles) and Mymensingh to Porabaria (17 miles) were completed during the year. The work in the first 6 miles of another feeder road from Gaffargaon to Guptabrindaban (20 miles in length) was taken up during the year and some progress made. A mile of the feeder road from Mymensingh to Ishwarganj was metalled, and a feeder road from Kalibazar to Bailore ($4\frac{1}{2}$ miles) was surveyed during the year.

57. *Tramways.*—The record of work for the year is not large. The schemes for the construction of tramways from Burdwan to Katwa in the Burdwan district and from Lakisarai to Gaya in the Patna Division have fallen through. The proposal to construct a railway from Howrah to Bankura and the Howrah-Shoakhala and Howrah-Amta project are hanging fire. In Birbhum a proposal is under contemplation to open a tramway from Suri to Syinthia or to Ahmadpur, while in the 24-Parganas the question of constructing a light tramway from Barasat to Basirhat is still under the consideration of the Board. In Nadia the Board are still considering the question of constructing a steam tramway from Ranaghat to Krishnagar *vid* Santipur, the total cost of which has been estimated at Rs. 6,52,720, excluding the cost of establishing and working the ferry on the Churni. The Commissioner of the Division does not think it a line likely to pay, or one which is much required except for the convenience of the inhabitants of the head-quarters station of Krishnagar.

58. *Public Works Establishment.*—The statement below compares the percentage of the cost of establishment on the total expenditure on public works in each district during the two years 1891-92 and 1892-93:—

District.	1891-92.			1892-93.		
	Total outlay on Civil Works (column 85 of Statement III).	Establishment and contingencies appertaining to Public Works (column 80 of Statement III).	Percentage of cost of establishment.	Total outlay on Civil Works (column 85 of Statement III).	Establishment and contingencies appertaining to Public Works (column 80 of Statement III).	Percentage of cost of establishment.
	Rs.	Rs.		Rs.	Rs.

Total ...	40,43,283	5,64,463	13·9	42,88,747	5,92,197	14·9

In four districts, viz., Cuttack, Malda, Nadia, and Saran, the percentage exceeded the limit prescribed in the second proviso of section 33 of the Act. In Malda and Saran the excess is said to be due to the fact that the expenditure on Public Works fell short of the budget allotment, and in Cuttack to the non-payment of the bills of contractors that fell due during the year: no explanation is given of the excess in Nadia. In Saran, Nadia, and Malda this provision of the law was similarly neglected in the year 1891-92: the Lieutenant-Governor trusts that early steps will be taken in these districts to curtail the expenditure under this head. It was highest in Nadia (22·2), and lowest in Dacca (8·1). As compared with the previous year, there was an increase in the cost of the establishment in 28 out of 38 districts, viz, Burdwan, Bankura, Birbhum, Hooghly, Howrah, Nadia, Jessore, Murshidabad, Rajshahi, Rangpur, Bogra, Jalpaiguri, Dacca, Faridpur, Backergunge, Mymensingh, Chittagong, Patna, Gaya, Shahabad, Muzaffarpur, Saran, Monghyr, Bhagalpur, Purnea, Malda, Cuttack, and Puri. In the remaining 10 districts, viz., Midnapore, 24-Parganas, Khulna, Dinajpur, Pabna, Tippera, Noakhali, Darbhanga, Champaran, and Balasore, there was a decrease, but in most instances it was little more than nominal. The Lieutenant-Governor agrees with

the Commissioner of the Presidency Division that "expenditure on salaries is a matter in regard to which local bodies require very strict control."

59. *Drainage.*—In Murshidabad Rs. 484 were spent in clearing and repairing two drainage channels aggregating 8½ miles in length. In Noakhali the expenditure on drainage works during the year was Rs. 3,756. The deepening and improving of two important drainage channels —the Duadpur *khal* and the drain from Gangapur to the Meghna river—were begun but not completed. The drains by the sides of Begumganj-Lukhipur and some other roads were improved, and the obstructions to the passage of water removed. The Rangpur drain was maintained at a cost of Rs. 2,026 during the year; and a sum of Rs. 506 was spent in cutting a channel at Kurigram by the side of the railway. The Dinajpur District Board spent Rs. 2,502 in the improvement of drains during the year. In the district of Jalpaiguri Rs. 1,585 were expended in carrying out a drainage project at Alipur civil station. This amount was received as a contribution from the Duars Improvement Fund, which is at the disposal of the Deputy Commissioner of the district. The total expenditure under the head amounted only to Rs. 10,783. There is no doubt that very much remains to be done in this direction in many parts of the province, and it is to be hoped that the Bill now before the Bengal Legislative Council will turn the attention of District Boards to the necessity of drainage schemes and will facilitate the execution of them as soon as it passes into law.

60. *General remarks.*—The Lieutenant-Governor will conclude this review by reproducing the observations recorded by Commissioners of Divisions in their reports on the working of District and Local Boards during the year.

The Commissioner of the Burdwan Division (Mr. Power) writes:—

It seems that, while individual members render great assistance to the executive, District and Local Boards, as bodies, have not yet advanced beyond the initial stage of their existence, in which they figure as potential means of educating the public into a desire for local self-government; their poverty precludes them from exercising any very deep influence on the administration. Such needful things as can be done with the funds at their command are now done with their concurrence. The same things would formerly have been done by the executive authorities acting on less formally expressed incentive: there is no room for much difference of opinion. In the Annual General Administration Report I quoted, with approval, Mr. Duke's remarks on this subject. They will bear repetition, and are reproduced here:—

"It would be unjust and ungrateful to complain of apathy in the members, for I found them on all occasions most willing to assist me, and anxious that business should be efficiently conducted, but at the same time I think there is an underlying sense that there is very little for the members to do. The Board, in fact, is so poor, its wants are so much beyond its income, that there is never anything new or popular to be done; and I think that after a certain experience of this damping fact, members come to feel that, where the income has obviously to be spent on only the most necessary and peremptory requirements, there is very little room for discussion, and most things may be left in the hands of the executive."

The Commissioner of the Presidency Division (Mr. Westmacott) remarks:—

The District Boards have on the whole worked well as deliberative bodies. The Local Boards have a restricted scope for their activity, and have not displayed much energy. I agree with the remarks made by Mr Beames in last year's report that, if local self-government means administration of the affairs of a locality by the principal residents thereof, elected by the rate-payers and watched by them, then we can hardly be said to have got local self-government at all yet. The principal and certainly the most active members of these Boards are for the most part pleaders who are not natives of the district, and are no better able to judge of local requirements than the Magistrates and Deputy Magistrates. Until the leading residents of a place come forward to take seats on the Board, the movement can only be said to have substituted one class of government by outsiders for another. When I took charge of the division in March last, I had had nothing to do with its administration for eighteen months, and I hesitate to give a decided opinion on the working of District Boards from what I have seen in less than five months. It appears to me, however, that, comparing the enormous funds now at the disposal of the Boards with the pittances placed at the disposal of Magistrates in the old Ferry Fund days, the roads and bridges not only do not show corresponding improvement, but are worse than they used to be.

The Commissioner of the Rajshahi Division (Mr. Nolan) observes as follows:—

I am of opinion that the work of the District Boards showed signs of improvement during the year. Its quality depends greatly on the efficiency of the District Magistrate, who is the Chairman. In Pabna the system is less successful than elsewhere, because, by delegating almost all power to Local Boards, the advantage of the Chairman's direction has been lost. I think it a mistake that Subdivisional Magistrates, whose official tours enable them to

know the country, are not appointed members of the Local Boards. For the direction of primary education it seems to me that the Boards do not form an efficient agency. They are, I think, in this respect inferior to the Education Committees they superseded, the members of which were specially selected for their interest in the department.

The Commissioner of Dacca (Mr. Luttman-Johnson) states:—

In my Annual General Administration Report I have made the following remarks:—

"Most of the members of the Dacca Board continued to take considerable interest in the questions which came before them for consideration. The Faridpur Board worked satisfactorily and smoothly. The Local Boards have no funds of their own, and are rarely allowed for expenditure more than a small percentage of the amount they contribute to the District Funds. Under these circumstances, that in Dacca members take some interest in the transaction of business is very satisfactory, while the statement that in Faridpur they are a failure can hardly cause surprise. In Backergunge the members of both District and Local Boards have taken great interest in their work, and steady progress has been the result in Sanitation, Communications, and Education. The Mymensingh District Board is far the most helpful body Mr. Earle has ever presided over. The members take the keenest interest in the Board's affairs. The Local Boards in this district carried out their vicarious duties satisfactorily."

The Commissioner of Chittagong (Mr. Oldham) says:—

The Board have not to assess revenue, and the methods of collecting it which they follow have been fully tried and are administered by officers trained to work like this on a large scale. Free as they are from these two difficult branches of public duty, the Boards have worked judiciously and efficiently, and have been careful as well as effective disbursers of the funds which they administer.

The Commissioner of the Patna Division (Mr. Forbes) records his opinion in the following words:—

The general working of the District Boards during the year continued to be satisfactory and harmonious. I noticed in my last report the unquestionable value of the District Boards as consultative bodies, and the useful part also occasionally taken in certain executive matters by the various sub-committees. Many of the members who sit on those committees take a decided interest in their duties and transact well and conscientiously a considerable amount of public business. The Local Boards with official Chairmen are again reported to have worked better than those with non-official Chairmen.

The Commissioner of Bhagalpur (Mr. Quinn) makes the following observations:—

The work of the Boards generally throughout the Division has, I think, been carried on with a very fair degree of efficiency during the past year, though the proportion of members who take a practical interest in the administration of the funds and the execution of the works is still small. The members generally, however, deserve credit for the support which they have given to the executive. The standing committees have done good service, and individual members, notably General Murray, Vice-Chairman of the Monghyr Board, and Rai Surja Narain Singh Bahadur, Vice-Chairman of the Bhagalpur Board, have rendered efficient aid to the Chairman, and have relieved him of much of the work of general management and control. As regards Local Boards, the work is for the most part left in the hands of the Chairman, and the members as a rule give little assistance, with the exception of the European planters, who render good service in superintending the repairs of village roads. In the matter of primary education, the Local Boards take little real interest, and I have always thought it a mistake to entrust them with the administration of the grant for this purpose.

The Officiating Commissioner of Orissa (Mr. Cooke) has not recorded any opinion, but has forwarded the following extracts from the reports of the District Officers:—

Mr. Cornish, the Chairman of the Balasore District Board, writes—"The general working of the Board has been most satisfactory. The attendance is as good as can be expected, considering that all the members are busy men, and some live at a considerable distance from the sadar and sub-divisional head-quarters. The various sub-committees discharged most useful functions in preparing materials for the consideration of the general meetings. There has been no friction or obstruction of any kind. Party spirit, which rages outside, never enters our committee room. Both Local Boards worked most loyally, though, as usual, the Bhadrak Board did little more than register the decisions of the Chairman and Vice-Chairman."

Mr. Walsh, the Chairman of the Puri District Board, makes the following remarks:—"I must note the same general want of interest on the part of the members as was noted in last year's report. The present Vice-Chairman, Babu Harish Chandra Ghose, who is a local pleader, takes considerable interest in the work and devotes as much time as he can spare to it, but this general interest is not felt by the other members, as is shown by the small percentage of attendance at the meetings which has been noticed above, and the entire absence of any undertaking or resolution brought forward by the members other than the Chairman. The duties of the Local Boards of Puri and Khurda have been almost nominal, but on account of the redistribution of work that has been already alluded to, they will have more to occupy them during the current year. There has been an absence of friction or obstruction of any

sort, and the meetings have passed off amicably. I cannot say that the greater part of the members show any interest in the power bestowed on them of local self-government."

61. The Lieutenant-Governor has nothing fresh to say regarding the results of the administration of local affairs by District Boards. The machinery has worked smoothly for the most part. Progress has been made in the extension of medical relief, though little or nothing is being done to touch, by drainage schemes, the seats of malarial fever. Sanitation is neglected: this, however, is a matter in respect of which only very slow and gradual improvement should be desired. The advancement of primary education still demands careful attention. There is scope for further improvement in the expenditure on communications. Better results might be obtained in most districts with a more judicious distribution of the available funds. In the Patna Division, for instance, the general tendency is to spend too much on communications, and to neglect education, while in the Burdwan, Presidency, Dacca, Rajshahi and Orissa Divisions, a reduction in the expenditure on higher education and a greater liberality in providing for medical requirements is undoubtedly necessary. In those districts in which the ordinary means of communication is by boat, far more benefit will accrue by improving the waterways than from heavy outlay on banked and bridged roads. The Lieutenant-Governor does not wish to imply that money is spent where it is not required, but when funds are limited, it is necessary to consider not only whether expenditure on a particular object is in itself beneficial, but also whether there is not some other work calling more urgently for execution. No great achievement has marked the east twelve months and no new policy has been inaugurated, but His Honour is gratified to think that the year has been one of that uneventful progress which leads to the goal of order and good government.

By order of the Lieutenant-Governor of Bengal,

J. A. BOURDILLON,

Offg. Secretary to the Govt. of Bengal.

Form No. I(*a*).

Statement showing the Constitution of the District Boards in Bengal during the year ending 31*st March* 1893.

Serial number.	Name of District Board.	Act under which constituted.	Area in square miles.	Population within the area.	Number of Members.								Number of meetings held.	Number of meetings proved abortive for want of a quorum or adjournment.	Average attendance at each meeting.

APPOINTMENT OF A COMMITTEE TO CONSIDER THE QUESTIONS OF RECRUITMEMT, TRAINING, POSITION, PAY AND PROSPECTS OF CIVIL HOSPITAL ASSISTANTS IN BENGAL.

MUNICIPAL DEPARTMENT—MEDICAL.

Calcutta, the 19th December 1893.

RESOLUTION—No. 4046Med.

Read the following correspondence—

Letter to the Government of India, Home Department, No. 314T.—M., dated 23rd October 1891.

Letter from the Government of India, Home Department, No. 191, dated 26th March 1892.

Letter to the Government of India, Home Department, No. 619T.—M., dated 20th September 1892.

Letter from the Government of India, No. 5—229Med., of the 10th May 1893.

Letter to the Government of India, Home Department, No. 322T.—M., of the 30th June 1893.

Read also—

Letters from the Inspector-General of Civil Hospitals, Nos. 71D., dated 22nd May 1893, and 110D., dated 6th June 1893.

Several questions of importance referring to the recruitment, training, position, pay and prospects of the Subordinate Medical Service in Bengal have lately been under the consideration of Government, and in the Lieutenant-Governor's opinion the time has come for a decision to be passed upon them.

2. In the first place, considerable difficulties have been experienced in making adequate arrangements for medico-legal work at the head-quarters of subdivisions. It was considered by this Government that the difficulty might be met by the creation of a grade of Sub-Assistant Surgeons, composed of officers possessing higher professional qualifications than Civil Hospital Assistants, while inferior in this respect to Assistant Surgeons. This proposal did not, however, commend itself to the Supreme Government, who have suggested the formation of a senior grade of Civil Hospital Assistants, to be filled by the best qualified of the men already in the service; but it has been represented to the Lieutenant-Governor that the chief need of the Civil Hospital Assistant class in Bengal is not so much the formation of a higher grade as the improvement of the pay and prospects of the lower grades, in order to attract better material into the service, and to enable Government to insist on higher qualifications in the candidates for employment as Civil Hospital Assistants. In this connection it has been stated that Government, in spite of its liberality in the matter of vernacular medical education, does not succeed in enlisting the best of the students in its service when they have passed out of the schools. In the second place, it has been urged that inequalities exist in the conditions of the vernacular medical schools in these provinces at Calcutta, Patna, Dacca, and Cuttack as regards not only the quality of the education afforded, but also the cost, the equipment, and the establishment in these institutions. Thirdly, it seems doubtful whether efficient arrangements are made at all the schools for the attendance of female students, so as to provide for their separation from the male students when coming to or leaving the schools, and when receiving instruction in the lecture rooms and dissecting halls.

3. All these are questions which demand the careful attention of the most experienced officers available, and the Lieutenant-Governor has decided to appoint for this purpose a Committee consisting of the officers named in the margin, upon whose mature judgment and intimate acquaintance with the requirements of Bengal he can confidently rely.

1. Surgeon-Colonel R. Harvey, Inspector-General of Civil Hospitals, President.
2. Sir A. W. Croft, C.I.E., Director of Public Instruction.
3. Surgeon-Major G. Bomford, Principal of the Medical College, Calcutta.

4. It will be the duty of the Committee to consider in the first place the present position of the Civil Hospital Assistant class, and to report whether the conditions under which they serve are such as to attract a sufficiently good type of students and to keep them contented: if reform is found to be advisable, they will state what direction it should take. They should consider whether better pay and improved prospects should not be made contingent upon the introduction of a higher standard of attainments, and these enquiries will lead the Committee to the second part of their labours, viz., an examination of the existing system of vernacular medical education. In the course of this investigation special attention should be given to the condition and the requirements of the different schools in the province, including the proposal to abolish that at Cuttack, and the possibility of introducing some approach to equality in the cost of each, and some uniformity in the equipment and the teaching staff. Connected with this point is the suggestion that some change should be effected in the duties or the emoluments of the Superintendent of the Campbell Medical School, Calcutta, who, it has been said, at present holds too many appointments to be able to devote adequate attention to all of them. Enquiry should be made into the conditions under which students are admitted into the schools, the extent to which, they are assisted by public funds during the period of tuition, the extent to which, after obtaining their certificates, they enter Government service, and the reasons which militate against their entering it, including among them the comparative attractions of other fields of employment open to them. The opportunity should also be taken of considering whether the Inspector-General of Civil Hospitals should not be associated to some extent with the Director of Public Instruction in the superintendence of medical education both in the college and the schools. Lastly, the Committee should draw up detailed recommendations for the training of female medical students, who may possibly at no distant date form an important element in the student class. Some materials for a conclusion on each of these questions will be found in the papers quoted above, but the Committee are empowered to make such further enquiries as they may think proper either personally or by letter in Calcutta or elsewhere. Finally, the Lieutenant-Governor hopes that they will commence their labours as soon as possible, and submit their report in time to allow him to give it full consideration and to introduce any reforms that may be required from the commencement of the next financial year.

ORDER.—Ordered that a copy of the Resolution be forwarded to the Inspector-General of Civil Hospitals, to the Director of Public Instruction, and to the Principal of the Medical College, for information.

By order of the Lieutenant-Governor of Bengal,

J. A. BOURDILLON,

Offg. Secretary to the Govt. of Bengal.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different districts of Bengal, as reported to Government, during the week ending the 16th December, 1893.

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.

* Means for 6 days. † Means for 5 days.

Explanation.—*Summary.*—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period. The *humidity* of the atmosphere is expressed as percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10. For rainfall the normal mean are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional station district, *i.e.* from total rainfall at the subdivisional stations in the district sending in returns divided by the number of stations. A rainy day is one of

for the week ending Saturday, the 16th of December 1893.

DISTRICT OBSERVATIONS.

Variation from normal mean.	Mean 8 A.M. temperature.	Average humidity at 8 A.M.	Average cloud amount at 8 A.M.	Rainfall of week at observing station.	Of week. Mean for district.	Of week. Normal mean.	Of week. Average number of rainy days.	Of week. Normal number of rainy days.	Rainfall. Since 1st of month. Mean for district.	Since 1st of month. Normal mean.	Since 1st of month. Variation.	Since 16th October 1893. Mean for district.	Since 16th October 1893. Normal mean.	Since 16th October 1893. Variation.	District.

Explanation.—... indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least ·10 inch of rain has fallen.

CALCUTTA, *the 19th December* 1893.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY THE 16TH OF DECEMBER 1893.

THE meteorological conditions during the week again call for no detailed review, for fine settled weather of ordinary north-east monsoon character has prevailed throughout the period. At the commencement of the week pressure was unusually high, being above the normal in most districts by from 0·08″ to 0·1″. The excess pressure in the south of the Bay was only equal to about 0·06″, so that the differences of pressure were somewhat larger than usual, and hence the north-east monsoon current blowing was rather strong. Temperature also on the 10th, or the first day of the week, was in small to moderate defect in all except the extreme western districts and in Orissa, where slight excess temperatures were still registered. On the 11th the barometric changes were extremely small, while temperature had fallen, and had become in defect at all stations, the defect in the mean temperature ranging up to about 5° at some of the north-eastern stations. On the 12th, 13th, 14th, and 15th the changes both of temperature and pressure were small and unimportant, though on the whole temperature was increasing slowly, and on the 16th, or the last day of the week, while pressure was still in excess by about 0·08″ to 0·1″, the mean temperature had become slightly above the normal over a large part of the western half of the province, while only small defects, generally between 1° and 2°, were registered over the remainder. At the same time the excess pressure in the south of the Bay only equalled about 0·03″, so that again baric gradients were decidedly steep—considerable steeper than usual, and hence a fairly strong northerly wind current was blowing over Bengal and over the whole Bay. Throughout the whole week, therefore, fine weather with almost cloudless skies has prevailed, and there has been absolutely no rainfall except for a few light showers in the Darjeeling district, which were reported on the 16th.

Pressure.—The mean pressure for the week has hence been in very considerable excess in all districts, the usual excess varying from 0·09″ to 0·07″, and this excess has generally been largest in the north-eastern districts and smallest at the southern stations. The excess, however, seems to have been comparatively small in the upper strata of the atmosphere, where Darjeeling reports an excess of only 0·02″.

Temperature.—The mean temperature of the whole province for the week has been below the normal by 2·1°, and the defect has been largest in South-West and North Bengal, where it has averaged about 3°.

The actual temperatures registered during the week and their variations from the usual temperature for the present season are most clearly seen in the table below, where the average maximum, minimum and mean temperatures for the week at nine typical stations in different districts of the province are compared with the normal values for the same period. The variations it will be seen have been large in both the night and day temperatures, which have been considerably below the normal, the usual defect at the nine stations averaging 1·8° in the case of the day, or maximum temperature, and 2·4° in the minimum, or night temperature.

Table showing the excess or defect of the actual mean temperature from the normal for the week ending Saturday, the 16th of December 1893.

	Normal mean maximum temperature for the week ending 16th December.	Actual mean maximum temperature for the week ending 16th December 1893.	Variation of actual mean from the normal. Rainfall.—Except for two or three light showers in the Darjeeling district, which were reported on the 16th, the whole province has been rainless throughout the week.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 16th of December 1893:—

Meteorological Divisions.	Temperature.						Rainfall.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 16th Oct. 1893.

The total fall from 1st January to 16th December 1893		85·23
The average fall of the corresponding period for 24 years, Surveyor-General's Office		65·23

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

≏, dew; =, fog.

ERRATUM—No. 5301L.R.

The 22nd December 1893.—In the fifth line of Government Notification No. 4318L.R., dated the 13th October 1893, published at page 880, Part I of the *Calcutta Gazette* of the 18th idem, in respect of the survey and record of rights of certain tappas in the district of Saran, *for* "Kalijanpur, Kuari and Alisipa" *read* "Kalijanpur, Kuari and Sissa."

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 5302L.R.

The 22nd December 1893.—Under the powers conferred upon him by section 101 (1) of the Bengal Tenancy Act VIII of 1885, and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to order, in continuation of Government Notification No. 4318L.R., dated the 13th October 1893, published at page 880, Part I of the *Calcutta Gazette* of the 18th idem, that a survey shall be made and a record of rights prepared in respect of all lands included within the external boundaries of tappa Pachlak in the district of Saran.

The particulars to be recorded in the survey and record of rights shall be the following:—

The name of each proprietor with the character and extent of his interest.

The situation, quantity and boundaries of proprietor's private lands, as defined in Chapter XI of the Act.

The name of each tenant.

The class to which he belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, occupancy raiyat, non-occupancy raiyat or under-raiyat, and if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure.

The situation, quantity and boundaries of the land held by him.

The name of his landlord.

The rent payable.

The mode in which that rent has been fixed, whether by contract, by order of a court or otherwise.

If the rent is a gradually increasing rent, the time at which, and the steps by which, it increases.

The special conditions and incidents, if any, of the tenancy.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 5308L.R.

The 22nd December 1893.—Under section 4 of Act V (B.C.) of 1875, Mr. C. S. Kraal is appointed to be Assistant Superintendent of Survey for the purpose of carrying out the survey in North Bihar, *vice* Mr. S. O. Madras, whose appointment, published in Notification No. 4700L.R. of the *Calcutta Gazette*, dated 22nd ultimo, is hereby cancelled.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION—No. 6223L.R.

The 17th December 1893.—With reference to Notification No. 670T.R., dated the 30th June 1893, published at page 597, Part I of the *Calcutta Gazette*, dated the 5th July 1893, it is hereby notified for general information that the estimate of the probable expenses to be incurred in respect of the repairs, maintenance, and works connected therewith of the tuccavi embankments in the district of Midnapore, for a period of seven years, commencing from 1st April 1894, amounts to Rs. 3,82,386, and that the Lieutenant-Governor proposes, under section 63 of Act II (B.C.) of 1882, to issue an order fixing the aforesaid total sum of Rs. 3,82,386 as payable during the said seven years by the zamindars of the estates benefited by such repairs, maintenance, and works, should no valid objection thereto be preferred.

Any person interested, who desires to object to the above-mentioned order, is required to prefer, within three months of the date of its first publication in the *Calcutta Gazette*, such objections as he may think proper to the Collector of Midnapore for consideration by the Lieutenant-Governor.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT,—(BENGAL).

No. 3297E.

Establishment.

Dated Calcutta, the 13th December 1893.

RESOLUTION.

Appointment of Upper Subordinates.

READ—

Resolution No. 294, dated the 21st April 1891, by the General (Education) Department of this Government on the subject of the reorganization of the Sibpur Engineering College.

Resolution No. 257T.—G., dated the 25th September 1891, by the General (Education) Department of this Government.

OBSERVATIONS.—Under existing orders all vacancies in the Upper Subordinate Establishment in Bengal are reserved for graduates in Engineering of the Calcutta University who have been educated at the Sibpur Engineering College and passed through a course of practical training. So far the supply of candidates qualified under the conditions mentioned above has not been sufficient to provide for all the vacancies which have occurred, and the establishment after providing for the students who have lately qualified is 4 short of the sanctioned number. Furthermore, it is occasionally absolutely necessary to engage well qualified mechanics for special posts. The number of men required for mechanical work is very limited, not more than 8 or 10 Upper Subordinates so qualified being required altogether, and a vacancy having to be filled up once in every four or five years only. The Lower Subordinates now on the Department also complain that, however efficient they may become, they have no

chance of advancement, though in other Provinces and in the Railways deserving Sub-Overseers are not infrequently promoted to be Overseers. The younger Sub-Overseers have nearly all certificates of qualification as Upper Subordinates, whilst those who entered the Department some years ago did so when promotions from the Lower to the Upper Subordinate Establishment were common. It has latterly been decided that every other year an Upper Subordinate shall be promoted to the Engineer Establishment, and it appears to be desirable to provide for the promotion of a very limited number of Lower Subordinates to the Upper Subordinate Establishment. The reservation of one appointment a year for Lower Subordinates cannot materially affect the prospects of the Engineer Class at Sibpur, whilst it will afford an opening for rewarding deserving Sub-Overseers who have themselves been mostly educated at that Institution.

RESOLUTION.—Upper Subordinates for service in the Public Works Department in Bengal will be selected from the following classes of candidates:—

1. Passed students of the Sibpur Engineering College, who have graduated at the Calcutta University and successfully passed the subsequent period of practical training. They will be appointed Overseers, 2nd grade, on probation.

2. Mechanics strictly limited to the number actually required for Government workshops or steam dredgers. These men will be appointed Overseers, 1st grade, but will be kept on probation for at least two years.

3. Sub-Overseers, 1st grade, of not less than 15 years' service from the date of appointment as a Lower Subordinate. Not more than one Sub-Overseer will be promoted ordinarily in any one year, and they will be taken alternately from the Roads and Buildings and Irrigation Branches. They will be appointed Overseers, 2nd grade, on probation.

4. If vacancies still remain after all men qualified under paragraphs 1, 2, and 3 of this Resolution have been provided for, men possessing one of the qualifications mentioned below may be appointed:—

I.—Students of the Thomason College, Rurki, who hold certificates as Assistant Engineers.

II.—Students of the Madras Engineering College or Poona College of Science who have graduated in Engineering at the Madras or Bombay Universities.

III.—Students of the Sibpur Engineering College who have passed the F.E. examination and have gone through the full college course required for a degree, but who have not graduated at the Calcutta University.

5. Men qualified under paragraph 4 (I and II) will be appointed Overseers, 2nd grade, on probation; and men qualified under paragraph 4 (III) as Overseers, 3rd grade.

ORDER.—Ordered that a copy of this Resolution be forwarded to the General (Education) Department of this Government; to all Superintending Engineers of Public Works Circles in Bengal; Examiner, Public Works Accounts, Bengal; Inspectors of Works, Bihar Division and Eastern Circle; Executive Engineers, 1st Calcutta, 2nd Calcutta and Calcutta Workshops Divisions; Director of Public Instruction, Bengal; and Principals, Civil Engineering College, Sibpur, Thomason College, Rurki, Madras Engineering College, and Poona College of Science, for information, and that it be published in Part I of the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

F. J. JOHNSTONE,

Secretary to the Government of Bengal.

	Total ...	21,780	20,520	42,300

The following are the conditions of sale:—

1.—The opium will be sold for exporation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.

On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.

On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.

And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government Superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazeepore Factory for the year 1892-93, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale, that may be desired by parties connected with the trade, will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,
T. INGLIS,
Secretary.

[Third Publication.]

NOTIFICATION—No. 3924Med.

The 12th December 1893.

CHARITABLE ENDOWMENTS ACT, 1890.

In the matter of the Syedani Tahirunissa Bibi Chowdhurani Female Hospital at Bogra in the Province of Bengal, and in the matter of the Bogra Public Library.

WHEREAS application has been made to the Government of Bengal by Nawab Syed Abdus Sobhan Chowdhury of Bogra, zamindar (hereinafter referred to as the Donor), that with a view to creating a permanent Endowment Fund of Rs. 720 per annum for the support of the above hospital, which the said Nawab Syed Abdus Sobhan Chowdhury has determined to erect at his own cost on a site to be provided at his own expense in the town of Bogra in order to perpetuate the memory of his deceased wife, the late Syedani Tahirunissa Bibi Chowdhurani, and also with a view to creating an Endowment Fund of Rs. 120 per annum as a contribution to the up-keep and maintenance of the Bogra Public Library, the immoveable properties described in the schedule hereto, of which the Donor is the absolute owner, may be vested in the Treasurer of Charitable Endowments for the Lower Provinces upon the following terms, that is to say—

1. That the net rents and profits of the said property be applied as follows, that is to say, in providing a sum of Rs. 720 per annum for the permanent maintenance of the hospital for females at Bogra about to be erected by the said Nawab Syed Abdus Sobhan Chowdhury, and which, in memory of his deceased wife, is to be known as the Syedani Tahirunissa Bibi Chowdhurani Female Hospital, and the further sum of Rs. 120 per annum as a contribution to the maintenance of the Public Library at Bogra aforesaid.

2. That the said sum of Rs 720 so as aforesaid applicable to the maintenance of the said Hospital for females shall be appropriated as follows, that is to say, the sum of Rs. 360 per annum, or Rs. 30 per mensem, in paying the salary of the female medical officer in charge, whose duty it will be to attend daily at the Hospital to see outdoor female patients and attend to and treat female indoor patients, and the balance or sum of Rs 360 per annum, or Rs. 30 per mensem in paying for the diet and medicine of patients, the salary and maintenance of a nurse and other incidental expenses.

3. That the trustee to be appointed under section 5(1) of Act VI of 1890 to administer the trust shall be the Collector for the time being of Bogra, and the said properties shall be leased in putni to the said Nawab Syed Abdus Sobhan Chowdhury at a rent of Rs. 840 per annum, exclusive of the Government Revenue and cesses payable in respect of the same, which shall be paid by the said Nawab Syed Abdus Sobhan Chowdhury. The said rent shall be paid by four equal instalments to the said Collector.

4. That the duties of the said Collector as such trustee shall be to appropriate and apply the said annual rent of Rs. 840 as and when received in manner directed in clauses 1 and 2.

5. That the said trustee shall in books to be kept by him regularly enter or cause to be entered full and true accounts of all monies received and paid respectively on account of the trusts of the said endowment, and shall from time to time submit to such public servant as the Local Government may from time to time appoint in that behalf in such form and at such times as the said Local Government may from time to time prescribe an abstract of such accounts and such return as to other matters relating to the administration of the trust as the said Local Government may from time to time see fit to require.

Notice is hereby given that an order is proposed to be made by the Government of Bengal after the expiration of one calendar month to be computed from the first publication of this notice vesting the said property described in the schedule hereto in the said treasurer upon the terms aforesaid.

Any objections to the proposed order or suggestions thereon may be transmitted in writing to the Secretary to the Government of Bengal, Municipal Department, before the thirteenth day of January 1894.

The Schedule above referred to.

No. 1.—Out of 16 annas share of dihi Jangirabad, bearing Bogra Collectorate tauzi No. 69-72, the 4 gandas 1 kara 1 krantee and 17½ tils share of Nawab Syed Abdus Sobhan Chowdhury, the Government revenue payable being Rs. 73-2-1 pie only.

No 2.—Out of 16 annas share of taraf Bihar the 1 gonda 1 kara 12½ tils share of Nawab Syed Abdus Sobhan Chowdhury, Bogra Collectorate tauzi No. 1013, Government revenue payable being Rs. 26-5-6 pie only.

No. 3 —Out of 16 annas share of dihi Jangirabad, bearing Bogra Collectorate tauzi No. 69-72, the 4 gandas 1 kara 1 krantee and 17½ tils share of Nawab Syed Abdus Sobhan Chowdhury, the Government revenue payable being Rs. 73-2-1 pie only.

No. 4.—The 11 annas share of mukarrari jote kismut Malgaon, estate No. 1 of the Bogra Collectorate. The annual rent, amounting to Rs. 179-15-11 gandas, is payable to the said Nawab Syed Abdus Sobhan Chowdhury.

No, 5.—The 3 annas and 2½ gandas share of the same mukarrari jote, rent Rs. 51-2-2½.

No. 6.—The 5 annas share of mukarrari chak jama kismut Polashbari in estate No. 1 of the Bogra Collectorate, the annual rent, amounting to Rs. 35, being payable to the said Nawab Syed Abdus Sobhan Chowdhury.

No. 7.—The 5 annas share of mukarrari jote mauza Chak Nazib in estate No. 12-15 of the Bogra Collectorate, the annual rent, amounting to Rs. 20-9, being payable to the said Nawab Syed Abdus Sobhan Chowdhury.

No. 8.—Mukarrari jote in village Kanar, station Bogra, in mahal No. 1, pargana Silbarsa, of 75 bighas 1 pan 7½ gandas of land, bearing an annual rent of Rs. 15 only. Payable to the said Nawab Syed Abdus Sobhan Chowdhury.

Dated this 11th day of November 1893.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION—No. 3926Med.

The 12th December 1893.

CHARITABLE ENDOWMENTS ACT, 1890.

In the matter of the Elliott Charitable Dispensary at Soro, in the district of Balasore, in the Province of Bengal,

and

In the matter of the Albert Victor Charitable Dispensary at Jellasore, in the said district of Balasore,

and

In the matter of the Rani Srimati Charitable Female Dispensary attached to the Raja Shyama Nunda Dé Dispensary in the town of Balasore,

and

In the matter of the said Raja Shyama Nunda Dé Dispensary.

IT is hereby notified that the Lieutenant-Governor of Bengal, in exercise of the powers conferred by sections 4 and 5 of the Charitable Endowments Act, 1890, and upon the application and with the concurrence of Raja Baikantha Nath Dé Bahadur and Babu Satyendra Nath Dé, sons of the late Raja Shyama Nunda Dé Bahadur, deceased, of Rajnagur in pargana Sunhat, in the district of Balasore, zamindars, doth hereby order and direct that the immoveable property, of which the particulars are contained in the first schedule hereunder written, shall, as from the date of the first publication in the *Calcutta Gazette* of this notification, vest and be thenceforth vested in the Treasurer of Charitable Endowments for the territories subject to the Government of Bengal, to be held by him and his successors (subject to the provisions of the said Charitable Endowments Act, 1890, and any rules from time to time framed thereunder by the Governor-General in Council) upon trust, to permit the said property to be managed and the rents and profits thereof applied in manner and for the purposes set forth in the scheme for the endowment of the Elliott Charitable Dispensary at Soro in the district of Balasore, the Albert Victor Charitable Dispensary at Jellasore in the said district of Balasore, the Rani Srimati Charitable Female Dispensary attached to the Raja Shyama Nunda Dé Dispensary in the town of Balasore, and the said Raja Shyama Nunda Dé Dispensary, of which scheme particulars are contained in the second schedule hereunder written. And it is hereby further notified that the said scheme, of which the particulars are contained in the said second schedule, shall come into operation on the vesting of the said property in the said Treasurer of Charitable Endowments for the territories subject to the Government of Bengal upon the first publication of this notification in the said *Calcutta Gazette.*

The first Schedule above referred to.

All that undivided moiety or half share of and in all that permanently-settled mahal called or known as Khasurabau in pargana Kasijora, bearing tauzi No. 900 in the Collectorate of Midnapore and in the registration district of Panskura and thana of Panskura, the Government revenue payable for which amounts to Rs. 2,047-15-7, the proportionate revenue for the said moiety being Rs. 1,023-15-9½, and the annual income of which moiety or half share at present amounts to Rs. 1,535.

The second Schedule above referred to.

1. The rents and profits of the said property after payment of the Government revenue, costs of collection and charges of management shall be applied as follows: that is to say, in providing a sum of Rs. 300 per annum as a contribution to the permanent maintenance of the dispensary at Soro known as the Elliott Charitable Dispensary, the further sum of Rs. 240 per annum for the maintenance of the dispensary at Jellasore known as the Albert Victor Charitable Dispensary, and the sum of Rs. 600 per annum for the maintenance of the female ward attached to the Raja Shyama Nunda Dé Dispensary at Balasore and known as the "Rani Srimati Charitable Female Dispensary," and the balance, if any, of such funds shall be devoted to the up-keep and maintenance of the said Raja Shyama Nunda Dé Dispensary, it being hereby declared that the said several sums of Rs. 300, Rs. 240 and Rs. 600 shall rank *pari passu inter se* as an accumulative first charge on the net rents and profits of the said endowed property, and that, if such net profits shall be insufficient in any one year to meet the

same in full, the said sums of Rs. 300, Rs. 240 and Rs. 600 shall be proportionately reduced, but in that case the surplus profits of the next or any succeeding year shall be applied in the first place in making good the deficiency, and only the balance, after making good such deficiency, shall be available for the purposes of the said Raja Shyama Nunda Dé Dispensary.

2. The supervision, management and control of the said endowed properties and of the said dispensaries shall be in the hands of a Committee of three persons, of whom the District Magistrate for the time being of Balasore shall be the President, the Civil Surgeon of the district of Balasore for the time being a member, and a member of the donors' family the Secretary, and in the course of such management the said Committee shall be at liberty to let out the said properties either for a term or in perpetuity, or to retain the same in their own khas possession, with power to do all acts and things for the proper and efficient management thereof, and the collection and realisation of the rents and profits thereof which they may think proper.

3. Such Committee may meet together for the despatch of business and adjourn and otherwise regulate their meetings as they shall think fit, but they shall at all times conform to and abide by any rules relating to the administration of endowments under the said Charitable Endowments Act, 1890, which the Governor-General in Council, in exercise of the powers conferred by section 13 of that Act, may from time to time see fit to make.

4. Such Committee shall, in books to be kept by them, regularly enter or cause to be entered full and true accounts of all moneys received and paid respectively on account of the trusts of the said endowment, and shall from time to time submit to such public servant as the Local Government may from time to time appoint in that behalf, in such form and at such times as the said Local Government may from time to time prescribe, an abstract of such accounts and such returns as to other matters relating to the administration of the trust as the said Local Government may from time to time see fit to require.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

No. 4113*M.*—*The 22nd December* 1893.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Dacca Municipality for a public purpose, viz., for an embankment from the south-west corner of the Lalbag Fort to the Kamrangis Chur Burning ghât, in the village of Kamrangis Chur, pargana Jahangirnagar, zilla Dacca, it is hereby declared that for the above purpose a piece of land measuring, more or less, 4 bighas 17 cottahs, 4 dhoors of standard measurement is required within the aforesaid village of Kamrangis Chur. The land is bounded on the north and south by the Kamrangis Chur, on the east by a public road at the south-west plinth of the Lalbag Fort, and on the west by the Kamrangis Chur Burning ghât.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION—No. 5688R.P.

The 22nd December 1893.—Babu Rajendra Nath Roy, Deputy Magistrate and Deputy Collector, is appointed to be Vice-Chairman of the District Road Committee of Palamau, *vice* Mr. J. A. Craven, transferred.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT,—BENGAL.

DISTRICT ROAD FUND.

NOTIFICATION—No. 341.

Dated Calcutta, the 19th December 1893.

THE accompanying annual accounts and abstracts of the reports of the District Road Committees of the districts of Hazáribágh, Lohardaga, Palamau, Manbhum, and Singhbhum, for the year 1892-93, together with the remarks thereon of the Commissioner of the Chota Nagpur Division, are published for general information.

F. J. JOHNSTONE,
Secy. to the Govt. of Bengal.

Abstract of the Report of the Chairman, District Road Committee, Hazáribágh, for the year 1892-93.

District Committee.—The District Road Committee held three meetings during the year, in all of which quorums were obtained. The average attendance was 12·0. With a few exceptions the members do not take much interest in their duties.

2. The following is a summary of businesses transacted by the Committee during the year under review:—

(1) Passing the transfer of allotments from one head to another for different works executed in 1892-93.
(2) Passing the annual accounts and report for 1892-93.
(3) Accepting tenders of contractors for different works.
(4) Preparing the budget estimate of receipts and expenditure for 1893-94.
(5) Passing the estimates of different works to be executed in 1893-94.
(6) Adopting the pension rules laid down by Government for the Committee's employés.

3. *Branch Committee.*—There is only one Branch Committee in the district, viz., at Giridíh. The Committee held five meetings during the year under report, and the average attendance of the members was 4·2. Out of 14 members 5 are reported to have attended no meeting at all.

4. *Cess Collections.*—The road cess in the district was, as in the previous year, levied at the maximum rates prescribed by law. The demand on account of cess on lands and mines during the year was Rs. 54,715, against Rs. 47,195 in the previous year. The increase of Rs. 7,520 is due to the revaluation of the district, which took effect in the beginning of the year under report. The total amount leviable during the year, including the arrears of Rs. 1,759 outstanding at the close of the previous year, amounted to Rs. 56,474. Of this amount, Rs. 54,584, including Rs. 1,878 paid in advance in previous years, were collected, leaving a balance of Rs. 1,890. A further sum of Rs. 1,677 was collected as advance for future years. The percentage of collections on current demand was Rs. 99·75. Of the arrears due at the close of 1892-93, Rs. 3,695 were due from revenue-paying estates, in which the last kist fell due on the 28th March 1893.

5. *Original Works.*—The original works taken up during the year were the gravelling of a road from Gola to Dakagurrah and the sinking of 4 wells, viz., one at Chatra, one at Tandwa, one at Gola, and one at Semaria. Owing to the very limited funds at the Committee's disposal, no more works could be undertaken.

6. *Repairs.*—Thirty-four miles of metalled and 73 miles of gravelled roads were maintained during the year at the cost of Rs. 6,018 and Rs. 4,207 respectively. Four hundred and twenty-one miles of fair-weather roads were kept up in fair order at a cost of Rs. 15,495.

7. *Village roads.*—One hundred and ninety miles of village roads were maintained during the year at a cost of Rs. 12,853, viz., 130 miles in the head-quarters subdivision for Rs. 8,104 and 60 miles in the Giridíh subdivision for Rs. 4,615. Rupees 72 and Rs. 62 were spent during the year for repairs of inspection bungalows and maintenance of trees respectively in Giridíh subdivision. Rs. 5,260, including Rs. 260 for the cost of establishment, contingencies, &c., were placed at the disposal of the Branch Committee. Out of this amount, Rs. 5,010, viz., Rs. 4,749 on the improvement of village communcations and Rs. 361 on account of cost of establishment, contingencies, &c., were spent during the year. Of Rs. 4,749, Rs. 557 were spent departmentally, Rs. 300 by two members of the Branch Committee, and the balance under contracts.

8. *Arboriculture.*—During the year under report 1,266 new trees, viz., 495 poinceana, 328 sissu, 400 Algerian date, and 43 bamboo, were planted, and 3,716 old trees were maintained at a cost of Rs. 702 viz., Rs. 640 for head-quarters and Rs. 62 for the Giridíh subdivision.

9. *Nursery.*—There is only one nursery garden in the Road Cess Office compound containing 2,060 plants, viz., 1,000 sissu, 100 mango, 300 Poinceana-Rigis, 350 eucalyptus, 30 jamun, 200 kunar, 6 korunj, and 20 nim.

10. *Stating bungalows and sarais.*—There is only one staging bungalow, viz., at Ramgarh. The income from it was Rs. 87 during the year, and its maintenance cost was Rs. 255-7-8. There is only one cart sarai in this district, namely at Bagodar, on the Grand Trunk Road. The income from it was Rs. 84, and its maintenance cost was Rs. 35-12-6.

11. The accounts were as usual audited by a Sub-Committee appointed under section 174 of the Act.

No. 6—Part I.

C. H. GARBETT,
Chairman.

Explanatory memorandum attached to the District Road Fund accounts for the year 1892-93.

THE works on certain roads provided for in the estimates for 1892-93 were not fully done for want of labour in some parts of the district; and also certain works not being satisfactorily executed, payments in respect thereof were withheld, hence the closing balance exceeded the limit prescribed in paragraph 9 of the Government Resolution No. 4228R.C. of the 8th December 1885. Provision has, however, been made for disposal of the excess balance in the budget for the current year.

The transfer of allotments of Rs. 2,073-13-10, noted in red ink in column 2 of part II of the account, has been sanctioned by the Committee. Commissioner's sanction to the transfer of Rs. 1,309-5-2 has already been obtained, *vide* his letter No. $\frac{T}{543}$ R.C., dated 19th March 1893, and an application to obtain his sanction to the transfer of the balance is being made.

C. H. GARBETT,
Chairman.

Abstract of the report of the Chairman, District Road Committee, Lohardaga, for the year 1892-93.

District Road Committee.—The attendance of the non-official members during the year under report was unsatisfactory, for out of six non-officials one attended four, two two, and three one meeting only. Out of six meetings held during the year under report, five were special and one ordinary meeting. The ordinary and one of the special meetings were adjourned for want of quorum. The following is the summary of businesses transacted at the meetings held during the year under report:—

(*a*) Passing budget estimate.
(*b*) Fixing the rate of Road Cess to be levied during the year.
(*c*) Passing the annual accounts and reports.
(*d*) Passing detailed accounts for the repairs of different roads during 1892-93.
(*e*) Appointing contractors for the construction and maintenance of the different roads.
(*f*) Making provision for water-supply for drinking purposes.
(*g*) Disposing of other miscellaneous business.

Mr. T. W. Richardson, Joint-Magistrate, held the office of Vice-Chairman from 1st to 30th April 1892, and Joint-Magistrate Mr. A. F. Steinberg from 20th December 1892 to 31st March 1893. There having been no covenanted assistant, the office of the Vice-Chairman was under the direct supervision of the Chairman from May to 19th December 1892. The cheques were signed by the Executive Engineer of Chota Nagpur Division in place of the Vice-Chairman as an *ex-officio* member of the Committee.

2. *Cess Collections.*—The demand on account of cess on lands and mines during the year, including arrears of last year, amounted to Rs. 54,140, of which Rs. 48,841 was collected within the year, leaving a balance of Rs. 5,299 outstanding at the close of the year. This large outstanding is due to the last kist date falling on the 28th March. Out of the heavy balance of Rs. 5,299, Rs. 5,253 has however been collected by 11th April 1893.

3. *Original works.*—The only original works executed consisted of some earthwork, gravelling and coal-tarring to finish the additions and alterations of the Domba bridge on the Ranchi-Gola road taken in hand and nearly completed during the year. The Committee having decided not to undertake the bridging of the Lohardaga-Sambulpur road for the present, the allotment in the budget for that work could not be expended, and consequently there was a large saving under this head.

4. *Repairs.*—The several roads in the district (453 miles in length) were maintained in passable condition by surface repairs, patch repairs to, and in some cases renewal of, gravelling and renewal or petty repairs to temporary bridges and culverts.

5. *Village roads.*—Thirteen miles of road were constructed in place of mere tracks; and 6 miles gravelled. A masonry arched bridge of 10 feet span was constructed, as also one bridge of 20 feet span with rubble masonry abutment and sâl timber roadway. Several temporary bridges were also constructed or reconstructed. Over 140 miles of road were maintained.

6. *Arboriculture.*—Seven hundred and forty-eight seedlings of kuranj, mango, jamun, tamarind, mahua and others were planted in order to fill up the vacancies caused by the unusual drought in April and May 1892. Over 9,000 plants along 63 miles of roads were maintained: 4,088 ordinary and 2,122 stronger new dellas (bamboo gabions) were supplied for the protection of the plants. Three hundred holes were dug out and properly filled up with manure in preparation for planting trees for 1½ miles of the road in the forthcoming season on Mr. Worsley's plan. Arrangements were made to sow seeds and rear the seedlings in pots in the nursery garden at the road-cess godown compound during the year 1893-94 in order to plant them along roadsides after three years.

7. *Staging bungalows and huts.*—Light roofs were constructed in two main rooms of the Opa bungalow, and a tiled roof, in the Nagri hut over battens replacing bamboo frames. Half-terrace flooring in the verandahs were renewed, and doors and windows painted, in the Road-cess Office bungalow and the godown. Ordinary repairs were done to other bungalows and huts.

8. *Tools and plant.*—Several tools and mathematical instruments and articles of furniture purchased and repaired.

9. Generally it may be said that more attention has been paid to good and lasting work in the roads and buildings than to quantity of work.

10. *Accounts.*—The accounts of the year were duly examined and audited by a Sub-Committee, consisting of the Chairman and two other English-knowing members of the Committee. The monthly accounts of the Road Fund and of the District Engineer's Office were examined by the Vice-Chairman, Chairman, and two other English-knowing members of the Committee, who were appointed for the purpose.

11. The Local Auditor inspected the Committee's and the District Engineer's Office on the 28th February 1893, and the result was very satisfactory.

12. The establishments entertained under the Road Cess Act are—

(*a*) Establishments for collection of revenue.
(*b*) Committee's office establishment.
(*c*) Engineering establishment.

The establishment for collection of revenue consists of one head-clerk and accountant, assistant clerk, and one peon. These officers also do the work of the Committee's office, for which there is no separate establishment, as the Committee cannot afford to pay for a separate establishment for the Committee's office out of their poor income. The several establishments employed under the Committee worked satisfactorily.

A. Evans Gordon, *Lieut.-Colonel,*
Chairman, District Road Committee, Lohardaga.

EXPLANATION OF ANNUAL ACCOUNT FOR 1892-93.

Receipt side—Opening balance.

The difference of Rs. 18-10 between the amount shown in the annual account of 1891-92 as closing balance of that year with that of the amount shown in the annual account of 1892-93 as opening balance of that year is due to the sum of Rs. 18-10, the collection of land revenue of the 28th December 1892, by revenue money-order erroneously credited to Road Fund in the Treasury account, being corrected within the year after the submission of the annual accounts for 1891-92, *vide* Accountant-General's No. 364T.D., dated 29th July 1892.

Receipts.

The less collection under the heads of "Fees, fines and forfeitures," and "Contribution from Government" is due to the whole fines, for the realization of which certificates were issued, and which were expected to be realized within the year 1892-93, being remitted as irrecoverable, as well as a small amount out of the provisions made in the budget estimate of 1892-93, as estimated income out of twelve per cent. collection, being received from the Deputy Commissioner within the year.

Expenditure.

The excess expenditure of Rs. 41-12 under head of "Forms and Stationery" is due to the payment of the value of the forms supplied during 1891-92 within the year 1892-93, as well as to the insufficiency of the budget grant of the year.

Original Works.

Rupees 12,261-4-5 were provided for in the revised budget for 1892-93, but the Committee at a meeting on the 21st December 1892 transferred a sum of Rs. 2,100 from Original Works to Repairs, and ordered to expend Rs. 1,200 out of the balance, Rs. 10,161, and the remainder to be kept in reserve for the expenditure of 1893-94.

Repairs.

Rupees 36,317-1-9 were first provided in the revised budget for 1892-93, to which was added a sum of Rs. 2,100 which was transferred on the 21st December 1892 from Original Works to Repairs as stated above. Out of this, Rs. 35,739-3-5 have been expended during the year. The saving is partly due to the failure on the part of the contractors of Ranchi, Chandil and Lohardaga-Sambulpur roads to execute the entire works of the roads, and partly to the abandonment of the idea of making a road from Tamar to Sonapet for rock blasting. Over the ghâts along that line of road more than Rs. 1,000 were proposed to be spent within the year.

A. Evans Gordon, *Lieut.-Colonel,*
Chairman, District Road Committee, Lohardaga.

Abstract of the report of the Chairman, District Road Committee, Palamau, for the year 1892-93.

District Road Committee.—Ten meetings of the District Road Committee were held during the year, in all of which a sufficient number of members were present to form a quorum. With a few exceptions the members were not indifferent in the business of the Committee, their average attendance being 7·5. The members residing nearer to the head-quarters station were more regular in their attendance than those living far off. Some of the members live at distances of about 40 miles from Daltonganj, and it is not therefore always convenient to them to attend a considerable number of meetings of the Committee. A European non- official member failed to attend nine consecutive meetings during the year, and he has, therefore, ceased to be a member of the Committee under section 115 of the Act. A nomination for the appointment of a new member will soon be made by the Committee and sent up to Government for sanction. The following is a summary of business transacted by the Committee during the year under report:—

(1) Election of Vice-Chairman.
(2) Fixing the pay of the District Engineer.
(3) Preparing the statement of communications under section 141.
(4) Appointing Road Fund Establishment.
(5) Preparing the budget estimate for 1892-93.
(6) Fixing the rate of Road Cess to be levied during the year.
(7) Appointing a Sub-Committee for the audit of accounts.
(8) Passing the estimates for road repairs.
(9) Discussion over Commissioner's letter No. 252R.C., dated 18th October 1892, on the subject of arboriculture.
(10) Discussion over Superintending Engineer's letter No. 4650, dated 24th September 1892, on the subject of using metal on public roads.
(11) Discussion over Board's letter No. 418A., dated 18th October 1892, on the subject of allowance to the Cess head-clerk for accountant's duties.
(12) Disposing of Government letter No. 2782E., dated 22nd August 1892, about the appointment of a District Engineer.
(13) Sanctioning tenders of contractors for road repairs, the amount of which did not exceed 1,000 rupees.
(14) Distributing allotments for village roads to different village roads.
(15) Preparing supplemental list of roads under section 143.
(16) Preparing list of roads in view of opening out the district, under orders of Government No. 6150C., dated 5th December 1892.
(17) Fixing the rate of Road Cess to be levied during 1893-94.
(18) Passing the budget estimate for the year 1893-94.
(19) Discussion over Commissioner's letter No. 378R.C., dated 3rd February 1893, on the subject of persuading the Gaya authorities to make a road as far as Eghara.
(20) Disposing of Superintending Engineer's letter No. 1508, dated 15th March 1893, about appointing a District Engineer in place of the present Overseer.
(21) Disposing of other miscellaneous business.

Mr. J. T. Babonau, Deputy Magistrate and Deputy Collector, held the office of Vice-Chairman, from 8th August 1892 to 31st January 1893. He was succeeded by Mr. J A. Craven. Before the appointment of any Vice-Chairman all cheques of sums exceeding Rs. 100 were signed by the Chairman and by Mr. Babonau, an *ex-officio* member, under clause 2, section 171 of the Act.

2. *Accounts.*—The accounts of the Committee's office have all along been kept under the direct supervision of the Chairman. These accounts as well as those of the District Engineer's office were audited monthly by the Standing Sub-Committee, consisting of the Vice-Chairman and two other English-knowing members, appointed under the provisions of section 174 of the Act. The accounts, however, have not yet been inspected by the Local Auditor, although it was desirable that they should have been examined before they are submitted to Government.

3. *Working of the Cess Act.*—The Road Cess was levied at the maximum rate of half an anna in the rupee both on the annual value of lands and on the annual net profits from mines. The demand on account of cess on lands and mines during the year under report was Rs. 21,859. It was subsequently reduced by Rs. 23, being the amount due on account of certain estates which are not liable to assessment, such as the Daltonganj Municipality and certain lands included in the Government Reserve forests, the assessments of which were cancelled by orders of the Deputy Commissioner of Palamau under rule 2, section 8 of the Cess Manual. Subtracting this Rs. 23 from the demand of Rs. 21,859 (Rs. 21,858 was shown in the budget estimate, the difference is owing to the amounts being shown in round numbers), and adding Rs. 1,578, the arrears outstanding from 1891-92, the net total for realizatoin during the year under report amounted to Rs. 23,414. Of this amount, Rs. 20,117 (including Rs. 591 paid in advance for future years) were collected, leaving a balance of Rs. 3,297 at the end of the year. A further sum of Rs. 616 were collected on account of advance for future years. A sum of Rs. 1,121, being the collections of Road Cess from 1st April to 24th May 1892, were credited to the Lohardaga Road Fund before

the final separation of the District Road Fund of Palamau from that of the Lohardaga was effected. This amount was never refunded to us, but was appropriated by the Lohardaga Committee for meeting certain expenditure of the Branch Road Committee of Palamau for the month of March 1892. Hence, the amount of cess shown in the annual account is less by Rs. 1 121 than the actual collections during the year. Out of the balance of Rs. 3,297 a sum of Rs. 966 is due from the Deputy Commissioner of Lohardaga for Road Cess due from the portions of the Chota Nagpur estate, situated within the local jurisdiction of Palamau, and Rs. 557 from the zamindar of Sonepura. The latter amount, however, has since been realized, but the amount due from the Deputy Commissioner of Lohardaga still remains unpaid. Most of the remaining arrears are on account of jageerdari estates, the last kist for which fell due on the 28th March 1893, only three days before the close of the year. The proprietors of these estates have from times past fallen in the habit of postponing payments of cesses until certificates are enforced against them. These jageers have hitherto never been sold for arrears of cesses or Government dues, and it is the knowledge of this fact that makes these jaghirdars quite regardless of paying cess on due dates.

4. *Original works.*—No original works were executed during the year under report, with the exception of the survey of four miles of the Garhwa and Sirguja road, although there was a provision of Rs. 6,696 in the budget estimate for works under this head. The construction of a staging bungalow at Manka was taken up in hand in January last, but no work could be done owing to the unfavourable weather, excepting the collections of a few materials at site.

5. *Repairs.*—Eight district roads were maintained and kept in fair condition at a cost of Rs. 3,764-2-7. Repairs were mostly commenced in December, and could not be carried out to full extent.

6. The slow progress under original works and repairs is said to be due partly to the insufficiency of the work establishment (there being no District Engineer), and partly to sanction to estimates for the works provided for in the budget for that year having been received by the Committee late in the year, as well as to no good contractors being available at that late period of the year.

7. *Village roads.*—The sanctioned allotment for these roads was Rs. 1,200, but repairs to the extent of Rs. 44-13-4 could only be done. Of this amount, Rs. 28-5-4 were spent on the Shahpur-Chainpur village road by a member of the Road Cess Committee. Rs. 100 was advanced to another member of the Committee for repairs to the Garhwa village roads, but he could not manage to have any work done. Rupees 900 was sanctioned for another road, but no thikadar would take it, and owing to the advanced period of the year, when sanction was received, it was impossible to do it departmentally.

8. *Petty constructions and repairs.*—The work under this head consisted only of the petty repairs to the staging bungalow at Patkee at a cost of Rs. 45-1-3. The allotment under this head was Rs. 255, but no contractor could be found for these petty works.

9. *Arboriculture.*—The existing road-side trees have been maintained; 350 seedlings were transplanted from the nursery at Daltonganj to the three main roads which branch out from Daltonganj.

10. *Tools and plant.*—Six crow-bars, two iron blocks, and one dumpy level were purchased at a cost of Rs. 138-4, including conveyance charges.

11. *Furniture.*—Two almirahs for the cess collection office were purchased at a cost of Rs. 49-6, and some of the office furniture were repaired.

12. *Public Works Establishment.*—There had been no District Engineer during the year, The question of the appointment of the District Engineer was pending before Government. The Overseer who had been in charge of road works before the place was made into a district remained in charge of works during the year.

No. 6.—Part I.

PALAMAU DISTRICT ROAD FUND.

Explanatory note.

The sum of Rs. 123, both on receipt and disbursement sides under major and sub-heads "Miscellaneous," as received from and remitted to the Chairman, District Road Cess Committee, Lohardaga, represents the sum which had been advanced to certain zamindars of this place out of the District Road Fund of Lohardaga. After adjustment of accounts between the Branch Road Cess Committee of Palamau with that of Lohardaga, this amount was found to be to the credit of the Palamau Fund. But as this amount was outstanding under suspense accounts in the Lohardaga Committee's accounts, it was remitted to Lohardaga for adjustment of the suspense accounts and was subsequently received back.

W. R. BRIGHT,

Chairman, District Road Committee, Palamau

Abstract of the report of the District Road Committee, Manbhum, for the year 1892-93.

Working of the Committee.—During the year under report the Committee held 10 meetings for the transaction of business, and in all of them a sufficient number of members were present to form a quorum. The following is a summary of the business transacted by the Committee during the year :—

(1) Passing monthly accounts of the District Road Committee, audited and examined by a standing Sub-Committee of Audit.

(2) Nominating three new members for appointment as members of the District Road Committee.

(3) Nominating the Government Pleader, Babu Nandu Lal Ghosh, as Vice-Chairman to fill the vacancy caused by the late Vice-Chairman, Dr. W. H. Hill, who left the station ; and appointing also a Sub-Committee to report on validity of claim of the Manager of the Pachet Trading Corporation on account of royalty on minerals used for repairs of District roads.

(4) Discussion on the employment of the District Engineer on works other than that connected with the Road Cess Department.

(5) Passing the Committee's annual accounts and reports for the year 1891-92, and discussion on the District Engineer's office arrangement during his absence on two months' privilege leave.

(6) Passing the Committee's revised budget estimates for the year under report, under section 157 of the Cess Act; and discussion on the proposed transfer of the Chas-Goolbera Road and the road from Purulia *vid* Roghunathpur to the Damuda river to the Manbhum District Road Committee, as per Bengal Government's Public Works Department No. 174T.C., dated the 26th September 1892.

(7) Sanctioning the Committee's budget estimates of receipts and expenditure for the year 1893-94, and forwarding an application (through the Commissioner of the Division) to the Bengal Government for a loan of Rs. 9,000 for District Road works, owing to insufficient funds at the disposal of the Committee.

2. *Working of the Branch Road Committee at Govindpur.*—Babu Mohendro Nath Mukerjee, Subdivisional Officer of Govindpur, was Chairman of the Branch Road Committee. No meetings were held.

3. *Working of the Cess Act.*—The demands, collections, and balances of Road and Public Works Cesses as well as interest on lands, mines, quarries, and jungles for the year 1892-93 are shown in the following statement:—

NAME OF DISTRICT.	Arrears outstanding for last year.	Demand for the year.	Total.	Previously paid in advance for the present year.	Net demand.	Collected on account of arrears during the year. Total ...	29,855	84,055	113,910	4	113,906	29,943	49,831	9	79,683	34,232	9	34,223

* The difference of Re. 1 between the figures shown in column 5 of the last year's return and that shown in the same column in this is owing to the fractional parts.

The outstanding balance for the year 1891-92, as per above statement, was Rs. 29,855, and the demand for the year 1892-93 was Rs. 84,055, against Rs. 19,093 and Rs. 84,805, respectively, for the previous year 1891-92. There has been a decrease of Rs. 750 in the demand owing to the exemption of the Laikdi coal mine from assessment. The collection of the year was Rs. 79,683 (including Rs. 9 collected in advance on account of future years), against Rs. 74,009 in the previous year, showing an increase of Rs. 5,674. The percentage of total collection on net demand is Rs. 69,955 against Rs. 71,232 of the previous year.

4. *Working Establishments.*—There has been no material change in the executive establishment of the Committee during the year under report.

ORIGINAL WORKS.

5. (*a*) *Communications.*—The expenditure under this head during the year was Rs. 1,193-6-1, against a budget grant of Rs. 1,950. The following works were executed:—

(1) Construction of a feeder road from the Chaibassa-Purulia Road to the Chandil Railway Station (123 yards in length).

(2) Metalling 1st mile of the Purulia-Manbazar Road.

(3) Metalling approach road to the Ramkanali Station, (6 furlongs 180 yards).

(*b*) *Buildings.*—The only work done under this head was the construction of two rest-houses, the one at the junction of Raghunathpore-Hazáribágh Road with old Chass road in village Mamoorkodar (29 miles west of Roghunathpore, and about 23 miles north-west of Purulia), and the other at Jargo (a village about 6½ miles south of Jhaldah on the 28th, 29th miles of the Purulia-Ranchi Road) close to junction of Jhaldah-Torang and Jargo-Bagmundi roads.

REPAIRS.

6. (*a*) *Communications.*—The total expenditure under this head during the year was Rs. 22,056-3, against a budget grant of Rs. 32,228-0-6. Both these amounts include payments on account of works provided for and executed during the previous year. The actual expenditure on works done during the year was Rs. 14,298-3-10, against a budget

allotment of Rs. 23,875. A detailed statement of the expenditure under this head on the several roads according to their class is given below :—

Description of roads.	Length in miles.	Amount spent on each class of road.				Cost per mile for maintaining				Remarks
		To maintenance of road surface.	To maintenance of bridges and culverts.	To maintenance of inspection bungalows.	Total.	Road surface.	Bridges.	Bungalows.	Total.	
		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	
Roads under—										
Class I ...	1½	...	...	...	...	..	...	...	.....	The necessary maintenance was executed, but no payment could be made.
„ II ...	156	9,149	539	716	10,404	59	3	4	66	The total actual expenditure has been taken in calculating the average cost per mile. The mileage rates are therefore not strictly correct, as a fairly large sum of money remained unpaid for works actually executed during the year, but this is almost counterbalanced by payments made for works done during the preceding year.
„ III ...	149	7,000	1,153	573	8,725	47	8	4	59	
„ IV ...	78	2,927	...	...	2,927	39	...	...	39	

The decrease in the total length of third-class roads repaired during the year under report, as compared with the length shown during the preceding year, is due to roads Nos. 12 and 16 being wholly, and road No. 19 being partly, left out altogether on account of insufficiency of funds. The increase in the length of roads under class IV is due to improvements in the condition of the roads shown under class V in the preceding years. There are no roads under Class V, nor was anything done towards what are strictly village roads; the provision in the budget under that head being meant for roads under classes IV and V. The works executed chiefly consisted of the maintenance of the several roads with the bridges and culverts and bungalows and rest-houses on them. Besides the following improvements have been effected :—

Muddy portions of Roghunathpore-Raniganj Road, aggregating about 1½ miles, worst portions of Balrampore-Barabazar Road (about 3 miles), and of Roghunathpore-Hazáribágh Road (about 4 miles), 4 miles of Jeypore-Begoonkodar Road, the last 3 miles of Gobindpore-Giridíh Road, and 2 miles of Gobindpore-Jherriya Road were much improved by gravelling. Two temporary culverts on 20th and 31st miles of Barabazar-Koilapal Road were thoroughly overhauled and reconstructed, the Barabazar-Manbazar Road was extended another mile and a quarter towards Manbazar, and the road from the Adra Railway Station to Kashipur, which was taken up in 1890-91 out of village road grants, was improved by earthwork and construction of temporary culverts.

(*b*) *Buildings.*—Besides the bungalows and rest-houses along the several roads, which are mentioned above in connection with the roads themselves, the only other buildings under the control of the District Road Committee are the cart-sarais. There are altogether 17 of them, of which 11 were maintained by the farmers to whom they were leased out, and the rest repaired at an expenditure of Rs. 1,331, against a budget grant of Rs. 1,777 under head "Petty construction and repairs."

(*c*) *Sanitation.*—If the petty repairs to the wells in the compounds of some of the rest-houses and sarais are not taken into account, nothing was done under this head during the year.

(*d*) *Miscellaneous.*—The Jubilee Town Hall compound was improved at an expenditure of Rs. 60.

7. *Arboriculture.*—A sum of Rs. 241, chiefly representing wages of chaukidars and women entertained for looking after and watering the trees along some of the station roads, was spent under this head during the year under report. The funds at the disposal of the Committee did not admit of adequate grants in this direction.

8. A statement showing the budget and outlay under each head is given below. In calculating the percentage cost of establishment, the expenditure on tools and plant has been left out of the total outlay for the year :—

Budget grant.						Outlay.						Establishment charges.			
Original works.	Repairs.	Petty construction and repairs.	Tools and plant.	Miscellaneous.	Total.	Original works.	Repairs.	Petty construction and repairs.	Tools and plant.	Miscellaneous.	Total	Budget grant.	Outlay.	Percentage cost of establishment on budget grant.	Percentage cost of establishment on actual expenditure.
Rs. 1,960	Rs. 32,638	Rs. 2,853	Rs. 50	Rs. 150	Rs. 37,540	Rs. 1,193	Rs. 22,397	Rs. 2,038	Rs. ...	Rs. 60	Rs. 25,688	Rs. 7,751	Rs. 7,419	20·65	28·88

C. A. S. BEDFORD,
Chairman.

Explanatory Note.

1. The excess expenditure of Rs. 218-0-2 under head "Establishment and contingencies of office of collection" is on account of cost of service of notices, &c., not recoverable under sections 72, 78, and 81 of the Cess Act, IX (B.C.) of 1880.

2. The excess expenditure in some of the items of "Repair Works" is apparent but not actual, as budget provision is for the year under report, whereas the expenditure includes payment for works provided for in the previous year.

C. A. S. BEDFORD,
Chairman.

Audit certificate.

WE hereby certify that the books and accounts specified below,* prescribed for the Road Cess Office and for the office of the District Engineer, are duly kept up, and that they have been posted for the year 1892-93, and they have been duly scrutinized by the Sub-Committee.

Also that the Treasury Officer's Abstract of the Account of the Committee for the year has been duly received and checked with the Cash and Pass-books, and found to agree therewith, except in respect of the amount of impreat in the hands of the Accountant, which has been duly noted in the cash-book.

That the vouchers for the payments of the year have been cancelled, that none but duly sanctioned expenditure have been incurred, and that in the case of original works, the register of monthly expenditure shows clearly the amount of sanctioned estimates, the grant for the year, and generally that the work has been performed with a due observance of the rules prescribed by Government.

ANANGA MOHAN BHATTACHARJI,
RAM DOYAL MOZUMDAR,
} Members of S. A. C.

C. A. S. BEDFORD,
Chairman.

* *Road Cess Office.*—(1) Cash-book; (2) Abstract Book; (3) Register of monthly receipts and expenditure; (4) Account of Deposits; (5) Account of Advances.

District Engineer's Office.—I—Accounts, viz. (1) Files of contract certificates; (2) Files of bills for purchases or purchase lists, (3) Files of Day-books; (4) Files of establishment bills; (5) Files of acquittance rolls; II—Books, viz;—(2) Register of bills passed; (3) Register of works and repairs; (4) Register of tools and plant; (6) Account of Advances; (7) Account of Deposits.

Abstract of the report of the Chairman, District Road Committee of Singhbhum for the year 1892-93.

District Committee.—Five meetings of the Committee were held during the year under review, in all of which a quorum was obtained, and the attendance of the members was satisfactory, the percentage of average attendance being 48. The following is a summary of business transacted by the Committee during the year under report:—

(1) Preparation of estimates for 1893-94.
(2) Passing the annual accounts and report for 1891-92.
(3) Revising the budget estimates for 1892-93 under section 157 of the Act.
(4) Consideration of the model rules for a Provident Fund.

2. *Cess Collection.*—The Road Cess in the district was, as in the previous years, levied at the maximum rates prescribed in the Act. The demand on account of cesses on lands and quarries, &c., during the year under report, was Rs. 4,706, against Rs. 3 745, in the previous year. The increase of Rs. 961 was the result of the late revaluation. The total amount for realization during the year was Rs. 4,706. Out of this sum Rs. 4,701 was realized during the year of report, leaving a balance of Rs. 5 to be recovered in 1893-94. The percentage of collections on current demand is 99·89. The practice of warning the defaulters of their liabilities by means of post-cards was adopted, and the result was found satisfactory.

3. *Original Works.*—The only works taken in hand during the year of report were the improving and enlarging of the rest-house at Chakradharpur on the Bandgaon road No. 5, the gravelling of the heavy portions of some of the roads, aggregating five miles in length, and the casing of the Subarnarekha Ghât, at a total cost of Rs. 3,919-5-4 in all.

4. *Repairs.*—The works under this head chiefly consisted of the annual maintenance of the several district roads, and except in a few minor details, they were of the same nature as in the previous year. The total cost incurred under this head was Rs. 5,289-15-6, including the cost of repairs to V class and village roads.

5. *V Class roads.*—About 93 miles in total length were kept up in fair condition at a total cost of Rs. 508-2-5. The steep gradients of unbridged rivers, ghâts and cuttings and nalas were improved and eased during the year of report.

6. *Village roads.*—Village roads (12½ miles in length) were repaired and made passable at a cost of Rs. 337-9-3. Besides this, a sum of Rs. 160-11-9 was spent in constructing a village road (4 miles) from Sashpur to Asonboni in Dhalbhum. Thus the total amount spent under this head was Rs. 498-5 in all.

7. *Arboriculture.*—In the year under report nothing was spent under this head. The planting of avenues along roadsides proved an utter failure in this district, owing to the dryness of the climate and the stony nature of the country over which the roads run. The Committee with their limited funds could not afford to pay for the construction of wells along the roadsides. The suggestions of Mr. Worsley, the late Magistrate of Monghyr, received with the Commissioner's memorandum No. 407R.C, of the 23rd February 1893, regarding the system of planting trees, have not been tried yet. However, an attempt will be made during 1893-94, and the result reported in due course.

8. *Staging bungalows and huts.*—During the year under report only the rest-house at Chakradharpur on the Chakradharpur-Bandgaon Road No. 5 was improved and enlarged at a total cost of Rs. 509-5-1, and the other rest-houses also received petty repairs at a total cost of Rs. 332-14-8.

9. *Establishment.*—All the establishments employed under the Committee worked satisfactorily.

10. *Tools and plant.*—No large amount was spent under this head. Only a few dozens of pickaxes were purchased during the year of report.

11. *Advances.*—All advances either made to the contractors or for departmental works were adjusted in full within the year under review.

12. *Accounts.*—The monthly accounts of the District Road Fund and of the District Engineer's office were examined by the Vice-Chairman and two other English-knowing members of the Sub-Committee appointed under section 147 of the Cess Act. The annual accounts of the year under report were duly examined by the Sub-Committee, and the result was found correct (*vide* certificate attached to the accounts). The accounts were also put up and approved at a meeting of the Committee held on the 29th April 1893.

13. The Local Auditor inspected the Chairman's and District Engineer's offices in December 1892, and the result was found satisfactory.

14. The following tabular statement shows the opening balances, receipts, charges and closing balances of the year under report and of three previous years:—

	1889-90.	1890-91.	1891-92.	1892-93.
	Rs.	Rs.	Rs.	Rs.
Opening balance	7,767	6,270*	3,881	3,136†
Receipts	18,074	15,353	16,911	18,200
Total ...	25,841	21,623	20,792	21,336
Charges	19,371	17,742	17,856	15,923
Closing balance	6,470*	3,881	2,936†	5,413

* The closing balance (Rs. 6,470) shown under the year 1889-90 includes the amount of imprest (Rs. 200), while the opening balance (Rs. 6,270) of 1890-91, is exclusive of the imprest.

† The closing balance of 1891-92 is exclusive of imprest, while the opening balance of 1892-93 includes the imprest of Rs. 200 held in hands of the District Engineer.

Abstract of the report of the District Engineer, Singhbhum, for 1892-93.

In the year under consideration Rs. 8,919 were spent on original works, which consisted mostly in gravelling heavy portions of roads. The total lengths of roads thus gravelled is about 5 miles. Rupees 21 were spent in paying compensation for lands covered by the diversion road to Amda Station. Rs. 5,290 were spent in maintaining 430 miles of roads, the cost per mile being Rs. 12·30. The maintenance covered the renewal of the gravelling of portions of an aggregate length of over a mile. Rupees 338 were spent in petty works of construction and repairs executed in shelter-houses.

No. 236R.C., dated Ranchi, the 31st August 1893.

From—W. H. GRIMLEY, ESQ., Commissioner of the Chota Nagpur Division,
To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honour to submit the accounts and reports of the District Road Committees of this Division for the year ending 31st March 1893.

2. The subjoined table shows the number of members in each Committee, the meetings held by each during the year, and the percentage of average attendance at each meeting :—

	Number of members.	Number of meetings held.	Percentage of average attendance.
Hazáribágh	24	3	50
Lohardaga	10	6	33·5
Palamau	15	10	50
Singhbhum	10	5	48
Manbhum	15	10	36·0

The percentage of average attendance was the lowest in Lohardaga as in the preceding year owing to the very same reason, viz., the unsatisfactory attendance on the part of the non-official members of the Committee. There were two branch Committees, *namely*, one at Giridíh and the other at Gobindpur. The Branch Committee at Daltonganj was converted into a District Road Committee during the year, in consequence of the Palamau Subdivision having been formed into a separate district. The Giridíh Branch Committee held five meetings during the year, but the Gobindpur Committee held none.

3. During the year under review the cess was levied in all the districts at the maximum rate allowed by the law. The opening balances, receipts, charges and closing balances of the several Road Committees are exhibited in the following statement :—

	Hazáribágh.	Lohardaga.	Palamau.	Singhbhum.	Manbhum.
	Rs.	Rs.	Rs.	Rs.	Rs.
Opening balance	19,020	13,751	3,000	3,136	6,613
Receipts	66,829	55,375	20,427	18,200	39,014
Total ...	85,849	69,126	2,3427	21,336	45,627
Charges	61,387	52,614	8,499	15,923	41,754
Closing balance	24,462	16,512	14 928	5,413	3,873

In the case of the three districts, Hazáribágh, Lohardaga, and Singhbhum, the opening balance of the year does not agree with the closing balance of 1891-92 as shown in that year's report. The reason of this in the case of the first-named district is that the actual closing balance of 1891-92 being Rs. 19,019-10-9, Rs. 19,020 in round numbers have been shown as opening balance in this report, while Rs. 19,019 only were shown in the report for 1891-92. In Lohardaga the difference is owing to Re. 18-10, collected on account of land revenue, having been erroneously credited to the Road Fund during 1891-92. The error was rectified after the submission of the reports and accounts last year. The difference of Rs. 200 in the case of Singhbhum represents the amount of imprest in the hands of the District Engineer, which was omitted to be included in the closing balance of 1891-92.

4. The closing balance of 1892-93 in all the districts except Manbhum is far above the limit of one quarter's revenue prescribed in paragraph 9 of the Government Resolution, No. 4228R.C., dated the 18th December 1885. In Hazáribágh the excess is owing to the partial execution of works on certain roads provided for in the estimate for 1892-93, and to the unsatisfactory execution of some works on account of which payment in respect of them was withheld. In Lohardaga it is due to the greater portion of the amount estimated under head "Original Works" remaining unspent during the year. In Palamau it is attributable to the late formation of the Road Committee and Road Fund of the district and the absence of a District Engineer during the year, on account of which the result of the year has been anything but satisfactory. ****** The Deputy Commissioner of Singhbhum has submitted no explanation of the excess in his district. Provision has been made in the budget of all these districts for the disposal of the excess balance during the current year.

5. The following table shows the revenue of each Committee (excluding advances and deposits), the expenditure on original and repair works and on the establishment employed on works, the percentage of this establishment on the amount spent on works, as also

the percentage of total expenditure on works, including establishment calculated on the revenue:—

District.	Revenue.	Amount spent on original works.	Amount spent on repair works.	Total expenditure on original and repair works.	Expenditure on account of establishment employed on works.	Total expenditure on works, including the cost of establishment employed on them.	Percentage of the cost of establishment on the amount actually spent on works.	Percentage of total expenditure on works, including establishment on the revenue.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	
Hazáribágh ...	59,775	1,320	41,271	42,591	8,240	50,831	19·3	85·03
Lohardaga ...	52,082	1,009	35,739	36,748	7,480	44,228	20·3	85
Palamau ...	19,560	17	3,630	3,647	1,753	5,600	48·5	28·6
Singhbhum ...	16,098	3,919	5,291	9,209	2,793	12,002	30·3	74·5
Manbhum ...	36,499	1,163	22,297	23,490	7,418	30,908	31·5	84·6
Total ...	1,33,964	7,458	1,08,427	1,15,685	27,684	1,43,569	23·9	78·04

The amount spent on original works was small in every district during the year, while it was unusually so in Palamau. The insufficiency of funds at the disposal of the Committees and the greatness of the length of roads to be maintained account for this smallness in the districts of Hazáribágh, Singhbhum, and Manbhum. The District Road Committee of Lohardaga provided Rs. 12,261 for original works; but as they decided not to undertake bridging of the Lohardaga-Sambalpur Road during the year, the greater part of the amount provided remained unexpended. In Palamau there was no original work done during the year except the survey of four miles of the Garhwa-Sirguja Road.

6. The repair works executed by the several Road Committees consisted chiefly of the maintenance of the roads already in existence.

7. *Arboriculture.*—The Hazáribágh Road Committee spent Rs. 702 on arboriculture. The Road Committee of Lohardaga planted 748 new seedlings, besides maintaining the old ones, numbering over 9,000. In Palamau 350 seedlings were transplanted from the nursery at Daltonganj to three roads branching out from that town. Nothing was spent under this head during the year in Singhbhum, all previous attempts in this direction having failed owing to the dryness of the climate, and the rocky nature of the country over which the roads pass. The Road Committee, however, propose to try the suggestions of Mr. Worseley regarding planting and tending of trees during 1893-94. In Manbhum a sum of Rs. 241 only could be spent in the maintenance of the trees along some of the station roads. The funds of the Committee did not permit further expenditure under this head.

8. There was no District Engineer under the Palamau Road Committee during 1892-93. The District Engineers of the other districts and their subordinate establishments are reported to have worked satisfactorily.

LAND SALE NOTICES.

NOTICE is hereby given that the undermentioned estates and shares of estates in the district of 24-Parganas will be put up for sale by the Certificate Officer of 24-Parganas at Alipore, on the 29th December 1893, in execution of certificate cases Nos. 1056, 1057, 1059, 1061, 1062, 1229, 1230, 1246, 760 :—

Shahabad Collectorate, Arrah, the 12th December 1893.

NOGENDRONATH MAITRA, for Collector.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates or shares of estates in the district of Darbhanga will be put up for sale at the Collector's office of that district on the 29th December 1893, corresponding to 6th Poos 1301 F.S., on Friday, at 12 o'clock for arrears of revenue and other demands, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue.

When in columns 5, 7 and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share and the other share or shares in the estate are excluded from the sale:—

LACHHMI NARAIN SINGH, for Collector.

APPENDIX XXIV.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land no longer required for the Railway, situated along the Revilgunge Branch line of Bengal and North-Western Railway in the district of Saran, will be put up to sale at 12 o'clock on the 10th January 1894, corresponding with the 18th Poos 1301 Fasli at Chapra.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the Railway fencing, or plough the land closer than three feet from its foundations.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one or if that day be a close holiday then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

4th.—The lots will be sold revenue-free to the highest bidders.

5th.—The purchaser shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale, and after expiry of the current term of lease of the land, commencing from June 1893 and terminating on the 31st of May 1894—

C. E. LIVESAY, C.E.,
Exe. Engr., Nadia Rivers Division.

Berhampur, the 25th December 1893.

THE following Weather Reports of the Bengal Meteorological Department, issued by orders of the Government of Bengal can be supplied to the public at the prices annexed :

1*st*.—Bay of Bengal Daily Report, giving meteorological observations taken at 28 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Bay of Bengal Storm Signal Service. The report giving 8 A.M. observations of the day is distributed by peon in Calcutta soon after 11 A.M. Price to subscribers in Calcutta Rs. 2 per mensem.

2*nd*.—Bengal Daily Report, containing observations taken at 48 meteorological stations in Bengal and Assam, and transmitted to Calcutta by weather telegrams, with a brief summary of the

weather in Bengal during the preceding 24 hours. The report giving the 8 A.M. observations of each day is printed in time for the evening mail, and is distributed to subscribers in Calcutta the same evening. This report for the present is only published during the south-west monsoon, i.e., from about May 15th to November 15th, or thereabouts. Price Rs. 2-8 per mensem, including postage.

3rd.—A Weekly and Monthly Statement of Meteorological Observations taken at 49 observing stations, and of rainfall recorded at 276 subdivisional and other stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable, in advance and of the Monthly Summary Rs. 2 per annum payable in, advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal, 5, Russel Street, Calcutta, for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

ALEX. PEDLER,
Meteorological Reporter to the Govt. of Bengal.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8.

	Without postage. Rs. A. P.	With postage. Rs. A. P.
For the Calcutta Series	10 0 0	12 8 0
,, each of the Madras, Bombay, and Allahabad Series	6 0 0	7 0 0
,, a part of the Calcutta Series purchased separately (*inclusive of postage in India*)	.....	2 0 0
,, a part of each of the Madras, Bombay, and Allahabad Series purchased separately (*inclusive of postage in India*)	.....	1 0 0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied of subscribers when required in place of copies lost in transit:—

	For town. Rs. A. P.	For mofussil. Rs. A. P.
For the Calcutta Series, per copy ...	0 8 9	0 10 3
,, each of the Madras, Bombay, and Allahabad Series, per copy ...	0 5 3	0 5 9
,, the Calcutta Series. For the year	7 2 6	8 6 3
,, each of the Madras, Bombay and Allahabad Series. For the year	4 4 6	4 11 3

Persons desiring to subscribe for or purchase the Report should apply to—

Superintendent, Government Press, Madras.
The Superintendent, Government Central Press, Bombay.
,, Curator of Government Books, North-Western Provinces and Oudh.
,, Superintendent of Government Printing, Bengal.

Orders and subscriptions for 1893 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

ADVERTISEMENTS will be received for publication on the wrappers of the Indian Law Reports, Calcutta Series, at the following rates, payable in advance—

	One page.	Half page.	Quarter page.
For one issue ...	Rs. 20	Rs. 14	Rs. 9
,, three issues ...	,, 55	,, 36	,, 24
,, six ,, ...	,, 100	,, 68	,, 45
,, nine ,, ...	,, 145	,, 96	,, 64
,, twelve ,, ...	,, 180	,, 120	,, 80

SEVERAL volumes of the BENGAL LAW REPORTS, from August 1868 to December 1875, and FULL BENCH RULINGS, Parts I and II, are available at the following rates:—

	Without postage. Rs. A. P.	With postage. Rs. A. P.
Bengal Law Reports for one year ...	20 0 0	22 8 0
Single copies, Rs. 2 per copy.

Bengal Secretariat Press, 10, Lyon's Range, Calcutta.

Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

NOTICE TO SUBSCRIBERS.

SUBSCRIBERS to the *Calcutta* and *Bengali Gazettes* and *Indian Law Reports* are hereby informed that unless the amount of their subscription for 1894 is received before the 31st December 1893, it will be concluded that the Gazettes and Reports are no longer required, and the supply will accordingly be discontinued from 1st January 1894.

All remittances should be made direct to the Accountant and Treasurer, Bengal Secretariat, Calcutta, by means of money-orders. No postage stamps or stamps of any other kind will be received in payment of subscriptions.

The correct address of the subscriber should be legibly written on the money-order coupon, and the period for which the subscription is paid should also be stated.

N. BONHAM-CARTER,
Offg. Under-Secy. to the Govt. of Bengal.
The 4th December 1893.

Notice.

NOTICE is hereby given that the terms for the purchase of publications from the Bengal Secretariat Press, except *for* Government offices or offices under the control of Government Officers, are strictly cash, and on no other terms will any publication be supplied, or advertisement, notice, &c., inserted in either of the Gazettes.

In the case of insolvency notices, cash must be sent with such notices when forwarded by Mofussil courts or offices, and for those forwarded by the Official Assignee cash must be paid on presentation of memorandum of cost by the Accountant and Treasurer, Bengal Secretariat.

Remittances in postage stamps should be accompanied by an addition of one anna in the rupee on account of discount.

☞ Applications for Acts of the Bengal Legislative Council required on the public service should be addressed to the REGISTRAR, Office of the Legislative Department, Government of Bengal.

Copies are available for purchase at MESSRS. THACKER, SPINK & CO., Government Place, Calcutta.

Notice.

The 29th March 1886.—The subscription to, and postage for, the *Calcutta Gazette* will henceforth be at the following rates, payable in advance:—

In the Press.

The Ajmere Code, revised edition.
The Bombay Code, revised edition.
The Assam Code.

II.—REPRINTS OF ACTS AND REGULATIONS AS MODIFIED BY SUBSEQUENT LEGISLATION.

Act XLV of 1860 (Indian Penal Code), as modified up to 1st August 1890. Rs. 2 (4*a.*)
Act V of 1861 (Police), as modified up to 1st August 1892. 5*a.* 6*p.* (1*a.* 6*p.*)
Act XVII of 1864 (Official Trustees), as modified up to 1st July 1890. 5*a.* 6*p.* (1*a.*)
Act X of 1865 (Succession), as modified up to 1st July 1890. Re. 1-8 (2*a.*)
Act XXV of 1867 (Printing-Presses and Books), as modified up to 1st July 1890. 5*a.* (1*a.*)
Act VII of 1870 (Court-fees), as modified up to 1st July 1891, with an Appendix containing Notification No. 4650, dated 10th September 1889, reducing and remitting Court-fees, and an Index. Re. 1 (2*a.*)
Act XXIII of 1870 (Coinage), as modified up to 27th June 1893, with an Appendix containing the Indian Coinage and Paper Currency Act, 1893, and the Notifications by the Government of India in the Finance and Commerce Department, Nos. 2662,2663 and 2664, dated the 26th June, 1893, connected therewith. 4*a.* 9*p.* (1*a.*)
Act I of 1871 (Cattle-trespass), as modified up to 1st March 1891. 5*a.* (1*a.*)
Act I of 1872 (Evidence), as modified up to 1st May 1891. Re. 1 (2*a.*)
Act III of 1872 (Marriage), as modified up to 1st June 1893. 4*a.* 6*p.* (1*a.*)
Act IV of 1872 (Punjab Laws), as modified up to 1st July 1891. 7*a.* (1*a.*)
Act IX of 1872 (Contract), as modified up to 1st June 1893. Re. 1-4. (3*a.*)
Act XV of 1872 (Christian Marriage), as modified up to 1st April 1891. 10*a.* (2*a.*)
Act II of 1874 (Administrator-General), as modified up to 1st July 1890, with a list of Native States included within the Presidencies of Bengal, Madras, and Bombay, respectively, for the purposes of the Act. 11*a.* (2*a.*)
Act III of 1877 (Registration), as modified up to 1st December 1892. 11*a.* (2*a.*)
Act XV of 1877 (Limitation), as modified up to 1st December 1892. 12*a.* (2*a.*)
Act VII of 1878 (Forests), as modified up to 1st July 1890. 10*a.* (2*a.*)
Act VIII of 1878 (Sea Customs), as modified up to 1st July 1891. Re. 1-5-3 (4*a.*)
Act XI of 1878 (Arms), as modified up to 1st July 1892. 11*a.* (2*a.*)
Act VII of 1880 (Merchant Shipping), as modified up to 15th October 1891. 10*a.* (2*a.*)
Act V of 1881 (Probate and Administration), as modified up to 1st July 1890. 12*a.* (2*a.*)
Act XV of 1881 (Factories), as modified up to 1st April 1891. 5*a.* (1*a.*)
Act XVIII of 1881 (Central Provinces Land Revenue), as amended by Act XVI of 1889 (with an Index). Re. 1-4 (3*a.*)
Act XXII of 1881 (Noise), as modified up to 1st June 1890. 8*a.* (2*a.*)
Act I of 1882 (Assam Labour and Emigration), as modified up to 1st May 1893. Re. 1-2 (2*a.*)
Act IV of 1882 (Transfer of Property), as modified up to 1st April 1893. 15*a.* (2*a.*)
Act X of 1882 (Criminal Procedure), as modified up to 15th December 1888. Rs. 3 (6*a.*)
Act XI of 1882 (Tariff), as modified up to 1st June 1890. 6*a.* (1*a.*)
Act XII of 1882 (Salt), as modified up to 1st December 1890. 6*a.* (1*a.*)
Act XIV of 1882 (Civil Procedure), as modified up to 1st July 1888. Rs. 3 (6*a.*)
Act XX of 1882 (Paper Currency), as modified up to 27th June 1893, with an Appendix containing the Indian Coinage and Paper Currency Act, 1893, and the Notifications by the Government of India in the Finance and Commerce Department, Nos. 2662, 2663 and 2664, dated the 26th June, 1893, connected therewith. 5*a.* 6*p.* (1*a.* 6*p.*)
Act IX of 1883 (Central Provinces Tenancy), as amended by Act XVII of 1889. 10*a.* (2*a.*)
Act XXI of 1883 (Emigration), as modified up to 1st December 1890. 11*a.* (1*a.* 6*p.*)
Act VI of 1884 (Inland Steam-vessels), as modified up to 1st July 1890. 6*a.* (1*a.*)
Act VII of 1884 (Steam-ships), as modified up to 1st July 1890. 6*a.* (1*a.*)
Act XVII of 1884 (Lower Burma Municipalities), as modified up to 1st December 1891. 15*a.* (2*a.*)
Act XVIII of 1884 (Punjab Courts), as modified up to 1st April 1891. 7*a.* (1*a.* 6*p.*)
Act VI of 1886 (Births, Deaths and Marriages Registration), as modified up to 1st June 1891. 6*a.* (1*a.*)
Act XII of 1886 (Petroleum), as modified up to 1st June 1893. 6*a.* (1*a.*)
Act IV of 1889 (Merchandise Marks), as modified up to 1st June 1891. 6*a.* (1*a.*)
Regulation VIII of 1886 (Upper Burma Civil Justice), as modified up to 1st April 1891. 8*a.* (1*a.*)
Regulation XIV of 1887 (Upper Burma Villages), as modified up to 1st April 1891. 5*a.* (1*a.*)

III.—ORIGINAL COPIES OF ACTS AND REGULATIONS.

Acts (unrepealed) of the Governor-General's Council, from 1854 to date, and Regulations passed under the Statute 33 Vict., Cap. 3, from No. 11 of 1875 to date, 8vo., stitched. These may be obtained separately. The prices noted on each.

IV.—TRANSLATIONS OF ACTS.

Act XXXVI of 1858 (Lunatic Asylums), as modified up to 1st March 1893. In Urdu. 1*a.* 3*p.* (1*a.*)

Act XLV of 1860 (Penal Code), as modified up to 1st January 1893. In Urdu. Re. 1 (5*a.*)

Act I of 1871 (Cattle-trespass), as modified up to 1st March 1891. In Urdu. 1*a.* 9*p.* (1*a.*)

Act I of 1872 (Evidence), as modified up to 1st May 1891. In Urdu. 8*a.* (2*a.*)

Act XV of 1872 (Christian Marriage), as modified up to 1st April 1891. In Urdu. 4*a.* (2*a.*)
Ditto. In Nagri. 4*a.* (2*a.*)

Act III of 1877 (Registration), as modified up to 1st December 1892. In Urdu. 4*a.* (2*a.*)

Act XI of 1878 (Arms), as modified up to 1st July 1892. In Urdu. 1*a.* 9*p.* (1*a.* 6*p.*)

Act XV of 1881 (Factories), as modified up to 1st April 1891. In Urdu. 1*a.* 6*p.* (1*a.*)
Ditto. In Nagri. 1*a.* 6*p.* (1*a.*)

Act XXII of 1881 (Excise), as modified up to 1st June 1890. In Urdu. 2*a.* 6*p.* (2*a.*)
Ditto. In Nagri. 2*a.* 6*p.* (2*a.*)

Act X of 1882 (Criminal Procedure), as modified up to 1st January 1892. In Urdu. Re. 1-4 (8*a.*)

Act XI of 1882 (Tarift), as modified up to 1st June 1890. In Urdu. 1*a.* 3*p.* (1*a.*)
Ditto. In Nagri 1*a.* 3*p.* (1*a.*)

Act XIV of 1882 (Civil Procedure), as modified up to 1st January 1892. In Urdu. Re. 1-6 (8*a.*)

Act XIII of 1885 (Telegraphs), as modified up to 1st March 1893. In Urdu. 1*a.* 3*p.* (1*a.*)

Act IX of 1887 (Provincial Small Cause Courts), as modified up to 1st March 1893. In Urdu. 2*a.* (1*a.* 6*p.*)

Act III of 1888 (Police), as modified up to 1st March 1893. In Urdu. 6*p.* (1*a.*)

Act IV of 1888 (Indian Reserve Forces), as modified up to 1st March 1893. In Urdu. 3*a.* (1*p.*)

Act IV of 1889 (Merchandise Marks), as modified up to 1st June 1891. In Urdu. 2*a.* (1*a.*)

Act VII of 1889 (Succession Certificates). In Urdu. 1*a.* 6*p.* (1*a.*)

Act XIII of 1889 (Cantonments), as modified up to 1st March 1893. In Urdu. 2*a.* 3*p.* (1*a.* 9*p.*)

Act XV of 1889 (Official Secrets). In Urdu. 3*p.* (1*a.*)

Act I of 1890 (Revenue Recovery). In Urdu. 3*p.* (1*a.*)

Compiled under the orders of the Government of India by JOSEPH VERE WOODMAN, of the Middle Temple, Barrister-at-Law, and Advocate of the High Court, Calcutta. In five volumes. Super royal 8vo. Rs. 50 per set; quarter bound copies, Rs. 55 (Rs. 3-2); payable in advance.

Abstracts of Proceedings of the Legislative Council of the Governor-General, from July 1862 Super royal, 4to. Annual subscription Rs. 5 (Re. 1). Single issue 4*a.*, including postage.

Report of the Indian Law Commission, 1879. F. cap boards, Re. 1. (5*a.*)

Lists of British Enactments in Force in Native States, Southern India (Madras and Mysore). Corrected to 30th November 1888. Compiled by J. M. MACPHERSON, of the Inner Temple, Barrister-at-Law, Deputy Secretary to the Government of India, Legislative Department. Full cloth, super royal 8vo. Rs. 2-8 (4*a.*)

Lists of British Enactments in Force in Native States, Southern India (Hyderabad). Corrected to 31st December 1888. Compiled by J. M. MACPHERSON, of the Inner Temple, Barrister-at-Law, Deputy Secretary to the Government of India, Legislative Department. Full cloth, super royal 8vo. Rs. 4-8 (6*a.*).

Lists of British Enactments in force in Native States, Northern India (Bengal, Assam, Burma, the North-Western Provinces, the Punjab, Kashmir, Nepal, and Baluchistan). Corrected up to 20th May 1891. Compiled by J. M. MACPHERSON, of the Inner Temple, Barrister-at-Law, Deputy Secretary to the Government of India, Legislative Department. Full cloth, super royal 8vo. Rs. 4 (6*a.*)

Lists of British Enactments in force in Native States, Rajputana. Corrected up to the 20th August 1891. Compiled by J. M. MACPHERSON, of the Inner Temple, Barrister-at-Law, Deputy Secretary to the Government of India, Legislative Department. Full cloth, super royal 8vo. Rs. 2-8 (4*a.*)

Lists of British Enactments in force in Native States: Central India (Central Provinces and the Central India Agency). Corrected up to the 31st December 1892. Compiled by J. M. MACPHERSON, of the Inner Temple, Barrister-at-Law, Officiating Secretary to the Government of India, Legislative Department. Full cloth, super royal 8vo. Rs. 4-8 (6*a.*)

In the Press.

Lists of British Enactments in Force in Native States: Western India (Bombay, Baroda, Persian Coast and Islands, Muscat, Zanzibar and Somali Coast).

N. B.—The Revised Prices herein entered cover the cost of packing, postage, and other incidental charges (except commission for Value-payable supplies), and are for all purchasers other than resident College Students.

Drawing Instruments, drawing materials, &c., are not available at the College Book Depôt, but are obtainable from the Superintendent, Canal Foundry and Workshops, Roorkee.

Catalogue of Books, English and Vernacular, Printed and Published at the Thomason College Press, with list of English Books procurable at the Thomason College Book Depot.

Application to be made to Curator.

CASH MUST ACCOMPANY ORDER, OR ARTICLES WILL BE SENT BY VALUE-PAYABLE POST.

It is advised that letters containing remittances be registered.

LIST OF BOOKS PUBLISHED AT THE THOMASON COLLEGE PRESS.

COLLEGE TEXT BOOKS.

Roorkee Treatise on Civil Engineering in India.

Royal Octavo with numerous plates.

First two volumes are published in separate convenient-sized Sections, as below, but can be bound up in Volumes if required.

VOLUME I.*

SEC.		PRICE. Rs.	A.
I.—Building Materials (in the Press).			
II.—Masonry (1891)		1	8
III.—Carpentry (1889)		1	8
IV.—Earthwork		1	8
V.—Tools and Plant (never published).			

VOLUME II.*

VI.—Buildings (1891)	1	8
VII.—Bridges (in the Press).		
VIII.—Roads (1888)	2	0
IX.—Railways (1891)	1	8
X.—Irrigation Works (1873) ...	2	0

VOLUME III.

Applied Mechanics, Part I.—DIRECT STRESS Part II.—TRANSVERSE STRESS (in the Press).

MANUALS.

XIV.—Simple Applied Mechanics, Parts I and II (in the Press).		
XIII.—Drawing (by Lieut. R. Pulford, R.E.)*	8	0
XIIIA.—Drawing, First Principles of Geometrical (by Do.), (4th edition) ...	1	4
XVII.—Specimens of Printing used in the College Drawing Course and Entrance Examinations ...	0	8

* Date of Edition on sale.

SEC.	PRICE. Rs. A.
XV.—Examples of Estimating. Comprising a progressive series of Estimates (with plans of Buildings and Bridges, worked in detail). By P Keay, Esq., and revised by C. C. Sullivan, Esq., Head Master (4th edition)	3 12
XVI.—Earthwork Estimating. with Practical Tables and Diagrams. By Major A. M Brandreth, R.E. ...	1 0
VII.—Surveying (by Major Firebrace, R.E.) (6th edition), with Curve Table	3 8
Technical Dialogues—English and Urdu .	1 4

Note.—The complete Treatise forms the course of the Engineer Class at the Thomason College in Civil Engineering, and the same, omitting sections IX and X, is the course for the Upper Subordinate Class The other books are the complete course for both Classes in the several subjects of which they treat.

NOTICES TO MARINERS.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 294

[First Publication.]

CHINA, EAST COAST—GULF OF PE CHILI.

Bank reported eastward of Shah Lui Tien.

THE British Admiralty has given notice (No. 592 of 1893) that the Master of the Chinese steamer *Peiping* reports the existence of a bank, about 3 miles long in an E.N.E. and W.S.W. direction and about 1¼ miles broad, on which he has repeatedly obtained soundings of 7 to 9 fathoms at low water, hard mud bottom, situated with Sha lui tien, bearing west, distant about 14 miles.

Approximate position, centre of bank, latitude 38° 57′ N., logitude 118° 51′ E.

(*Variation, 3° Westerly in* 1893.)

[First Publication.]

BAY OF BENGAL—COROMANDEL COAST.

Shoals eastward of Kottapattam.

THE British Admiralty has given notice (No. 595 of 1893) of the following information relating to the existence of shoals eastward of Kottapatam, received from Commander C. F. Oldham, R.N., in charge of the Marine Survey of British India:—

1. A shoal, about 2½ miles long, N.N.E. and S.S.W., and one mile wide, with a least depth of 1¾ fathoms on it, lies N.E. by E. (N. 56° E.), distant 4 miles from Kottapatam obelisk and 2 miles off shore. Patches, with depths of 3 to 5 fathoms on them, extend from this shoal to the shoalest part of Mutapolli bank.

Approximate position, 1¾ fathoms, lat. 15° 27¼′ N., long. 80° 13¾′ E.

2. A shoal, a quarter of a mile in extent, with a depth of 6 fathoms on it, lies 13½ miles from the coast, or in lat. 15° 29¼′ N., long. 80° 26¼′ E.

[First Publication.]

AUSTRALIA—BURNETT RIVER.

Alteration in leading marks and depth of water.

THE Portmaster, Brisbane, has given notice (No. 29 of 1893) that the leading marks for No. 1 Cutting, Burnett river, have been altered, and the lead, which is now 60 feet to the eastward, and parallel to the old lead, shows the centre of the new 120 feet Cutting. Least depth of water on this lead 7 feet at low-water springs.

The least depth of water between Rubyanna and the Bundaberg wharves is now 6 feet at low-water springs.

CHINA SEA—FORMOSA.

Tamsui—Intended alterations in bar signals.

THE British Admiralty has given notice (No. 571 of 1893) that the following signals will be substituted for those now shown to indicate the depth on the bar at Tamsui, north coast of Formosa :—

Depth of water on bar.	North yardarm.	South yardarm.
10 feet	●	
11 „	●	●
12 „	● ●	
13 „	● ●	●
14 „		● ●
15 „	● ●	● ●

Half feet will be shown by a ball half-way out on the north yardarm.
Rising tide will be shown by a ball at the masthead.
The symbols will be painted white and hoisted at the Custom-house flagstaff.
Flag Signals by the International Code will be answered at the Custom-house flagstaff.

PACIFIC OCEAN—Caroline Islands.

Helene shoal—Foul ground to the westward.

The British Admiralty has given notice (No. 587 of 1893) that information has been received from the Master of the steamer *Angers* that at 2h. 30m. p.m., 16th September 1893, in lat. 5° 33′ N., long. 149° 3′ E., or westward of the reported position of Helene shoal, the vessel passed over a narrow patch of shoal water, with apparently depths of 5 to 6 fathoms on it; no soundings were taken, but the bottom was distinctly visible. This shoal is probably connected with Helene shoal, as green water was observed from the *Angers* stretching far to the eastward of the above position.

EASTERN ARCHIPELAGO—Strait of Mangkasar—Celebes, south-west coast.

Date of exhibition of light on Dajang-Dajangan islet.

With reference to Notice to Mariners (No. 261, dated 10th ultimo), issued by this office, the following further notice (No. 34, dated 20th November 1893), issued by the Vice-Admiral Commanding the Naval forces in Neth.-India is republished for general information:—

With reference to Notice to Mariners, No. 30, Batavia, 1893, notice is given that the beacon light on *Dajang-Dajangan* islet has been exhibited on the 16th November last.

The light, shown from a framework iron support, is a *fixed white* light of the fifth order. It is elevated 63·3 feet above high water, and should be visible from a distance of 14 miles in all directions, except where obscured by *Tanna-Kéké* islet. It will, however, be visible over the lower parts of this islet.

The light-house 67·7 feet above high water, and the stone watch-house with red roof are painted white.

Approximate position, lat. 5° 23′ 38″ S., long. 119° 10′ 26″ E.

This notice affects the charts: Zuid-Westkust Celebes, 1880, and Straat Mángkasar, blad II, 1883.

RESOLUTION ON THE ANNUAL AGRICULTURAL REPORT FOR 1892-93.

REVENUE DEPARTMENT—AGRICULTURE.

Calcutta, the 26th December 1893.

RESOLUTION No. 5309Agri.

READ—

Letter No. 977A., dated the 14th September 1893, from the Board of Revenue, submitting the Annual Agricultural Report of the Director of the Department of Land Records and Agriculture for the year ending 31st March 1893.

THIS is the first separate report on Agriculture which Government has received, and the Lieutenant-Governor is pleased to record his satisfaction with the care and completeness with which the report has been drawn up. The first chapter contains a brief account of the harvests of the year, together with a list of the Agricultural Statistics which, under existing orders, the Director furnishes to Government. The Director's estimate of the outturn of the various harvests is on the whole favourable, and the Lieutenant-Governor fully accepts the view that, except in a few districts, the production of food-grains during the year was not less than the average. The statistics furnished comprise periodical forecasts and reports relating to the different crops and were submitted with commendable punctuality during the year, together with certain annual statements, of which the most important form the set of statistics known as the "Agricultural Statistics" for 1891-92. The latter were received

long after the date on which they were due; but it is known that their compilation entails considerable labour. Similar statistics for 1892-93 are now overdue, and have not yet reached Government.

Emigration to Burma.

2. The number of emigrants from Bihar to Burma increased from 77 in 1891-92 to 313 during the year under report; nearly all of them were from the neighbourhood of Arrah. Mr. Macpherson quotes some interesting remarks on the subject by Mr. J. L. Mackay, C.I.E., from which the following extract is taken:—

"Several men of the first batches of emigrants have been back to their homes for their families and friends, thus doing recruiter's work in its most satisfactory form.

"It has been found by experience that Biharis are not suited to compete successfully with the Madrassi coolies employed in factories, &c., in Rangoon and the towns, but they do better as agriculturists. The men who returned to their friends are all of this latter class, and they speak well of the country and their prospects when questioned.

"The requirements and conditions of the journey and voyage are becoming much better known, and the emigrants now show scarcely any of the fear and hesitation that appeared at first, though there are still occasional desertions at the last moment before sailing."

Tree-planting.

3. No tree-planting operations on a large scale were carried on during the year. The Board of Revenue suggest that the cultivation of pear, apple and other fruit trees should be tried experimentally on the large plateau called the "Main Pat" in Sirguja, or other elevated tracts in the Tributary States of Chota Nagpur, but such experiments must be left to private enterprise, unless as suggested the Chiefs will take an interest in the matter.

In this connection, it may be remarked that a report written in 1883 by the late Mr. Worsley, regarding the system of planting trees along the sides of roads followed by him when he was in charge of the district of Muzaffarpur was, with some additions, circulated to all Commissioners of Divisions during the year, with an expression of the Lieutenant-Governor's opinion that Mr. Worsley's system might be adopted with advantage by all District Officers and District Boards in Bengal. Under this system young trees are raised in nurseries from seed sown in pots, and when five or six feet high they are planted out at the commencement of the rainy season along the sides of roads. A list of trees was drawn up whose planting was recommended where the soil is suitable, care being taken not to plant large and small fruit-bearing and timber trees indiscriminately together.

Pebrine.

4. In connection with the enquiry into the diseases of silkworms on which Mr. Nitya Gopal Mukherji has been employed since 1886, the Lieutenant-Governor recognizes the useful work done by that officer in promoting the distribution and use of healthy seed. The rearing stations of Kalimpong, Pokhuria and Khulna were kept up during the year, and new stations were opened at Babukhali in Jessore and Kagachira in Malda. The growing popularity among native rearers of seed selected on the system adopted by Mr. Mukherji is an encouraging proof of the progress which has been made. His Honour has also read with interest the account contained in the Director's Report of the experiments recently conducted at Alipore by Messrs. J. A. Anderson and R. A. Lyall. These gentlemen are to be congratulated on the success with which they obtained healthy seed by the simple device of subjecting the worms to healthy conditions of life, including constant and sufficient food. Their success, indeed, has been such as to suggest a doubt in regard to the existence in India of the diseases known as pebrine and muscardine, which, being due to specific causes, cannot, it is said, be eradicated by merely providing the worms with good food and fresh air. This surmise, however, which can only be regarded as tentative, is at variance with the view hitherto accepted; and in order to set all doubts at rest, Mr. Mukherji has been requested to take steps to bring the matter to a practical issue. The experiments will be undertaken as soon as the necessary appliances are available, and their result is awaited by Government with interest.

Agricultural experiments.

5. A large part of the report is taken up with an account of the agricultural experiments conducted in these Provinces during the year. The Lieutenant-Governor, while admitting the interesting nature of those experiments, concurs in the remark made by the

Board that their history is not of great general value on account of the absence of sufficient information as to the soils experimented on.

Burdwan experimental farm.

6. At the Burdwan farm experiments were conducted by the Director's Assistant, Mr. Nagendra Nath Banerji, with sugarcane, fodder-grasses, jute, paddy, maize, potatoes, wheat, barley, gram and oats. They showed, among other things, that a mixture of bonemeal and saltpetre proves a profitable manure for the winter paddy crop. The best plot on the farm yielded 55½ maunds of grain, and 61 maunds 35 seers of straw per acre, a result obtained by the application of 3 maunds of bonemeal and 30 seers of saltpetre, costing Rs. 9-6 per acre. After deducting the cost of manure and of cultivation, the nett profit per acre in the plot amounted to Rs. 99-10-3.

The gross expenditure of the farm during the year was Rs. 1,864-5-9, against Rs. 1,565-14-4 of the preceding year, the increase being due to the addition of new land to the farm. The actual cost of cultivation was Rs. 1,193-6, while the income was Rs. 1,167-7 as against Rs. 1,162-3 in the previous year.

Dumraon, Bhojpur and Sibpur Farms.

7. The crops under experiment in the Dumraon Farm were winter paddy, sugarcane and wheat; in the Bhojpur Farm potatoes, and in the Sibpur Farm jute, *aus* paddy, fodder grasses, wheat, oats, barley, potatoes, sugarcane, cotton, tobacco, and cabbage. One of the results brought out by the experiments was to confirm the experience of previous years that a plough which inverts the soil gives a larger outturn of wheat and paddy than the country plough which breaks the soil, but does not invert it. It is reported that a plot on which a plough of the former description had been used gave 2 maunds 10 seers of wheat, and a nett profit of Rs. 6-6 over and above the outturn and nett profit of a plot on which the country plough had been used.

The total expenditure at Dumraon and Bhojpur on the experimental farms and Economic Museum amounted to Rs. 1,856-5-11, the actual cost of cultivation being only Rs. 483-8.

Experimental cultivation of tobacco.

8. The cultivation of tobacco was undertaken for the first time in the Sibpur Farm. Three country varieties, viz. (1) Rangpur, (2) Matihar, (3) Hingli, and the American variety known as *Havana* were planted on one-third of an acre of land, and it is reported that they gave a good outturn. The leaves were cured in the shade, and Government will be glad to be informed of the further progress of the experiment, when the opinion of an expert has been obtained on the results achieved.

The total actual cost of cultivation in the Sibpur Farm amounted to Rs. 1,522-8-1, while the income was Rs. 1,225-5-6.

Bones as a manure.

9. The manufacture of bonemeal was continued during the year at the Jalpaiguri and Darjeeling Jails, and was also introduced into the Saran Jail. The bone-crushing operations at the Jalpaiguri Jail were transferred in July 1892 to the exclusive supervision of the Jail Department. The total outturn of bonemeal in the Jalpaiguri Jail amounted to 77 maunds 25 seers, which were sold chiefly to European tea planters, for Rs. 110-8. Two hundred maunds of bonemeal were manufactured at the Saran Jail, and sold to an European indigo planter at Re. 1-8 per maund, the cost of manufacture being a little under Re. 1. The Director gives in his 40th paragraph an interesting summary of the results of the action taken by his Department since 1890 in the utilization of bones for manure. It is to be regretted that native cultivators have not hitherto appreciated the advantages of bonemeal manure to a greater extent.

Veterinary Institution.

10. The Bengal Veterinary Institution, located at Belgachia on the Belgachia-Dum-Dum road, about five miles from Government House, is now practically ready. The Institution owes its origin mainly to the munificence of Babu Sheo Baksh Bogla of Calcutta, who contributed Rs. 30,000 and 3¼ bighas of land, and of Sir Dinshaw Manukji Petit of Bombay, who gave a further donation of Rs. 25,000. The total cost of the buildings will be Rs. 82,799 according to the estimate, and the balance required will be provided from Provincial revenues. The Institu-

tion, which has been constructed on plans approved by the Committee of Management and the Inspector-General of the Civil Veterinary Department, includes a lecture-room, museum, pharmacy, library, reading-room, four horse wards and four cattle wards, *post-mortem* room, forge and stables for isolated cases, besides offices for the Superintendent and Assistant Superintendent, and a residence for the latter. Veterinary Captain W. D. Gunn was appointed during the year to be Superintendent of the Civil Veterinary Department, Bengal, and of the Bengal Veterinary Institution, and all District Boards were informed that he would be available for consultation by them and other local authorities on any matters connected with horse and cattle-breeding, or diseases of horses and cattle. In connection with the Veterinary School to be attached to the Institution 30 stipends of Rs. 5 each to be held by pupils are to be offered, besides a scholarship of Rs 10 a month founded by Dr. Kenneth McLeod, late of Calcutta. Mr. E. Burke, Veterinary Overseer, Civil Veterinary Department, has been appointed on Veterinary Colonel Hallen's nomination to be Assistant Superintendent. Rules for the admission of students and animals to the Institution have been drawn up and are now under the consideration of Government. Full clinical and other facilities for the instruction of veterinary students will be afforded, and while designed specially for Bengal, the Institution is open to students from all parts of India.

11. The Director has appended to his present Report Veterinary Captain Gunn's account of the work which he has done since his appointment as Superintendent of the Civil Veterinary Department, Bengal, on the 31st May 1892. The Lieutenant-Governor admits that at the commencement of a new undertaking too much must not be expected, but for the future he looks to the Superintendent to suggest and carry out a systematic scheme for the collection of information on subjects within the scope of the Veterinary Department. It is desirable that Veterinary Captain Gunn should acquire experience of the conditions of animal life in this Province, and devote as much of his time as he can spare from his duties in connection with the Bengal Veterinary Institution to thorough investigation in the districts with the object of acquiring and placing on record a stock of useful information which may eventuate hereafter in practical measures being undertaken to the great advantage of the country. Instructions have recently been received from the Government of India for the supply by Provincial Veterinary Officers to the Assistant to the Inspector-General, Civil Veterinary Department, of information regarding animal diseases and cattle breeds in India. In connection with the latter subject, the Superintendent's Report shows that he has suggested to the

Cattle-breeding.

District Boards which he has visited the importation of Burman bulls as a means of improving the breed of cattle in their districts. It is stated that the District Boards of Mymensingh and Tippera have indented for two Burman bulls. The attention of the Superintendent should be drawn to the results reported in paragraph 52 of the Director's Report, which were obtained by the use of the Hissar, English and Bachour bulls for the purpose of breeding; and he should compare them with the results obtained by the use of Burman bulls.

12. It was at one time proposed that experiments on mule-breeding

Mule-breeding.

should be conducted by the Political Agent of Sikkim at the cost of the State, but the proposal was abandoned on the ground that the finances of the State did not justify such expenditure. Since this decision was come to, a circular calling attention to the importance of the subject, and suggesting certain action, has been received from the Government of India; and the Lieutenant-Governor awaits a report from the Director. Veterinary Captain Gunn is mistaken in thinking that any indent has been made by this Government for donkeys for use in Kalimpong and Sikkim.

13. The Superintendent is wrong in supposing that there is only one cattle

Horse and Cattle fairs.

fair of any importance in the Province, as he will doubtless discover for himself when he has been longer in the Province. With reference to his remarks on the Sonepur fair, it may be stated that there are difficulties in the way of effecting the improvements he suggests, as the land on which the fair is held is not under the control

of the District Board, but belongs to private landowners. The local officers will, however, do all they can to improve the arrangements. The Lieutenant-Governor will bring to the notice of the Government of India the remarks made by Veterinary Captain Gunn in connection with the Kalimpong mêla.

Cattle disease.

14. Cattle disease was present in other parts of the province as well as in Darjeeling, though no virulent outbreaks were reported, except from Kalimpong. Veterinary Captain Gunn visited the latter place thrice during the progress of the disease, and his action appears to have been energetic and useful; his services at such times will no doubt be more frequently applied for in the future when the benefits of his presence and advice become better known.

Officers.

15. The thanks of the Lieutenant-Governor are due to Mr. Macpherson for his efficient supervision of the Department during the year under report. The remarks of the Director regarding his three Assistants, Mr. Nitya Gopal Mukerji, Mr. Bhupal Chandra Basu, and Mr. Nagendra Nath Banerji, all of whom, especially Mr. Basu, rendered good service, will be communicated to the Appointment Department.

ORDER.—Ordered that this Resolution be published in the *Calcutta Gazette*. Ordered also that a copy of the Resolution be submitted to the Government of India, in the Revenue and Agricultural Department, for information, and that a copy be forwarded to the Board of Revenue for information and guidance.

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

Secretary to the Government of Bengal.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different districts of Bengal, as reported to Government, during the week ending the 23rd December, 1893.

* Means of 6 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period The *humidity* of the atmosphere is expressed at percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10 rainfall the normal mean are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional station district, *i.e.*, from total rainfall at the subdivisional stations in the district sending in returns divided by the number of stations. A rainy day is one of

for the week ending Saturday, the 23rd of December 1893.

Variation from normal mean.	Mean 9 A.M. temperature.	Average humidity at 9 A.M.	Average cloud amount at 9 A.M.	Rainfall of week at observing station.	DISTRICT OBSERVATIONS.										District

for the last ten years. The variations are *negative* when the mean for the week is less than the corresponding normal mean, and *positive* when greater. The numbers denoting cloud amount represents the part of the sky covered the whole sky being denoted by 10. Under the head District observations of Rainfall, the means of the district are the numerical average of the rainfall returned for the period in question during the past ten years. The means of the district are the numerical average of the rainfall returned received in the which at least a tenth of an inch fell.

Statement of Rainfall in Bengal for the week ending Saturday (8 a.m.), the 23rd of December 1893.

Meteorological Division.	District.	Station.	Rainfall. Sunday, 17th.	Monday, 18th.	Tuesday, 19th.	Wednesday, 20th.	Thursday, 21st.	Friday, 22nd.	Saturday, 23rd.	Total number of rainy days.	Rainfall of week.	Average rainfall of week.	Total rainfall since last of month.	Average total rainfall from 1st of month.	Total rainfall since 16th Oct. 1893.	Average rainfall from 16 Oct. to date

Explanation.—... indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 1·0 inch of rain has fallen.

Calcutta, *the 26th December* 1893.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY THE 23RD OF DECEMBER 1893.

THE meteorology of the week under review has again been of little importance, and calls for no detailed review, for conditions have been of fine settled north-east monsoon character throughout the period. On the 17th of December, or the first day of the week, pressure was decidedly high, and was above the normal by amounts ranging from 0·04 inch at the southern and south-eastern stations to 0·06 inch and 0·07 inch in the north and west of the province. The differences of pressure were hence a little larger than usual, and the northerly winds which were blowing were fairly strong. The mean temperature was in defect of the normal at almost all stations in the province, the usual defect equalling from 1° to 2°. Skies were almost cloudless throughout the province, and no rain was reported. The changes of temperature and pressure from day to day during the week have been small, and their general effect has been to make temperature somewhat higher and pressure somewhat lower than at its commencement. Indeed, on the 22nd and 23rd, the mean temperature had become in slight excess of the normal, while on the 23rd pressure was almost normal over the province. Throughout the whole week, however, a steady northerly wind current has been blowing, skies have been almost cloudless, and no rain has been reported from any station in the province.

Pressure.—The mean pressure for the week has hence been in small excess, and this excess has been largest at the northern and western stations, and smallest at the southern and south-eastern stations. Thus excess pressures of about 0·05 inch and 0·06 inch have been registered at many stations in North Bengal and at some in Bihar, while at Calcutta the excess has equalled 0·028 inch, at Gopalpur 0·024 inch, and at Chittagong 0·033 inch. The general excess for the whole province has equalled about 0·04 inch.

Temperature—Was in small defect for all except the last few days of the week, when slight excess amounts were recorded. The variation of the mean temperature of the week from the normal has therefore been small, and for the whole province the average defect only equals about a fifth of a degree, while the main defect has been confined to South-West and North Bengal, where the defect has been more than half a degree. On the other hand, slight excess average temperatures for the week have been recorded in South Bihar and East Bengal.

The actual temperatures registered during the week and their variations from the usual temperature for the present season are most clearly seen in the table below, where the average maximum, minimum and mean temperatures for the week at nine typical stations in different districts of the province are compared with the normal values for the same period. The variations it will be seen have been small in both the night and day temperatures.

Table showing the excess or defect of the actual mean temperature from the normal for the week ending Saturday, the 23rd of December 1893.

	Normal mean maximum temperature for the week ending 23rd December.	Actual mean maximum temperature for the week ending 23rd December 1893.	Variation of actual mean from the normal.	Normal mean minimum temperature for the week ending 23rd December.	Actual mean minimum temperature for the week ending 23rd December 1893.	Variation of actual mean from the normal.	Normal mean daily temperature for the week ending 23rd December.	Actual mean daily temperature for the week ending 23rd December 1893.	Variation of actual mean from the normal.

The total fall from 1st January to 23rd December 1893		85·23
The average fall of the corresponding period for 24 years, Surveyor-General's Office		65·23

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

≏, dew; =, fog.

H. Stuart,
Examiner of Accounts.

Calcutta, *the 20th December* 1893.

Statement of principal commodities carried on the Eastern Bengal State Railway during the month of September 1893.

Increases.

	Tons.
Coal and coke	21,819
Due to large despatches of coal for the public to Shamnagar, Kankinara, Damookdia-ghat, Goalundo, Koosbtea, Jalpaiguri and stations on the Bengal Central Railway.	
Cotton, manufactured	2,872
Due to despatches from Calcutta for the poojah sales. Shamnagar shows a small increase in despatches of bales of cotton-yarn.	
Grain and pulses	17,583
The increase is chiefly in despatches from Armenian-ghat, Chitpur, Ruthtolla and stations on the Northern section to the eastern districts. The crops in these districts suffered from flood.	
Gunny-bags and cloth	7,366
Jalpaiguri shows increases under this head.	
Oils	2,619
Partly due to prohibition of carriage by boat of kerosine-oil within certain limits of the port of Calcutta and partly to extension of bulk oil traffic.	

Decreases.

	Tons.
Jute, raw	12,591
Atrai, Kooshtea, Pangsa and Goalundo show large decreases under this head.	
Railway plant and rolling-stock	8,468
Due to completion of works on the Barsoe-Kissengunge branch and the C. B. S. Railway.	

P. D. Barclay,
Traffic Superintendent.

The 19th December 1893.

H. STUART,
Examiner of Accounts.

CALCUTTA, *the 22nd December* 1893.

Statement of principal commodities carried over the Bengal Central Railway during the month of September 1893.

INCREASES.

	Tons.
Coal and Coke	1,454
Chiefly due to an increase in the despatches to Jhikargacha.	
Grain and pulse	2,189
Due to demand in the Khulna and Jessore districts. The crops in these districts suffered from flood.	

DECREASES.

	Tons.
Jute, raw	2,592
The Madaripur district jute has been of bad quality this season.	

P. D. BARCLAY,
Traffic Superintendent.

The 14th December 1893.

Weekly Return of Traffic Receipts on Indian Railways.

BENGAL AND NORTH-WESTERN RAILWAY.

(INCLUDES THE TIRHUT STATE RAILWAY.)

Approximate return of traffic for the week ending 16th December 1893, *on* 756 *miles open.*
